PROXY SUMMARY

Compensation Design Supports Our Strategy Over the Long-term

Our focus is to ensure our executive pay structure is **aligned to our performance and in the best interest of our clients and shareholders** with a significant portion of pay for all executives in variable or “at risk” compensation. The majority of our incentive pay is delivered in long-term incentives (half of which are delivered in Performance Share Units (PSUs), which payouts are contingent upon 3-year adjusted return on equity, adjusted earnings per share and total shareholder return achievement). Detailed elements of our structure include:

Our Compensation Approach Is Responsive to Shareholder Feedback

- 

Shareholder Engagement. As discussed on page 30, our ongoing shareholder engagement continues to be a priority for us and feedback received informs the actions of our Board and Compensation and Benefits Committee. In 2022, executive and senior leaders, including, in certain cases, our presiding director, met with or heard from shareholders representing more than 43% of outstanding shares to discuss compensation-related matters and other areas of focus. These shareholders expressed support of our Company’s overall approach for compensating named executive officers.
- 

2022 Say on Pay Results. Our 2022 say on pay vote received positive support from **approximately 81%** of shareholders who voted. In developing the structure and amount of 2022 compensation as described in the Compensation and Discussion Analysis starting on page 56, the Committee discussed and considered this positive 2022 say on pay vote as well as feedback received from our engagement with shareholders.

Our 2022 Annual Compensation Reflects

- 

Disciplined, quantitative and objective approach and framework
- 

Performance over the last five years has been **exceptional when compared to peers**
- 

Majority of incentive pay is delivered in long-term incentives
- 

Inclusive culture of caring where our employees can thrive and **deliver outstanding results** for clients and shareholders
- 

Tenure, experience and consistency of Executive Leadership Team
- 

Ameriprise delivered **outstanding financial and strong metric results and superior total shareholder return**
- 

Exemplary and essential leadership of Chairman and CEO
- 

Consistently delivered strong results for our clients, shareholders and employees

Performance-Based Pay Structure Which Is Aligned to the Best Interests of Clients and Shareholders

* Mr. Davies is excluded from the above chart. Since Mr. Davies is located in the U.K., the terms and composition of his compensation reflect the requirements of local regulations, including the UCITS V Remuneration Code (SYSC 19E) that came into effect in 2017 and the MIFIDPRU Remuneration Code (SYSC 19G) which came into effect in 2022, both of which fall under the Financial Conduct Authority.

Item 1 – Election of the Eight Director Nominees Named Below

The Board of Directors recommends a vote “FOR” the election of the eight director nominees. Proxies will be voted “FOR” each director nominee unless otherwise specified.

The Board believes a well-qualified and diverse mix of directors best positions the Board to effectively govern and achieve strong results. Our directors have a combined wealth of leadership experience derived from extensive service guiding large, complex organizations, and possess a diversity of qualifications, attributes and skills applicable to our business and long-term strategy.

We currently have eight directors on our Board. The Board has set the size of the board at eight as of the time of the Annual Meeting, and eight nominees have been recommended by the Nominating and Governance Committee and nominated by the Board.

The Board believes that the mix of qualifications and the diversity of attributes and skills among the nominees enhances our Board's effectiveness and is aligned with the Company's long-term strategy. The Board believes that each of the nominees is qualified to serve as a director of Ameriprise and the Board as a whole possesses the qualities and skills described in the section of the proxy statement captioned “Director Experience and Qualifications,” beginning on page 21.

All nominees have indicated they will serve if elected. We do not anticipate that any nominee will be unable or unwilling to stand for election, but if that happens, your proxy may be voted for another person nominated by the Board or the Board may reduce the number of directors to be elected. If elected at the Annual Meeting, the nominees will hold office until the 2024 Annual Meeting of shareholders and until their successors have been elected and qualified.

Board Composition

Our Board regularly reviews its composition and size to evaluate its overall effectiveness and alignment with our strategy. Consideration is given to the composition of our board to maintain a cohesive and diverse board that brings the right balance of experiences, perspectives, independence, skills and expertise to support effective oversight. We believe it is appropriate to maintain a balance of longer tenured members, who bring valuable Company-specific knowledge with a historical perspective, and newer members, who bring fresh viewpoints and new ideas.

Director Experience and Qualifications

We believe that directors should have a variety of qualifications, skills and backgrounds which, collectively, form a depth of broad and diverse experiences that help the Board effectively oversee our activities and operations to best serve the Company and our shareholders. We recognize the importance of diversity with regard to the composition of the Board and strive to have a Board that provides diversity of thought and experience as well as a broad range of perspectives.

Core Qualifications and Experiences		
Integrity & Business Judgement	Demonstrated Management & Leadership Ability	Strategic Thinking
Financial Literacy	Leadership & Expertise in their Respective Fields	Reputational Focus

The Board of Directors has determined that directors should be persons who possess significant experience in areas of importance to the Company, such as general management, finance, marketing, technology, law, business or public sector activities. The Nominating and Governance Committee evaluates a candidate's other board commitments and potential to significantly enhance the effectiveness of the Board and its committees and considers New York Stock Exchange requirements related to independence and the anticipated membership needs of the Audit and Risk Committee. Consistent with the goal of ensuring a comprehensive mix of skills and expertise are represented on the Board, below we outline the general skills mix and expertise represented by our director nominees:

Director Experience Highlights			
Leadership and Strategy	Experience leading complex business operations and developing and executing strategic plans allows for effective oversight of the Company's operations	Public Company	Public company governance and management experience provides insights to reputation, financial and risk management
Human Capital Management	Experience managing a large and/or global workforce brings understanding to the oversight of one of our key resources	Risk Management	Skills in identifying, assessing and managing risks are important to effectively oversee risk management and understand the most significant risks facing the Company
Finance	Possessing financial expertise and knowledge of the financial reporting and auditing processes aids in the oversight of reporting and internal control	Consumer	Experience in understanding the needs and interests of consumers is relevant for evaluating new market opportunities
Global	Business strategy, operations and substantive experience in international matters provides insights to our global operations	Industry Experience	Experience in the financial services industry supports effective oversight of our operations and strategies
Technology / Cybersecurity	Understanding advancements in technology, cybersecurity and information systems/ data management provides insight into opportunities and risks	Legal and Regulatory	Skills and experience with legal and regulatory requirements provides deep perspective on the highly regulated and complex legal frameworks applicable to our business

Board Diversity

The Board of Directors believes that maintaining and enhancing the Board's diversity are important corporate governance goals. Diversity of backgrounds, experience and thought is important in ensuring effective risk oversight, and when reviewing potential board nominees the Nominating and Governance Committee considers the holistic diversity of the Board, including gender, ethnicity and race. Our Corporate Governance Guidelines require the Board's Nominating and Governance Committee to review the qualifications of the directors and the composition of the Board as a whole periodically. This assessment includes not only the independence of the directors, but also consideration of required minimum qualifications, diversity, age, skills and experience in the context of the needs of the Board.

Director Independence

Under our Corporate Governance Guidelines and New York Stock Exchange rules, a director is not independent unless the Board affirmatively determines that they do not have a direct or indirect material relationship with the Company. In addition, the director must meet the bright-line test for independence set forth by the New York Stock Exchange rules.

The Board has established categorical standards of director independence to assist it in making independence determinations. The Board's categorical standards of independence are posted on our website on the Corporate Governance page at ir.ameriprise.com. The categorical standards generally classify as "not material": relationships with our Company arising in the ordinary course of business; relationships with companies of which a director is a shareholder or partnerships of which a director is a partner; contributions made or pledged to charitable organizations with which a director has a relationship; certain familial relationships; and certain social and other relationships. In making independence recommendations, the Nominating and Governance Committee considered relationships and transactions between the director and the Company as described in annual directors' questionnaires and in materials provided by management. In considering the independence of Mr. Pimentel, the Board considered that he was recently appointed the President and CEO of Florida Power & Light Co. (FPL), a subsidiary of NextEra Energy, Inc. (NextEra), and that we own or manage (including for our clients) debt securities of NextEra and its affiliates in the ordinary course of business, pursuant to transactions that predated Mr. Pimentel's recent appointment as CEO of FPL and, in many cases his election to our Board. The amount of payments to and from both NextEra and FPL have been less than 2% of the consolidated gross revenues of NextEra and FPL, respectively, for each of the last three fiscal years. As the transactions arose in the ordinary course of business, predated and thus were clearly unrelated to Mr. Pimentel's roles at FPL and the Company, and do not involve a material amount of payments, the Board concluded that the relationship does not impair Mr. Pimentel's independence.

Our Board has determined that each of our directors is independent, other than Mr. Cracchiolo, who currently serves as our Chairman and Chief Executive Officer.

Independence of Committee Members

Only independent directors serve on Audit and Risk, Compensation and Benefits, and Nominating and Governance committees of the Board. Members of the Audit and Risk Committee also meet the independence standards of Rule 10A-3 of the Securities Exchange Act of 1934, as amended. Members of the Compensation and Benefits Committee are considered "non-employee directors" under Rule 16b-3 of the Securities Exchange Act of 1934, as amended, and meet the heightened standards for compensation committee independence under New York Stock Exchange rules.

Director Age Limit

Our Guidelines on Corporate Governance provide that no person who has reached the age of 75 will be nominated for election at the next annual shareholders meeting without an express waiver by the Board.

Policy on Outside Board Commitments

Our Board expects each of our directors to be able to commit sufficient time and attention to Company matters and to use their judgement and consider all of their commitments when accepting additional directorships. Our Corporate Governance Guidelines requires that directors advise the Chairman of the Board and the Chair of the Nominating and Governance Committee in advance of accepting an invitation to serve on another public company board, and the committee will review the directors' ability to fulfill their responsibilities if they serve on more than three other public company boards in addition to the Company. In addition, it is the Board's policy that no member of the Board's Audit and Risk Committee may serve on the audit committees of more than three public companies, including the Company's Audit and Risk Committee. Our chairman and CEO does not currently serve on any other public company boards, and none of our current directors serves on more than four public company boards (including Ameriprise's Board).

Director Stock Ownership

We believe that each director should have a substantial personal investment in the Company. A personal holding of Company shares or deferred share units having a market value of five times the amount of the current annual cash retainer upon attainment is recommended for each director. A decrease in the price of a share of our common stock after a director has attained the required ownership threshold will not negate the director's satisfaction of this requirement. Directors are expected to attain this ownership threshold within five years of joining the Board.

All directors are in compliance with our ownership threshold. We disclose the dollar value of each outside director's equity holdings as of February 27, 2023, on page 35.

Board Succession Planning

The Board employs robust practices to ensure strong continuity of skills and leadership over time through sound succession planning. The Nominating and Governance Committee regularly reviews and identifies anticipated changes in Board make-up given director age requirements and needed skills for appointment of new directors to the Board. In identifying and recommending director candidates, our Nominating and Governance Committee places primary emphasis on the criteria set forth in our Guidelines on Corporate Governance, including:

- Judgment, skills, leadership experience and a professional background necessary to gain a sound understanding of our strategic vision, mix of businesses and approach to regulatory relations and enterprise risk management;
- Diversity of viewpoints, backgrounds, experience and other demographics;
- Independence, financial literacy, and other relevant experiences; and
- The interplay of qualifications so that the Board as a whole possesses a mix and breadth of qualities, skills and experience that will enable it and its committees to promote the best interests of the Company and its shareholders.

In order to maintain a Board with an appropriate mix of experience and qualifications, the Nominating and Governance Committee, with the help of management, engages in a year-round process to identify and evaluate new director candidates in conjunction with its recurring review of Board and committee composition. As part of this process, the Nominating and Governance Committee along with the Board establishes the desired criteria, skills and areas of expertise needed to continue to support the Board in advancing the Company's business and strategy. The Nominating and Governance Committee in its discretion may also engage a third-party search firm to identify potential director candidates, and in such circumstances will instruct the firm that diversity considerations are highly important. In fact, our current succession planning efforts are focused on growing the gender diversity of the Board.

During 2022, the Nominating and Governance Committee identified **Armando Pimentel, Jr.** as a candidate with significant leadership, strategic and financial experience and recommended him to the Board for consideration. The Chair of our Nominating and Governance Committee reached out to a non-profit organization that seeks to aid Latino candidates in pursuing directorships, and the organization recommended potential candidates, including Mr. Pimentel. On September 15, 2022, the Board appointed Mr. Pimentel to the Board.

Consideration of Director Candidates Recommended by Shareholders

The Nominating and Governance Committee applies the same standards in considering candidates submitted by shareholders as it does in evaluating candidates submitted by members of the Board of Directors or identified through other means, provided that the requirements explained under the caption "Director Experience and Qualifications" are satisfied. Shareholders who wish to submit nominees for election at an annual or special meeting of shareholders must follow the procedures described on page 101. Shareholders who wish to submit a candidate for consideration by the Nominating and Governance Committee may do so by sending the candidate's name and supporting information to our corporate secretary, at the address shown on page 101 under "Requirements and deadlines for submission of shareholder proposals or nomination of directors for the 2024 Annual Meeting."

Our Board's Leadership Structure

The Board's leadership structure is designed to promote Board effectiveness and to appropriately allocate authority and responsibility between the Board and management. Currently, Mr. Cracchiolo serves as both the chairman of the Board of Directors and the chief executive officer of the Company. Mr. Sharpe currently serves as the Board's presiding director.

The Board believes that Mr. Cracchiolo's service as both chairman and chief executive officer has the following advantages for the Company given the specific characteristics or circumstances of the Company. Mr. Cracchiolo provides proven leadership ability, strong communication skills, and a deep understanding of the Company, the financial services industry and the Company's long-term strategic direction. The chairman is often required to speak on behalf of the entire Board to shareholders, regulators, and other stakeholders and therefore must engender the trust and respect of the entire Board. As the leader of the Board, Mr. Cracchiolo must also be able to maintain an atmosphere of collegiality, encourage open and vigorous discussion and debate during Board meetings, and promote fairness in considering the views and opinions of all directors.

The Board has no policy with respect to the separation of the roles of the chairman and chief executive officer. Our Corporate Governance Guidelines state, "The Board believes that this issue is part of the succession planning process, which is overseen by the Compensation and Benefits Committee, and that it is in the best interests of the Company to make a determination when it elects a new chief executive officer." The Board recognizes that the Company's and Board's circumstances may change in the context of CEO succession planning and that having a separate chairman and CEO is an option that the Board will consider carefully in those circumstances.

Presiding Director

The role of the Board's presiding director is an important part of the Board's leadership structure. In 2021, the Board of Directors evaluated its governance structure and determined to separate the roles of presiding director and chair of the Nominating and Governance Committee. Previously, those roles had been combined.

Our presiding director has significant authority and responsibilities to provide for an effective and independent Board. As our presiding director, Mr. Sharpe:

- presides over executive sessions of non-management and independent directors;
- serves as principal liaison between the Board and the chairman and chief executive officer on sensitive issues;
- interviews each independent director separately as part of the annual Board performance evaluation process;
- presides at meetings of the Board of Directors in the event of the chairman's unavailability; and
- serves as primary board contact for shareholder engagement.

Mr. Sharpe has served as our Presiding Director since 2013. Mr. Sharpe brings deep business and board leadership experience to his role as presiding director. He has served as chair of our Nominating and Governance Committee, and currently serves on our Compensation and Benefits, Nominating and Governance, and Executive committees. Mr. Sharpe has developed strong and effective working relationships with his fellow directors and has demonstrated independent thinking and a deep understanding of our business. The Board believes that Mr. Sharpe's experience and tenure as a director enables him to provide valuable perspectives on Ameriprise's business, risk management and governance.

In addition to the presiding director, our Board has adopted a number of procedures and policies designed to preserve the effectiveness of the independent directors and the transparency of Board operations. For example, each Board agenda includes an executive session of the independent directors. Any director is free to suggest agenda items, to request additional time for an agenda topic, or to request information from management. The independent directors also have regular access to members of management other than the chief executive officer.

Our Board's Role in Risk Oversight

Overview

Enterprise risk management and our risk management program are critical to how we manage our business. The Board has oversight of Ameriprise's enterprise risk management policy and framework, which: (i) establishes a structure for effective enterprise risk management, including oversight and governance; (ii) delineates key constituent roles and responsibilities; and (iii) imposes a number of core risk management processes. The enterprise risk management policy is designed to manage risks that may impact Ameriprise, including capital, credit, market, liquidity, operational, strategic, reputational, legal and compliance, and product. The Board and its committees receive risk reporting on a regular basis to support the key role that the Board plays in its oversight of risk. The enterprise risk management policy is supported by underlying risk policies at each Ameriprise business unit that provide further detail on the business unit's risk governance, appetite, and tolerance.

Our chief executive officer, chief financial officer, general counsel, chief risk officer and other members of senior management are responsible for identifying, assessing and managing our exposure to risk. Our Board is responsible for overseeing how management performs those functions. This oversight is directed primarily by the Audit and Risk Committee, whose membership includes five of our eight independent directors. As described in further detail in the Audit and Risk Committee section below, some aspect of risk management and oversight is discussed at virtually every Audit and Risk Committee meeting.

As a diversified financial services Company, our business is subject to a number of risks and uncertainties. The Audit and Risk Committee and the Board as a whole receive regular reports from management and our independent auditors on prevailing material risks and the actions we are taking to address and mitigate them. Management also reports to the Audit and Risk Committee and the Board on how we are enhancing our risk management processes and controls to respond to evolving market, business and regulatory conditions. The Audit and Risk Committee and the Board also receive regular reports regarding our regulatory examinations, some of which address risk management topics.

As part of its ongoing responsibilities, the Audit and Risk Committee reviews and assesses the quality and clarity of the risk management information its members receive and, if necessary, makes recommendations to management for improving this reporting. In order to confirm that it is receiving candid and complete information, the Audit and Risk Committee holds regular separate executive sessions with members of executive management, our independent auditors, our general auditor and our chief risk officer.

Independent directors have access to individual members of management or to our employees on a confidential basis. Directors are authorized to conduct independent investigations and to hire outside consultants or experts at our expense. Directors also have access to our records and files, and directors may contact other directors without informing our management of the purpose or even the fact of such contact.

Responsibility of Chairman and Chief Executive Officer

Our chairman and chief executive officer is ultimately responsible for the effectiveness of the Company's risk management processes and is an integral part of the related day-to-day activities. He also attends most Audit and Risk Committee meetings and the Company's chief risk officer reports directly to the chief executive officer. As a result, he is in an informed position to both lead our enterprise risk management program and assist in the Board's oversight of that program.

Oversight of Incentive Compensation Risk

In response to best practices and regulatory guidelines, the Audit and Risk Committee and the Compensation and Benefits Committee have received reports focused on risks related to our Company-wide incentive compensation plans. We discuss this subject in more detail in the Compensation Discussion and Analysis under the heading "Risk and Incentive Compensation" beginning on page 73.

Oversight of Information and Cybersecurity

The Board and the Audit and Risk Committee are central to the oversight of the Company's cybersecurity risk management program. Our executive vice president of technology and chief information officer, our chief information security officer, and other officers regularly review with our Board and the Audit and Risk Committee: the cyber threat landscape; the design, effectiveness and ongoing enhancement of our capabilities to monitor, prevent and respond to cyber threats and events; and any incidents that merit discussion.

During 2022, the Audit and Risk Committee also reviewed our identity theft prevention and privacy programs and discussed, among other topics: mandatory staff training on fraud prevention; identity theft experience and trends; the effectiveness of existing controls and planned enhancements to those controls; and key areas of focus for the identity theft and privacy programs.

Oversight of Human Capital Management

Attracting, engaging and developing a diverse and high performing workforce is key to our long-term success. As part of its investment in creating an outstanding employee experience, the Company has created, with the Board's support, a variety of initiatives and goals to invest in leadership development and a robust diversity, equity and inclusion curriculum. The Board has primary responsibility for CEO succession, and, additionally, the Board reviews our succession plans and broader talent development status in light of our corporate strategy at least annually, and frequently discusses talent issues at meetings. The Board and the Compensation and Benefits Committee are regularly updated on human capital management programs and dedicate time to reviewing and discussing our Company culture, talent development, retention and recruiting initiatives, diversity, equity and inclusion strategy, and engagement survey feedback.

Oversight of Environment, Social and Governance Matters

Each committee of the Board has oversight responsibility of ESG factors. This includes the Audit and Risk Committee's role in overseeing enterprise risk management and cybersecurity matters, as well as the Compensation and Benefits Committee as it relates to the multiple elements of human capital management such as engagement, retention of high performers and our enterprise and executive compensation programs detailed in this proxy. In addition, the full Board reviews and provides oversight of the overall business and strategy of the Company and the related ESG matters, including the advancement of Responsible Investment within Asset Management.

With regard to Ameriprise corporate social responsibility/ESG reporting, the Nominating and Governance Committee has provided oversight and governance since 2017. The committee oversees our corporate social responsibility program and engages with senior management to review the Company's annual Responsible Business Report and other disclosures, including the Company's SASB Index disclosure, which the Company began providing in 2022.

Oversight by the Nominating and Governance Committee ensures appropriate accountability on these important topics. The Nominating and Governance Committee also oversees our political contributions and reviews a report from management on all material matters relating to corporate political spending that is posted to the Company's public website. In addition, the Nominating and Governance Committee oversees the Company's memberships in various trade associations.

For more information on our corporate social responsibility strategy and ESG efforts, please visit ameriprise.com/about/responsible-business.

Our Board's Role in Strategic Planning

Ameriprise has a strategic Long-Range Plan that guides how we lead the Company to maximize long-term shareholder value creation, deliver competitively differentiated value to our clients, and attract and retain talent. We are also aware of the need to take into account the interests of our stakeholders. Briefly, our long-range strategy is to advise, manage and protect assets and income for retail, high net worth and institutional clients. By fulfilling our strategy, we believe that we are not only creating long-term value for our shareholders, but also enabling our clients and their families to achieve their financial goals, including a confident retirement. Our executive team regularly revisits and updates the Long-Range Plan as appropriate. Our Board of Directors plays an important role in our strategic planning process as well. Executives and the Board hold joint detailed discussions on the Long-Range Plan at our annual long-range planning offsite meeting, as well as throughout the year as needed.

The Long-Range Plan also guides the development of our annual operating plan and budgets. Throughout the year, management and the Board hold regular discussions on the Company's performance, progress on the annual plan and remaining goals in the context of our Long-Range Plan.

Committees of the Board

Board and Committee Meetings

During 2022, the Board of Directors met six times. All of our directors attended 100% of the meetings of the Board and the Board committees on which they served during the year. Every committee includes an executive session attended only by committee members on the agenda of each meeting, but committee members may decide that an executive session is unnecessary at any particular meeting. Committee chairs report to the full Board their committee's activities and decisions.

- make recommendations to the Board on matters related to nonbinding advisory votes of shareholders to approve the compensation of the named executive officers; and

In connection with its responsibilities, the Compensation and Benefits Committee has the authority to:

- approve grants of equity-based and other incentive awards;
- engage, oversee, compensate, evaluate and terminate a compensation consultant;
- retain independent legal or other advisors;
- request the support of one or more Company officers or employees to assist it in carrying out its duties;

- delegate its authority to one or more subcommittees, including to the committee chair, who may (so long as consistent with certain federal securities requirements) act on behalf of the committee during the intervals between meetings; and
- delegate its authority to one or more officers or employees to the extent permitted by applicable law, the rules of the New York Stock Exchange, or applicable governing compensation plan documents.

The Compensation and Benefits Committee has delegated certain administrative authority to our chief human resources officer to promote the efficient and timely administration of our compensation and benefits plans.

Role and Responsibilities

The Executive Committee's purpose is to:

- allow the timely and efficient exercise of the Board's authority in the intervals between regularly scheduled meetings of the Board, subject to certain limitations; and
- meet only as required, upon the call of its chairman, and is not required to meet a minimum number of times each year.

The Chairman of the Board serves as the committee chairman and the then serving chairs of the Audit and Risk, Compensation and Benefits, and Nominating and Governance Committees and the presiding director serve as members.

Shareholder Engagement

We conduct shareholder outreach throughout the year to engage with shareholders on issues that are important to them. We report back to our Board on this engagement as well as specific issues to be addressed.

Engagement	Communication	Feedback
<p>Executive management, Investor Relations and the corporate secretary engage on a regular basis with shareholders to solicit feedback on a variety of corporate governance matters, including, but not limited to, executive compensation, corporate governance policies and corporate sustainability practices.</p> <p>Our directors also directly engage with shareholders on certain occasions.</p>	<p>Ameriprise also routinely interacts and communicates with shareholders through a number of other forums, including quarterly earnings presentations, Securities and Exchange Commission filings, the annual report and proxy statement, the annual shareholder meeting, investor meetings and conferences and web communications.</p>	<p>We share our shareholder feedback and trends and developments about corporate governance matters with our Board, the Compensation and Benefits Committee and the Nominating and Governance Committee as we seek to enhance our governance and sustainability practices and improve our disclosures.</p>

2022 Engagement

- ✓ **We reached out to our largest shareholders** representing **approximately 50%** of outstanding shares
- ✓ We heard back from shareholders representing **47 million or more than 43%** of our outstanding shares
- ✓ We **held calls with 11 large shareholders** who requested engagement, including our two largest shareholders

What we heard from shareholders:

- interested in our board composition and succession planning
- appreciated the continued evolution of our responsible business reporting and disclosures as well as our diversity and inclusion initiatives
- discussed board diversity, performance goals, significant executive experience and shareholder engagement practices
- expressed general support of our Company's compensation peer group and overall approach for compensating named executive officers

Actions taken:

- enhanced shareholder engagement disclosures
- provided additional information regarding our board composition and diversity as well as its succession process
- enhanced disclosure surrounding our performance goals
- enhanced information throughout the proxy statement relating to our long-term performance

The feedback from our discussions with shareholders and proxy advisors is collected and conveyed, as appropriate, to the entire Board, and influences and informs our policies and practices. For example, in the past few years based in part on investor input, the Company has:

- continued to evolve our Compensation Discussion and Analysis disclosures, including information regarding the selection of our peer group, setting of performance goals, and factors, such as tenure and sustained strong performance, impacting the determination of executive compensation;

- enhanced Board and management oversight of the Company's trade association memberships and our dues payments to those trade associations;
- advanced our climate capabilities in coordination with our asset management business;
- made revisions to our executive compensation program in 2019 and 2020 to address shareholder concerns; and

Board Practices

Annual Performance Evaluation Process

The Board and committees conduct the annual evaluation process set forth below to assess the effectiveness of their practices, identify issues or topics for further exploration and provide feedback on the quality and timeliness of information from management. This process is aided by written discussion guides used to facilitate the assessments. Areas of focus may encompass many factors, including: culture; board composition; succession planning; processes, information and resources; and duties and responsibilities.

Interviews	Board Discussion	Feedback Incorporated
The Chairman and Presiding Director interview each board member individually to solicit perspectives and feedback.	Results of the Board and committee assessments are discussed at Board and committee meetings.	Input and feedback from the evaluation process are incorporated into Board practices.
		

Director Education

Director education begins when a new director joins our Board. New directors receive comprehensive information about our business, strategy and governance, and have an opportunity to meet with senior leaders from key control, finance and operating functions. Additional training is also provided when a director joins a new committee or assumes a leadership role, such as becoming a chair of a committee. Ongoing education is provided through presentations from business line leaders and subject matter experts and other opportunities, including opportunities to see operations.

The Compensation and Benefits Committee's Independent Compensation Consultant

The Compensation and Benefits Committee engaged the firm of Semler Brossy Consulting Group (Semler Brossy) as its independent compensation consultant as of June 5, 2019. The committee maintains a Compensation Adviser Policy, which addresses the relationship between the committee and its compensation advisers; the criteria that the committee uses to select its consultant; the consultant's duties; how the committee evaluates its compensation consultant; the factors the committee will apply in determining whether its consultant is independent of the Company's management; and the related disclosure to be provided to our shareholders. The Compensation Adviser Policy is available on the Corporate Governance page of our website at ir.ameriprise.com.

Semler Brossy works for and reports directly to the Compensation and Benefits Committee, not the Company's management, with respect to executive compensation matters. The committee recognizes that its consultant will necessarily work with representatives of management but does so as the committee's representative and solely on the committee's behalf. The committee annually reviews and discusses Semler Brossy's performance in executive session, without representatives of Semler Brossy present.

In its capacity as the committee's consultant, Semler Brossy's services include the following:

- providing advice and guidance with respect to trends and issues related to executive compensation;
- assisting with benchmarking competitive compensation, including advising the committee on the composition of a reference peer group;
- assisting with the development of an executive compensation philosophy and program suited to our business strategy and goals; and
- preparing reports and analyses for the committee's meeting materials.

One or more representatives of Semler Brossy attend committee meetings as needed.

At a meeting held on February 23, 2023, the Compensation and Benefits Committee confirmed that Semler Brossy is independent of the Company's management (applying the independence standards established in the Compensation Adviser Policy). In making this determination, the committee considered relevant issues, including the following six specific factors prescribed by the Securities and Exchange Commission and New York Stock Exchange corporate governance listing standards:

- the provision of other services to Ameriprise by Semler Brossy;
- the amount of fees received during 2022 from Ameriprise as a percentage of Semler Brossy's 2022 total revenue;
- Semler Brossy's policies and procedures designed to prevent conflicts of interest;
- any business or personal relationship between a member of the Semler Brossy engagement team and a member of the committee;
- any Ameriprise Financial stock owned by Semler Brossy or by any member of the Ameriprise consulting team or their immediate family members; and
- any business or personal relationship of Semler Brossy or any employee of Semler Brossy with an executive officer of Ameriprise Financial.

Based on this review and information provided by Semler Brossy, the committee determined that no conflict of interest exists that would preclude Semler Brossy from independently representing the committee.

Determining Executive Officer and Director Compensation

Various executive officers help the Compensation and Benefits Committee determine the appropriate form and amount of executive compensation. Officers in our human resources department prepare meeting materials for the committee, including compensation tally sheets and other summaries of executive officers' total compensation. These officers also may propose the adoption of new compensation or benefits plans or amendments to existing plans. The chief executive officer makes recommendations to the committee regarding compensation actions for executive officers other than himself. Our executive vice president of human resources discusses survey and benchmarking data related to executive compensation and other topics of interest to the committee. Our chief financial officer advises the committee about setting and calculating financial performance goals for certain executive compensation plans. No executive officer has the authority to approve their own compensation or to make equity-based grants to any executive officer.

Director Attendance at Annual Meeting of Shareholders

Our Corporate Governance Guidelines state that directors are expected to attend the Annual Meeting of shareholders. The corporate secretary reminds each director of this policy in writing in advance of each Annual Meeting of shareholders. At our 2022 Annual Meeting of Shareholders, all directors then-serving were in attendance.

Executive Sessions of Independent Directors

The independent directors customarily meet in executive session without management present at each regularly scheduled meeting of the Board. The Board may decide, however, that such an executive session is not required at a particular Board meeting.

Corporate Governance Documents and Policies

Committee Charters

The Board's Audit and Risk, Compensation and Benefits, and Nominating and Governance Committees each operate under a written charter approved by the Board of Directors. Each committee charter satisfies the requirements of the New York Stock Exchange's corporate governance listing standards. Each committee reviews and reassesses the adequacy of its charter at least annually. Each committee will recommend any proposed changes to the Board of Directors for consideration and approval. The committee charters are posted on our website on the Corporate Governance page at ir.ameriprise.com and additional information about each committee is contained in the section "Committees of the Board," beginning on page 27.

The Executive Committee also operates under a written charter approved by the Board of Directors. The Executive Committee's charter is posted on our website at the same location as the other committee charters.

Corporate Governance Guidelines

The Board of Directors has approved Corporate Governance Guidelines. Among other topics, the Corporate Governance Guidelines address: director qualification standards; director responsibilities; director access to management and, as necessary and appropriate, independent advisors; director compensation; director orientation and continuing education; management succession; and the annual performance evaluation of the Board and its committees. The Corporate Governance Guidelines are posted on our website on the Corporate Governance page at ir.ameriprise.com.

Codes of Conduct

We have adopted a Global Code of Conduct to guide ethical business behavior and decision-making since becoming a public company in 2005. The Global Code of Conduct applies to all of our officers, employees, financial advisors, and their employees, and individuals conducting business on behalf of us and our subsidiaries. Following our Global Code of Conduct and all applicable laws, regulations, and Company policies is a condition of employment or association with the Company, except as otherwise provided by the laws of a foreign jurisdiction.

The Board of Directors has adopted a Code of Business Conduct for members of the Board of Directors of Ameriprise Financial, Inc. This Code of Business Conduct is intended to focus each director on areas of potential conflicts of interest and provide guidance relating to the recognition and handling of ethical issues. The Code of Business Conduct also provides mechanisms to report potential conflicts of interest or unethical conduct and is intended to foster a culture of openness and accountability.

Both of these codes are posted on our website on the Corporate Governance page at ir.ameriprise.com.

Requests for Copies of Materials

You may request copies of any of the documents referred to in this section of the proxy statement by calling our corporate secretary, Wendy B. Mahling at (612) 671-3603. You may also write to her by email at ampsecretaryofficemailbox@ampf.com or by mail at 1098 Ameriprise Financial Center, Minneapolis, MN 55474. We will provide the copies at no cost to you.

COMPENSATION OF DIRECTORS

Our Compensation Philosophy for Outside Directors

We compete with other companies for executive talent, as we explain in the Compensation Discussion and Analysis later in this proxy statement. We must also compete for persons with the ability, integrity, experience and judgment required to serve on the board of a public company. We need to attract and retain directors who meet the high qualification standards set by our Board of Directors. In order to do so, we must offer a compensation package that is both competitive and fair in view of the significant time commitment and responsibilities that come with serving as a director. Only outside directors receive compensation for serving on our Board. Mr. Cracchiolo does not receive additional compensation for his service as a director.

We believe that our outside directors should have a substantial personal financial stake in the Company. Accordingly, a significant portion of our directors' compensation package is equity-based. Also, a director is expected to have an equity holding in the Company with a market value of five times the amount of the current annual cash retainer within five years of joining the Board. A decrease in the price of a share of our common stock after a director has attained the required ownership threshold will not negate the director's satisfaction of this requirement. Shares of our common stock and deferred share units both count toward this goal. All directors have achieved the required ownership threshold. Using a closing price of \$339.84 for a share of our common stock on February 27, 2023, the value of the common stock and deferred share units beneficially held by our outside directors (excluding shares held by a charitable organization) on that date was as follows, rounded to the nearest dollar: Mses. Blixt (\$3,940,750); and DiGeso (\$3,653,925); and Messrs. Pimentel (\$1,027,428); Sharpe (\$21,720,931); Shea (\$2,291,476); Walter (\$2,031,329); and Williams (\$3,511,500). As is true for our executive officers, we prohibit our directors from hedging against a decline in the value of our stock.

How Our Outside Directors' Compensation is Determined

The Board's Nominating and Governance Committee is responsible for overseeing the compensation and benefits paid to our outside directors. The committee periodically reviews the outside directors' compensation package to ensure it is market-based, aligned with shareholder interests, and consistent with our compensation principles, including with respect to equity-based compensation, being within the shareholder-approved limitation on director compensation under our Amended and Restated 2005 Incentive Compensation Plan.

At its meeting held on September 28, 2022, the Nominating and Governance Committee reviewed and discussed an analysis of non-management director compensation prepared by Semler Brossy, which also serves as the independent compensation consultant to the Compensation and Benefits Committee. Among other matters, Semler Brossy's report reviewed the design and competitiveness of our non-management director compensation program and compared the program to the Company's peer group that is also used in connection with our executive compensation program. Based on this review, Semler Brossy advised that an increase in the presiding director retainer was appropriate in order to align compensation with peer group competitive levels.

Taking into account the market information presented by Semler Brossy, the Nominating and Governance Committee recommended, and the Board approved, an increase in the presiding director's annual retainer from \$40,000 to \$50,000, to be effective as of January 1, 2023. In all other respects the Company's compensation program for non-management directors remains unchanged.

Deferred Share Plan for Outside Directors for 2022

All of our outside directors participate in the Ameriprise Financial Deferred Share Plan for Outside Directors. Each outside director receives an annual grant of deferred share units immediately following the Annual Meeting of shareholders. A deferred share unit (DSU) is a phantom share of our common stock that tracks the value of our common stock. A deferred share unit receives deemed dividends in the same amount paid on a share of our common stock, but it has no voting rights. Outside directors may also choose to defer part or all of their annual cash retainer and any committee retainer under the plan.

- (1) The dollar amounts in this column show the grant date fair value of the annual grant of deferred share units. For 2022, the number of deferred share units credited to a director's account is calculated as follows: for directors elected at the 2022 Annual Meeting of Shareholders, the dollar value to be received by the director is divided by the closing price of a share of our common stock on the date of our Annual Meeting of Shareholders; for Mr. Pimentel, the pro rata dollar value based on his service from September 15, 2022 to the date of the 2023 annual meeting is divided by the closing price of a share of our common stock on the third trading day following the Company's earnings release for the third quarter (the quarter in which Mr. Pimentel joined the board). The aggregate incremental cost of perquisites and personal benefits is less than \$10,000 for each director. As a result, the Securities and Exchange Commission does not require us to disclose those costs.
- (2) In 2022, Mr. Williams elected to defer 100% of his cash retainers under the Ameriprise Financial Deferred Share Plan for Outside Directors, with 100% allocated into the Ameriprise Common Stock Fund.

Deferred Share Units Issued to Outside Directors in 2022

This table shows the number of deferred share units issued to outside directors during 2022. In order to simplify the presentation, we have rounded the numbers shown to the nearest unit. Directors' accounts were credited with deemed dividends on the deferred share units at the same rate as the dividends paid on a share of our common stock. These deemed dividends were reinvested in additional deferred share units.

In extraordinary or unusual circumstances, such as a family emergency, we may make our corporate aircraft available to our outside directors on an exception basis; for 2022, the aircraft was not provided to any director on an exception basis. Our outside directors are eligible to participate in our charitable gift matching program on the same basis as employees. We will match a director's personal contributions to one or more qualifying charitable organizations subject to an annual aggregate limit, which is currently \$2,000. Directors' requests for matching gifts are processed by the same outside vendor that we use for employee matching gift requests.

OWNERSHIP OF OUR COMMON SHARES

The table below shows how many Ameriprise common shares certain individuals and entities beneficially owned on February 27, 2023. These individuals and entities include: (1) owners of more than 5% of our outstanding common shares; (2) our current directors and director nominees; (3) the five executive officers named in the compensation tables included in subsequent sections of this proxy statement; and (4) all current directors and executive officers as a group. A person has beneficial ownership over shares if the person has or shares voting or investment power over the shares or the right to acquire such power within 60 days of February 27, 2023. None of the shares owned by our directors or executive officers are subject to any kind of pledge. Investment power means the power to direct the sale or other disposition of the shares. Each person has sole voting and investment power over the shares, except as we describe below.

The column captioned “Deferred Share Units and Restricted Share Units” shows DSUs and RSUs owned by non-management directors through the Outside Directors Deferred Share Plan and phantom units owned by the executive officers under the Company’s Supplemental Retirement Plan and Deferred Compensation Plan. The information in this column is not required by the rules of the Securities and Exchange Commission because these units carry no voting rights and will be settled in shares of common stock that the recipient does not have the right to acquire within 60 days of February 27, 2023. Nevertheless, we believe that this information provides a more complete picture of the financial stake that our directors and executive officers have in the Company.

Our executive officers and directors are prohibited from hedging against a decline in the value of the Ameriprise common stock they own. Executive officers are also prohibited from pledging their Ameriprise common stock in any manner, whether as collateral for a loan, in a margin account held at a broker, or otherwise. Our directors are permitted to pledge their Ameriprise common stock in this manner, provided that they first pre-clear the pledge with our corporate secretary or another Company lawyer. A pledge will not be approved if it is significant in relation to the average trading volume of our common stock for the five trading days immediately preceding the pre-clearance request.

The shares of common stock subject to a pledge will not be counted in determining the satisfaction of the equity ownership requirement then applicable to our outside directors.

Item 2 – To Approve the Compensation of the Named Executive Officers by a Nonbinding Advisory Vote

The Board of Directors recommends a vote “FOR” the following nonbinding advisory resolution. Proxies will be voted “FOR” the resolution unless otherwise specified:

RESOLVED, that the Company’s shareholders hereby approve, on an advisory basis, the compensation of the named executive officers as disclosed in this proxy statement, including the Compensation Discussion and Analysis, the Summary Compensation Table, and the other related tables and disclosure.

The Compensation and Benefits Committee will review the results of the vote on this proposal carefully with the aid of its independent compensation consultant. Depending upon the results of that review, the committee will take such action, if any, as it deems appropriate. Because this vote is advisory, however, it is not binding on us, our Board of Directors, or the Board’s Compensation and Benefits Committee. Also, a negative vote will not overrule decisions made by the Compensation and Benefits Committee.

Before you vote on this proposal, please read the Compensation and Benefits Committee Report on page 55 and the Compensation Discussion and Analysis beginning on page 56. The Compensation Discussion and Analysis contains important information about our executive compensation program. It also explains how and why the Compensation and Benefits Committee made specific decisions about the named executive officers’ compensation for their 2022 performance. The section of the Compensation Discussion and Analysis on page 57 describes the committee’s consideration of the results of the vote on this proposal at our 2023 Annual Meeting.

You should also review the tables that immediately follow the Compensation Discussion and Analysis, together with the related narrative disclosure and footnotes.

Item 3 – To Approve a Nonbinding Advisory Vote on the Frequency of Shareholder Approval of the Compensation of the Named Executive Officers

The Board of Directors recommends that shareholders select an annual advisory vote on the compensation of named executive officers. Proxies will be voted for a “1 Year” advisory vote on the compensation of named executive officers unless otherwise specified:

RESOLVED, that the option of once every one year, two years, or three years that receives the affirmative vote of the majority of the votes cast will be considered the preferred choice of shareholders as to the frequency with which the Company is to hold a shareholder advisory vote to approve the compensation of the named executive officers as disclosed in the Company's proxy statement, including the Compensation Discussion and Analysis, the Summary Compensation Table, and other related tables and disclosure.

We are seeking a nonbinding advisory vote of shareholders on the frequency of shareholder approval of the compensation of our named executive officers. Under this proposal, our shareholders may indicate they would prefer to have an advisory vote on executive compensation every one, two or three years.

Our Compensation and Benefits Committee and Board believe that a frequency of every one year for the advisory vote on executive compensation is the best approach for Ameriprise and its shareholders. An annual vote will allow our shareholders to provide timely, direct input on the Company's executive compensation philosophy, policies and practices as disclosed in our proxy statement each year. The Compensation and Benefits Committee, which administers the Company's executive compensation program, values the opinions expressed by shareholders in these votes. The Board believes that an annual vote is therefore consistent with the Company's efforts to engage in an ongoing dialogue with our shareholders on executive compensation and corporate governance matters.

In voting on this proposal, you should mark your proxy for one, two or three years based on your preference as to the frequency with which an advisory vote on executive compensation should be held. If you have no preference you may abstain. Shareholders will not be voting to approve or disapprove the Board's recommendation. Although this advisory vote on the frequency of the “say on pay” vote is nonbinding, the Board and the Compensation and Benefits Committee will take into account the outcome of the vote when considering the frequency of future advisory votes on executive compensation.

Item 4 – To Approve the Ameriprise Financial 2005 Incentive Compensation Plan, as Amended and Restated

The Board of Directors recommends a vote “FOR” the approval of the Ameriprise Financial 2005 Incentive Compensation Plan, as Amended and Restated. Proxies will be voted “FOR” the resolution unless otherwise specified:

RESOLVED, that the Company’s shareholders hereby approve the Ameriprise Financial 2005 Incentive Compensation Plan, as Amended and Restated.

Purpose and History of the 2005 Incentive Compensation Plan

The purpose of the 2005 Incentive Compensation Plan is to promote the interests of the Company and our shareholders by providing eligible employees, non-employee directors and independent contractors of the Company with incentives and rewards to encourage them to continue in the service of the Company and provide them with a proprietary interest in driving our long-term growth, profitability and financial success. Equity-based awards are a critical component of our total rewards package and allow us to compete for and retain top-tier talent.

The 2005 Incentive Compensation Plan was originally adopted on September 30, 2005 and was most recently amended, with approval of our shareholders, at our annual meeting in 2014. Since the last amendment of our plan in 2014, we have not requested any additional shares, demonstrating our responsible stewardship of share usage under the plan to serve the plan’s purposes while also minimizing dilution to shareholders. Grants of awards under the plan have allowed us to enhance our culture of employee ownership, which in turn ensures that the interests of day-to-day operators of the Company are aligned with stockholders. We view shares under the plan as one of our most important assets, and we have thus created this ownership culture in a cost-efficient and strategic manner.

Since the plan was originally adopted, we have made certain changes to enhance various governance provisions in the plan to ensure that the plan remains aligned with the interests of our shareholders. On February 23, 2023, our Board approved a further amendment and restatement of the plan described below, subject to approval by our shareholders.

Features of Amended and Restated Plan

We are asking our shareholders to approve a further amendment and restatement of the Ameriprise Financial 2005 Incentive Compensation Plan, as Amended and Restated (the 2023 Restated Plan) primarily to increase the number of shares of our common stock authorized for issuance under the plan, approve the number of shares that may be issued as full value awards, approve the total amount of compensation that may be paid to each of our non-employee directors annually and extend the term of the plan. These and other changes and updates incorporated in, as well as certain key provisions of, the 2023 Restated Plan are described below.

- **Increase Share Reserve and Approval Shares for Full Value Awards** – Increase the number of shares available for issuance under the plan by 3,712,000 shares, such that the total number of shares available for awards under the plan on or after December 31, 2022 would be 12,397,321. The 2023 Restated Plan provides that no more than 5,000,000 of the shares available for awards on or after December 31, 2022 may be used for full value awards (as described below).
- **Approve Director Compensation Limits** – Approve a limit on director compensation of \$1,000,000 per non-employee director per calendar year, which increases the amount by \$500,000, but also now counts all forms of compensation (including cash) paid to directors against such limit, instead of only equity awards.
- **Extend the Plan Term** – Extend the term of the plan to ten years following shareholder approval of the 2023 Restated Plan, provided that no incentive stock options can be granted more than ten years after Board approval of the 2023 Restated Plan.
- **Removal of 162(m) References** – The Tax Cuts and Jobs Act of 2017 removed the Section 162(m) performance-based compensation exception under the Internal Revenue Code, as amended (the Code), which previously allowed deductions for compensation to certain executive officers. Due to this change in the tax laws, the provisions previously included to comply with Code Section 162(m) have been removed from the 2023 Restated Plan.

- **Incorporate Change in Control Provisions** – The 2023 Restated Plan now includes the default “double trigger” change in control treatment when outstanding awards are assumed, continued or substituted by the acquiror or surviving entity that accelerate vesting of an award only if (a) a change in control (as defined in the 2023 Restated Plan) occurs and (b) the individual’s employment is terminated within the two-year period following the change in control that entitles the employee to benefits under the severance plan of the Company covering the applicable employee. Where outstanding awards are not assumed, continued or substituted by the acquirer or the surviving entity in connection with a change in control, vesting of such awards is accelerated upon the occurrence of such event. For performance awards, the number of shares earned and vested will be determined based on performance achieved as of a date prior to the change in control and/or as to a prorated amount of the award, as described in more detail below.

The 2023 Restated Plan continues to include a number of provisions that we believe reflect best practices and protect the interests of our shareholders. These provisions include:

- **No Discounted Options or SARs** – Options and Stock Appreciation Rights (or SARs) may not be granted with an exercise price less than the fair market value of our common stock on the date of grant.
- **No Repricing Without Shareholder Approval** – At any time when the exercise price of a stock option (which we sometimes refer to as an option) or SAR is above the market price of our common stock, we cannot, without shareholder approval, “reprice” such stock option or SAR by reducing the exercise price or exchanging such stock option or SAR for cash or other awards (including a new stock option or SAR) at a reduced exercise price.
- **Independent Committee Administration** – The 2023 Restated Plan is administered by our Compensation and Benefits Committee of the Board, which consists exclusively of directors, each of whom is (a) a “non-employee director” within the meaning of Rule 16b-3 of the Securities Exchange Act of 1934, as amended, and (b) an “independent director” for purpose of the New York Stock Exchange corporate governance listing standards.
- **No Annual “Evergreen” Provision** – The 2023 Restated Plan provides a specific maximum share limitation and does not provide for an annual, automatic increase in the number of shares of common stock available for future awards.
- **Limitation on Awards Other than Options or SARs** – The 2023 Restated Plan limits the number of awards that can be in forms other than stock options and SARs.
- **Clawback** – Awards granted under 2023 Restated Plan will be subject to our clawback policy, as amended from time to time, which currently applies to our Executive Leadership Team and includes recovery for certain financial restatements and material misconduct. In addition, certain grants to our executive officers will be subject to a clawback policy that we will adopt in accordance with the New York Stock Exchange listing standards to be adopted pursuant to the final Dodd-Frank clawback rules.

Determination of Request for Shares

In determining the number of additional shares to request for authorization for issuance under the 2023 Restated Plan, the Board and Compensation and Benefits Committee considered a number of factors, including the following:

Historical Burn Rate. As of December 31, 2022, our three-year average annual equity grant rate, or “unadjusted burn rate,” was 0.70%. Our three-year average value-adjusted burn rate calculated based on our understanding of the methodology utilized by a major proxy advisory firm was 0.50% (which is below the 0.89% burn rate benchmark). See the table below for additional details. These amounts are not necessarily indicative of the shares that might be awarded in the future under the 2023 Restated Plan, but they are reflective of the diligence and care of the Company in sizing annual grants at a competitive yet cost-effective level. We believe our historical burn rate is reasonable for a company of our size in our industry.

Fiscal Year	Full Value Awards Granted ⁽¹⁾⁽²⁾	Options Granted	Weighted Average Number of Shares Outstanding	Unadjusted Burn Rate	Value-Adjusted Burn Rate
2022	404,304	190,583	111,300,000	0.53%	0.43%
2021	475,866	345,010	117,300,000	0.70%	0.52%
2020	536,127	523,742	123,800,000	0.86%	0.54%
3-Year Average				0.70%	0.50%

(1) Full Value Awards include the components shown below. Our three-year average unadjusted burn rate, assuming PSUs at maximum potential, was 0.75%.

Type of Full Value Award	2020	2021	2022
Restricted Stock Award	181,215	149,433	104,414
Restricted Stock Unit	242,615	231,554	249,237
Performance Share Unit (at target)	112,297	94,879	50,653
Total	536,127	475,866	404,304

(2) Full value awards presented in the burn rate table excludes awards granted under our value neutral Ameriprise Advisor Group Deferred Compensation Plan (the AAG Deferral Plan) and the Ameriprise Financial Franchise Advisor Deferred Compensation Plan (the AFG Deferral Plan). The value neutral, or “stock in lieu of cash,” awards granted under these plans are presented below:

Value-Neutral Plan	2020	2021	2022
AFG Deferral Plan	290,792	216,284	252,296
AAG Deferral Plan	248,684	163,513	162,519
Total	539,476	379,797	414,815

Total Potential Dilution / Overhang Percentage. The requested additional 3,712,000 shares would represent incremental dilution of 3.5% of common shares outstanding as of December 31, 2022. Total dilution remains below 16% when considering the cumulative number of additional shares requested, shares that would remain available for grant under the Plan, as well as historical grants of full value awards and/or options that remain unvested and/or unexercised as of December 31, 2022. On February 23, 2023, the Board terminated the Ameriprise Financial 2008 Employment Incentive Equity Award Plan (the 2008 Plan). At the time of termination (and at December 31, 2022), the 2008 Plan had no unvested or unexercised awards outstanding under the plan. No awards were granted under the 2008 Plan between December 31, 2022 and the 2008 Plan’s termination on February 23, 2023 and no shares remain available for grant. The 2008 Plan had 3,258,635 shares available for future issuance as of December 31, 2022, all of which were cancelled with the Board’s action on February 23, 2023. As a result, no future shares will be granted under the 2008 Plan (irrespective of the approval of the 2023 Restated Plan), and the 2008 Plan currently has and will have no impact on our overhang. The following table details the number of shares outstanding used for the above overhang calculation:

Overhang Calculation	As of December 31, 2022
Full value awards outstanding ⁽⁴⁾	1,346,478
Options outstanding	2,778,074
Weighted average exercise price of outstanding Options	\$160.57
Weighted average remaining term of outstanding Options (in years)	5.77
Total shares available for future grants under the 2005 Incentive Compensation Plan (to be carried forward) ⁽²⁾	8,685,321
Certain shares under our AFG Deferral Plan ⁽³⁾	123,772
Additional shares requested under the 2023 Restated Plan	3,712,000
Full value award limit applicable to grants made after December 31, 2022	5,000,000
Shares of common stock outstanding	105,278,990

(1) Excludes 3,038,408 total full value shares outstanding under the value-neutral, or “stock-in-lieu of cash,” AAG Deferral Plan and AFG Deferral Plan. Neither plan had outstanding appreciation awards as of December 31, 2022. Outstanding PSUs are shown at target (but have been reserved under the 2005 Plan at maximum potential).

(2) Excludes 868,369 shares issuable under the value-neutral AAG Deferral Plan, and 1,003,280 shares issuable under the value-neutral, or “stock-in-lieu of cash,” AFG Deferral Plan.

(3) This plan has been amended to no longer allow for any matching contributions, but the 123,772 full value shares reflected in the table are legacy grants of matching shares from 2006 to 2010 and may be considered by certain institutions in economic dilution analyses.

- **Share Repurchase Activity.** Over the long-term, we have sought to address shareholder concerns about dilution through share repurchases. However, the parameters under which we choose to repurchase shares are set in light of our overall capital allocation strategy, and the rate or timing of any share repurchases can be affected by market conditions. Over the past five years, we have repurchased approximately 46.8 million shares of our common stock. These share repurchases have more than offset all of the equity dilution attributable to equity grants under the 2005 Incentive Compensation Plan.

- **Expected Duration of the 2023 Restated Plan.** We expect to continue making equity awards consistent with our practices over the past three years, and to maintain an average annual burn rate over the next three years in line with our average for the 2020-2022 period. However, talent dynamics, the external macroeconomic environment, and various other exogenous factors could lead us to make larger or smaller equity grants than our historical average. As a result, we believe that the shares requested under the 2023 Restated Plan will provide us with ample flexibility to continue responsibly using shares for equity compensation for the foreseeable near-term future.

The 2023 Restated Plan also imposes a five million share limit on the maximum number of shares that may be awarded in the form of awards other than stock options or SARs (full value shares) after December 31, 2022, which is subject to adjustment as described below. When properly balanced with stock options and cash incentive compensation, we believe full value shares are an important element of retention to our compensation program that aligns with shareholder interests. We have historically used a number of full value shares to attract new, top-tier talent into the Company, and we also use full value shares to foster alignment between our employees and stockholders. We intend to continue to provide all executives, including our named executive officers, with a higher percentage of their compensation in full value awards, including restricted share awards and performance share awards (which vest only upon the achievement of specific financial targets over a specified performance period) in order to balance our long-term incentive mixture and to provide a baseline level of stock ownership that encourages all leaders to think and act like owners.

Summary of the Material Features of the 2023 Restated Plan

The material features of the 2023 Restated Plan, as it is proposed to be amended and restated, are summarized below. This summary is qualified in its entirety by reference to the complete text of the 2023 Restated Plan, as it is proposed to be amended, which is attached to this Proxy Statement as Exhibit A.

Administration. The 2023 Restated Plan is administered by the Compensation and Benefits Committee of the Board, which consists exclusively of directors, each of whom is (a) a “non-employee director” within the meaning of Rule 16b-3 of the Securities Exchange Act of 1934, as amended, and (b) an “independent director” for purpose of the New York Stock Exchange corporate governance listing standards.

The Compensation and Benefits Committee determines which employees and independent contractors should be granted awards pursuant to the 2023 Restated Plan, the type of awards to be granted and the terms of such awards. Only the Board or, with the prior approval of the Board, the Compensation and Benefits Committee, may grant awards under the 2023 Restated Plan to non-employee directors of the Company. Subject to the terms and limitations of the 2023 Restated Plan, the Compensation and Benefits Committee has full discretion in the administration of the 2023 Restated Plan, including the interpretation and construction of any and all plan provisions, and the amendment, from time to time, of rules and regulations for the administration of the 2023 Restated Plan.

Notwithstanding the Compensation and Benefits Committee’s broad authority under the 2023 Restated Plan, other than adjustments due to changes in the Company’s capitalization, the committee may not reprice, adjust or amend the exercise price of outstanding stock options or the strike price of outstanding SARs, whether through amendment, cancellation and replacement grant, or any other means, nor permit the exchange of an outstanding stock option or SAR for cash or another award (including another stock option or SAR with an exercise price below that of the exchanged award) or any other action that is treated as a repricing under generally accepted accounting rules or the New York Stock Exchange rules, unless such action is approved by the Company’s shareholders. In addition, certain amendments to the 2023 Restated Plan require shareholder approval, as described below.

To the extent not inconsistent with applicable law and the rules and regulations of the New York Stock Exchange, the Compensation and Benefits Committee may delegate its authority under the 2023 Restated Plan to one or more of its members or officers of the Company. Such delegation authority does not extend to any action related to an award to an executive officer or non-employee director.

Available Shares of Common Stock. Subject to certain anti-dilution adjustments described below, the maximum number of shares or options to purchase shares of common stock that may be issued under the 2023 Restated Plan on or after December 31, 2022 would be 12,397,321. Of such total, no more than 5,000,000 shares may be issued after December 31, 2022 for what are referred to as “full value awards,” which are awards other than stock options or SARs. Up to all 12,397,321 shares authorized for issuance under the plan on or after December 31, 2022 may be issued subject to “incentive stock options” as defined in Section 422 of the Code.

For purposes of counting the number of shares issued against the authorized share pool, awards denominated solely in shares (such as stock options, SARs and restricted stock) and other awards that may be exercised for or convertible into shares will be counted against the authorized share pool on the date of grant of the award based on the maximum number of shares underlying the award. Awards denominated other than in shares that are exercisable for or convertible into shares will be counted based on the number of shares actually issued, when issued.

If any shares subject to an award are forfeited, expire or otherwise terminate without issuance of such shares, or any award is settled for cash or otherwise does not result in the issuance of all or a portion of the shares subject to such award, such shares will again be available for issuance under the 2023 Restated Plan and for shares subject to full value awards, shall be added to the number of shares that may be used for full value awards. Shares tendered or withheld by the Company to satisfy tax withholding requirements upon the vesting of awards other than stock options and SARs will also become available for issuance under the Plan and for shares subject to full value awards, shall be added to the number of shares that may be used for full value awards. In the event that (i) any stock option is exercised through the tendering of shares (either actually or by attestation) or by the withholding of shares by the Company, (ii) withholding tax liabilities arising from a stock option or SAR are satisfied by the tendering of shares (either actually or by attestation) or by the withholding of shares by the Company, or (iii) any shares are purchased by the Company with the proceeds from stock option exercises, the shares so tendered, withheld or purchased shall not become available for issuance under the 2023 Restated Plan.

Awards granted or shares issued by the Company in assumption of, or in substitution or exchange for, awards previously granted, or the right or obligation to make future awards, in each case by a company acquired by the Company or with which the Company combines, will not reduce the shares authorized for grant under the 2023 Restated Plan.

Shares that may be issued under the 2023 Restated Plan may be authorized and unissued shares or treasury shares, or both.

Eligibility. Employees, non-employee directors and independent contractors of the Company are eligible to receive awards pursuant to the 2023 Restated Plan. Such persons include key employees who are responsible for the management, growth, and protection of the business of the Company. As of December 31, 2022, under the current eligibility guidelines established by the Compensation and Benefits Committee, approximately 2,300 employees, 130 franchise financial advisors, and seven non-employee directors are eligible to receive awards under the 2023 Restated Plan.

Types of Awards. Generally, the 2023 Restated Plan allows for the grant of any of the following forms of awards: (a) stock options; (b) stock appreciation rights; (c) restricted stock, restricted stock units and other stock-based awards; and (d) performance awards. Rights to dividends or dividend equivalents may be granted in connection with awards other than stock options and SARs. Awards may be granted to participants who are foreign nationals or employed outside the United States on such terms and conditions different from those applicable to awards granted to participants in the United States, which may, in the judgment of the Compensation and Benefits Committee, be necessary or desirable in order to recognize differences in local law or tax policy.

Stock Options. A stock option provides for the right to purchase a specified number of shares of common stock at a specified price per share typically called the “exercise price.” Generally, the exercise price may not be less than 100% of the fair market value of a share of common stock on the date on which the stock option is granted. The fair market value of a share on the date of grant is determined by the closing share price on such date. A stock option may be either an incentive stock option, which qualifies for special tax treatment, or a nonqualified stock option.

Generally, no stock option may be exercisable after the expiration of ten years from the date such option is granted, or upon the expiration of such earlier date as the agreement granting such option provides. Subject to certain exceptions (e.g., substitute awards issued in connection with a corporate acquisition by the Company, awards granted to a person newly hired or retained to perform services for the Company, awards granted in connection with the promotion of an employee, or the death, disability, retirement or other termination of a participant, the occurrence of a corporate transaction such as a change in control of the Company, or special circumstances determined by the Compensation and Benefits Committee), stock options must have a minimum vesting period of one year.

As permitted by the Compensation and Benefits Committee, payment of the exercise price may be made in cash, by tendering previously acquired shares (valued at their then fair market value), by means of a broker-assisted sale program, or by withholding shares otherwise issuable in connection with the exercise of the stock option.

Stock Appreciation Rights. A SAR, is a right to receive the fair market value of a specified number of shares of our common stock less a specified price per share or “strike price.” Generally, the strike price may not be less than 100% of the fair market value of a share of common stock on the date on which the SAR is granted. The fair market value of a share on the date of grant is determined by the closing share price on such date. SARs may be granted alone or in conjunction with a stock option, performance award or other award under the 2023 Restated Plan. The Compensation and Benefits Committee will determine whether SARs will be paid in cash, shares or other property, or any combination thereof.

Generally, no SAR may be exercisable after the expiration of ten years from the date such SAR is granted, or upon the expiration of such earlier date as the agreement granting such SAR provides. With the exception of the events described above for stock options, SARs must have a minimum vesting period of one year.

Restricted Stock, Restricted Stock Units and Other Share-Based Awards. Restricted stock awards are shares of common stock that are subject to forfeiture during a vesting period, and restricted stock unit awards are awards that are valued by reference to shares of common stock.

Restricted stock unit awards, or RSUs, may be paid by the Company in cash, shares or other property, or any combination thereof.

The Compensation and Benefits Committee may grant restricted stock, restricted stock units and other share-based awards to participants, either alone or in addition to other awards granted under the 2023 Restated Plan. In addition, restricted stock, restricted stock units and other share-based awards are available as a form of payment of performance awards and other earned cash-based incentive compensation.

Generally, restricted stock, restricted stock units and other share-based awards must have a minimum vesting period of one year from the date of grant (but permitting pro rata vesting over such time) except for: (a) the events defined above for stock options; (b) grants made in the form of performance awards, in which case the minimum vesting period shall be one year; (c) grants made in payment of performance awards and other earned cash-based incentive compensation; (d) grants made solely in lieu of the cash payment of the employee portion of deferred compensation and the earnings thereon; or (e) grants made under special circumstances determined by the Compensation and Benefits Committee. The foregoing minimum vesting period does not apply to awards granted to Directors or any consultant or advisor providing services to the Company.

Unless otherwise provided in an applicable award agreement, beginning on the date of grant of an award of restricted stock, the participant shall become a shareholder of the Company with respect to all shares subject to the award and shall have all of the rights of a shareholder, including the right to vote such shares and the right to receive distributions made with respect to such shares. A participant receiving an award of restricted stock units or other share-based award shall not possess voting rights with respect to such award.

Performance Awards. Performance awards are awards that are valued based on the achievement of specified performance objectives during a specified performance period. Performance awards may be paid by the Company in cash, shares of common stock or other property, or any combination thereof. Performance awards must have a performance period of at least one year.

Transferability. A participant’s rights in an award granted under the 2023 Restated Plan may only be assigned or transferred in the event of death.

Tax Withholding. The exercise or payment of awards and the issuance of shares under the 2023 Restated Plan is conditioned upon a participant making satisfactory arrangements for the satisfaction of any liability to withhold federal, state, local or foreign income or other taxes. The Compensation and Benefits Committee may permit a participant to pay taxes required to be withheld with respect to an award in any appropriate manner, including, without limitation, by the surrender to the Company of shares of common stock owned by such person, or settled with shares of common stock that are part of the award giving rise to the tax withholding liability.

Anti-Dilution Adjustment. If the outstanding shares of our common stock are changed by reason of any stock split, stock dividend, combination, subdivision or exchange of shares, recapitalization, merger, consolidation, reorganization or other extraordinary or unusual event, the Compensation and Benefits Committee will direct that appropriate changes be made in the maximum number or kind of securities that may be issued under the 2023 Restated Plan and in the terms of certain outstanding awards, including the number of shares or securities subject to awards and the exercise price or other stock price or share-related provisions of awards.

Termination of Employment. Our Compensation and Benefits Committee will determine the extent to which each award granted under the 2023 Restated Plan will vest, continue to vest and the extent to which a participant will have the right to exercise and/or settle the award in connection with a participant's termination of employment. Such provisions, which will be reflected in the related award agreement, need not be uniform among all awards and may reflect distinctions based on the reasons for termination. The minimum vesting and minimum exercisability conditions described above with respect to each type of award need not apply in the case of the death, disability, or retirement of an employee or termination of employment of an employee in connection with a change of control.

Clawback. All awards granted under the 2023 Restated Plan are subject to any recoupment policy adopted by the Company or otherwise required by law or regulation. All awards held by members of our Executive Leadership Team granted under the 2023 Restated Plan that constitute incentive compensation are subject to recoupment or "clawback" if the executive is found to have engaged in certain types of misconduct, in addition to certain cases involving an accounting restatement. We expect to revise our clawback policy in 2023 to conform to new Securities and Exchange Commission and New York Stock Exchange rules and awards granted under the 2023 Restated Plan will be subject to the revised policy.

Change in Control. Under the 2023 Restated Plan, in the event of a Change in Control (as such term is defined in the 2023 Restated Plan), a participant's awards will immediately vest if the participant's employment is terminated within the two-year period following the Change in Control in a manner that entitles the participant to benefits under the severance plan covering the participant. For performance-vesting awards, our Compensation and Benefits Committee will determine the level of performance obtained based on the performance results through the last day of the calendar quarter ending on or immediately prior to the termination date, and the award shall be prorated based on the portion of the applicable performance period that has elapsed through the termination date.

Unless otherwise provided by our Compensation and Benefits Committee prior to a Change in Control, including in any applicable award agreement, in the event of a Change in Control, any outstanding awards granted on or after April 26, 2023, that is not assumed, continued or substituted by the acquiror or surviving entity in connection with such Change in Control will immediately vest, and with respect to any award that is earned or vested based upon achievement of performance objectives, any amount deemed earned or vested in connection with such Change in Control shall be prorated and/or based upon the level of performance obtained on the performance results through a date prior to the Change in Control determined by our Compensation and Benefits Committee.

Amendment or Termination. The 2023 Restated Plan may be amended in whole or in part at any time and from time to time by the Board. However, no amendment may be made without shareholder approval if such amendment would: (a) increase the number of shares of common stock available for grant under the 2023 Restated Plan; (b) expand the types of awards available under the 2023 Restated Plan; (c) materially expand the class of persons eligible to participate in the 2023 Restated Plan; (d) decrease the minimum stock option exercise price or SAR strike price; (e) amend or repeal the prohibitions against repricing or exchange of awards; (f) increase the maximum permissible term of any stock option or SAR; or (g) reduce the minimum vesting periods for awards.

Plan Term. The 2023 Restated Plan will become effective upon its approval by the shareholders of the Company. No grants of awards may be made under the 2023 Restated Plan after April 26, 2033 or, in the case of incentive stock options, February 23, 2033.

New Benefits Under the 2023 Restated Plan. The benefits to be received by participants and the number of shares to be granted under the 2023 Restated Plan cannot be determined at this time. The amount and form of grants to be made in any year is to be determined at the discretion of the Compensation and Benefits Committee, and may vary from year to year and from participant to participant.

Certain Federal Income Tax Consequences of Plan Awards. The following discussion is intended to provide only a general outline of the federal income tax consequences of participation in the 2023 Restated Plan and the receipt of awards or payments thereunder by participants subject to U.S. taxes. It does not address any other taxes imposed by the United States, taxes imposed by any state or political subdivision thereof or foreign jurisdiction, or the tax consequences applicable to participants who are not subject to U.S. taxes.

Incentive Stock Options. A participant will not realize any taxable income, and the Company will not be entitled to any related deduction, when any incentive stock option is granted under the 2023 Restated Plan or upon the exercise of such option by the participant. Upon disposition of the shares after expiration of the statutory holding period, any gain or loss a recipient realizes will be a capital gain or loss. The Company will not be entitled to a deduction with respect to a disposition of the shares by a participant after the expiration of the statutory holding period. Except in the event of death, if shares acquired upon the exercise of an incentive stock option are disposed of before the expiration of the statutory holding period (a “disqualifying disposition”), the participant will be considered to have realized as compensation, taxable as ordinary income in the year of disposition, an amount, not exceeding the gain realized on such disposition, equal to the difference between the exercise price and the fair market value of the shares on the date of exercise of the option. The Company will be entitled to a deduction (subject to applicable tax laws, including Section 162(m) of the Code) at the same time and in the same amount as the participant is deemed to have realized ordinary income. Any gain realized on the disposition in excess of the amount treated as compensation or any loss realized on the disposition will constitute capital gain or loss, respectively.

Nonqualified Stock Options. A participant will not realize any taxable income, and the Company will not be entitled to any related deduction, when any nonqualified stock option is granted under the 2023 Restated Plan. When a participant exercises a nonqualified stock option, the participant will realize ordinary income, and the Company will be entitled to a deduction (subject to applicable tax laws, including Section 162(m) of the Code), equal to the excess of the fair market value of the stock on the date of exercise over the option price. Upon disposition of the shares, any additional gain or loss the participant realizes will be a capital gain or loss.

Stock Appreciation Rights. A participant will not realize income upon the grant of a SAR. Upon exercise, the participant will realize ordinary income and the Company will be entitled to a corresponding deduction (subject to applicable tax laws, including Section 162(m) of the Code) in an amount equal to the cash received plus the fair market value (on the date received) of any shares or other property received.

Restricted and Unrestricted Stock. Unless the participant files an election to be taxed under Section 83(b) of the Code, (a) a participant will not realize income upon the grant of restricted stock; (b) the participant will realize ordinary income and the Company will be entitled to a corresponding deduction (subject to applicable tax laws, including Section 162(m) of the Code) when the restrictions have been removed or expire; and (c) the amount of such ordinary income and deduction will be the fair market value of the restricted stock on the date the restrictions are removed or expire. If the recipient files an election to be taxed under Section 83(b) of the Code, the tax consequences to the participant and the Company will be determined as of the date of the grant of the restricted stock rather than as of the date of the removal or expiration of the restrictions.

Performance Awards. Generally, a participant will realize ordinary income, and the Company will be entitled to a corresponding deduction (subject to applicable tax laws, including Section 162(m) of the Code), when cash, shares, or a combination of cash and shares are delivered to the participant in settlement of a performance award or certain other stock-based awards. The amount of such ordinary income and deduction will be the amount of cash received plus the fair market value of the shares received on the date they are received.

Section 409A. Section 409A of the Code imposes certain restrictions on amounts deferred under non-qualified deferred compensation plans and a 20% additional tax on amounts that are subject to, but do not comply with, Section 409A. Section 409A includes a broad definition of non-qualified deferred compensation plans, which includes certain types of equity incentive compensation. The Company intends for the awards granted under the 2023 Restated Plan to comply with or be exempt from the requirements of Section 409A and the Treasury Regulations promulgated thereunder.

Additionally, our leadership team maintained focus on engaging, developing and retaining our employees and advisors and serving our clients and supporting our communities. At the same time, our proven track record of outperformance with our strong foundation allowed us to continue to return capital to shareholders and reinvest in the business.

The Compensation and Benefits Committee applies a disciplined, quantitative and objective performance-based approach to executive compensation decisions, which are based on our performance assessment, consisting of both financial and strategic goals. Shareholder Engagement on Executive Compensation

Shareholder Engagement. As discussed on page 30, our ongoing shareholder engagement continues to be a priority for us and feedback received informs the actions of our Board and Compensation and Benefits Committee. In 2022, executive and senior leaders, including, in certain cases, our Presiding Director, met with or heard from shareholders representing more than 43% of outstanding shares to discuss compensation-related matters and other areas of focus. These shareholders expressed support of our Company's overall approach for compensating named executive officers.

2022 Say on Pay Results. Our 2022 say on pay vote received positive support from **approximately 81%** of shareholders who voted. In developing the structure and amount of 2022 compensation as described in the Compensation and Discussion Analysis starting on page 56, the Committee discussed and considered this positive 2022 say on pay vote as well as feedback received from our engagement with shareholders.

Our Compensation Philosophy, Program and Approach

We Have an Aligned, Performance-Based Executive Compensation Philosophy

Our executive compensation philosophy is to align the financial outcomes of management with those of shareholders. Strong, stable senior leadership is a critical driver of success for our business and our approach to executive compensation has helped provide this stability and leadership. The executive incentive program incentivizes leadership and results which generate sustainable long-term shareholder value. The executive compensation program is designed to attract, motivate, engage, reward, and retain executives whose leadership is exemplary and whose vision, strategy and executional excellence drives sustained shareholder value by achieving and exceeding the Company's financial and strategic goals.

We Take a Strategic Approach to Executive Compensation

The strength, stability, and consistent success of Ameriprise over the last 18 years has been driven by the extraordinary leadership of our chairman and CEO and executive leadership team. Our approach to executive compensation has helped ensure our strategy to employ extremely talented executives in the industry who have consistently delivered outstanding results for our clients, shareholders, financial advisors, and employees.

We take a measured and thoughtful approach to executive compensation which is:

Aligned to Financial and Business Results	Competitive	Balanced	Responsive to Investor Feedback
Individual performance-based pay decisions are directly linked to the overall success of Ameriprise's financial and business assessment – in addition to overall leadership impact of our executives	Individual base, short-term cash, and long-term incentive targets are informed by the extremely competitive financial services industry, in addition to the overall experience and impact of our leaders	95% of our CEO executive pay is delivered in variable compensation – with about 50% of compensation mix in long-term incentive awards, including 3-year cliff-vested performance share units, to ensure complete alignment with long-term financial interests of our clients and shareholders	Our executive compensation structure is responsive to shareholder feedback, with different performance measures for the annual cash incentive from long-term equity incentives. The cash portion is subject to annual leverage based on business results. Long-term incentive awards are made within predetermined ranges based, in part, on leadership impact and to ensure close alignment with shareholder interests
			

We Set Pay Targets and Determine Actual Pay in a Disciplined, Measurement-Based and Highly Governed Annual Cycle

Determining executive pay is a **disciplined annual process** and a primary responsibility of the Compensation and Benefits Committee of the Board. Our process incorporates critical external and internal inputs to ensure balanced, objective and fair outcomes which are aligned with the best interest of our shareholders.

We Factor Several Critical Considerations into Our Pay Decisions:

Ameriprise is an extraordinary Company led by a highly capable, collaborative, experienced team. Our thoughtful compensation approach takes into account:

- **Size, scope, complexity** of our diversified financial services business
- Compensation outcomes, approach and pay structures of **our external Peer Group**
- **Extremely competitive labor market** for experienced leadership talent in high-performing firms
- **Experience, impact, and capability** of each executive
- **Sustained outperformance and results** delivered to clients, shareholders, and employees

We Have an Experienced, Tenured, Results- and Values-Driven Leadership Team

- **Tenure & Experience of chairman and CEO** – Our chairman and CEO has led the Company to **consistently strong results since spin 18 years ago**. The average tenure of S&P 500 companies is 7 years.
- **Tenure, Experience & Consistency of Executive Leadership Team** – **40%** of our current executive leadership team have led Ameriprise's success **together** since spin 18 years ago.
- **Extraordinary Results** – Ameriprise has delivered consistently exceptional results for our clients, shareholders and employees. **We have the #1 total shareholder return in the S&P 500 Financial Services Index since our spin in 2005 through December 31, 2022.**
- **Differentiated Culture** – Ameriprise has established a **values-driven culture** that has not only achieved significant out-performance but has continued to foster an **inclusive culture of caring** where our employees can thrive and deliver outstanding results for clients and shareholders.

Our compensation strategy is focused on ensuring that our chairman and CEO, in addition to the rest of our high-performing leadership team, are incented and rewarded to continue to deliver extraordinary results for our clients, shareholders and employees **as they have done together for the past 18 years**.

Our Updated Peer Group Reflects Our Diversified, Global Business

Ameriprise Financial is a complex, diversified business and a leader in Advice & Wealth Management, Asset Management and Retirement & Protection Solutions. The Compensation and Benefits Committee, along with our Executive Compensation Consultant, Semler Brossy, reviews our external peer group on an annual basis. Our peer group reflects the size, scope, and complexity of our business, in addition to the select market in which we compete for executive talent.

Adjustments were made to our peer group in 2022 to reflect the strategic transformation of our organization, in addition to our evolving competitive landscape, and to be more consistent with the diversification of our business and the industries within which we operate. We added The Carlyle Group and Jeffries Financial Group to reflect the evolution of our overall global asset management business. Affiliated Managers Group and Franklin were removed due to misalignment of business models and operations. Lastly, Northern Trust was also removed as it is primarily a trust and custody business, and we are already well-represented in that space.

We Continue to be Thoughtful and Balanced in Determining CEO Target Pay

In 2022, we completed a detailed analysis of the chairman and CEO's total compensation target. Despite the Company's outperformance compared to peers over the last one-year, three-year, and five-year, Mr. Cracchiolo's 3-year compound annual growth rate (CAGR) for actual total compensation was **-2.3%** for the period ending December 31, 2021. His total compensation target had not been reevaluated since his pay structure was changed in 2019. Given Mr. Cracchiolo's **longstanding, exemplary leadership** and **results versus peers**, his **commitment to the firm and shareholders**, and **our desire for his continued leadership of the firm** in the coming years, the Compensation and Benefits Committee concluded that an increase to Mr. Cracchiolo's pay target was **both warranted and appropriate**.

Several consequential considerations include:

- Performance over the last five years has been outstanding when compared to peers, driven by **Mr. Cracchiolo's exceptional leadership**.
- **Ameriprise has achieved the #1 total shareholder return in the S&P 500 Financials Index since our spin-off in 2005 (through December 31, 2022).**
- Company performance was successfully achieved while simultaneously **transforming the business** with Advice & Wealth Management as our key growth driver aided by accelerating the growth of Ameriprise Bank, FSB, integrating the acquisition of BMO's Global Asset Management (EMEA) business, as well as improving the risk/return of our Retirement & Protection solutions business through strategic repositioning.
- Mr. Cracchiolo fosters a **culture of critical strategic thinking, executional excellence, innovation, inclusion and organizational effectiveness**. This has contributed to outperformance for shareholders, industry-leading satisfaction for clients and advisors as well as excellent employee engagement and retention.
- Ameriprise has **methodically rebalanced its business** over the last several years **while performing in the top quartile of nearly every financial category relative to peers**.
- Target pay is positioned slightly higher than peer proxy actual median, which we maintain is appropriate positioning given **Ameriprise's enviable track record under Mr. Cracchiolo's leadership of outperformance for our clients and shareholders**.
- Mr. Cracchiolo has led the Company to **consistently strong results since our spin-off 18 years ago**. The average tenure of S&P 500 companies is seven years.
- Target pay **had not been updated since 2019**.

As a result, Mr. Cracchiolo's total compensation target is comprised of base salary of \$1.25 million, an annual incentive target of \$5 million (which is subject to leverage based on formulaic assessment results), and a long-term incentive award target range of \$12 million to \$16 million (which is not subject to leverage). The actual LTIA Award is based on both the formulaic assessment results, and Mr. Cracchiolo's demonstrated leadership impact on Ameriprise's business and financial results each year.

Our Executive Compensation Structure and Pay Mix is Aligned to Our Stakeholders

Our focus is to ensure our executive pay structure is **aligned to our performance and in the best interest of our clients and shareholders** with a significant portion of pay for all executives in variable or “at risk” compensation. Further, the majority of our incentive pay is delivered in long-term incentives (half of which are delivered in PSUs which are further deferred and payouts contingent upon 3-year adjusted return on equity, adjusted earnings per share and total shareholder return achievement). Detailed elements of our structure include:

* Mr. Davies is excluded from the above chart. Since Mr. Davies is located in the U.K., the terms and composition of his compensation reflect the requirements of local regulations, including the UCITS V Remuneration Code (SYSC 19E) that came into effect in 2017 and the MIFIDPRU Remuneration Code (SYSC 19G) which came into effect in 2022, both of which fall under the Financial Conduct Authority (FCA).

We Have a Disciplined, Quantitative and Objective Approach to Determining Compensation Awards

The Compensation and Benefits Committee makes decisions on pay for the Chairman and CEO and other NEOs based on clearly established goals and metrics for both business unit performance outcomes and leadership impact.

- Step 1:** Financial Performance and Business and Strategic Performance Rating of Ameriprise determine the total incentive amount that has leverage applied and funding for long-term incentive awards (see pages 61-64 for details).
- Step 2:** Each executive is evaluated based on performance and results from a Goal and Leadership perspective (see pages 65-71 for details).
- Step 3:** **Annual Cash Award:** Each executive is awarded an annual cash bonus leverage between 0-175% based on their rating outcome.
- Step 4:** **Long-Term Award:** Each executive is separately awarded long-term incentive awards within a targeted range. Awards are based on their rating outcome. Inputs to ratings include: business results, leadership impact, long-term achievement and contribution to shareholder value creation.

Financial Performance Assessment

This financial performance component assessment aligns to our five core shareholder performance measurements below. Targets reflect impacts associated with the market environment in 2022.

Our financial and strategic business goals and targets are set in February of each year. Each financial and strategic business goal has pre-determined target levels of performance (set at "3" on a 5-point scale), with clearly established criteria for each goal assessment within the 1-5 scale (e.g., 1 = not meeting, 3 = meeting target, 5 = exceeding target). Targets reflected impacts associated with the market environment in 2022. Actual performance is evaluated measured against each financial and strategic established target.

2020-2022 PSU Award Earnout (Granted Jan. 2020)

The PSU program is a 3-year, cliff-vested, compensation program that incentivizes senior leadership to achieve sustained levels of strong financial results, which are directly aligned to the long-term wealth creation of our clients and shareholders.

Performance goals are set at the beginning of each three-year period for average return on equity and the earnings per share compound annual growth rate. The table below includes the return on equity and earnings per share goals and how they correlate to target and maximum award payouts. Results in between those points are interpolated. Actual performance resulted in the awards being earned at 150% of target before application of the total shareholder return modifier.

Award Leverage	Average Return on Equity	Earnings Per Share Compound Annual Growth Rate
2020-2022 Actual (excluding Unlocking)	45.0%	15.7%
Maximum (150%)	41.5% or above	12.7% or above
Target (100%)	39.5%	8.7%
Performance Rating (pre-TSR modifier)	150%	150%

The PSU Awards granted in January 2020 (to be paid in February 2023) have a payout of 150% of target based on return on equity and earnings per share performance, with a total shareholder return modifier of up to 25 percentage points for a total maximum payout of 175% of target, if achieved. Ameriprise's total shareholder return performance for the 2020-2022 period ranked **3 out of 64 firms in the S&P Financials index** or 45 percentage points above median, resulting in +25% TSR adjustment and a total payout of 175%.

In evaluating the performance goals at the end of each period, the committee may adjust for certain approved predefined modifiers that were unknown or uncontrollable at the time goals were set. For the 2020-2022 period, the committee adjusted for equity markets and interest rates outside of established ranges, long term care adjusted to eliminate timing benefits associated with COVID-19 impacts as well as favorability from management actions to improve underlying business results, and impacts associated with Affordable Housing Investment Adjustments.

Compensation Policies and Practices

Compensation Governance Practices

We are committed to ensuring that our executive compensation program and practices reflect principles of good governance as demonstrated by the following key aspects comprising our program and by those practices in which we do not engage.

What We Do

- ✓ Incorporate sound risk management and risk avoidance in our incentive plan design
- ✓ Robust stock ownership guidelines (10x base salary for CEO and 4x for other NEOs) and requirement for executives to hold a significant portion of stock once vested
- ✓ Require a "double trigger" to vest in long-term awards following a change in control
- ✓ Regularly review the governance of our programs and make revisions to align with market best practices
- ✓ Majority of NEO pay is performance based (95% for CEO, 88% for other NEOs)
- ✓ 95% of CEO compensation is at risk; 70% of incentives are long-term
- ✓ Substantive shareholder engagement program to seek and incorporate feedback
- ✓ Clawback policy includes certain material misconduct in addition to financial restatements
- ✓ Half of equity awards granted as performance shares, with vesting contingent on further three-year performance period

What We Don't Do

- ✗ Employment agreements*
- ✗ Gross ups for potential excise taxes
- ✗ Repricing of stock options without shareholder approval
- ✗ Hedging against the decline in the value of our stock or pledging stock as security for a loan
- ✗ Special executive retirement arrangements Perquisite allowance eliminated in 2019

*Employee agreements are not in place for any executive, except where required by the local regulations (e.g., U.K.).

Stock Ownership and Retention Guidelines

The committee has established and maintains stock ownership and retention guidelines for our senior leaders to align their interest more closely with the long-term interests of our shareholders. We believe this commitment to stock ownership will continue to play a significant role in driving our success and creating long-term value.

Executive	Guideline	Actual FY End Ownership
CEO	10 times base salary	\$75.8 million (74 times base salary)
Other NEOs	4 times base salary	\$8.5 million (14.3 times base salary, on average)

The shares that count towards this ownership guideline include shares owned directly and shares or phantom stock units held in qualified or nonqualified plans. Shares underlying outstanding stock options, unearned PSUs as well as unvested RSUs do not count towards the ownership guideline.

To ensure achievement of the ownership goals, executive officers who have not yet attained the required level of ownership must retain 75% of any stock received upon vesting or upon exercise of stock options (net of shares withheld for taxes or exercise costs) until the ownership guideline is attained.

Clawback Policy

In 2019, in response to shareholder feedback, the committee approved an expanded clawback policy that covers the entire Executive Leadership Team and gives the committee the authority to recoup incentive compensation if the executive is found to have engaged in certain types of material misconduct, in addition to certain cases involving an accounting restatement. The new provision is effective for incentive awards made on or after January 1, 2020.

Hedging Policy

We prohibit executive officers and directors from entering into any agreement or transaction involving a hedge against a decline in the value of our securities, including short sales, forward sales, equity swaps and other derivative transactions; provided that the use of exchange funds that calculate their return based on all of the securities in the exchange fund's portfolio and that make payments on a pro-rata basis to all holders is not prohibited.

Post-Employment Compensation and Benefits

We do not enter into individual employment, severance or change in control agreements with our NEOs, except where required by the local regulations or practices (e.g. Mr. Davies terms of employment reflect applicable legal requirements and practice in the U.K.). Instead, the rights of our NEOs to post-employment compensation and benefits are covered by our compensation and benefit plans. Under this plan approach, the post-employment compensation and benefits of our U.S.-based NEOs are established uniformly and separately from the other compensation elements.

Our use of a plan approach provides many benefits when compared to entering into individual employment agreements with each NEO. In most instances, this method ensures consistent terms and provisions and allows us the flexibility to amend or change our practices in response to market trends and best practices. As part of the committee's ongoing review of the Company's programs, the committee's independent consultant reviews our post-employment provisions on an annual basis.

Under our U.S. Senior Executive Severance Plan, severance benefits may become payable only in the event of certain involuntary terminations or if an executive is involuntarily or constructively terminated within two years following a change in control. We offer severance benefits upon certain limited involuntary terminations outside the executive officer's control because we believe that the severance benefits provide income continuity, which results in greater management stability and minimized turnover.

Additionally, we have provisions designed to ensure that executives' interests remain aligned with the interests of shareholders should a change in control occur. We believe that this "double trigger" requirement for qualifying terminations following a change in control maximizes shareholder value because it ensures our NEOs do not receive an unintended windfall by receiving a severance payment while maintaining their positions following a change in control.

Additional information regarding each element of our post-employment provisions, as well as detailed information on these benefits and the value of potential payments that our NEOs would receive in various scenarios, is provided in the section Potential Payments Upon Termination or Change of Control for Named Executive Officers, beginning on page 83.

Risk and Incentive Compensation

The committee is responsible for oversight of our incentive compensation arrangements, including their alignment with sound risk management, long-term value creation, and compliance with applicable regulations. Management, including representatives from each of our material businesses, as well as our human resources, finance, internal audit and legal departments, conduct an annual internal review of our executive and non-executive incentive compensation programs, policies and practices. Among other factors, the team reviews and discusses: the various design features and characteristics of Company-wide compensation policies and programs as well as those at the business unit level; the performance measures at the Company and business unit levels; and approval mechanisms of all incentive programs for all employees. The team's objective is to determine whether any of these policies or programs could create risks that are reasonably likely to have a material adverse effect on the Company. The results of this assessment are shared with the Compensation and Benefits Committee each year.

As we do every year, the committee and management reviewed and discussed the structure of the Company's compensation programs and practices and whether they are reasonably likely to have an adverse material effect on the Company. Following its conversations with management and Semler Brossy, our independent compensation consultant, the committee concluded that our incentive compensation arrangements and practices do not create risks that are reasonably likely to have a material adverse effect on the Company.

The committee reached this conclusion after considering a number of features of our incentive compensation structure that are designed to mitigate risk, including but not limited to:

- Our use of a variety of compensation vehicles that provide a balance of long- and short-term incentives with fixed and variable features, with an emphasis on long-term performance (except for certain sales and sales management positions, whose competitive pay framework is more heavily short-term and where business controls are present to moderate risk);
- Our performance goals that we believe are appropriate in light of past performance and market conditions;
- Our budgeting and internal controls and procedures are sufficient to prevent the manipulation of performance results to enhance payments under incentive compensation arrangements;
- Our stock ownership and retention guidelines for our senior leaders that call for significant stock ownership and align the interests of our senior leaders with the long-term interests of our shareholders;
- Our clawback policy for the Executive Leadership Team, which specifies the circumstances under which the committee may exercise its discretion, to the extent permitted by law, to seek the reimbursement or forfeiture of certain cash or equity awards granted;
- Our CEO retains the discretion to adjust plans (other than those for our NEOs) throughout the year in response to changing business conditions or unexpected events; and
- Our policy prohibiting our directors and employees from hedging against a decline in the value of our stock.

Also at the request of the Compensation and Benefits Committee and consistent with our annual processes, its independent compensation consultant conducted a risk review and assessment of the Company's executive compensation program in which the NEOs participate. In completing this review, the consultant considered such factors as: mix of total compensation; weighted performance metrics; equity incentive grant types and design; stock ownership guidelines; clawback policies; and performance assessment processes, among others.

The committee determined, taking into account the consultant's review, the discussions with management and the report provided by management that our executive compensation program includes numerous risk-mitigating factors and does not contain features that induce imprudent risk taking.

Equity Grant Practices and Procedures

The committee has adopted a Long-Term Incentive Awards Policy that details the policies and procedures we use to grant stock options, RSUs, PSUs and other share-based awards. The policy covers, among other topics: who has the authority to make grants; when grants may be made and when they become effective; required documentation; and our policy for making grants when the committee or our CEO is aware of material nonpublic information about us or our securities. A copy of this policy is available on our website on the Corporate Governance page at ir.ameriprise.com. That site also includes an expected schedule of equity award grant dates for 2023 and we plan to update for future years' grant date schedules. The committee adopted the policy to document in one place the practices and procedures to be followed in making equity grants, and to provide transparency to our shareholders concerning our grant practices.

The committee does not consider gains or losses from long-term and equity incentive awards made in prior years, such as stock option exercises and RSU vesting, in determining new incentive awards. The committee believes that reducing or limiting current stock option grants, RSUs or other forms of compensation because of prior gains realized by an executive officer would unfairly penalize the officer for high past performance and reduce the motivation for continued high achievement.

Other Considerations

Our incentive compensation programs have historically been designed and administered in a manner generally intended to preserve federal income tax deductions. However, the committee considers the tax and accounting consequences of using various forms of compensation and retains the discretion to pay compensation that is not tax deductible or could have adverse accounting consequences for the Company.

Accounting rules govern how to value stock and option awards as of the date of grant, and when those awards are to be recognized as compensation expense. Under the current accounting standard, we calculate the full grant date value of awards using a variety of assumptions. This calculation is performed for accounting purposes, as an executive officer may never realize any value from the award. This may happen when the value of a share of stock on which the executive holds an option falls below the exercise price of the option and remains below the exercise price, rendering the option worthless to the executive. In the case of such options, we recognize accounting expense even though the executive officer may never realize any value from the options.

Supplemental Total Direct Compensation Table

The Securities and Exchange Commission's rule for when equity awards are reported in the Summary Compensation Table results in a one-year lag between the time the equity awards are granted and when they are reported. As a result of the time lag, the equity awards granted in 2023 will not appear in the Summary Compensation Table (see page 76) until our 2024 Annual Meeting proxy statement. We believe that the supplemental table below more clearly reflects our pay-for-performance philosophy and the compensation decisions made by the Compensation and Benefits Committee for the CEO and the other named executive officers for each performance year shown.

(2) Mr. Davies' fixed compensation is comprised of salary (£350,000) and his fixed allowance (£300,000), which were payable in equal monthly installments. His annual cash incentive amount is comprised of three components: £482,000 paid in cash in February 2023; £482,000 delivered in fully vested fund-linked units with a six-month holding period and delivered in cash in August 2023; and £723,000 invested into Threadneedle Fund Deferrals, fund-linked instruments vesting in five equal parts at 12, 24, 36, 42 and 54 months from the date of grant and subject to a six-month holding period between vesting and delivery in cash.

Mr. Davies is compensated in GBP which is converted into USD for disclosure in this table. For purposes of this table, the spot exchange rate on December 31, 2022 (\$1.20895) was used to convert GBP into USD.

Compensation for Mr. Davies is provided only for 2022 because he was not an NEO for 2021 or 2020.

(1) The numbers in these columns are not the grant date fair value of restricted stock awards, PSUs, and stock options awarded to the named executive officer for 2022 performance. These amounts represent the grant date fair value of restricted stock awards, PSUs, and stock options for 2021 performance, but granted on January 28, 2022. For 2022, there are two amounts listed in the stock awards column. The top number is the restricted stock award earned for 2021. The bottom number is the performance share unit award granted at target for 2021. The actual number of PSUs that will be earned at the vesting date is dependent upon future Company performance and the PSU awards have a minimum payout of 0% and a maximum payout of 150% of target based on average return on equity and earnings per share growth, with a total shareholder return modifier up or down 25 percentage points.

- The Company calculates the grant date fair value of restricted stock awards, PSUs, and stock options in accordance with the applicable accounting rules. The grant date fair value represents the total compensation expense that the Company will recognize for restricted stock awards and stock options whereas the total compensation expense for PSUs will ultimately be the market value as of the vesting date.

- For the grant date fair value of restricted stock awards, we use the closing share price on the grant date which does take into account future dividends to be paid on restricted shares. Those dividends will be the same as those paid to other shareholders. Mr. Davies received Ameriprise Financial Deferred Stock Units (DSU) which mirror the economic impact of this plan which are deemed appropriate and approved by the Committee. Dividends on DSUs are accrued within the plan and are paid out as additional shares of common stock in Ameriprise Financial, Inc. on vesting.

- For the grant date fair value of PSU awards, we use the closing share price on the grant date which does take into account future dividend equivalents to be paid on PSUs once fully vested and earned. Those dividend equivalents will be the same as those paid to other shareholders over the three-year performance period. The value of the PSUs on the grant date assuming that the maximum performance conditions will be achieved is: Mr. Cracchiolo (\$11,374,518); Mr. Berman (\$3,937,471); Mr. Truscott (\$3,281,077); and Mr. Sweeney (\$1,924,767). Mr. Davies did not receive a PSU award in 2022.

- In order to calculate the grant date fair value of stock options, we use the Black-Scholes option pricing model. For the stock options that became effective on January 28, 2022, we used the following assumptions for purposes of the Black-Scholes option pricing model: (i) an expected life of 5 years for each option; (ii) a dividend yield of 2.00%; (iii) an expected stock price volatility of 35.0%; and (iv) a risk-free rate of return of 1.66%.

(2) This column represents the non-equity incentive plan compensation earned by the named executive officers whether paid or deferred. For 2022, this number is the cash incentive award that was earned for 2022 performance. For 2021, this number is the cash incentive award that was earned for 2021 performance. For 2020, this number is the cash incentive award that was earned for 2020 performance.

- (3) The 2022 amounts represent the changes in pension value for calendar year 2022 under the Company's retirement plans, partially driven by changes in actuarial pension assumptions related to an increase in the applicable discount rates. The changes in pension value are also attributable to new Company contributions and earnings on existing account balances. The dollar amounts shown are not part of total direct compensation. See the "Pension Benefits in 2022" table on page 82 for additional information, including the present value assumptions used in this calculation.

Values that would be negative due to the increase in discount rates have been made \$0 (-\$225,430 for Mr. Cracchiolo, -\$289,120 for Mr. Truscott, -\$204,540 for Mr. Sweeney, and -\$545,131 for Mr. Davies).

- (4) The 2022 amounts disclosed for All Other Compensation primarily consist of: (i) employer contributions under the 401(k) plan for the U.S.-based NEOs and to a non-U.S. defined contribution plan; (ii) a Company matching contribution on voluntary deferrals of the 2022 cash incentive award under the deferred compensation plan that are credited in the form of deferred share units; (iii) waiver of fees otherwise charged on investments made in certain Seligman hedge funds; (iv) the incremental cost associated with certain personal use of the aircraft and Company-provided vehicle and driver, as required by the Company's security program (defined below); (v) club membership fees which are used primarily for business purposes; (vi) Company reimbursement of spousal travel for certain Company events; and (vii) gifts provided in conjunction with Company events. As a part of the CEO security program approved by the Compensation and Benefits Committee, the Company provided Mr. Cracchiolo with the following: home security system monitoring and maintenance for his personal residences; use of a car and driver for business and commuting purposes; and use of our corporate aircraft by Mr. Cracchiolo and others for business and personal travel.

For purposes of calculating the 2022 incremental cost for use of the car and driver, a per mile rate was determined using vehicle maintenance, fuel, and toll expenses and applying the calculated rate to all miles associated with commuting or personal use. The Company used the following methodology for determining the incremental cost for personal usage of the corporate aircraft: (a) when used solely for personal travel, an hourly flight rate (that considers fuel, maintenance, and miscellaneous flight costs) plus any direct expense associated with in-flight catering is applied; and (b) when others accompany executives during regular business travel, the incremental cost reflects those direct expenses associated with in-flight catering only. For purposes of calculating the incremental cost of the personal use of corporate aircraft during 2022, the following per flight hourly costs were used, rounded to the nearest dollar: \$6,585 or \$6,708, depending upon the aircraft used.

- The following table shows the breakout of the major categories of All Other Compensation for the year ended December 31, 2022.

Name	Company Contributions to Defined Contribution Plans (\$)	Matching Contributions to Deferred Compensation Plan (\$)	Private Investment Fund Fee Reimbursements (\$)	Personal Use of Corporate Aircraft (\$)	Car and Driver (\$)	Club Membership Dues (\$)	Home Security (\$)
James M. Cracchiolo	15,250	406,250	0	199,834	19,924	27,102	18,656
Walter S. Berman	15,250	154,400	0	750	0	0	0
William F. Truscott	15,250	130,500	78,965	0	0	0	0
Joseph E. Sweeney	15,250	97,500	0	250	0	0	0
William Davies	26,048	0	0	0	0	0	0

- (5) Since Mr. Davies is located in the U.K., the terms and composition of his compensation reflect the requirements of local regulations, including the UCITS V Remuneration Code (SYSC 19E) that came into effect in 2017 and the MIFIDPRU Remuneration Code (SYSC 19G) which came into effect in 2022, both of which fall under the Financial Conduct Authority (FCA).

In 2021, prior to his appointment to the Executive Leadership Team, Mr. Davies' incentive was subject to 60% deferral which was split as follows: 50% into Threadneedle Fund Deferrals, fund-linked instruments vesting in five equal parts at 12, 24, 36, 42 and 54 months from the date of grant and subject to a six-month holding period between vesting and delivery in cash, and 50% in Deferred Stock Units, vesting in three equal parts at 12, 24 and 36 months from the date of grant and delivering shares of common stock in Ameriprise Financial, Inc. The remainder was split equally with half being paid in cash in February 2022 and half delivered in fully vested fund-linked units with a six-month holding period and delivered in cash in August 2022.

In 2022, when Mr. Davies joined the ELT, these requirements include that at least 60% of his variable compensation is deferred and that half of the award is delivered in instruments linked to funds with a six-month holding period. The deferred portion of Mr. Davies' variable compensation is split as follows: 50% into Threadneedle Fund Deferrals, fund-linked instruments vesting in five equal parts at 12, 24, 36, 42 and 54 months from the date of grant and subject to a six-month holding period between vesting and delivery in cash; 13.5% in Deferred Stock Units, vesting in three equal parts at 12, 24 and 36 months from the date of grant and delivering shares of common stock in Ameriprise Financial, Inc.; 11.5% in Deferred Stock Options, vesting in three equal parts at 12, 24 and 36 months from the date of grant and delivering options in shares of common stock in Ameriprise Financial, Inc. with a 10 year life; and 25% in PSUs. Dividends on Deferred Stock Units are accrued within the plan and are paid out as additional shares of common stock in Ameriprise Financial, Inc. on vesting. The remaining 40% of Mr. Davies' variable compensation is split equally with half being paid in cash in February 2023 and half delivered in fully vested fund-linked units with a six-month holding period and delivered in cash in August 2023.

Mr. Davies' fixed compensation is comprised of salary (£350,000) and his fixed allowance (£300,000), which was payable in equal monthly installments. His Non-Equity Incentive Plan Compensation amount is comprised of his variable compensation that is split equally with half being paid in cash in February 2023 and half delivered in fully vested fund-linked units with a six-month holding period and delivered in cash in August 2023 in addition to his deferred variable compensation that is invested in Threadneedle Fund Deferrals.

Mr. Davies is compensated in GBP which is converted into USD for disclosure in this table. For purposes of this table, the spot exchange rate on December 31, 2022 (\$1.20895) was used to convert GBP into USD.

Compensation for Mr. Davies is provided only for 2022 because he was not a Named Executive Officer for 2021 or 2020.

Grants of Plan-Based Awards in 2022

The table below shows the long-term incentive and equity awards made to our named executive officers in 2022. These awards were based on 2021 performance and funded from the 2021 total incentive pool. Stock options will not have value unless there is an increase in share price above the option exercise price. PSU and cash awards will not have value unless minimum performance results are achieved. The Compensation and Benefits Committee approved the awards at its meeting held on January 25, 2022. The awards became effective as of the grant date shown in the table.

(1) This represents the number of PSUs awarded. These awards are scheduled to vest at the end of a three-year performance period and the number of PSUs that will be earned will be based on earnings per share growth, average return on equity, and relative total shareholder return performance. The PSU Awards have a minimum payout of 0% and a maximum payout of 150% of target based on average return on equity and earnings per share growth, with a total shareholder return modifier up or down 25 percentage points.

(2) This represents the number of restricted shares awarded. These awards are scheduled to vest over a three-year period in increments of one-third per year. Under the Threadneedle Deferred Plan, Mr. Davies received Ameriprise Financial Deferred Stock Units (DSU) which creates a similar economic impact to Mr. Davies as the restricted shares awards to U.S.-based NEOs.

(3) This represents the number of stock options awarded. These awards are scheduled to vest over a three-year period in increments of one-third per year.

(4) The exercise price is equal to the closing market price of Ameriprise Financial stock on the grant date.

(5) These amounts are the grant date fair value of the stock options, restricted stock awards/deferred stock units, and performance awards as represented by the total ASC 718 compensation expense that will be recognized for these awards. The Company uses the Black-Scholes option pricing model to estimate its compensation cost for stock option awards. The assumptions used in the Black-Scholes model for grants made on January 28, 2022 were: (i) an expected life of 5 years for each option; (ii) a dividend yield of 2.00%; (iii) an expected stock price volatility of 35.0%; and (iv) a risk-free rate of return of 1.66%.

Non-Qualified Deferred Compensation for 2022

This table provides information about the Ameriprise Financial Deferred Compensation Plan. A U.S.-based named executive officer may only participate in the plan if he elects to defer receipt of compensation that would otherwise be payable in cash. All U.S.-based named executive officers elected to participate in the plan for the 2022 performance year.

The amounts shown in the column “Executive Contributions” come from a deferral of the U.S.-based named executive officer’s cash incentive award. If the named executive officer had not chosen to defer these amounts, we would have paid these amounts in cash. The amounts shown in this column are part of the dollar amount shown in the Summary Compensation Table on page 76, in the column “Non-Equity Incentive Plan Compensation” for 2022. The amount shown in the column “Executive Contributions” is not an additional award to the named executive officer.

Mr. Davies, a non-U.S. based named executive officer, is required to have at a portion of his variable compensation deferred. These contributions are made into the Threadneedle Deferral Plan. Half of the deferred variable compensation is delivered in instruments linked to funds with a six month holding period. It is deferred into Columbia Threadneedle vesting in five equal parts at 12, 24, 36, 42 and 54 months from the date of grant and subject to a six-month holding period between vesting and delivery in cash.

The amounts shown in the column “Executive Contributions” for Mr. Davies are part of the dollar amount shown in the Summary Compensation Table on page 76, in the column “Non-Equity Incentive Plan Compensation” for 2022. The amount shown in the column “Executive Contributions” is not an additional award to Mr. Davies.

- (1) These amounts are included in the Summary Compensation Table on page 76 in the column captioned “Non-Equity Incentive Compensation Plan Compensation” for 2022. These deferrals will not be credited to deferral accounts until after December 31, 2022 and therefore are not included in the column ‘Aggregate Balance as of December 31, 2022.’
- (2) These amounts are included in the Summary Compensation Table on page 76 in the column labeled ‘All Other Compensation.’ U.S.-based executives received a 25% Company matching contribution on deferrals of 2022 cash incentive awards (deferrals eligible for matching contributions are limited to 20% of such awards). The Company matching contributions are notionally credited to the Ameriprise Common Stock Fund, which tracks the performance of Ameriprise Financial common stock and are subject to a three-year cliff vesting period. The Company matching contributions will not be credited to deferral accounts until after December 31, 2022, and therefore are not included in the column ‘Aggregate Balance as of December 31, 2022.’
- (3) These amounts represent the change in market value on amounts previously deferred under the Deferred Compensation Plan for U.S.-based executives, based on the actual market-rate returns and dividend equivalents credited to deferral accounts for the period January through December 2022. Participants are able to allocate their deferrals among a number of investment options that track the performance of select mutual funds, Ameriprise Financial common stock, and the Moody’s Corporate Bond Yield Index. Future values are not guaranteed and will fluctuate based on changes in the market value of selected investment options.
- (3a) These amounts represent the change in market value on amounts previously deferred under the Threadneedle Deferral Plan for non-U.S.-based executives, based on the actual market-rate returns and dividend equivalents credited to deferral accounts for the period January through December 2022. Participants are able to allocate their deferrals among a number of investment options that track the performance of select Columbia Threadneedle investments. Future values are not guaranteed and will fluctuate based on changes in the market value of selected investment options.
- (4) These amounts represent distributions received in 2022 from compensation previously deferred by U.S.-based participants and related vested Company matching contributions. Under the Deferred Compensation Plan, participants make an irrevocable election to have deferrals distributed in a lump sum or installments at a future date.
- (4a) These amounts represent distributions received in 2022 from compensation previously deferred by non-U.S. based participants. Under the Threadneedle Deferral Plan, deferrals are held for six months after the vesting period and then delivered in cash.
- (5) These numbers include amounts previously reported as compensation in Summary Compensation Tables for previous years for Messrs. Cracchiolo (\$33,094,883); Berman (\$11,676,263); Truscott (\$9,132,548); and Sweeney (\$2,607,000). The amounts shown in the table above for Messrs. Cracchiolo, Berman, Truscott, and Sweeney include amounts that they deferred prior to our spin-off from American Express Company as a public company on September 30, 2005. As a result, those amounts have not been previously reported as compensation in a Summary Compensation Table included in one of our annual meeting proxy statements. Each aggregate balance reflects the deduction of an \$80 annual administrative fee.

- (1) The Ameriprise Financial Retirement Plan (Retirement Plan) is a defined benefit pension plan for U.S.-based executives, commonly referred to as a cash balance plan, which covers eligible employees of the Company. Each payroll period, the Company credits the account of each participating employee with an amount equal to a percentage of such employee's pension eligible pay (generally, base salary and annual cash incentive compensation, subject to the applicable calendar year limit (\$290,000 for 2022) but excluding long-term incentive compensation) for that period. The percentage varies with the employee's age and years of service. The plan was amended on March 1, 2010, to lower the applicable contribution percentages and base it on years of service only and no longer considers an employee's age. Employees who were eligible for the Retirement Plan on March 1, 2010 continue to receive the percentage that they were receiving under the "Previous Table" prior to the change, until and if such time the percentage under the "New Table" became more favorable. The Retirement Plan was further amended effective April 10, 2020, to close participation to new employees and to provide that contribution percentages for existing participants will no longer increase with additional years of service. Existing participants, however, will continue to receive the contribution percentage they are receiving in 2020 until they leave the Company or move to an ineligible position. New employees will not be eligible for the Retirement Plan and will receive a Company Base Contribution in the Ameriprise Financial 401(k) Plan. Employees who participate in the Retirement Plan are not eligible for the Company Base Contribution.

The Retirement Plan credits participants with interest on their balances. The Retirement Plan sets the fixed interest rate each year based on the average of the daily five-year U.S. Treasury Note yields for the previous October 1 through November 30. The minimum interest rate is 5%. The maximum rate is the lower of 10% or a specific rate set by the U.S. government under the tax laws. For 2022, the interest rate was 5%.

When an employee retires or terminates employment and is vested, the Retirement Plan will pay out the cash balance amounts. The Retirement Plan will make these payments in the form and at the time the employee elects, including payment in a single lump sum or as an annuity. An annuity obligates the Retirement Plan to make payments in monthly installments over time, in amounts based on plan assumptions as to life expectancy and the value of making payments in the future. Employees may choose similar methods of payment for benefits they earned before July 1, 1995. The Retirement Plan balances vest after completing three years of service or employee attains age 65, become disabled or die while an active employee. The Retirement Plan has been amended effective April of 2020. There will be no new entrants into the Retirement Plan and no increase in the contribution allocation percentage for those who remain eligible for the Retirement Plan after the effective date. New hires will receive an additional Company contribution under the Ameriprise Financial 401(k) Plan instead of a benefit under the Retirement Plan.

The Ameriprise Financial Supplemental Retirement Plan (SRP) is a non-qualified pension plan that allows participants to receive contributions on pension earnings that exceed applicable limits under the Internal Revenue Code of 1986, as amended and cannot be allocated to the qualified Retirement Plan. The SRP balances vest after completing three years of service, or employee attains age 65, become disabled or die while an active employee.

The Retirement Plan account balances for Messrs. Cracchiolo, Berman, Truscott, and Sweeney as of December 31, 2022 were \$1,029,769; \$917,161; \$379,044; and \$842,382, respectively. The SRP account balances for Messrs. Cracchiolo, Berman, Truscott, and Sweeney as of December 31, 2022 were \$18,391,537; \$7,590,457; \$4,215,876; and \$2,917,817, respectively. For all of the U.S.-based named executive officers, their Retirement Plan or SRP balances are fully vested. The December 31, 2022 values shown in the table above for the Retirement Plan assumes a discount rate of 5.5% and a discount rate of 5.44% for the SRP. The values assume an interest crediting rate of 5.00% and a retirement age of 65, or current age for Mr. Berman, for both the Retirement Plan and the SRP.

The U.K.-based NEO, Mr. Davies, is a member of the Threadneedle Pension Plan (the TPP), an approved U.K. defined benefit retirement plan that on retirement provides a pension annuity, payable for the lifetime of the member. The plan closed to new members on October 1, 2005 and was amended for active participants effective May 1, 2020, with accrual of pensionable service frozen as at April 30, 2020 (link to pensionable earnings remained). Pension annuity is therefore calculated by reference to the employee's period of employment up to April 30, 2020, and pensionable salary at the date of retirement or earlier exit from employment.

The December 31, 2022 value shown in the table above for Mr. Davies assumes a discount rate of 4.75% per annum, increases to pensionable salary of 3.2% per annum and a retirement age of 60.

Mr. Davies is compensated in GBP which is converted into USD for disclosure in this table. For purposes of this table, the spot exchange rate on December 31, 2022 (\$1.20895) was used to convert GBP into USD.

Potential Payments Upon Termination or Change of Control for Named Executive Officers

The tables below describe the potential termination payments for the named executive officers under various termination of employment scenarios as if they occurred on December 31, 2022. As noted earlier, the Company does not have employment, severance, or change in control agreements with any of the named executive officers, except where required by the local regulations or practices (e.g., Mr. Davies terms of employment reflect applicable legal requirements and practice in the U.K.). Rather, the rights of our executives with respect to specific events, including death, disability, severance, retirement, or a change in control of the Company, are covered by certain compensation and benefit plans of the Company, the material terms of which are summarized below.

We are providing two sets of tables for each named executive officer to show you what the officer would receive if he no longer worked for the Company. The first table shows the vested plan amounts that the named executive officer would receive if he left the Company for any reason. Any other employee participating in these plans would also receive any vested amounts in these plans if he no longer worked for the Company. The second table shows what the named executive officers would receive under various hypothetical situations resulting in a termination of their employment. The second table does not include amounts disclosed in the first table.

Both tables assume that the named executive officer's employment terminated on December 31, 2022. Because the numbers disclosed are calculated as of that date and are subject to other estimates and assumptions, the actual amounts the named executive officer may receive may differ materially from those shown in the tables. Additional information on the calculations for the payouts are outlined in the common set of footnotes to the tables. Unless otherwise specified in the common set of footnotes to the tables, all payments and benefits would be provided by Ameriprise Financial, Inc.

In addition to the amounts disclosed in these tables, the named executive officers would also receive any restricted stock units and restricted stock (or deferred stock units in the case of Mr. Davies) that vested on or before their termination date. The officer would also be able to exercise any vested stock options. For more information, please see the Outstanding Equity Awards at Fiscal Year-End 2022 table on page 79.

Ameriprise Financial Senior Executive Severance Plan

Messrs. Cracchiolo, Berman, Truscott and Sweeney are covered under the Company's Senior Executive Severance Plan. To be eligible for severance benefits under this plan, a U.S.-based named executive officer must be terminated in connection with a workforce reduction, closure, or other similar event. Additionally, an employee who is involuntarily or constructively terminated within two years after a change in control is eligible for severance benefits. The severance amount is based upon a multiple of (i) the named executive officer's annual base compensation plus (ii) the average bonus and incentive amount over the previous three years. The named executive officer also is entitled to the bonus amount that he or she otherwise would have received for the year in which the termination occurred, pro-rated for the period of employment during that year. During the severance period, medical and dental benefits will continue and the Company has the right to continue other programs.

The severance amount is payable in installments according to our regular payroll schedule, except that the payments which would be made during the sixth month period following termination will be made in a lump sum on the first payroll period of the seventh month following termination. If the named executive officer is reemployed by us, he or she must repay any severance amounts paid and forfeit any severance amounts not yet paid to the extent that those amounts relate to the portion of the severance period after the date of reemployment.

In addition, named executive officers who incur an involuntary or constructive termination within two years after a change in control will have a credit made to their book reserve account in the Ameriprise Financial Supplemental Retirement Plan as of the date of termination equal to the value of employer contributions that would have been made to the Ameriprise Financial Retirement Plan, the Ameriprise Financial 401(k) Plan, the Ameriprise Financial Supplemental Retirement Plan, or other similar plans during the period for which the employee receives severance payments under this Plan.

A change in control under the Senior Executive Severance Plan generally occurs if an unrelated person or entity acquires at least 30% of the voting power of our securities, an unrelated person or entity acquires at least 50% of the total voting power of our securities and at least 50% of the total fair market value of our equity or assets, or a majority of our Board is replaced during any 12-month period with persons whose appointment or election is not endorsed by a majority of our Board before the date of appointment or election.

A constructive termination occurs if, within two years after a change in control, a named executive officer resigns or otherwise terminates employment without consent for any of the following reasons: (i) a reduction in overall total compensation opportunity; (ii) relocation to a location more than 35 miles from the named executive officer's primary residence and more than 50 miles from the named executive officer's then current work location; or (iii) a significant reduction in the named executive officer's position, title, duties, or responsibilities. To constitute a constructive termination, the named executive officer must provide the Company with a thirty-day period to remedy the situation.

With regard to golden parachute taxes, the best net approach is used, under which a named executive officer will receive reduced severance benefits if it results in a more favorable after-tax benefit for the officer.

Mr. Davies is based in the U.K. and not eligible under the Company's Senior Executive Severance Plan. If his employment is involuntarily terminated not for cause he is contractually entitled to six months' notice pay (whether he is required to work his notice period or not). During this notice period all benefits will continue. Additionally, Mr. Davies would be eligible for a severance payment based upon a percentage of (i) his annual base salary plus (ii) the average bonus and incentive amount over the previous two years prorated for the number of completed months in the performance year in which the termination occurs.

Accelerated Vesting of Equity Compensation

We do not provide for any "single-trigger" acceleration of unvested incentive compensation upon a change in control for awards of equity compensation granted. Instead, the vesting of awards will only accelerate upon a "double-trigger" (change in control followed by termination for good reason or involuntary termination not for cause within two years).

Annual Cash Incentive Compensation

A pro rata annual cash incentive award may become payable in the event an executive is involuntarily or constructively terminated within two years of a change in control. The pro rata payment of these awards rewards the executive for performance prior to the change in control of his or her performance prior to the change in control transactions.

Detrimental Conduct Agreements

To help protect our competitive position, the U.S.-based named executive officers have signed detrimental conduct agreements. Detrimental conduct includes: working for certain competitors; soliciting our customers or employees; and disclosing confidential information for a period of up to one year after termination of employment.

The detrimental conduct agreements include a provision that requires the named executive officers to forfeit or repay the proceeds from some or all of their long-term incentive awards received up to two years prior to the end of their employment if they engage in conduct that is detrimental to us. In addition, the severance and post-employment benefits described above require the named executive officer to sign an agreement that includes a general release and other restrictive covenants, in addition to the detrimental conduct agreement. The detrimental conduct agreement was updated in November 2014 to reflect the current competitive environment and applicable laws. Key provisions of the policy, including the repayment terms, were not changed. The revisions generally provide more details about the noncompete and nonsolicitation provisions, and also address the enforceability in a few states with different employment laws.

In the U.K., Mr. Davies' employment contract includes protective covenants covering: non-solicitation of our customers and employees; non-interference with our suppliers and disclosing confidential information for a period of up to six months after termination of employment.

- (1) In the event of termination of employment for any reason, the U.S.-based executives (Messrs. Cracchiolo, Berman, Truscott, and Sweeney) are eligible to receive these vested amounts under the Company's retirement, 401(k), supplemental retirement, and deferred compensation plans while the U.K. based executive (Mr. Davies) is eligible to receive these vested amounts under the Threadneedle Pension Plan (applicable in the event of termination of employment for any reason other than the death of the executive) and Threadneedle Fund Deferral Plan. The amounts deferred under the Deferred Compensation Plan will also be paid out immediately to the U.S.-based executive following a change in control, including any amounts of unvested Company match which will become vested upon a change in control.
- (2) Under the U.S.-based Ameriprise Financial Senior Executive Severance Plan, the severance multiples for involuntary not for cause termination unrelated to a change in control were reduced for Mr. Cracchiolo and other executive officers. Beginning in 2012, the severance multiple for Mr. Cracchiolo was reduced from three times the sum of base salary and highest annual cash incentive award received over the previous three years to two times the sum of base salary and the average annual cash incentive award over the previous three years. For the named executive officers other than Mr. Cracchiolo, the severance multiple is one and one-half times the sum of base salary and the average annual cash incentive award over the last three years. For involuntary termination not for cause or constructive termination within two years following a change in control, severance is equal to the following multiples of the sum of base salary plus the average annual cash incentive award received over the previous three years: Mr. Cracchiolo (three times); Messrs. Berman, Truscott, and Sweeney (three times); and any new U.S.-based executive officer hired or promoted after March 19, 2008 two times. For all participants under the Ameriprise Financial Senior Executive Severance Plan, the severance benefit is payable in biweekly installments, beginning on the seventh month following the executive's termination of employment (i.e., following a six-month delay), not exceeding the duration during which the executive is entitled to receive severance benefits under the plan.

Mr. Davies' is based in the United Kingdom and would receive benefits under his employment agreement. If his employment is involuntarily terminated not for cause he is contractually entitled to six months' notice pay (whether he is required to work his notice period or not). During this notice period all benefits will continue. Additionally, Mr. Davies would be eligible for a severance payment based upon a percentage of (i) his annual base salary plus (ii) the average bonus and incentive amount over the previous two years prorated for the number of completed months in the performance year in which the termination occurs.

- (3) If an executive leaves due to involuntary not for cause termination unrelated to change in control, retirement, death or disability, the amount paid to the executive for their annual cash incentive award for the year in which their termination of employment occurs is prorated to reflect the period of the year that was worked, based on actual performance, and fully discretionary. The hypothetical amount shown in the table is based on the actual cash incentive award earned for 2022 performance. In the event of involuntary termination not for cause within two years of a change of control, the U.S.-based executive will receive the average of the prior two years' annual cash incentive awards in a lump sum following the executive's termination of employment. The hypothetical amount shown in the table is based on the average of the actual cash incentive awards earned for 2020 and 2021.

In the event of termination by the Company for reasons other than cause, Mr. Davies may be considered, at the discretion of the Company, for a cash payment in lieu of an annual incentive compensation award, taking into consideration all circumstances the Company deems relevant, including the circumstances of the employee's leaving and the employee's contributions to the Company over his career. In the event of Involuntary Not for Cause Termination, a portion of the severance benefit amount already includes the average bonus and incentive amount over the previous two years prorated for the number of completed months in the performance year in which the termination occurs, so no additional incentive amount will be award (beyond what is already included in severance).

- (4) In the event of death or disability, vesting accelerates for all outstanding stock options, restricted shares, and on a prorated basis for all outstanding performance shares. For all awards, vesting of outstanding stock options, restricted shares/deferred stock units, and performance shares is not accelerated solely due to a change in control and also requires an involuntary or good reason termination of employment within two years following the change in control. In such an instance, vesting is accelerated in full for outstanding stock options and restricted shares/deferred stock units and on a prorated basis for outstanding performance shares. In the event of retirement, outstanding restricted shares/deferred stock units, performance shares, and stock options granted in the year of retirement are forfeited. For awards granted prior to the year of retirement, vesting does not accelerate upon retirement, but the awards remain outstanding and continue to vest.
- In the event of death or disability, vesting accelerates for all outstanding deferred stock units and are paid out immediately. In the event of involuntary termination not for cause, deferred stock units scheduled to vest in the next 12 months will vest as scheduled. All other deferred stock units are forfeited.
- (5) In the event of involuntary termination not for cause or constructive termination within two years of a change of control, the U.S.-based executives will receive the value of Company contributions that would have been made on his behalf to the Company's retirement, 401(k), and supplemental retirement plans during the severance period. Immediately upon a change in control, the entire value of each executive's account under the supplemental retirement plan will be transferred to a trust established for this purpose. Continued contributions will be credited to the executive's account under the supplemental retirement plan as of the date of the executive's termination of employment. Payment is made from the trust in a lump sum or annual installments based on the executive's distribution election under the supplemental retirement plan.
- (6) In the event of a change of control, death or disability, vesting fully accelerates on the Company match portion of the deferred compensation plan for all U.S.-based participants, and each participant is paid his deferred compensation plan balance shortly following the triggering event (i.e., death, disability, or change in control). For participants who are retirement eligible (applicable to our named executive officers), the Company match is currently fully vested.
- (7) In the event of involuntary termination not for cause or good reason termination of employment within two years of the change in control, the U.S.-based executive is provided continued participation in the medical, dental, and life insurance benefits during the severance period.
- (8) For U.S.-based executives, reflects the life insurance benefit payable for both Company-provided and employee-purchased coverage. All employees including the named executive officers are provided a Company-funded coverage of one times base salary.
- For Mr. Davies, a U.K.-based executive, reflects the life insurance benefit payable for Company provided coverage at four times annual base salary (capped at the UK notional earnings cap of £181,800 for the 2021/22 UK tax year) plus eight times annual base salary in excess of the notional earnings cap, plus the capital value of a spouse's pension of £45,902/\$55,493 per annum paid from the Threadneedle Pension Plan.
- (9) In the event of disability, the U.S. based executive would be eligible to receive disability income as long as they remained disabled until reaching age 65. The amount shown indicates the present value of potential future disability payments that would be received between December 31, 2022 and the executive reaching age 65, using a 5.5% discount rate.
- (10) Beginning in 2012, named executive officers are no longer eligible to receive a payment from the Company to put the executive in the same after-tax position as if no excise taxes under the Internal Revenue Code Section 280G had been imposed. This excise tax reimbursement and gross up by the Company was eliminated for all executive officers.

CEO Pay Ratio

Securities and Exchange Commission rules require public companies to disclose the ratio of the annual total compensation of their chief executive officer to the median of the annual total compensation of all of the Company's employees, other than the chief executive officer. For Ameriprise we explain below how we made reasonable efforts to identify the median employee and calculate both the individual's annual total compensation and the annual total compensation of our chief executive officer for this purpose. As permitted by the Securities and Exchange Commission, we have used reasonable estimates, assumptions, and methodologies to prepare this disclosure.

Because the Securities and Exchange Commission gives companies flexibility to calculate their CEO pay ratio in a manner that best suits their facts and circumstances, our CEO pay ratio is specific to Ameriprise and should not be used as a basis for comparison with the CEO pay ratios disclosed by other companies.

In 2022, in accordance with SEC rules, we re-identified our median employee using our global population as of October 31, 2022. Consistent with prior years, we identified our median employee by using total cash compensation: base salary plus any cash bonuses or commissions. For this year's disclosure, we have calculated a new median employee who was determined using the same methodology as prior years. We included the total cash compensation of our approximately 13,500 full- and part-time employees – including our employee financial advisors – from all 21 countries in which we operate. We did not include our approximately 8,200 franchise financial advisors even though they form a significant part of our business, because they – and their staff – are not our employees. We did not make any cost-of-living adjustments, or account separately for regional pay differences other than converting foreign currencies to U.S. dollars.

Next, we calculated our median employee's annual total compensation using the same methodology that we use for our chief executive officer and our other named executive officers for purposes of the Summary Compensation Table on page 76. We then added the value of Company-provided insurance. This is consistent with how we communicate with our employees through our My Ameriprise employee value proposition.

Using this methodology, our median employee's annual total compensation for 2022 was \$125,033. We also added the value of Company-provided insurance (\$15,501) to our CEO's 2022 annual total compensation as reported in the Summary Compensation Table. The resulting ratio of our CEO's annual total compensation to the annual total compensation of our median employee was 183:1. Excluding our India employee population, we determined that the annual total compensation of the median compensated non-India based employee, other than our CEO, was \$156,791. The ratio of this employee's compensation to that of our CEO was 146:1.

Pay Versus Performance

The following table sets forth compensation information of our Principal Executive Officer (PEO) and our non-PEO NEOs along with total shareholder return, net income, and Adjusted Operating Earnings Per Share excluding Unlocking (diluted) performance results for our fiscal years ending in 2020, 2021 and 2022, in accordance with Item 402(v) of Regulation S-K. The amounts reported in this table are not additional amounts received by our PEO and non-PEO NEOs to the amounts reported in the Summary Compensation Table. The calculations and analysis below do not necessarily reflect the Company's approach to aligning executive compensation with performance. For information concerning the Company's compensation philosophy and how the Company aligns executive compensation with financial performance, refer to the Compensation Discussion and Analysis section of this Proxy Statement, beginning on page 56.

Pay versus Performance Descriptive Disclosure

We believe the “Compensation Actually Paid” in each of the years reported above and over the three-year cumulative period are reflective of the Compensation and Benefit Committee’s emphasis on “pay-for-performance” as the “Compensation Actually Paid” fluctuated year-over-year, primarily due to the result of our stock performance and our varying levels of achievement against pre-established performance goals under our annual cash incentive program and our LTIA program, which includes PSUs based on firm achievement of specific return on equity and earnings per share targets with total shareholder return modifier.

- **Total Shareholder Return: Company versus Peer Group**

The Company outperformed its S&P 500 Financials Index peer group over the 3-year period reflected in the above table. The value of a fixed \$100 investment in Ameriprise on December 31, 2019, would have been \$199, \$189, and \$120 at the end of 2022, 2021, and 2020, respectively, while it would have been \$118, \$132, and \$98 for an investment in the S&P 500 Financials Index in those respective periods. Please refer to footnote 7 for additional details.

- **CAP versus Total Shareholder Return**

CEO CAP amounts were 111%, 199%, and 53% greater than Summary Compensation Table values in 2020, 2021, and 2022, while our total shareholder return for each individual year was 20%, 58%, and 5% (culminating in an indexed return of \$199 had \$100 been invested at the start of 2020). Similarly, our other NEO CAP amounts were 94%, 175%, and 44% above Summary Compensation Table values in 2020, 2021, and 2022. As a result, our CAP values and total shareholder return are directionally aligned over the timeframe that the table covers.

- **CAP versus Company-Select Measure (Adjusted Operating Earnings Per Share excluding Unlocking (diluted))**

As discussed in the Compensation Discussion Analysis, Adjusted Operating Earnings Per Share is an assessment measure used in both annual performance assessments and longer-term PSU performance awards. The Company believes this is a solid measure of overall financial performance and shareholder value. Reconciliations of non-GAAP measures to the most directly comparable GAAP measure are on page A-1.

CEO CAP amounts were 111%, 199%, and 53% greater than Summary Compensation Table values in 2020, 2021, and 2022, while our change in Adjusted Operating Earnings Per Share for each year was 4%, 35%, and 11% (resulting in a cumulative increase of 55% since fiscal year 2019). Similarly, our other NEO CAP amounts were 94%, 175%, and 44% above Summary Compensation Table values in 2020, 2021, and 2022. As a result, our CAP values and increases in Adjusted Operating Earnings Per Share are directionally aligned over the timeframe that the table covers.

- **CAP versus Net Income**

CEO CAP amounts were 111%, 199%, and 53% greater than Summary Compensation Table values in 2020, 2021, and 2022, while our change GAAP Net Income for each year was -19%, 80%, and -7% (resulting in a cumulative increase of 35% since fiscal year 2019). Similarly, our other NEO CAP amounts were 94%, 175%, and 44% above Summary Compensation Table values in 2020, 2021, and 2022. GAAP Net Income is less reflective of ongoing operations and includes a number of factors that are excluded in Ameriprise’s Adjusted Operating Net Income metric. Reconciliations of non-GAAP measures to the most directly comparable GAAP measure are on page A-1.

CERTAIN TRANSACTIONS

Related Person Transaction Review Policy

Our Audit and Risk Committee has adopted a written policy which provides procedures for the review, approval, disapproval or ratification of certain transactions required to be reported under applicable rules of the Securities and Exchange Commission. Any amendments to the policy require Audit and Risk Committee approval.

Reportable transactions include those in which we are a participant and in which a related person has a direct or indirect interest. Related persons include: our directors, director nominees and executive officers; any person known by us to be the beneficial owner of more than five percent of our voting securities; and certain family members of, or certain other persons sharing the household of, any of our directors, director nominees or executive officers or holders of more than five percent of our voting securities.

Standards to be applied to the review of related person transactions include, but are not limited to, the following:

- materiality of such transaction;
- benefits of such transaction to us;
- structure of such transaction;
- the extent of the related person's interest, benefit or influence in such transaction;
- whether the terms of such transaction are on an arm's length basis with terms no less favorable than terms generally available to an unaffiliated third-party under the same or similar circumstances or otherwise can be determined as fair to us; and
- whether means are available to manage any actual or apparent conflict of interest that may arise under such transaction following the time it is approved or entered into.

The Audit and Risk Committee of our Board of Directors, as well as the Audit and Risk Committee's chair acting alone under delegated authority, have the responsibility to review, approve, disapprove or ratify related person transactions. Any Audit and Risk Committee member who is a related person under a transaction that is the subject of review is recused from voting upon any approval, disapproval or ratification of that transaction. Conditions operative to the transaction or to the relationship with the related person may be included in an approval or ratification.

Transactions with Other Companies

In the usual course of our business, we have transactions with many other firms. Some of the directors or officers of these firms may also serve as directors or officers for us or our subsidiaries. We carry out our transactions with these firms on customary terms. The directors and officers who serve us, our subsidiaries or the other firms involved may not have knowledge of these transactions.

Transactions Between the Company and Our Directors and Officers

Our executive officers and directors may from time to time take out loans from certain of our subsidiaries on the same terms that these subsidiaries offer to the general public. By way of example, our broker-dealer subsidiary Ameriprise Financial Services, LLC may extend margin loans (except margin loans to acquire the Company's stock) to our directors and executive officers under their brokerage accounts. All indebtedness from these transactions is in the ordinary course of our business and is on the same terms, including interest rates, in effect for comparable transactions with other people. Such indebtedness involves normal risks of collection and does not have features or terms that are unfavorable to our subsidiaries.

Our executive officers and directors may also have transactions with us or our subsidiaries involving other goods and services, such as insurance, brokerage and investment services. These transactions are also in the usual course of our business and we provide them on terms that we offer to our employees (with respect to executive officers) or to the public (with respect to our outside directors) generally.

Given the nature and broad scope of the products and services provided by the Company, there are from time to time ordinary course of business transactions between the Company and a director, his or her immediate family members, or principal business affiliations. These may include, among other relationships: extensions of credit; provision of other financial and financial advisory products and services; business transactions for products and services; and charitable contributions made by the Company.

Transactions with Significant Shareholders

From time to time we may engage in ordinary course relationships and commercial transactions with our significant shareholders or their subsidiaries. We do not believe that these transactions are material to our Company.

- In the usual course of our Advice & Wealth Management business, we provide to BlackRock, Inc. or its affiliates (BlackRock) distribution services and marketing support in connection with the sale of BlackRock products to our clients. We received approximately \$42.5 million in marketing support and related payments from BlackRock in 2022 in connection with these services.
- In the usual course of our Asset Management business, we obtain investment advisory or sub-advisory services from BlackRock. We paid approximately \$166 thousand in fees to BlackRock in 2022 in connection with these investment advisory or sub-advisory services.
- In the usual course of our Asset Management business, Vanguard Group, Inc. (Vanguard) provides distribution and marketing support in connection with the distribution of our investment products. We paid approximately \$565 thousand in fees to Vanguard in 2022 in connection with these services.

Delinquent Section 16(a) Reports

Section 16(a) of the Securities Exchange Act of 1934 requires our directors, executive officers, and persons who own more than ten percent of a registered class of our equity securities to file with us, the Securities and Exchange Commission, and the New York Stock Exchange initial reports of ownership and reports of changes in ownership of any of the Company's equity securities. As is true at many other public companies, our directors and executive officers have signed powers of attorney delegating the authority to prepare, sign, and file Section 16 reports on their behalf to employees of the Company. To the best of our knowledge, all required Section 16 reports were filed on a timely basis, with the exception of the initial Form 3 report for Gumer Alvero, which was filed one day late as filing codes were not issued by the Securities and Exchange Commission until that date.

1	To elect the eight director nominees named in the proxy statement	Under the majority voting standard, in an uncontested election, a nominee must receive a number of "For" votes that exceeds 50% of the votes cast (excluding abstentions)*	Non-routine	No effect	No effect	✓ FOR each nominee
2	To approve the compensation of the named executive officers by a nonbinding advisory vote	The affirmative vote of a majority of the votes cast	Non-routine	Same effect as "against" vote	No effect	✓ FOR
3	To approve a nonbinding advisory vote on the frequency of shareholder approval of the compensation of the named executive officers	The Board will consider shareholders to have selected the frequency option receiving the most votes among the choices	Non-routine	No effect	No effect	✓ 1 YEAR
4	To approve the Ameriprise Financial 2005 Incentive Compensation Plan, as Amended and Restated	The affirmative vote of a majority of the votes cast	Non-routine	Same effect as "against" vote	No effect	✓ FOR
5	To ratify the Audit and Risk Committee's selection of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for 2023	The affirmative vote of a majority of the votes cast	Routine	Same effect as "against" vote	Not applicable	✓ FOR

* If an uncontested incumbent nominee for director does not receive an affirmative majority of "For" votes, they will be required to promptly tender their resignation to the Board. The independent Nominating and Governance Committee will then make a recommendation to the Board as to whether the tendered resignation should be accepted or rejected, or whether other action should be taken. The Board will publicly announce its decision regarding the tendered resignation and the rationale behind it within 90 days after the election results have been certified. The director who tendered the resignation will not be permitted to vote on the recommendation of the Nominating and Governance Committee or the Board's decision with respect to their tendered resignation.

For your convenience, we have provided the chart above to show whether each item being voted on is routine or non-routine under the rules of the New York Stock Exchange. If a proposal is routine, a broker or other entity holding shares for an owner in street name may vote on the proposal without receiving voting instructions from the owner under certain circumstances. If a proposal is non-routine, the broker or other entity may vote on the proposal only if the owner has provided voting instructions. A broker non-vote occurs when the broker or other entity is unable to vote on a proposal because the proposal is non-routine and the owner does not provide any voting instructions.

The rules of the New York Stock Exchange make all of the proposals to be considered at the Annual Meeting non-routine items except for the proposal to ratify the Audit and Risk's Committee's selection of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for 2023. This means that brokers who do not receive voting instructions from their clients as to how to vote their shares for Items (1), (2), (3) and (4) cannot exercise discretion to vote their clients' shares. Therefore, it is important that you instruct your broker as to how you wish to have your shares voted on these proposals, even if you wish to vote as recommended by the Board of Directors. The chart also shows how abstentions and broker non-votes will be treated in determining the outcome of voting on each item.

Is my vote confidential?

We maintain the confidentiality of the votes of individual shareholders. We do not disclose these votes to any member of management unless we must disclose them for legal reasons or in the event of a contested proxy solicitation. However, if a shareholder writes a comment on the proxy card, the comment may be forwarded to management. In reviewing the comment, management may learn how the shareholder voted. In addition, the Inspector of Elections and selected employees of our independent tabulating agent may have access to individual votes in the normal course of counting and verifying the vote.

Who will count the votes?

Representatives of The Carideo Group, Inc., our tabulation agent, will tabulate the votes and act as independent inspectors of election.

Information about paper and electronic delivery of proxy materials

We provide our shareholders with the choice of accessing the 2023 Annual Meeting proxy materials over the Internet, rather than receiving printed copies of those materials through the mail. In connection with this process, a Notice of Internet Availability of Proxy Materials is being mailed to our shareholders who have not previously requested electronic access to our proxy materials or paper proxy materials. The Notice contains instructions on how you may access and review our proxy materials on the internet and how you may submit a proxy for your shares over the internet. The Notice will also tell you how to request our proxy materials in printed form or by email, at no charge. The Notice contains a 16-digit control number that you will need to submit a proxy for your shares. Please keep the Notice for your reference through the meeting date. Anyone attending the Annual Meeting must observe the rules approved by the Board of Directors.

For those shareholders requesting paper proxy materials who share a single address will receive only one annual report, proxy statement or Notice of Internet Availability of Proxy Materials unless we have other instructions from you. This service, known as "householding," is designed to reduce the environmental impact of our annual meetings as well as our printing and postage costs. If after signing up for householding any shareholder residing at such an address wishes to receive a separate annual report or proxy statement in the future, please contact Broadridge Financial Services at (866) 540-7095 or by sending a written request to Broadridge Financial Services, Inc., Household Department, 51 Mercedes Way, Edgewood, NY 11717. Or they may contact our corporate secretary, Wendy Mahling by telephone at (612) 671-3603, by email at ampsecretarysoffice@mailbox@ampf.com or by mail at 1098 Ameriprise Financial Center, Minneapolis, MN 55474.

Other matters for consideration

We do not know of any other matters that may be presented for action at the meeting other than those described in this proxy statement. If any other matter is properly brought before the meeting, the proxy holders will vote on such matter in their discretion as permitted under Securities and Exchange Commission rules.

Requirements and deadlines for submission of shareholder proposals or nomination of directors for the 2024 Annual Meeting

Shareholder proposals included in our proxy statement. Under Securities and Exchange Commission Rule 14a-8, if a shareholder wants us to include a proposal in our proxy statement and form of proxy for the 2024 Annual Meeting of shareholders, our corporate secretary must receive the proposal at her office by no later than November 18, 2023. These proposals must be in writing and sent to: Corporate Secretary, 1098 Ameriprise Financial Center, Minneapolis, MN 55474. Proposals that are mailed, faxed, emailed or otherwise delivered to anyone other than our corporate secretary must still be received by the corporate secretary no later than November 18, 2023.

Shareholder nominees included in our proxy statement (“proxy access”). Under our By-Laws, shareholders may nominate a person for election as a director at an Annual Meeting to be included in our proxy statement if the shareholders satisfy certain requirements. Generally, a shareholder, or group of up to 20 shareholders, must own at least 3% of our outstanding shares and have held those shares for at least three years to be eligible to make a proxy access nomination. Shareholders who meet these requirements may nominate the greater of two directors or directors representing twenty percent of the directors constituting our Board of Directors. If a shareholder wants to nominate a director to be included in our proxy statement and form of proxy for the 2024 Annual Meeting of shareholders, our corporate secretary must receive the nomination at her office no earlier than October 19, 2023 and no later than November 18, 2023. However, if we hold the Annual Meeting on a date that is not within 30 days of this year’s Annual Meeting, we must receive the notice no earlier than 150 days before the Annual Meeting and no later than 120 days before the Annual Meeting or ten days after our first public announcement of the Annual Meeting date.

Shareholder items of business and director nominees not included in our proxy statement. Under our By-Laws, and as the Securities and Exchange Commission rules permit, shareholders must follow certain procedures to nominate a person for election as a director at an annual or special meeting, or to introduce an item of business at an Annual Meeting. Under these procedures, shareholders must submit the proposed nominee or item of business by delivering a written notice to the corporate secretary of the Company at our principal executive offices. Our corporate secretary must receive notice as follows on the date specified:

- Normally we must receive notice of a shareholder’s intention to introduce a nomination or proposed item of business for an Annual Meeting not less than 90 days or more than 120 days before the first anniversary of the prior year’s meeting. Assuming that our 2023 Annual Meeting is held on schedule, we must receive notice pertaining to the 2024 Annual Meeting no earlier than December 28, 2023, and no later than January 27, 2024.
- However, if we hold the Annual Meeting on a date that is not within 30 days before or 60 days after such anniversary date, we must receive the notice no more than 120 days before the Annual Meeting date and no later than the later of the 90th day prior to the Annual Meeting date or ten days after our first public announcement of the Annual Meeting date.
- If we hold a special meeting to elect directors, we must receive a shareholder’s notice of intention to introduce a nomination no earlier than the 120th day prior to the special meeting date and no later than the later of the 90th day prior to the special meeting date or ten days after our first public announcement of the special meeting date and the nominees proposed by the Board of Directors.

In addition to satisfying the foregoing requirements, to comply with the universal proxy rules, shareholders who intend to solicit proxies in support of director nominees other than the Board’s nominees must provide notice that sets forth the information required by Rule 14a-19 under the Securities Exchange Act of 1934, as amended, no later than February 26, 2024.

Any notice that is mailed, faxed, emailed or otherwise delivered to anyone other than our corporate secretary must still be received by the corporate secretary no later than the relevant date specified above.

Our By-Laws require a nominee to deliver signed forms of a questionnaire, representation, and agreement that our corporate secretary will provide upon request. A notice of a proposed item of business must include a description of and the reasons for bringing the proposed business to the Annual Meeting, any material interest of the shareholder in the business and certain other information about the shareholder.

The Board and our management have not received notice of, and are not aware of, any business to come before the meeting other than the items we refer to in this proxy statement. If any other matter comes before the meeting, the named proxies will use their best judgment in voting the proxies.

It is very important that you read the applicable By-Law requirements carefully and comply with them. If you have any questions about these requirements, please contact Wendy B. Mahling, Corporate Secretary, Ameriprise Financial, Inc., by telephone at (612) 671-3603, by email at ampsecretaryofficemailbox@ampf.com, or by writing at 1098 Ameriprise Financial Center, Minneapolis, MN 55474.

Cost of Proxy Solicitation

We will pay the expenses of soliciting proxies. Our directors, officers or employees may solicit proxies on our behalf in person, or by mail, telephone and electronic transmission for no additional compensation. We have hired Morrow Sodali LLC to help us distribute and solicit proxies. We will pay Morrow Sodali LLC \$20,000 plus expenses for these services.

Mahling, Corporate Secretary, Ameriprise Financial, Inc., 1098 Ameriprise Financial Center, Minneapolis, Minnesota 55474, or by email at ampsecretaryofficemailbox@ampf.com. Any action or determination by the Committee specifically affecting or relating to an Award to a Director shall require the prior approval of the Board.

4.3 Prohibition Against Repricing. Notwithstanding Section 4.2 or any other provision of the Plan, except for adjustments pursuant to Section 13, the Committee shall not reprice, adjust or amend the exercise price of Options or the strike price of Stock Appreciation Rights previously awarded to any Participant, whether through amendment, cancellation and replacement grant, or any other means, unless such action is approved by the stockholders of the Company. For purposes of the Plan, the term “repricing” shall mean: (a) the reduction, directly or indirectly, in the per-Share price of an outstanding Option or Stock Appreciation Right by amendment, cancellation or substitution; (b) any action that is treated as a repricing under generally accepted accounting principles; (c) canceling an Option or Stock Appreciation Right in exchange for another Option, Stock Appreciation Right or other equity security (unless the cancellation and exchange occurs in connection with a merger, acquisition, or similar transaction); and (d) any other action that is treated as a repricing by the rules or regulations of any stock exchange on which the securities of the Company are traded. In addition, notwithstanding any other provision in the Plan to the contrary, an Option or a Stock Appreciation Right may not be surrendered in consideration of or exchanged for cash, other Awards, or a new Option or a Stock Appreciation Right having an exercise price below that of the Option or a Stock Appreciation Right which was

surrendered or exchanged, unless the exchange occurs in connection with an adjustment pursuant to Section 13 or a merger, acquisition, or similar transaction, or such action is approved by the stockholders of the Company. Any amendment or repeal of this Section 4.3 shall require the approval of the stockholders of the Company

4.4 Delegation. To the extent not inconsistent with applicable law, including the rules and regulations of the NYSE (or such other principal securities market on which the Shares are traded), the Committee may delegate to (a) committee of one or more directors of the Company any of the authority of the Committee under the Plan, including the right to grant, cancel or suspend Awards and (b) to the extent permitted by law, to one or more officers or a committee of officers the right to grant Awards to persons who are not executive officers (within the meaning of Rule 16a-1 under the Exchange Act) of the Company, subject to such restrictions and limitation as the Committee may specify. In no event, however, may the Committee delegate to another Board committee, one or more officers, or a committee of officers the authority to take any action or make any determination specifically affecting or relating to an Award to a Director.

4.5 Liability. No member of the Committee shall be liable for any action, omission, or determination relating to the Plan, and Ameriprise Financial shall indemnify and hold harmless each member of the Committee and each other director or employee of the Company to whom any duty or power relating to the administration or interpretation of the Plan has been delegated against any cost or expense (including counsel fees) or liability (including any sum paid in settlement of a claim with the approval of the Committee) arising out of any action, omission or determination relating to the Plan, unless, in either case, such action, omission or determination was taken or made by such member, director or employee in bad faith and without reasonable belief that it was in the best interests of the Company.

5. Eligibility

5.1 Eligible Participants. Any Employee, Director or independent contractor of the Company shall be eligible to be selected as a Participant and to receive Awards pursuant to the Plan.

5.2 Foreign Employees. Awards may be granted to Participants who are foreign nationals or employed outside the United States, or both, on such terms and conditions different from those applicable to Awards to Employees employed in the United States as may, in the judgment of the Committee, be necessary or desirable in order to recognize differences in local law or tax policy. The Committee also may impose conditions on the exercise or vesting of Awards in order to minimize the Company's obligation with respect to tax equalization for Employees on assignments outside their home country.

6. Options

6.1 Grant. Options may be granted under the Plan to Participants either alone or in addition to other Awards granted under the Plan.

6.2 Exercise Price. Other than in connection with Substitute Awards, the exercise price per each Share purchasable under any Option shall not be less than 100 percent of the Fair Market Value of a Share on the date of grant of such Option.

6.3 Term. The term of each Option shall be fixed by the Committee in its sole discretion; provided that no Option shall be exercisable after the expiration of ten years from the date the Option is granted, except in the event of death or disability. Except for (a) Substitute Awards, (b) Options granted to a person newly hired or retained to perform services for the Company, (c) Options granted in connection with the promotion of an Employee, (d) the death, disability, retirement or other termination of a Participant, (e) the occurrence of a corporate transaction (including, but not limited to, a Change in Control) to the extent permitted by Section 12.3, or (f) special circumstances determined by the Committee, Options may not be exercisable before the expiration of one year from the date the Option is granted.

6.4 Exercise.

(a) Vested Options granted under the Plan shall be exercised by the Participant as to all or part of the Shares covered thereby, by giving notice of exercise to the Company or its designated agent, specifying the number of Shares to be purchased. The notice of exercise shall be in such form, made in such manner, and in compliance with such other requirements consistent with the provisions of the Plan as the Committee may prescribe from time to time.

(b) Unless otherwise provided in an Award Agreement, full payment of such exercise price shall be made at the time of exercise and shall be made (i) in cash or cash equivalents (including certified check or bank check or wire transfer of immediately available funds), (ii) by tendering previously acquired Shares (either actually or by attestation, valued at their then Fair Market Value), (iii) with the consent of the Committee, by authorizing a third party to sell, on behalf of the Participant, the appropriate number of Shares otherwise issuable to the Participant upon the exercise of the Option and to remit to the Company a sufficient portion of the sale proceeds to pay the entire exercise price and the applicable tax withholding resulting from such exercise, (iv) with the consent of the Committee, by withholding Shares otherwise issuable in connection with the exercise of the Option, (v) through any other method specified in an Award Agreement, or (vi) any combination of any of the foregoing. In no event may any Option granted under the Plan be exercised for a fraction of a Share. No adjustment shall be made for cash dividends or other rights for which the record date is prior to the date of such issuance.

6.5 Incentive Stock Options. The Committee may grant Options intended to qualify as "incentive stock options" as defined in Section 422 of the Code, to any Employee of Ameriprise Financial or a "subsidiary corporation" as defined in Section 424(f) of

the Code, subject to the requirements of Section 422 of the Code. The Award Agreement evidencing the award of an “incentive stock option” shall clearly identify such Option as an “incentive stock option” within the meaning of Section 422 of the Code. Solely for purposes of determining whether Shares are available for the grant of “incentive stock options” under the Plan, the maximum aggregate number of Shares that may be issued pursuant to “incentive stock options” granted under the Plan shall be the total number of Shares authorized for issuance under Section 3.1(a) of the Plan (but without regard to the operation of Section 3.1(c)), subject to adjustments provided in Section 13.

7. Stock Appreciation Rights

7.1 Grant. Stock Appreciation Rights may be granted under the Plan to Participants (a) in conjunction with all or part of any Option granted under the Plan or at any subsequent time during the term of such Option, (b) in conjunction with all or part of any Award (other than an Option) granted under the Plan or at any subsequent time during the term of such Award, or (c) without regard to any Option or other Award in each case upon such terms and conditions as the Committee may establish in its sole discretion.

7.2 Strike Price. Other than in connection with Substitute Awards, the per-Share strike price under any Stock Appreciation Right shall not be less than 100 percent of the Fair Market Value of a Share on the date of grant of such Stock Appreciation Right (subject to the requirements of Section 409A of the Code with respect to a Stock Appreciation Right granted in conjunction with, but subsequent to, an Option).

7.3 Term. The term of each Stock Appreciation Right shall be fixed by the Committee in its sole discretion; provided that no Stock Appreciation Right shall be exercisable after the expiration of ten years from the date the Stock Appreciation Right is granted, except in the event of death or disability. Except for (a) Substitute Awards, (b) Stock Appreciation Rights granted to a person newly hired or retained to perform services for the Company, (c) Stock Appreciation Rights granted in connection with the promotion of an Employee, (d) the death, disability, retirement or other termination of a Participant, (e) the occurrence of a corporate transaction (including, but not limited to, a Change in Control) to the extent permitted by Section 12.3, or (f) special circumstances determined by the Committee, Stock Appreciation Rights may not be exercisable before the expiration of one year from the date the Option is granted. The Committee may impose such terms and conditions on Stock Appreciation Rights granted in conjunction with any Award (other than an Option) as the Committee shall determine in its sole discretion.

7.4 Exercise.

(a) Vested Stock Appreciation Rights granted under the Plan shall be exercised by the Participant as to all or part of the Shares covered thereby, by giving notice of exercise to the Company or its designated agent, specifying the number of Shares covered thereby to which the Stock Appreciation Right is exercised. The notice of exercise shall be in such form, made in such manner, and in compliance with such other requirements consistent with the provisions of the Plan as the Committee may prescribe from time to time. In no event may any Stock Appreciation Right granted under the Plan be exercised for a fraction of a Share.

(b) Upon the exercise of a Stock Appreciation Right, the holder shall have the right to receive the excess of (i) the Fair Market Value of one Share on the date of exercise over (ii) the strike price of the Stock Appreciation Right. The Committee shall determine in its sole discretion whether payment shall be made in cash, in whole Shares or other property, or any combination thereof.

8. Restricted Stock, Restricted Stock Units and Other Share-Based Awards

8.1 Grant. Awards of Restricted Stock and of Restricted Stock Units and Other Share-Based Awards may be granted under the Plan to Participants either alone or in addition to other Awards granted under the Plan, and such Awards of Restricted Stock and Restricted Stock Units and Other Share-Based Awards shall also be available as a form of payment of Performance Awards and other earned cash-based incentive compensation. An Award of Restricted Stock or Restricted Stock Units or Other Share-Based Awards shall be subject to vesting restrictions imposed by the Committee covering the Vesting Period. The Committee has absolute discretion to determine whether any consideration (other than services) is to be received by the Company as a condition precedent to the issuance of Restricted Stock, Restricted Stock Units or Other Share-Based Award.

8.2 Term. Except for (a) Substitute Awards, (b) Awards of Restricted Stock or Restricted Stock Units or Other Share-Based Awards granted to a person newly hired or retained to perform services for the Company (including grants to new hires to replace forfeited awards from a prior employer), (c) Awards of Restricted Stock or Restricted Stock Units or Other Share-Based Awards granted in connection with the promotion of an Employee, (d) the death, disability, retirement or other termination of a Participant, (e) the occurrence of a corporate transaction (including, but not limited to, a Change in Control) to the extent permitted by Section 12.3, (f) Awards of Restricted Stock or Restricted Stock Units or Other Share-Based Awards granted in payment of Performance Awards and other earned cash-based incentive compensation, (g) Awards of Restricted Stock or Restricted Stock Units or Other Share-Based Awards granted as Payment Shares, or (h) special circumstances determined by the Committee, Awards of Restricted Stock and Restricted Stock Units and Other Share-Based Awards shall have a Vesting Period of not less than one year from the date of grant. Subject to the foregoing minimum Vesting Period requirements, the Committee may, in its sole discretion, waive the forfeiture period and any other conditions set forth in any Award Agreement subject to such terms and conditions as the Committee shall deem appropriate. The minimum Vesting Period requirements of this Section

shall not apply to Awards of Restricted Stock or Restricted Stock Units or Other Share-Based Awards granted to Directors or any consultant or advisor who provides services to the Company.

8.3 Rights of Holders. Unless otherwise provided in the Award Agreement, beginning on the date of grant of an Award of Restricted Stock, the Participant shall become a stockholder of the Company with respect to all Shares subject to the Award and shall have all of the rights of a stockholder, including the right to vote such Shares and the right to receive distributions made with respect to such Shares. A Participant receiving an Award of Restricted Stock Units or Other Share-Based Award shall not possess voting rights with respect to such Award. Except as otherwise provided in an Award Agreement, any Shares or any other property (other than cash) distributed as a dividend or otherwise with respect to any Award of Restricted Stock or Restricted Stock Units or Other Share-Based Award as to which the restrictions have not yet lapsed shall be subject to the same restrictions as such Award of Restricted Stock or Restricted Stock Units or Other Share-Based Award.

8.4 Payment. Except as may be provided in an Award Agreement, Other Share-Based Awards may be paid in cash, Shares, other property, or any combination thereof, in the sole discretion of the Committee. Other Share-Based Awards may be paid in a lump sum or in installments or, in accordance with procedures established by the Committee, on a deferred basis subject to the requirements of Section 409A of the Code.

9. Performance Awards

9.1 Grant. Performance Awards may be granted under the Plan to Participants, for no consideration or for such minimum consideration as may be required by applicable law, either alone or in addition to other Awards granted under the Plan.

9.2 Terms and Conditions. The performance criteria to be achieved during any Performance Period and the length of the Performance Period shall be determined by the Committee upon the grant of each Performance Award; provided, however, that a Performance Period shall not be shorter than one year. The performance goals to be achieved for each Performance Period shall be conclusively determined by the Committee.

9.3 Payment. Except as may otherwise be provided in an Award Agreement, Performance Awards will be paid only after the end of the relevant Performance Period. The amount of the Award to be paid shall be conclusively determined by the Committee. Performance Awards may be paid in cash, Shares, other property, or any combination thereof, in the sole discretion of the Committee. Performance Awards may be paid in a lump sum or in installments following the close of the Performance Period or, in accordance with procedures established by the Committee, on a deferred basis, subject to the requirements of Section 409A of the Code.

10. [Intentionally Omitted]

11. Generally Applicable Award Provisions

11.1 Award Agreement. Each Award granted under the Plan shall be evidenced by an Award Agreement in such form and containing such terms and conditions as the Committee shall determine which are not inconsistent with the provisions of the Plan.

11.2 Award Terms May Vary by Participant. The terms of Awards need not be the same with respect to each Participant.

11.3 No Obligation to Exercise. The grant of an Award to a Participant under the Plan shall impose no obligation upon such Participant to exercise such Award.

11.4 No Right to Continued Employment or Service. Nothing contained in the Plan or any Award shall confer upon any Participant any right with respect to the continuation of his employment by or service to the Company or interfere in any way with the right of the Company at any time to terminate such employment or service or to increase or decrease the compensation of the Participant from the rate in existence at the time of the grant of an Award.

11.5 Nontransferability. Awards granted under the Plan may not be sold, pledged, hypothecated, assigned, margined or otherwise transferred in any manner other than by will or the laws of descent and distribution, unless and until the Shares underlying such Award have been issued, and all restrictions applicable to such Shares have lapsed or have otherwise been waived by the Committee. No Award or interest or right therein shall be subject to the debts, contracts or engagements of a Participant or his or her successors in interest or shall be subject to disposition by transfer, alienation, anticipation, pledge, encumbrance, assignment or any other means whether such disposition be voluntary or involuntary or by operation of law, by judgment, lien, levy, attachment, garnishment or any other legal or equitable proceedings (including bankruptcy and divorce), and any attempted disposition thereof shall be null and void, of no effect, and not binding on the Company in any way.

11.6 Termination of Employment. The Committee shall determine and set forth in each Award Agreement whether any Awards granted in such Award Agreement will vest, continue to vest, continue to be exercisable, and the terms of such vesting or exercise, on and after the date that a Participant ceases to be employed by or to provide services to the Company (including as a Director), whether by reason of death, disability, voluntary or involuntary termination of employment or services, or otherwise. The date of termination of a Participant's employment or services will be determined by the Committee, which determination will be final.

11.7 Dividend Equivalents. Subject to the provisions of the Plan and any Award Agreement, the recipient of an Award (other than an Option or Stock Appreciation Right) may, if so determined by the Committee, be entitled to receive, currently or on a deferred basis, cash, stock or other property dividends, or cash payments in amounts equivalent to cash, stock or other property dividends on Shares ("Dividend Equivalents") with respect to the number of Shares covered by the Award, as determined by the Committee, in its sole discretion. The Committee may provide that such amounts and Dividend Equivalents (if any) shall be deemed to have been reinvested in additional Shares or otherwise reinvested and may provide that such amounts and Dividend Equivalents are subject to the same vesting or performance conditions as the underlying Award. In no event, however, shall dividends or Dividend Equivalents be paid to any recipient of a Performance Award or other Award subject to performance conditions until and only to the extent that the Award is earned.

11.8 Tax Withholding. The Company shall have the right to make all payments or distributions pursuant to the Plan to a Participant net of any applicable federal, state and local taxes required to be paid or withheld as a result of (a) the grant of any Award, (b) the exercise of an Option or Stock Appreciation Right, (c) the delivery of Shares or cash, (d) the lapse of any restrictions in connection with any Award or (e) any other event occurring pursuant to the Plan. The Company shall have the right to withhold from wages or other amounts otherwise payable to such Participant such withholding taxes as may be required by law, or to otherwise require the Participant to pay such withholding taxes. If the Participant shall fail to make such tax payments as are required, the Company shall, to the extent permitted by law, have the right to deduct any such taxes from any payment of any kind otherwise due to such Participant or to take such other action as may be necessary to satisfy such withholding obligations. The Committee shall be authorized to establish procedures for election by Participants to satisfy such obligation for the payment of such taxes by tendering previously acquired Shares (either actually or by attestation, valued at their then Fair Market Value), or by directing the Company to retain Shares (up to the Participant's maximum statutory tax withholding rate or such other rate that will not trigger a negative accounting impact) otherwise deliverable in connection with the Award.

11.9 Recoupment of Incentive Compensation. Notwithstanding any other provisions in the Plan, any Award which is subject to recovery under any law, government regulation, stock exchange listing requirement or recoupment policy adopted by the Company will be subject to such deductions and clawback as may be required to be made pursuant to such law, government regulation, stock exchange listing requirement or recoupment policy adopted by the Company (including a policy adopted by the Company in response to any such law, government regulation or stock exchange listing requirement).

11.10 Automatic Exercise. The Committee, in its sole discretion, may provide in an Award Agreement or otherwise that any Option or Stock Appreciation Right outstanding on the last business day of the term of such Option or Stock Appreciation Right with an exercise or strike price per Share that is less than the Fair Market Value of a Share as of such date shall automatically and without further action by the Participant (or, in the event of Participant's death, Participant's personal representative or estate) or the Company be exercised on the last business day of the term of such Option or Stock Appreciation Right if the Committee, in its sole discretion, determines that such exercise would provide economic benefit to the Participant after payment of the exercise price, applicable taxes and any expenses to effect the exercise. In the sole discretion of the Committee, payment of the exercise price of any Option may be made pursuant to Section 6.4(b)(iii) or (iv), and the Company may deduct or withhold an amount sufficient to satisfy all taxes associated with such exercise in accordance with Section 11.8. Unless otherwise determined by the Committee, this Section shall not apply to an Option if the Participant of such Option incurs a termination of employment or service on or before the last business day of the term of such Option or Stock Appreciation Right.

11.11 Data Protection. By participating in the Plan, a Participant consents to the collection, processing, transmission and storage by the Company in any form whatsoever, of any data of a professional or personal nature which is necessary for the purposes of administering the Plan. The Company may share such information with any Subsidiary, trustees, brokers, other third-party administrator or any Person who obtains control of the Company or acquires the Company or a Subsidiary which employs the Participant.

12. Change in Control

12.1 For purposes of the Plan and any Award Agreement, "Change in Control" means the occurrence of any of the following:

(a) any Person becoming the beneficial owner (within the meaning of Rule 13d-3 promulgated under the Exchange Act, a "Beneficial Owner") of 25 percent or more of the combined voting power of Voting Securities; provided, however that a Change in Control shall not be deemed to occur by reason of an acquisition of Voting Securities by the Company or by an employee benefit plan (or a trust forming a part thereof) maintained by the Company; and provided, further that a Change in Control shall not be deemed to occur solely because any Person becomes the Beneficial Owner of 25 percent or more of the outstanding Voting Securities as a result of the acquisition of Voting Securities by the Company which, by reducing the number of Voting Securities deemed to be outstanding, increases the proportional number of shares Beneficially Owned by such Person, except that a Change in Control shall occur if a Change in Control would have occurred (but for the operation of this proviso) as a result of the acquisition of Voting Securities by the Company, and after such acquisition such Person becomes the Beneficial Owner of any additional Voting Securities following which such Person is the Beneficial Owner of 25 percent or more of the outstanding Voting Securities;

(b) the individuals who, as of April 26, 2023, are members of the Board (the “Incumbent Board”), cease for any reason to constitute at least a majority of the members of the Board within any 12-month period; provided, however that if the election or appointment, or nomination for election by Ameriprise Financial’s common stockholders, of any new director was approved by a vote of at least two-thirds of the Incumbent Board, such new director shall, for purposes of the Plan, thereafter be considered as a member of the Incumbent Board; provided further, however, that no individual shall be considered a member of the Incumbent Board if such individual initially assumed office as a result of an actual or threatened solicitation of proxies or consents by or on behalf of a Person other than the Board (a “Proxy Contest”) including by reason of any agreement intended to avoid or settle any Proxy Contest; or

(c) the consummation of:

(i) a merger, consolidation, reorganization or similar transaction (any of the foregoing, a “Business Combination”) with or into Ameriprise Financial or in which securities of Ameriprise Financial are issued, unless such Business Combination is a Non-Control Transaction;

(ii) a complete liquidation or dissolution of the Company; or

(iii) the sale or other disposition of all or substantially all of the assets of the Company (on a consolidated basis) to any Person other than the Company or an employee benefit plan (or a trust forming a part thereof) maintained by the Company or by a Person which, immediately thereafter, will have all its voting securities owned by the holders of the Voting Securities immediately prior thereto, in substantially the same proportions.

Notwithstanding the foregoing, payment of an Award may not be accelerated as a result of a Change in Control unless such Change in Control constitutes a “change in the ownership or effective control,” or a “change in the ownership of a substantial portion of the assets,” of Ameriprise Financial, in each case within the meaning of Section 409A(2)(A)(v) of the Code, if the acceleration of payment would cause the tax consequences set forth in Section 409A(a)(1) of the Code to apply to such Awards.

12.2 “Non-Control Transaction” means a Business Combination involving Ameriprise Financial where:

(a) the holders of Voting Securities immediately before such Business Combination own, directly or indirectly immediately following such Business Combination more than fifty percent of the combined voting power of the outstanding voting securities of the parent corporation resulting from, or issuing its voting securities as part of, such Business Combination (the “Surviving Corporation”) in substantially the same proportion as their ownership of the Voting Securities immediately before such Business Combination by reason of their prior ownership of Voting Securities;

(b) the individuals who were members of the Incumbent Board immediately prior to the execution of the agreement providing for such Business Combination constitute a majority of the members of the board of directors of the Surviving Corporation, or a corporation beneficially owning a majority of the voting securities of the Surviving Corporation; and

(c) no Person other than the Company or any employee benefit plan (or any trust forming a part thereof) maintained immediately prior to such Business Combination by the Company, is a Beneficial Owner of 25 percent or more of the combined voting power of the Surviving Corporation’s voting securities outstanding immediately following such Business Combination.

12.3 Change in Control.

(a) In the event of a Change in Control, except as otherwise provided by Section 12.3(b) or as otherwise provided by the Committee prior to a Change in Control including in any applicable Award Agreement, outstanding Awards will immediately vest in the event that a Participant’s employment is terminated on or during the two-year period following the Change in Control in a manner that entitles the Participant to severance under the severance plan of the Company covering the Participant. With respect to any Award granted under the Plan that is earned or vested based upon achievement of performance objectives, the Committee shall determine the degree of performance obtained as of the date of such termination of employment as if the applicable performance period had ended on such date, based on results against the performance measures up to the last day of the calendar quarter ending on or immediately prior to such date, and prorated based on (i) the total number of full and partial months of the applicable performance period that have elapsed between (1) the first day of the performance period and (2) the date of the termination of employment, divided by (ii) the number of full months in the applicable performance period.

(b) Notwithstanding any other provision of the Plan, unless otherwise provided by the Committee prior to a Change in Control, including in any applicable Award Agreement, in the event of a Change in Control, any outstanding Award granted on or after April 26, 2023, that is not assumed, continued or substituted by the acquiror or the surviving entity in connection with such Change in Control shall become fully vested and immediately exercisable or transferable to the full extent of the original grant as promptly as is practicable on or following the Change in Control; provided, however, that in the event that a Change in Control does not constitute a “change in the ownership or effective control” or a “change in the ownership of a substantial portion of the assets” of Ameriprise Financial, in each case within the meaning of Section 409A(2)(A)(v) of the Code, the Awards shall not be payable until the date such Awards would have been payable in the absence of this Section 12.3(b) if the

acceleration of such payment would cause tax consequences set forth in Section 409A(a)(1) of the Code to apply to such Awards. With respect to any outstanding Award granted under the Plan on or after April 26, 2023 that is earned or vested based upon achievement of performance objectives, any amount deemed earned or vested in connection with a Change in Control pursuant to this Section 12.3(b) shall be based upon the degree of performance attained through a date prior to the Change in Control determined by the Committee or prorated.

13. Anti-Dilution Adjustments

In the event of any change in the outstanding Shares by reason of any stock split, stock dividend, split-up, split-off, spin-off, recapitalization, merger, consolidation, rights offering, reorganization, combination, subdivision or exchange of shares, a sale by Ameriprise Financial of all or part of its assets, any distribution to stockholders other than a normal cash dividend, or other extraordinary or unusual event, the Committee shall make such adjustment in: (a) the class and aggregate number of shares that may be delivered under the Plan as described in Section 3.1(a); (b) the class and aggregate number of shares that may be delivered under the Plan as Awards other than Options or Stock Appreciation Rights described in Section 3.1(a); (c) the class and aggregate number of shares that may be delivered under the Plan as “incentive stock options” as described in Section 6.5; (d) the class, number and exercise/strike price of outstanding Options and Stock Appreciation Rights; and (e) the class and number of shares subject to any other Awards granted under the Plan (provided that the number of shares of any class subject to Awards shall always be a whole number), as may be determined to be appropriate by the Committee, and such adjustments shall be final, conclusive and binding for all purposes of the Plan. With respect to Awards subject to Section 409A of the Code, any adjustments or substitutions under this Section 13 shall conform to the requirements of Section 409A of the Code.

14. Amendment and Termination

14.1 Board Authority to Amend or Terminate the Plan. The Board may, from time to time, alter, amend, suspend or terminate the Plan as it shall deem advisable, subject to any requirement for stockholder approval imposed by applicable law, including the rules and regulations of the principal securities market on which the Shares are traded; provided that the Board may not amend the Plan in any manner that would result in noncompliance with Rule 16b-3 of the Exchange Act; and further provided that the Board may not, without the approval of the Company's stockholders amend the Plan to (a) increase the number of Shares that may be the subject of Awards under the Plan (except for adjustments pursuant to Section 13), (b) expand the types of Awards available under the Plan, (c) materially expand the class of persons eligible to participate in the Plan, (d) amend any provision of Section 4.3, 6.2 or 7.2, or (e) increase the maximum permissible term of any Option specified by Section 6.3 or the maximum permissible term of a Stock Appreciation Right specified by Section 7.3. Except as otherwise provided by Section 3.1(f), nothing in the Plan shall limit the right of the Company to pay compensation of any kind outside the terms of the Plan.

14.2 Effect of Amendment or Termination on Outstanding Awards. Except as expressly provided in the Plan, no action under Section 14.1 may, without the consent of a Participant, reduce in any material respect the Participant's rights under any previously granted and outstanding Award.

14.3 Savings Clause. No provision of this Section 14 shall be given effect to the extent that such provision would cause any tax to become due under Section 409A of the Code.

15. Miscellaneous

15.1 No Right to Awards. No person shall have any claim or right to receive an Award under the Plan. The Committee's granting of an Award to a Participant at any time shall neither require the Committee to grant an Award to such Participant or any other Participant or other person at any time nor preclude the Committee from making subsequent grants to such Participant or any other Participant or other person.

15.2 Rights as a Stockholder. Unless the Committee determines otherwise, a Participant shall not have any rights as a stockholder with respect to Shares covered by an Award until the date the Participant becomes the holder of record with respect to such Shares. No adjustment will be made for dividends or other rights for which the record date is prior to such date, except as provided in Section 11.7.

15.3 Unfunded Plan. Unless otherwise determined by the Committee, the Plan shall be unfunded and shall not create (or be construed to create) a trust or a separate fund or funds. The Plan shall not establish any fiduciary relationship between the Company and any Participant or other person. To the extent any Participant holds any rights by virtue of an Award granted under the Plan, such rights shall constitute general unsecured liabilities of the Company and shall not confer upon any Participant or any other person or entity any right, title, or interest in any assets of the Company.

15.4 Compliance with Section 409A of the Code. The Awards granted under the Plan are intended to comply with or qualify for an exemption from Section 409A of the Code, and shall be administered, construed and interpreted in accordance with such intent. To the extent that an Award or the payment, settlement or deferral thereof is subject to Section 409A of the Code, the Award shall be granted, paid, settled or deferred in a manner that will comply with Section 409A of the Code, including regulations or other guidance issued with respect thereto, except as otherwise determined by the Committee. Notwithstanding the foregoing, the Company makes no representation that Awards granted under the Plan comply with or qualify for an exemption

from Section 409A of the Code and in no event shall the Company be liable for all or any portion of any taxes, penalties, interest or other expenses that may be incurred by a Participant on account of noncompliance with Section 409A of the Code.

15.5 Expenses and Receipts. The expenses of the Plan shall be paid by Ameriprise Financial. Any proceeds received by Ameriprise Financial in connection with any Award will be used for general corporate purposes.

15.6 Captions. The captions in the Plan are for convenience of reference only, and are not intended to narrow, limit or affect the substance or interpretation of the provisions contained herein.

15.7 Severability. If any provision of the Plan shall be held unlawful or otherwise invalid or unenforceable in whole or in part by a court of competent jurisdiction, such provision shall (a) be deemed limited to the extent that such court of competent jurisdiction deems it lawful, valid and/or enforceable and as so limited shall remain in full force and effect, and (b) not affect any other provision of the Plan or part thereof, each of which shall remain in full force and effect. If the making of any payment or the provision of any other benefit required under the Plan shall be held unlawful or otherwise invalid or unenforceable by a court of competent jurisdiction, such unlawfulness, invalidity or unenforceability shall not prevent any other payment or benefit from being made or provided under the Plan, and if the making of any payment in full or the provision of any other benefit required under the Plan in full would be unlawful or otherwise invalid or unenforceable, then such unlawfulness, invalidity or unenforceability shall not prevent such payment or benefit from being made or provided in part, to the extent that it would not be unlawful, invalid or unenforceable, and the maximum payment or benefit that would not be unlawful, invalid or unenforceable shall be made or provided under the Plan.

15.8 Governing Law. The Plan and the rights of all persons under the Plan shall be construed and administered in accordance with the laws of the State of Delaware, without regard to its conflict of law principles. All Participants agree to submit to the jurisdiction of the state and federal courts of Minnesota with respect to matters relating to the Plan and agree not to raise or assert the defense that such forum is not convenient for such Participant.

15.9 Arbitration. Any dispute, claim or controversy that may arise between a Participant and the Company or any other person (the "Claims") under the Plan is subject to arbitration, unless otherwise agreed to in writing by the Participant and the Company. The Claims shall be finally decided by arbitration conducted pursuant to the Commercial Dispute Resolution Procedures of the American Arbitration Association (the "AAA"), its Supplementary Rules for Securities Arbitration, or other applicable rules promulgated by the AAA, including but not limited to its Supplementary Rules for Multiple Case Filings. In addition, all claims, statutory or otherwise, which allege discrimination or other violation of employment laws, including but not limited to claims of sexual harassment, shall be finally decided by arbitration pursuant to the AAA unless otherwise agreed to in writing by a Participant and the Company. By agreement of a Participant and the Company in writing, disputes may be resolved in arbitration by a mutually agreed-upon organization other than the AAA. In consideration of the promises and the compensation provided in this Plan, neither a Participant nor the Company shall have a right: (a) to arbitrate a Claim on a class action basis or in a purported representative capacity on behalf of any Participants, employees, applicants or other persons similarly situated; (b) to join or to consolidate in an arbitration Claims brought by or against another Participant, employee, applicant or the Participant, unless otherwise agreed to in writing by the Participant and the Company; (c) to litigate any Claims in court or to have a jury trial on any Claims; and (d) to participate in a representative capacity or as a member of any class of claimants in an action in a court of law pertaining to any Claims. Either a Participant or the Company may compel arbitration of any Claims filed in a court of law. In addition, either a Participant or the Company may apply to a court of law for an injunction to enforce the terms of the Plan pending a final decision on the merits by an arbitration panel pursuant to this provision. The Company shall pay all fees, costs or other charges charged by the AAA or any other organization administering arbitration proceeding agreed upon pursuant to this Section 14.9 that are above and beyond the filing fees of the federal or state court in the jurisdiction in which the dispute arises, whichever is less. A Participant or the Company shall each be responsible for their own costs of legal representation, if any, except where such costs of legal representation may be awarded as a statutory remedy by the arbitrator. Any award by an arbitration panel shall be final and binding upon a Participant or the Company. Judgment upon the award may be entered by any court having jurisdiction thereof or having jurisdiction over the relevant party or its assets. This provision is covered and enforceable under the terms of the Federal Arbitration Act.
