LETTER TO THE SHAREHOLDERS

George C. Zoley,

Chairman of the Board,
Chief Executive Officer & Founder

During 2013, our company achieved several significant milestones and our financial performance reached new highs driven by strong operational results from our diversified business units. We began the year having achieved the historic milestone of becoming the first fully-integrated, equity real estate investment trust (REIT) in our industry, and we have taken a number of important steps to position our company for continued growth, strengthen our balance sheet, and increasingly return more value to our shareholders.

Now as a REIT, we are required to distribute at least 90% of our taxable income in the form of dividends. The first quarter dividend was $0.50 per share and increased to $0.55 per share for the fourth quarter.

Two-thousand and thirteen also marked the 30th year of operation for our company, which began as a corporate subsidiary of The Wackenhut Corporation in 1984. Since that time, our company has grown to become the world's leading provider of diversified correctional, detention, community reentry, and electronic monitoring services with a growing portfolio of company-owned and/or managed assets totaling 98 facilities, approximately 77,000 beds, and more than 15 million square feet, including projects under development.

Continued Organic Growth

During the year, we continued to add to our diversified portfolio of correctional, detention, and community reentry facilities and services. Our GEO Corrections & Detention business unit received several new contract awards totaling approximately 6,150 beds which are expected to generate more than $100 million in annualized revenues.

Among these important awards were contracts for the reactivation of our company-owned Central Valley Modified Community Correctional Facility and Desert View Modified Community Correctional Facility in California, each totaling 700 beds; a new long-term contract for our Golden State Modified Community Correctional Facility in California, which expanded the facility's contract capacity from 600 to 700 beds; three contracts for the management of the Graceville, Moore Haven, and Bay Correctional Facilities in Florida, totaling 3,854 beds; an agreement for the development and operation of a new company-owned transfer center in Alexandria, Louisiana, totaling 400 beds; and a contract capacity expansion at our company-owned Rio Grande Detention Center in Texas from 1,500 to 1,900 beds.

Additionally during the second quarter 2013, we completed the acquisition of the Joe Corley Detention Center from Montgomery County, Texas for $65 million dollars. Our company already managed the Center which houses federal detainees for the U.S. Marshals Service and U.S. Immigration and Customs Enforcement. This important transaction allowed us to secure the

long-term benefit of this contract with returns on investment consistent with our company-owned facilities and further positioned us to pursue expansion opportunities given the ongoing need for federal detention bed space in this region of the country.

Our GEO Community Services business unit added more than $18 million dollars in annualized revenues during 2013 through the expansion of our company-owned Cordova Reentry Center in Alaska; the activation of 12 new day reporting centers in California, Pennsylvania and other states and several new electronic monitoring contracts across the United States.

Transactions Strengthened Balance Sheet

As we pursued growth opportunities throughout the year, we also took a number of important steps to strengthen an already strong balance sheet. In March 2013, we issued $300 million in new ten-year senior unsecured notes bearing interest at 5⅛%, a historically low rate for our company. We used the net proceeds from this offering to refinance our $1.0 billion senior credit facility, which is now comprised of a $300 million term loan and a $700 million revolving credit facility. This important transaction resulted in a more flexible debt structure, which allowed us to eliminate more than $25 million in annual mandatory debt payments, significantly increasing our funds available for distribution to shareholders.

Additionally during the fourth quarter 2013, we issued $250 million in nine-year senior unsecured notes bearing interest at 5⅞%, and we used the net proceeds from this offering and cash-on-hand to purchase and redeem $250 million in existing 7¾% senior unsecured notes which were due 2017, resulting in significant interest expense savings for our company. We also completed the defeasance of non-recourse bonds associated with our company-owned South Texas Detention Complex for approximately $2.5 million, net of cash reserves. This transaction allowed us to save approximately $5.5 million in annual principal debt payments.

Financial Performance and Shareholder Value Creation

All these important milestones have continued to drive strong operational and financial performance for our company and have given us additional flexibility to increasingly return value to our shareholders. During 2013, our total revenues increased to $1.52 billion from $1.48 billion a year ago, and we reported annual net income of $115.1 million and adjusted EBITDA of $304.8 million. Our Normalized Funds From Operations increased 26.9% to $167.7 million, and our Adjusted Funds From Operations increased 34.8% to $205.3 million.

The continued robust operational and financial performance of our diversified business units allowed us to increase our quarterly dividend payments to shareholders throughout the year. Following our conversion to a real estate investment trust in the beginning of the year, we more than doubled our quarterly dividend payment from $0.20 to $0.50 per share of common stock, and as a result of the significant steps we took to continue to grow our company organically and solidify our balance sheet, we were able to again increase our quarterly dividend payment by 10% to $0.55 per share of common stock (or $2.20 per share annually) during the fourth quarter 2013.

As we look back at the significant milestones our company achieved during 2013, we also celebrate the completion of three decades of operational excellence and industry leadership. Since its founding in 1984, our company has developed high-quality, cost-efficient partnerships with government agencies around the world, becoming the world's leading provider of diversified correctional, detention, community reentry, and electronic monitoring services.

Celebrating 30 Years of Operational Excellence

As we look back at the significant milestones our company achieved during 2013, we also celebrate the completion of three decades of operational excellence and industry leadership. Since its founding in 1984, our company has developed high-quality, cost-efficient partnerships with government agencies around the world, becoming the world's leading provider of diversified correctional, detention, community reentry, and electronic monitoring services with a budding workforce of 18,000 dedicated professionals and leadership positions in all the key market segments in our industry. With a robust portfolio of diversified company-owned assets, growing cash flows, and a strengthened balance sheet, our company is poised to continue to capture new growth opportunities and create value for our shareholders.

GEO CORRECTIONS & DETENTION

GEO Corrections & Detention ®

72,744
Beds

66
Correctional & Detention Facilities Worldwide

Established in 1984, GEO Corrections & Detention provides secure corrections and detention management services as well as secure offender transportation services to government clients in the United States and Internationally. Worldwide, GEO Corrections & Detention oversees the operation and management of approximately 73,000 beds in 66 correctional and detention facilities.

U.S. Corrections and Detention

GEO's U.S. Corrections and Detention division oversees the operation and management of approximately 65,500 beds in 59 correctional and detention facilities, which represents the sixth largest correctional system in the United States. GEO's U.S. Corrections & Detention division provides services on behalf of the Federal Bureau of Prisons, U.S. Marshals Service, U.S. Immigration and Customs Enforcement as well as 10 state correctional clients and various county and city jurisdictions.

During 2013, GEO's U.S. Corrections & Detention division received several new contract awards totaling approximately 6,150 beds. Among these important awards were contracts for the reactivation of the 700-bed Central Valley Modified Community Correctional Facility and the 700-bed Desert View Modified Community Correctional Facility in California; a new contract for the Golden State Modified Community Correctional Facility in California, which expanded the facility's contract capacity from 600 to 700 beds; three contracts for the management of the 1884-bed Graceville Correctional Facility, the 985-bed Moore Haven Correctional Facility, and the 985-bed Bay Correctional Facility in Florida; an agreement for the development and operation of a new 400-bed transfer center in Alexandria, Louisiana; and a contract capacity expansion at the Rio Grande Detention Center in Texas from 1,500 to 1,900 beds.

The daily oversight of GEO's U.S. Corrections & Detention facilities is coordinated from three regional offices located in Charlotte, North Carolina; San Antonio, Texas; and Los Angeles, California. Each regional operating structure is headed by a Regional Vice President who oversees approximately two dozen experts in security, medical, financial, contract compliance, human resources and other support services. This regional operating structure enables GEO to implement superior quality controls, develop personalized professional relationships, and ensure the delivery of a full complement of high quality services, including:

- **Secure custody services**
- **Correctional health and mental health care**
- **Food services**
- **Academic and vocational programming**
- **Rehabilitation treatment**
- **Facility maintenance**

INTERNATIONAL SERVICES

The GEO Group UK,
London, England

The GEO Group Australia,
Sydney, Australia

South African Custodial Management,
Johannesburg, South Africa

GEO's International Services division provides correctional and detention services for government clients in the United Kingdom, Australia, and South Africa managing seven correctional and detention facilities encompassing approximately 7,200 beds. Through wholly-owned subsidiary and joint-venture companies, GEO's International Services division provides correctional solutions that are fully customizable and tailored to each government client's requirements and standards.

The GEO Group UK, headquartered in London, England, provides correctional and detention management, prisoner transportation, court custody and escort, community based, and youth justice services for government clients in the United Kingdom. GEO UK manages the 620-bed Harmondsworth Immigration Removal Centre and the 249-bed Dungavel House Immigration Removal Centre in England. Additionally, GEO's U.K. joint venture, GEOAmey PECS Ltd., contracts with the Ministry of Justice for the provision of prison escort and custody services in England and Wales with oversight for close to 500 secure transportation vehicles and approximately 2,600 daily offender movements.

The GEO Group Australia, headquartered in Sydney, Australia, plays a key role in helping meet the need for correctional bed space in Australia. The GEO Group Australia provides management services at four correctional and remand centers with approximately 3,300 beds in the states of New South Wales, Queensland, and Victoria.

South African Custodial Management, headquartered in Johannesburg, South Africa, provides secure correctional management services for the Department of Correctional Services and has played an integral role in helping the South African government meet its correctional needs. South African Custodial Management operates the 3,024-bed Kutama Sinthumule Correctional Centre.

Day Reporting Centers

GEO Community Services oversees the operation of GEO's community reentry facilities, day reporting centers, and youth services facilities along with the provision of electronic monitoring services to governmental agencies across the United States. Through the delivery of high-quality, innovative, and effective programs, GEO Community has established itself as the premier provider of diversified community corrections and treatment services.

GEO Community's diversified business divisions have leading market positions in the operation of community-based reentry programs; rehabilitation services for youthful offenders; and supervision services for offenders in the community through cutting-edge electronic monitoring technologies. GEO Community Services added more than $18 million dollars in annualized revenues during 2013 through the expansion of the company-owned Cordova Reentry Center in Alaska; the activation of 12 new day reporting centers in California, Pennsylvania and other states; and several new electronic monitoring contracts across the United States.

Reentry Services

GEO Community's Reentry Services division provides offenders, nearing the end of their sentence, with the resources necessary to productively transition back into society. Through 20 residential reentry centers, GEO Care provides approximately 2,800 federal and state parolees and probationers with temporary housing, employment assistance, rehabilitation and substance abuse counseling, and vocational and education programs.

GEO Community is also able to offer additional reentry and supervision services through full service evidence-based cognitive behavioral treatment programs at 54 day reporting centers nationwide which serve approximately 3,300 parolees and probationers on behalf of state and local correctional agencies. Through these services, parolees are provided behavioral assessments, treatment, supervision and education.

BI a GEO Group Company ®

Electronic Monitoring

Through its wholly-owned subsidiary, B.I. Incorporated (Founded in 1978 and acquired by GEO in 2011), GEO Community is the leading provider of community supervision and electronic monitoring services to federal, state, and local government agencies in every state in the country. BI tracks approximately 70,000 offenders on electronic monitoring, and through the Intensive Supervision and Appearance Program, a core component to the Department of Homeland Security's Alternatives to Detention program, BI is the sole provider of community supervision and monitoring services for U.S. Immigration and Customs Enforcement.

BI offers government clients a combination of leading proprietary electronic monitoring products and superior customer service:

- Leading radio-frequency tracking technology
- Cutting-edge Global Positioning Satellite (GPS) tracking devices
- Innovative alcohol monitoring devices
- Voice verification systems
- Sophisticated Customer Call Center in Anderson, Indiana
- Proprietary offender tracking software

PART II

Item 5. ***Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities***

Our common stock trades on the New York Stock Exchange under the symbol "GEO." The following table shows the high and low prices for our common stock, as reported by the New York Stock Exchange, for each of the four quarters of fiscal years 2013 and 2012. The prices shown have been rounded to the nearest $1/100. The approximate number of shareholders of record as of February 26, 2014 is 684.

	2013		2012	
Quarter	High	Low	High	Low
First	$ 36.63	$ 31.54	$ 19.36	$ 16.56
Second	35.96	30.11	22.91	18.77
Third	39.35	32.84	28.19	22.00
Fourth	37.72	28.51	32.36	26.38

On July 14, 2011, the Company announced that its Board approved a stock repurchase program of up to $100.0 million of its common stock. The stock repurchase program was funded primarily with cash on hand, free cash flow, and borrowings under the Company's Prior Revolver. The stock repurchase program was implemented through purchases made from time to time in the open market or in privately negotiated transactions, in accordance with applicable securities and stock exchange requirements. The stock repurchase program did not obligate the Company to purchase any specific amount of its common stock. During fiscal year 2012, 295,959 shares of common stock at a cost of $8.6 million were purchased from certain members of GEO's management team in connection with the divestiture of all of GEO's health care facility assets and related management contracts in the United States an Australia ("Residential Treatment Service" or "RTS"). Refer to Note 2 - Discontinued Operations. In addition, during fiscal year 2012 the Company repurchased and retired 57,457 shares of fully vested employee equity awards. During the fiscal year ended January 1, 2012, the Company purchased approximately 3.9 million shares of its common stock at a cost of $75.0 million primarily purchased with proceeds from the Company's Prior Revolver. The stock repurchase program expired on December 31, 2012.

On May 8, 2013, the Company filed with the Securities and Exchange Commission a prospectus supplement related to the offer and sale from time to time of the Company's common stock at an aggregate offering price of up to $100 million through sales agents. Sales of shares of the Company's common stock under the prospectus supplement and the equity distribution agreements entered into with the sales agents, if any, may be made in negotiated transactions or transactions that are deemed to be "at the market" offerings as defined in Rule 415 under the Securities Act of 1933. There were no sales of shares of the Company's common stock under the prospectus supplement during the year ended December 31, 2013.

As a REIT, the Company is required to distribute annually at least 90% of its REIT taxable income (determined without regard to the dividends paid deduction and by excluding net capital gain). The amount, timing and frequency of future distributions will be at the sole discretion of the Company's Board of Directors and will be declared based upon various factors, many of which are beyond the Company's control, including, the Company's financial condition and operating cash flows, the amount required to maintain REIT status and reduce any income taxes that the Company otherwise would be required to pay, limitations on distributions in the Company's existing and future debt instruments, limitations on the Company's ability to fund distributions using cash generated through our TRS and other factors that the Company's Board of Directors may deem relevant.

During the year ended December 31, 2011, a pre-REIT year, there were no cash distributions declared. Prior to the conversion to a REIT, on August 7, 2012, the Board of Directors declared a dividend of $.20 per share to shareholders of record as of August 21, 2012 which was paid on September 7, 2012 for a total of $12.3 million. On October 31, 2012, the Board of Directors declared a cash dividend of $.20 per share to shareholders of record as of November 16, 2012 which was paid on November 30, 2012 for a total of $12.3 million. On December 6, 2012, we announced the declaration by the Board of Directors of a special dividend of accumulated earnings and profits to shareholders of record as of December 12, 2012, with each shareholder having the right to elect cash or shares of common stock, except that we limited the amount of cash payable to the amount of cash paid pursuant to a lottery procedure plus 20% of the total dividend amount remaining after the lottery. The special dividend, amounting to $352.2 million, or $5.68 per share of common stock, was paid on December 31, 2012 to shareholders of record as of December 12, 2012. Pursuant to the special dividend, we issued 9,688,568 shares of common stock and paid cash of $77.8 million.

During the year ended December 31, 2013, we declared and paid the following regular cash distributions to our stockholder which were treated as qualified and non-qualified ordinary income dividends for federal income tax purposes as stated below:

				Ordinary Dividends			Capital Gains				
Declaration Date	Payment Date	Record Date	Distribution per share	Total	Qualified	Non-Qualified	Total	Unrecaptured Section 1250	Long Term	Non Dividend Distributions	Aggregate Payment Amount (in millions)
January 17, 2013	March 1, 2013	February 15, 2013	$ 0.50	$ 0.50	$ 0.1551057	$ 0.3448943	$ —	$ —	$ —	$ —	$ 35.7
May 7, 2013	June 3, 2013	May 20, 2013	0.50	0.50	0.1551057	0.3448943	—	—	—	—	35.8
July 30, 2013	August 29, 2013	August 19, 2013	0.50	0.50	0.1551057	0.3448943	—	—	—	—	36.1
November 1, 2013	November 26, 2013	November 14, 2013	0.55	0.55	0.1706163	0.3793837	—	—	—	—	39.6
		Totals	$ 2.05	$ 2.05	$ 0.6359334	$ 1.4140666	$ —	$ —	$ —	$ —	$ 147.2
		Percentage	100.0 %	100.0%	31.0%	69.0%	0.0%	0.0%	0.0%	0.0%	

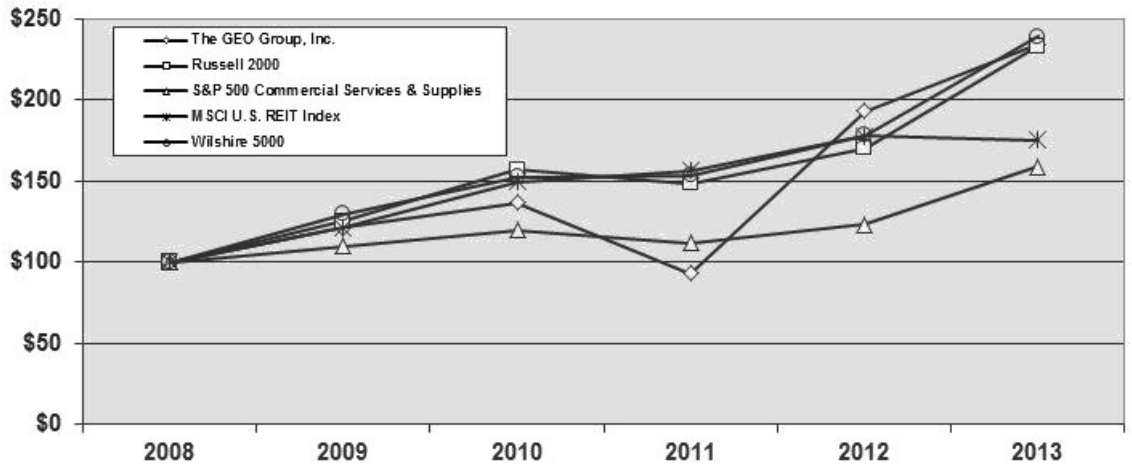
We intend to continue paying regular quarterly cash dividends consistent with our stated expectation to pay at least 75% of our adjusted funds from operations ("AFFO") in dividends with a goal to increase our dividend payout ratio over time, the amount, timing and frequency of our future dividends will be at the sole discretion of the Board of Directors based upon the factors disclaimed above.

In addition to these factors, the indentures governing our 6.625% Senior Notes, 5.125% Senior Notes, $5^{7}/_{8}$% Senior Notes and our Senior Credit Facility also place material restrictions on our ability to pay dividends. See the Liquidity and Capital Resources section in “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations” and Note 14 - Debt in “Item 8 - Financial Statements and Supplementary Data”, for further description of these restrictions. We believe we have the ability to continue to fund our working capital, our debt service requirements, and our maintenance and growth capital expenditure requirements, while maintaining sufficient liquidity for other corporate purposes.

Performance Graph

The following performance graph compares the performance of our common stock to the Russell 2000, the S&P 500 Commercial Services and Supplies Index, The Wilshire 5000 Total Market Index and the MSCI U.S. REIT Index and is provided in accordance with Item 201(e) of Regulation S-K. We have added the MSCI U.S. REIT Index because it is comprised of equity REITs with the exception of specialty equity REITs that do not generate a majority of their revenue and income from real estate rental and leasing operations. We believe that since we began operating as a REIT effective January 1, 2013, the MSCI U.S. REIT Index provides a more appropriate comparison of our stock performance with the performance of other equity REITs as compared to the Wilshire 5000 Total Market Index. We have retained the Wilshire 5000 Total Market Index for this year for comparison purposes, but will not include that index in our stock performance graph going forward.

Comparison of Five-Year Cumulative Total Return*
The GEO Group, Inc., Russell 2000,
S&P 500 Commercial Services and Supplies, the Wilshire 5000 Total Market Index
and MSCI U.S. REIT Index
(Performance through December 31, 2013)



Date	The GEO Group, Inc.	Russell 2000	S&P 500 Commercial Services and Supplies	Wilshire 5000	MSCI U.S. REIT Index
December 31, 2008	$ 100.00	$ 100.00	$ 100.00	$ 100.00	$ 100.00
December 31, 2009	$ 121.37	$ 125.22	$ 110.04	$ 129.42	$ 120.97
December 31, 2010	$ 136.77	$ 156.90	$ 119.68	$ 152.55	$ 149.44
December 31, 2011	$ 92.95	$ 148.35	$ 111.85	$ 153.45	$ 156.47
December 31, 2012	$ 193.10	$ 170.06	$ 122.96	$ 178.18	$ 177.69
December 31, 2013	$ 234.16	$ 232.98	$ 158.65	$ 238.80	$ 175.21

Assumes $100 invested on December 31, 2008 in our common stock and the Index companies.

* Total return assumes reinvestment of dividends.

Item 6. ***Selected Financial Data***

The following table sets forth historical financial data as of and for each of the five years in the period ended December 31, 2013. The selected consolidated financial data should be read in conjunction with our "Management Discussion and Analysis of Financial Condition and Results of Operations" and our consolidated financial statements and the notes to the consolidated financial statements (in thousands, except per share and operational data).

Year Ended:	2013	2012	2011	2010	2009
Results of Continuing Operations:					
Revenues	$ 1,522,074	$ 1,479,062	$ 1,407,172	$ 1,084,592	$ 976,504
Operating income from continuing operations	185,484	184,353	179,599	126,902	123,348
Income from continuing operations	$ 117,462	$ 144,558	$ 69,644	$ 54,371	$ 58,890
Income from continuing operations per common share attributable to The GEO Group, Inc.:					
Basic:	$ 1.65	$ 2.39	$ 1.12	$ 0.99	$ 1.15
Diluted:	$ 1.64	$ 2.37	$ 1.11	$ 0.98	$ 1.13
Weighted Average Shares Outstanding:					
Basic	71,116	60,934	63,425	55,379	50,879
Diluted	71,605	61,265	63,740	55,989	51,922
Cash and Stock Dividends per Common Share:					
Quarterly Cash Dividends	$ 2.05	$ 0.40	—	—	—
Special Dividend-Cash and Stock (3)	—	$ 5.68	—	—	—
Financial Condition:					
Current assets	$ 384,345	$ 337,183	$ 459,329	$ 422,084	$ 279,634
Current liabilities	223,125	259,871	288,818	267,287	177,448
Total assets	2,889,364	2,839,194	3,049,923	2,412,373	1,447,818
Long-term debt, including current portion (excluding non-recourse debt and capital leases)	1,488,722	1,351,697	1,338,384	807,837	457,538
Total Shareholders' equity	$ 1,023,976	$ 1,047,304	$ 1,038,521	$ 1,039,490	$ 665,098
Operational Data:					
Facilities in operation (2)	86	87	90	98	50
Operational capacity of contracts (2)	66,130	65,949	65,787	70,552	49,388
Compensated mandays (1)	20,867,016	20,530,885	19,884,802	17,203,880	15,888,828

(1) Compensated mandays are calculated as follows: (a) for per diem rate facilities — the number of beds occupied by residents on a daily basis during the fiscal year; and (b) for fixed rate facilities — the capacity of the facility multiplied by the number of days the facility was in operation during the fiscal year.

(2) Excludes idle facilities and assets held for sale.

(3) Special Dividend paid on December 31, 2012 - Refer to Note 3 - Shareholders' Equity of the Notes to the Consolidated Financial Statements of this Form 10-k.

Item 7. *Management's Discussion and Analysis of Financial Condition and Results of Operations*

Introduction

The following discussion and analysis provides information which management believes is relevant to an assessment and understanding of our consolidated results of operations and financial condition. This discussion contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of numerous factors including, but not limited to, those described above under "Item 1A. Risk Factors," and "Forward-Looking Statements - Safe Harbor" below. The discussion should be read in conjunction with the consolidated financial statements and notes thereto.

We are a real estate investment trust specializing in the ownership, leasing and management of correctional, detention and re-entry facilities and the provision of community-based services and youth services in the United States, Australia, South Africa, the United Kingdom and Canada. We own, lease and operate a broad range of correctional and detention facilities including maximum, medium and minimum security prisons, immigration detention centers, minimum security detention centers, and community based re-entry facilities. We offer counseling, education and/or treatment to inmates with alcohol and drug abuse problems at most of the domestic facilities we manage. We are also a provider of innovative compliance technologies, industry-leading monitoring services, and evidence-based supervision and treatment programs for community-based parolees, probationers and pretrial defendants. Additionally, we have an exclusive contract with ICE to provide supervision and reporting services designed to improve the participation of non-detained aliens in the immigration court system. We develop new facilities based on contract awards, using our project development expertise and experience to design, construct and finance what we believe are state-of-the-art facilities that maximize security and efficiency. We also provide secure transportation services for offender and detainee populations as contracted domestically and in the United Kingdom through our joint venture GEOAmey.

As of December 31, 2013, our worldwide operations included the management and/or ownership of approximately 77,000 beds at 98 correctional, detention and re-entry facilities, including idle facilities and projects under development and also included the provision of monitoring of more than 70,000 offenders in a community-based environment on behalf of approximately 900 federal, state and local correctional agencies located in all 50 states. For each of the years ended December 31, 2013 and December 31, 2012, we had consolidated revenues of $1.5 billion and we maintained an average company wide facility occupancy rate of 94.8% including 66,130 active beds and excluding 6,016 idle beds for the year ended December 31, 2013, and 95.7% including 66,730 active beds and excluding 6,056 idle beds for the year ended December 31, 2012.

REIT Conversion

We began operating as a REIT for federal income tax purposes effective January 1, 2013. As a result of the REIT conversion, we reorganized our operations and moved non-real estate components into TRSs. Through the TRS structure, the portion of our businesses which are non-real estate related, such as our managed-only contracts, international operations, electronic monitoring services, and other non-residential and community based facilities, are part of wholly-owned taxable subsidiaries of the REIT. Most of our business segments, which are real estate related and involve company-owned and company-leased facilities, are part of the REIT. The TRS structure allows us to maintain the strategic alignment of almost all of our diversified business segments under one entity. The TRS assets and operations will continue to be subject to federal and state corporate income taxes and to foreign taxes as applicable in the jurisdictions in which those assets and operations are located.

As a REIT, we are required to distribute annually at least 90% of our REIT taxable income (determined without regard to the dividends paid deduction and by excluding net capital gain) and we began paying regular distributions in 2013. On January 17, 2013, our Board of Directors declared GEO's first quarterly REIT cash dividend of $0.50 per share of common stock, which was paid on March 1, 2013 to shareholders of record as of the close of business on February 15, 2013. On May 7, 2013, the Board of Directors declared a quarterly cash dividend of $0.50 per share of common stock, which was paid on June 3, 2013 to shareholders of record as of the close of business on May 20, 2013. On July 30, 2013, the Board of Directors declared a quarterly cash dividend of $0.50 per share of common stock, which was paid on August 29, 2013 to shareholders of record as of the close of business on August 19, 2013. On November 1, 2013, the Board of Directors declared a quarterly cash dividend of $0.55 per share of common stock which was paid on November 26, 2013 to shareholders of record as of the close of business on November 14, 2013.

Divestiture of RTS

Applicable REIT rules substantially restrict the ability of REITs to operate health care facilities. As a result, in order to achieve and preserve our REIT status, on December 31, 2012, we completed the divestiture of all of our Residential Treatment Services. The operating results of RTS have been retroactively reclassified to discontinued operations for all periods presented in the Form 10-K. Refer to Note 2 - Discontinued Operations of the notes to our consolidated financial statements.

Change in Fiscal Year

In connection with our conversion to a REIT, on December 31, 2012, we changed our fiscal year to a calendar year and changed our fiscal quarters to coincide with each calendar quarter. The fiscal year 2012 means the 52 week period from January 2, 2012 through December 31, 2012 and the fiscal year 2011 means the 52 week period from January 3, 2011 through January 1, 2012.

Critical Accounting Policies

We believe that the accounting policies described below are critical to understanding our business, results of operations and financial condition because they involve the more significant judgments and estimates used in the preparation of our consolidated financial statements. We have discussed the development, selection and application of our critical accounting policies with the audit committee of our Board, and our audit committee has reviewed our disclosure relating to our critical accounting policies in this "Management's Discussion and Analysis of Financial Condition and Results of Operations."

Our consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States. As such, we are required to make certain estimates, judgments and assumptions that we believe are reasonable based upon the information available. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. We routinely evaluate our estimates based on historical experience and on various other assumptions that our management believes are reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. If actual results significantly differ from our estimates, our financial condition and results of operations could be materially impacted.

Other significant accounting policies, primarily those with lower levels of uncertainty than those discussed below, are also critical to understanding our consolidated financial statements. The notes to our consolidated financial statements contain additional information related to our accounting policies and should be read in conjunction with this discussion.

Revenue Recognition

Facility management revenues are recognized as services are provided under facility management contracts with approved government appropriations based on a net rate per day per inmate or on a fixed monthly rate, as applicable. A limited number of our contracts have provisions upon which a small portion of the revenue for the contract is based on the performance of certain targets. Revenue based on the performance of certain targets is less than 1% of our consolidated annual revenues. These performance targets are based on specific criteria to be met over specific periods of time. Such criteria includes our ability to achieve certain contractual benchmarks relative to the quality of service we provide, non-occurrence of certain disruptive events, effectiveness of our quality control programs and our responsiveness to customer requirements and concerns. For the limited number of contracts where revenue is based on the performance of certain targets, revenue is either (i) recorded pro rata when revenue is fixed and determinable or (ii) recorded when the specified time period lapses. In many instances, we are a party to more than one contract with a single entity. In these instances, each contract is accounted for separately. We have not recorded any revenue that is at risk due to future performance contingencies.

Construction revenues are recognized from our contracts with certain customers to perform construction and design services ("project development services") for various facilities. In these instances, we act as the primary developer and subcontract with bonded National and/or Regional Design Build Contractors. These construction revenues are recognized as earned on a percentage of completion basis measured by the percentage of costs incurred to date as compared to the estimated total cost for each contract. Provisions for estimated losses on uncompleted contracts and changes to cost estimates are made in the period in which we determine that such losses and changes are probable. Typically, we enter into fixed price contracts and do not perform additional work unless approved change orders are in place. Costs attributable to unapproved change orders are expensed in the period in which the costs are incurred if we believe that it is not probable that the costs will be recovered through a change in the contract price. If we believe that it is probable that the costs will be recovered through a change in the contract price, costs related to unapproved change orders are expensed in the period in which they are incurred, and contract revenue is recognized to the extent of the costs incurred. Revenue in excess of the costs attributable to unapproved change orders is not recognized until the change order is approved. Changes in job performance, job conditions, and estimated profitability, including those arising from contract penalty provisions, and final contract settlements, may result in revisions to estimated costs and income, and are recognized in the period in which the revisions are determined. For the year ended December 31, 2013 and the fiscal years ended December 31, 2012 and January 1, 2012, there have been no changes in job performance, job conditions and estimated profitability that would require a revision to the estimated costs and income related to project development services. As the primary contractor, we are exposed to the various risks associated with construction, including the risk of cost overruns. Accordingly, we record our construction revenue on a gross basis and include the related cost of construction activities in Operating Expenses.

When evaluating multiple element arrangements for certain contracts where we provide project development services to our clients in addition to standard management services, we follow revenue recognition guidance for multiple element arrangements. This revenue recognition guidance related to multiple deliverables in an arrangement provides guidance on determining if separate contracts should be evaluated as a single arrangement and if an arrangement involves a single unit of accounting or separate units of accounting and if the arrangement is determined to have separate units, how to allocate amounts received in the arrangement for revenue recognition purposes. In instances where we provide these project development services and subsequent management services, generally, the arrangement results in no delivered elements at the onset of the agreement. The elements are delivered over the contract period as the project development and management services are performed. Project development services are not provided separately to a customer without a management contract. One of our wholly-owned subsidiaries, BI, periodically sells its monitoring equipment and other services together in multiple-element arrangements. In such cases, we allocate revenue on the basis of the relative selling price of the delivered and undelivered elements. The selling price for each of the elements is estimated based on the price we charge when the elements are sold on a stand alone basis.

Reserves for Insurance Losses

The nature of our business exposes us to various types of third-party legal claims, including, but not limited to, civil rights claims relating to conditions of confinement and/or mistreatment, sexual misconduct claims brought by prisoners or detainees, product liability claims, intellectual property infringement claims, claims relating to employment matters (including, but not limited to, employment discrimination claims, union grievances and wage and hour claims), property loss claims, environmental claims, automobile liability claims, contractual claims and claims for personal injury or other damages resulting from contact with our facilities, programs, electronic monitoring products, personnel or prisoners, including damages arising from a prisoner's escape or from a disturbance or riot at a facility. In addition, our management contracts generally require us to indemnify the governmental agency against any damages to which the governmental agency may be subject in connection with such claims or litigation. We maintain a broad program of insurance coverage for these general types of claims, except for claims relating to employment matters, for which we carry no insurance. There can be no assurance that our insurance coverage will be adequate to cover all claims to which we may be exposed. It is our general practice to bring merged or acquired companies into our corporate master policies in order to take advantage of certain economies of scale.

We currently maintain a general liability policy and excess liability policies with total limits of $67.0 million per occurrence and in the aggregate covering the operations of U.S. Corrections & Detention, GEO Community Services' community based services, GEO Community Services' youth services and BI. We have a claims-made liability insurance program with a specific loss limit of $35.0 million per occurrence and in the aggregate related to medical professional liability claims arising out of correctional healthcare services. We are uninsured for any claims in excess of these limits. We also maintain insurance to cover property and other casualty risks including, workers' compensation, environmental liability and automobile liability.

For most casualty insurance policies, we carry substantial deductibles or self-insured retentions of $3.0 million per occurrence for general liability and medical professional liability, $2.0 million per occurrence for workers' compensation and $1.0 million per occurrence for automobile liability. In addition, certain of our facilities located in Florida and other high-risk hurricane areas carry substantial windstorm deductibles. Since hurricanes are considered unpredictable future events, no reserves have been established to pre-fund for potential windstorm damage. Limited commercial availability of certain types of insurance relating to windstorm exposure in coastal areas and earthquake exposure mainly in California and the Pacific Northwest may prevent the Company from insuring some of its facilities to full replacement value.

With respect to operations in South Africa, the United Kingdom and Australia, we utilize a combination of locally-procured insurance and global policies to meet contractual insurance requirements and protect us. In addition to these policies, our Australian subsidiary carries tail insurance on a general liability policy related to a discontinued contract.

Of the reserves discussed above, our most significant insurance reserves relate to workers' compensation, general liability and auto claims. These reserves are undiscounted and were $47.6 million and $45.1 million as of December 31, 2013 and 2012, respectively and are included in accrued expenses in the accompanying balance sheets. We use statistical and actuarial methods to estimate amounts for claims that have been reported but not paid and claims incurred but not reported. In applying these methods and assessing their results, we consider such factors as historical frequency and severity of claims at each of our facilities, claim development, payment patterns and changes in the nature of our business, among other factors. Such factors are analyzed for each of our business segments. Our estimates may be impacted by such factors as increases in the market price for medical services and unpredictability of the size of jury awards. We also may experience variability between our estimates and the actual settlement due to limitations inherent in the estimation process, including our ability to estimate costs of processing and settling claims in a timely manner as well as our ability to accurately estimate our exposure at the onset of a claim. Because we have high deductible insurance policies, the amount of our insurance expense is dependent on our ability to control our claims experience. If actual losses related to insurance claims significantly differ from our estimates, our financial condition, results of operations and cash flows could be materially adversely impacted.

Income Taxes

The consolidated financial statements reflect provisions for federal, state, local and foreign income taxes. We recognize deferred tax assets and liabilities for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis, as well as operating loss and tax credit carryforwards. We measure deferred tax assets and liabilities using enacted tax rates expected to apply to taxable income in the years in which those temporary differences and carryforwards are expected to be recovered or settled. The effect on deferred tax assets and liabilities as a result of a change in tax rates is recognized as income in the period that includes the enactment date. At December 31, 2012, we reversed certain deferred tax assets and liabilities related to our REIT activities (Refer to Note 17- Income Taxes in Part II, Item 8 of this Form 10-K). Effective January 1, 2013, as a REIT that plans to distribute 100% of its taxable income to shareholders, we do not expect to pay federal income taxes at the REIT level (including our qualified REIT subsidiaries), but instead a dividends paid deduction will generally offset our taxable income. Since we do not expect to pay taxes on our REIT taxable income, we do not expect to be able to recognize such net deferred tax assets and liabilities.

Deferred income taxes are determined based on the estimated future tax effects of differences between the financial statement and tax basis of assets and liabilities given the provisions of enacted tax laws. Significant judgments are required to determine the consolidated provision for income taxes. Deferred income tax provisions and benefits are based on changes to the assets or liabilities from year to year. Realization of our deferred tax assets is dependent upon many factors such as tax regulations applicable to the jurisdictions in which we operate, estimates of future taxable income and the character of such taxable income.

Additionally, we must use significant judgment in addressing uncertainties in the application of complex tax laws and regulations. If actual circumstances differ from our assumptions, adjustments to the carrying value of deferred tax assets or liabilities may be required, which may result in an adverse impact on the results of our operations and our effective tax rate. Valuation allowances are recorded related to deferred tax assets based on the "more likely than not" criteria. We have not made any significant changes to the way we account for our deferred tax assets and liabilities in any year presented in the consolidated financial statements, with the exception of the reversal of certain deferred tax assets and liabilities related to our REIT activities. Based on our estimate of future earnings and our favorable earnings history, we currently expect full realization of the deferred tax assets net of any recorded valuation allowances. Furthermore, tax positions taken by us may not be fully sustained upon examination by the taxing authorities. In determining the adequacy of our provision (benefit) for income taxes, potential settlement outcomes resulting from income tax examinations are regularly assessed. As such, the final outcome of tax examinations, including the total amount payable or the timing of any such payments upon resolution of these issues, cannot be estimated with certainty.

In September 2013, the U.S. Internal Revenue Service (IRS) issued new regulations for capitalizing and deducting costs incurred to acquire, produce, or improve tangible property. These new regulations are effective for taxable years beginning on or after January 1, 2014; however, they are considered enacted as of the date of issuance, September 15, 2013. As a result of the new regulations, we are required to review our existing income tax accounting methods related to tangible property, and determine which, if any, income tax accounting method changes are required; whether we will early adopt any of the new provisions through income tax accounting method changes for the 2012 or 2013 tax years; whether we will file any income tax accounting method changes with our 2014 federal income tax return; and the potential financial statement impact. Because additional implementation guidance from the IRS is anticipated, we are in the process of reviewing our existing income tax accounting methods related to tangible property; however, we believe that certain of our historical income tax accounting policies may differ from what is prescribed in the new regulations. While some of our assets are held by ourTRSs, the vast majority are held by the REIT which is not subject to tax. Based on our initial assessment, the new regulations will not have a material effect on our consolidated financial statements.

Property and Equipment

Property and equipment are stated at cost, less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets. Buildings and improvements are depreciated over 2 to 50 years. Equipment and furniture and fixtures are depreciated over 3 to 10 years. Accelerated methods of depreciation are generally used for income tax purposes. Leasehold improvements are amortized on a straight-line basis over the shorter of the useful life of the improvement or the term of the lease. We perform ongoing evaluations of the estimated useful lives of the property and equipment for depreciation purposes. The estimated useful lives are determined and continually evaluated based on the period over which services are expected to be rendered by the asset. If the assessment indicates that assets will be used for a longer or shorter period than previously anticipated, the useful lives of the assets are revised, resulting in a change in estimate. We have not made any changes in estimates during the year ended December 31, 2013 or the fiscal years ended December 31, 2012 and January 1, 2012. Maintenance and repairs are expensed as incurred. Interest is capitalized in connection with the construction of correctional and detention facilities. Cost for self-constructed correctional and detention facilities includes direct materials and labor, capitalized interest and certain other indirect costs associated with construction of the facility, such as property taxes, other indirect labor and related benefits and payroll taxes. The Company begins the capitalization of costs during the pre-construction phase, which is the period during which costs are incurred to evaluate the site, and continues until the facility is substantially complete and ready for occupancy. Labor costs capitalized for the year and fiscal years ended December 31, 2013, December 31, 2012 and January 1, 2012 were not significant. Capitalized interest is recorded as part of the asset to which it relates and is amortized over the asset's estimated useful life.

Assets Held for Sale

As of December 31, 2013, we had no facilities classified as held for sale in the consolidated balance sheet. We classify a long-lived asset (disposal group) as held for sale in the period in which all of the following criteria are met (i) management, having the authority to approve the action, commits to a plan to sell the asset (disposal group), (ii) the asset (disposal group) is available for immediate sale in its present condition subject only to the terms that are usual and customary for sales of such assets (disposal groups), (iii) an active program to locate a buyer and other actions required to complete the plan to sell the asset (disposal group) have been initiated, (iv) the sale of the asset (disposal group) is probable, and transfer of the asset (disposal group) is expected to qualify for recognition as a completed sale, within one year, except as permitted, (v) the asset (disposal group) is being actively marketed for sale at a price that is reasonable in relation to its current fair value, and (vi) actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn. We record assets held for sale at the lower of cost or estimated fair value and estimate fair value by using third party appraisers or other valuation techniques. We do not record depreciation for assets held for sale. Any gain or loss on the sale of operating assets is included in the operating income of the reportable segment to which it relates.

Asset Impairments

We had property and equipment of $1.7 billion as of December 31, 2013 and December 31, 2012 including approximately 6,000 vacant beds at six idle facilities with a carrying value of $193.6 million which are being marketed to potential customers as of December 31, 2013, excluding equipment and other assets that can be easily transferred for use at other facilities.

We review long-lived assets to be held and used for impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be fully recoverable. Events that would trigger an impairment assessment include deterioration of profits for a business segment that has long-lived assets, or when other changes occur that might impair recovery of long-lived assets such as the termination of a management contract or a significant decrease in inmate population. If impairment indicators are present, we perform a recoverability test to determine whether or not an impairment loss should be measured.

We test idle facilities for impairment upon notification that the facilities will no longer be utilized by the customer. If a long-lived asset is part of a group that includes other assets, the unit of accounting for the long-lived asset is its group. Generally, we group assets by facility for the purpose of considering whether any impairment exists. The estimates of recoverability are based on projected undiscounted cash flows associated with actual marketing efforts where available or, in other instances, projected undiscounted cash flows that are comparable to historical cash flows from management contracts at similar facilities and sensitivity analyses that consider reductions to such cash flows. Our sensitivity analyses include adjustments to projected cash flows compared to the historical cash flows due to current business conditions which impact per diem rates as well as labor and other operating costs, changes related to facility mission due to changes in prospective clients, and changes in projected capacity and occupancy rates. We also factor in prolonged periods of vacancies as well as the time and costs required to ramp up facility population once a contract is obtained. We perform the impairment analyses on an annual basis for each of the idle facilities and update each quarter for market developments for the potential utilization of each of the facilities in order to identify events that may cause us to reconsider the most recent assumptions. Such events could include negotiations with a prospective customer for the utilization of an idle facility at terms significantly less favorable than used in our most recent impairment analysis, or changes in legislation surrounding a particular facility that could impact our ability to house certain types of inmates at such facility. Further, a substantial increase in the number of available beds at other facilities that we own, or in the marketplace, could lead to deterioration in market conditions and projected cash flows. Although they are not frequently received, an unsolicited offer to purchase any of our idle facilities, at amounts that are less than their carrying value could also cause us to reconsider the assumptions used in the most recent impairment analysis. We have identified marketing prospects to utilize each of the remaining currently idled facilities and do not see any catalysts that would result in a current impairment. However, we can provide no assurance that we will be able to secure management contracts to utilize our idle facilities, or that we will not incur impairment charges in the future. In all cases, the projected undiscounted cash flows in our analysis as of December 31, 2013 substantially exceeded the carrying amounts of each facility.

Our evaluations also take into consideration historical experience in securing new management contracts to utilize facilities that had been previously idled for periods comparable to or in excess of the periods our currently idle facilities have been idle. Such previously idle facilities are currently being operated under contracts that generate cash flows resulting in the recoverability of the net book value of the previously idled facilities by substantial amounts. Due to a variety of factors, the lead time to negotiate contracts with federal and state agencies to utilize idle bed capacity is generally lengthy which has historically resulted in periods of idleness similar to the ones we are currently experiencing. As a result of our analyses, we determined each of these assets to have recoverable values substantially in excess of the corresponding carrying values.

By their nature, these estimates contain uncertainties with respect to the extent and timing of the respective cash flows due to potential delays or material changes to forecasted terms and conditions in contracts with prospective customers that could impact the estimate of projected cash flows. Notwithstanding the effects the current economy has had on our customers' demand for prison beds in the short term which has led to our decision to idle certain facilities, we believe the long-term trends favor an increase in the utilization of our idle correctional facilities. This belief is also based on our experience in operating in recessionary environments and based on our experience in working with governmental agencies faced with significant budgetary challenges which is a primary contributing factor to the lack of appropriated funding to build new bed capacity by federal and state agencies.

Discontinued Operations

We report the results of operations of a component of an entity that either has been disposed of or is classified as held for sale or where the management contracts with that component have terminated either by expiration or otherwise in discontinued operations. We present such events as discontinued operations so long as the financial results can be clearly identified, the future operations and cash flows are completely eliminated from ongoing operations, and so long as we do not have any significant continuing involvement in the operations of the component after the disposal or termination transaction.

When a component of an entity has been disposed of or classified as held for sale or a management contract is terminated, we look at our overall relationship with the customer. If the operations or cash flows of the component have been (or will be) eliminated from the ongoing operations of the entity as a result of the transaction and the entity will not have significant continuing involvement in the operations of the component after the transaction, the results of operations of the component of an entity are reported in discontinued operations. If we will continue to maintain a relationship generating significant cash flows and having continuing involvement with the customer, the disposal, the asset held for sale classification or the loss of the management contract(s) is not treated as discontinued operations. If the disposal, the asset held for sale classification or the loss of the management contract(s) results in a loss in the overall customer relationship as no future significant cash flows will be generated and we will have no continuing involvement with the customer, the results are classified in discontinued operations.

Recent Accounting Pronouncements

The following accounting standards have an implementation date subsequent to the fiscal year ended December 31, 2013 and as such, have not yet been adopted by us during the fiscal year ended December 31, 2013:

In March 2013, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2013-05, *Foreign Currency Matters (Topic 830): Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity (a consensus of the FASB Emerging Issues Task Force)* (“ASU 2013-05”). The objective of ASU 2013-05 is to resolve diversity in practice regarding the release of the cumulative translation adjustment into net income when a parent either sells a part or all of its investment in a foreign entity or no longer holds a controlling financial interest in a subsidiary or group of assets that is a nonprofit activity or a business within a foreign entity. ASU 2013-05 is effective prospectively for fiscal years, and interim reporting periods within those years, beginning after December 15, 2013. The ASU is not expected to have a material effect on the Company's results of operations or financial position.

In July 2013, the FASB issued ASU 2013-10, *Inclusion of the Fed Funds Effective Swap Rate (or Overnight Index Swap Rate) as a Benchmark Interest Rate for Hedge Accounting Purposes* (*a consensus of the FASB Emerging Issues Task Force)* ("ASU 2013-10"). The objective of ASU 2013-10 is to provide for the inclusion of the Fed Funds Effective Swap Rate as a U.S. benchmark interest rate for hedge accounting purposes, in addition to U.S Government Treasury obligations and the London Interbank Offered Rate. ASU 2013-10 is effective prospectively for qualifying new or redesignated hedging relationships entered into on or after July 17, 2013. The ASU is not expected to have a material effect on the Company's results of operations or financial position.

In July 2013, the FASB issued ASU 2013-11, *Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists (a consensus of the FASB Emerging Issues Tax Force)* ("ASU 2013-11"). The objective of ASU 2013-11 is to resolve diversity in practice regarding the presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or tax credit carryforward exists. ASU 2013-11 is effective prospectively for fiscal years, and interim reporting periods within those years, beginning after December 15, 2013. The ASU is not expected to have a material effect on the Company's results of operations or financial position.

Other recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force), the American Institute of Certified Public Accountants and the SEC did not, or are not expected to, have a material effect on the Company's results of operations or financial position.

Results of Operations

The following discussion should be read in conjunction with our consolidated financial statements and the notes to the consolidated financial statements accompanying this report. This discussion contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from those anticipated in the forward-looking statements as a result of certain factors, including, but not limited to, those described under “Item 1A. Risk Factors” and those included in other portions of this report.

The discussion of our results of operations below excludes the results of discontinued operations reported in 2013, 2012 and 2011. Refer to Note 2 - Discontinued Operations of the “Notes to Consolidated Financial Statements” included in this Form 10-K for additional information.

In connection with our conversion to a REIT, on December 31, 2012 we changed our fiscal year to a calendar year and changed our fiscal quarters to coincide with each calendar quarter. For the purposes of the discussion below, “2012” means the period from January 2, 2012 to December 31, 2012, and “2011” means the period from January 3, 2011 to January 1, 2012.

2013 versus 2012

Revenues

	2013	% of Revenue	2012	% of Revenue	$ Change	% Change
			(Dollars in thousands)			
U.S. Corrections & Detention	$ 1,011,818	66.5%	$ 974,780	65.9%	$ 37,038	3.8 %
GEO Community Services	302,094	19.8%	291,891	19.7%	10,203	3.5 %
International Services	208,162	13.7%	212,391	14.4%	(4,229)	(2.0)%
Total	$ 1,522,074	100.0%	$1,479,062	100.0%	$ 43,012	2.9 %

U.S. Corrections & Detention

Revenues increased in 2013 as compared to 2012 primarily due to aggregate increases of $24.3 million due to the activation and intake of inmates at Adelanto East in August 2012, Central Valley and Desert View in fourth quarter 2013 and the commencement of services under our contract, signed in October 2012, with the United States Marshals Service for the housing of up to 320 federal detainees at our Aurora Detention Facility. We also experienced aggregate increases in revenues of $28.9 million at certain of our facilities primarily due to net increases in population, transportation services and/or rates, including the expansion of New Castle in the first quarter of 2012. These increases were partially offset by an aggregate decrease of $16.1 million due to contract terminations.

The number of compensated mandays in U.S. Corrections & Detention facilities was 17.1 million in 2013 as compared to 16.6 million in 2012. We experienced an aggregate net increase of approximately 400,000 mandays as a result of our new contracts discussed above and also as a result of population increases at certain facilities. These increases were partially offset by decreases resulting from contract terminations. We look at the average occupancy in our facilities to determine how we are managing our available beds. The average occupancy is calculated by taking compensated mandays as a percentage of capacity. The average occupancy in our U.S. Detention & Corrections facilities was 95.4% and 96.3% of capacity in 2013 and 2012, respectively, excluding idle facilities.

GEO Community Services

The increase in revenues for GEO Community Based Services in 2013 compared to 2012 is primarily attributable to increases of $8.7 million due to new electronic monitoring equipment and an increase in ISAP counts at BI. In addition, we experienced a net increase of $5.5 million due to population increases at certain youth facilities and new programs and growth at our community based and re-entry centers. These increases were partially offset by decreases in revenues of $4.1 million related to contract terminations and census declines at certain facilities.

International Services

The decrease in revenues in 2013 compared to 2012 is primarily due to the result of foreign exchange rate fluctuations of $(14.6) million caused by the weakening of the U.S. dollar against certain foreign currencies. This decrease was partially offset by an aggregate net increase of $10.4 million primarily attributable to our Australian subsidiary related to population increases, contractual increases linked to the inflationary index, and the provision of additional services under certain contracts.

Operating Expenses

	2013	% of Segment Revenues	2012	% of Segment Revenues	$ Change	% Change
	(Dollars in thousands)					
U.S. Corrections & Detention	$ 731,788	72.3%	$ 689,226	70.7%	$ 42,562	6.2 %
GEO Community Services	200,826	66.5%	199,752	68.4%	1,074	0.5 %
International Services	192,251	92.4%	200,254	94.3%	(8,003)	(4.0)%
Total	$ 1,124,865	73.9%	$ 1,089,232	73.6%	$ 35,633	3.3 %

Operating expenses consist of those expenses incurred in the operation and management of our correctional, detention and GEO Community Services facilities and expenses incurred in our Facility Construction and Design segment, except that there were no significant expenses incurred in such segment for 2013 or 2012.

U.S. Corrections & Detention

The increase in operating expenses for U.S. Corrections & Detention reflects the following: (i) the activation and intake of inmates at Adelanto East in August 2012, Central Valley and Desert View during fourth quarter 2013 and the commencement of services under our contract, signed in October 2012, with the United States Marshals Service at our Aurora Detention Facility which contributed an aggregate increase to operating expenses of $15.2 million; (ii) increases of $22.4 million at certain of our facilities primarily related to net population increases, higher levels of required staffing, additional medical costs and other variable costs; (iii) in 2012 we received approximately $10 million in net operating tax refunds, not related to income taxes, for certain previously disputed claims in various jurisdictions that did not recur in 2013; and (iv) in connection with our annual actuarial analysis we recorded an additional $6.1 million to our insurance reserves in 2013. Additionally, in 2012, we recorded a $0.8 million decrease to our reserve based on the same actuarial analysis. These increases were partially offset by aggregate decreases in operating expenses of $8.7 million due to contract terminations. We also donated one of our facilities during fourth quarter 2012 which resulted in a decrease over 2013 of $2.8 million. The additional charge to our insurance reserve in 2013 as compared to the net operating tax refunds received in 2012 resulted in an increase in our operating expenses as a percentage of revenues.

GEO Community Services

Operating expenses for GEO Community Services increased by $1.1 million during 2013 from 2012 primarily due to net increases of $4.5 million due to the following: (i) variable costs associated with increases in electronic monitoring contracts and ISAP services at BI; (ii) population increases at certain youth facilities and the related variable costs; and (iii) new programs and program growth at our community based and re-entry centers. In addition, in connection with our annual actuarial analysis, we recorded an additional $2.1 million to our insurance reserves during 2013. In 2012, we recorded an additional $1.3 million to our insurance reserves based on this same analysis. These increases were partially offset by decreases that resulted from contract terminations and census declines of $4.2 million. The decrease in operating expenses as a percentage of revenue is primarily due to a shift in our product mix to BI products that have higher profit margins.

International Services

Operating expenses for our International Services segment during 2013 decreased $8.0 million over 2012 which was primarily attributable to the impact of foreign currency exchange rate fluctuations of $(13.4) million caused by the weakening of the U.S. dollar against certain foreign currencies. In addition, there was a net decrease of $4.2 million primarily related to cost cutting measures implemented to reduce overhead costs in the United Kingdom. These decreases were partially offset by a net increase of $9.6 million primarily attributable to our Australian subsidiary due to population increases, contractual increases in labor and additional services provided under new contracts at those facilities.

Depreciation and Amortization

	2013	% of Segment Revenue	2012	% of Segment Revenue	$ Change	% Change
	(Dollars in thousands)					
U.S. Corrections & Detention	$ 62,112	6.1%	$ 62,578	6.4%	$ (466)	(0.7)%
GEO Community Services	29,989	9.9%	26,738	9.2%	3,251	12.2 %
International Services	2,563	1.2%	2,369	1.1%	194	8.2 %
Total	$ 94,664	6.2%	$ 91,685	6.2%	$ 2,979	3.2 %

U.S. Corrections & Detention

U.S. Corrections & Detention depreciation and amortization expense decreased slightly in 2013 compared to 2012 primarily due to certain intangible assets which became fully amortized towards the end of 2012.

GEO Community Services

GEO Community Services depreciation and amortization increased by $3.3 million in 2013 compared to 2012. The increase is primarily due to an increase in monitoring and other equipment at BI in 2013 related to certain contract wins.

International Services

Depreciation and amortization expense increased slightly in 2013 compared to 2012 primarily due to increases in capital expenditures at our Australian subsidiary. This increase was partially offset by exchange rate fluctuations caused by the weakening of the U.S. dollar against certain foreign currencies.

Other Unallocated Operating Expenses

	2013	% of Revenue	2012	% of Revenue	$ Change	% Change
	(Dollars in thousands)					
General and Administrative Expenses	$ 117,061	7.7%	$ 113,792	7.0%	$ 3,269	2.9%

General and administrative expenses comprise substantially all of our other unallocated operating expenses including primarily corporate management salaries and benefits, professional fees and other administrative expenses. The increase in general and administrative expenses in 2013 compared to 2012 was primarily due to professional fees incurred in connection with our various debt refinancing activities and related registration statements in 2013. Refer to Note 14 - Debt of the notes to our audited consolidated financial statements included in Part II, Item 8 of this annual report on Form 10-K.

Non Operating Income and Expense

Interest Income and Interest Expense

	2013	% of Revenue	2012	% of Revenue	$ Change	% Change
	(Dollars in thousands)					
Interest Income	$ 3,324	0.2%	$ 6,716	0.5%	$ (3,392)	(50.5)%
Interest Expense	$ 83,004	5.5%	$ 82,189	5.6%	$ 815	1.0 %

The majority of our interest income generated in 2013 and 2012 is from the cash balances at our foreign subsidiaries. Interest income decreased in 2013 primarily due to lower cash balances at our foreign subsidiaries along with declining interest rates in 2013.

Interest expense increased slightly in 2013 compared to 2012 due to the following: (i) interest expense increased by $12.5 million in connection with the completion of our $300 million 5.125% Senior Notes offering in March 2013; (ii) an increase of $1.2 million caused by the capitalization of interest in 2012; and (iii) interest expense increased by $3.7 million in connection with the completion of our $250 million 5 7/8% Senior Notes offering during the fourth quarter 2013.

These increases were partially offset by decreases due to the following (i) interest expense on the Municipal Corrections Finance ("MCF) 8.47% Taxable Revenue Bonds, Seroes 2001, due August 1, 2016 issued by MCF (the "MCF Bonds") was $3.3 million (the MCF bonds were redeemed in August 2012); (ii) interest expense decreased in 2013 by $6.6 million as a result of our refinancing the prior Senior Credit Facility in the second quarter 2013; (iii) a decrease of $4.1 million in connection with our tender offer and redemption of the 7 3/4% Senior Notes during the fourth quarter 2013; (iv) a decrease of $0.5 million related to the defeasance of the STLDC bonds in the third quarter 2013; and (v) other less significant decreases of $2.1 million. Refer to Note 14 - Debt of the notes to our audited consolidated financial statements included in Part II, Item 8 of this annual report on Form 10-K.

Loss on Early Extinguishment of Debt

	2013	% of Revenue	2012	% of Revenue	$ Change	% Change
	(Dollars in thousands)					
Loss on Early Extinguishment of Debt	$ 20,657	1.4%	$ 8,462	0.6%	$ 12,195	144.1%

The loss on extinguishment of debt in 2013 is the result of the following: (i) in the second quarter 2013, we refinanced our Prior Senior Credit Facility and entered into a new Credit Agreement, as a result of which we wrote off $4.4 million of unamortized deferred financing costs and unamortized debt discount pertaining to the Prior Senior Credit Facility and expensed $1.1 million in fees related to the new Credit Agreement; (ii) our defeasance of the non-recourse bonds related to STLDC on September 30, 2013, as a result of which we incurred a $1.5 million loss on extinguishment of debt which represented the excess of the reacquisition price over the carrying value of the bonds and other defeasance related fees and expenses; and (iii) in the fourth quarter 2013, we completed a tender offer and redemption of our 7 3/4% Senior Notes which resulted in a loss of $17.7 million related to the tender premium and deferred costs associated with the 7 3/4% Senior Notes. This loss was partially offset by proceeds of $4.0 million received for the settlement of the interest rate swaps related to the 7 3/4% Senior Notes. The loss on extinguishment of debt in 2012 was the result of our early redemption of the MCF Bonds. Refer to Note 14 - Debt of the notes to our audited consolidated financial statements included in Part II, Item 8 of this annual report on Form 10-K.

Income Tax Benefit

	2013	Effective Rate	2012	Effective Rate
	(Dollars in thousands)			
Income Tax Benefit	$ (26,050)	(30.6)%	$ (40,562)	(40.4)%

The income tax benefit was $26.1 million in 2013 compared to $40.6 million in 2012 and the effective tax rate increased from (40.4)% to (30.6%). The benefit in both years is primarily attributable to our REIT conversion which became effective January 1, 2013. As a REIT, we are required to distribute at least 90% of our taxable income to shareholders and in turn are allowed a deduction for the distribution at the REIT level. The Company's wholly-owned taxable REIT subsidiaries continue to be fully subject to federal, state and foreign income taxes, as applicable. In 2013, GEO had a net tax benefit relating to its REIT conversion, IRS settlement and miscellaneous nonrecurring items of $21.9 million. Together these items had a favorable impact to the effective tax rate. In 2012, GEO had a net tax benefit relating to the REIT conversion of $79.0 million which was primarily related to the reversal of certain deferred tax assets and liabilities upon conversion.

Equity in Earnings of Affiliates

	2013	% of Revenue	2012	% of Revenue	$ Change	% Change
	(Dollars in thousands)					
Equity in Earnings of Affiliates	$ 6,265	0.4%	$ 3,578	0.2%	$ 2,687	75.1%

Equity in earnings of affiliates, presented net of income taxes, represents the earnings of SACS and GEOAmey, respectively. Overall, we experienced an increase in equity in earnings of affiliates during 2013 compared to 2012, which is primarily due to increased performance from the operations of GEOAmey in 2013 compared to 2012.

2012 versus 2011

Revenues

	2012	% of Revenue	2011	% of Revenue	$ Change	% Change
			(Dollars in thousands)			
U.S. Corrections & Detention	$ 974,780	65.9%	$ 925,098	65.7%	$ 49,682	5.4%
GEO Community Services	291,891	19.7%	280,080	19.9%	11,811	4.2%
International Services	212,391	14.4%	201,994	14.4%	10,397	5.1%
Total	$ 1,479,062	100.0%	$ 1,407,172	100.0%	$ 71,890	5.1%

U.S. Corrections & Detention

Revenues increased in 2012 as compared to 2011 primarily due to aggregate increases of $55.6 million due to the activation and intake of inmates at Adelanto East, Riverbend Correctional Facility ("Riverbend") and Karnes Civil Detention Center ("Karnes"). We also experienced aggregate increases in revenues of $37.5 million at certain of our facilities primarily due to net increases in population, transportation services and/or rates, including the expansion of New Castle in the first quarter of 2012. These increases were partially offset by an aggregate decrease of $44.0 million due to contract terminations and other decreases primarily related to lower populations at some facilities.

The number of compensated mandays in U.S. Corrections & Detention facilities was 16.6 million in 2012 as compared to 16.1 million in 2011. We experienced an aggregate net increase of approximately 500,000 mandays as a result of our new contracts discussed above and also as a result of population increases at certain facilities. These increases were partially offset by decreases resulting from contract terminations. We look at the average occupancy in our facilities to determine how we are managing our available beds. The average occupancy is calculated by taking compensated mandays as a percentage of capacity. The average occupancy in our U.S. Detention & Corrections facilities was 96.3% and 95.6% of capacity in 2012 and 2011, respectively, excluding idle facilities.

GEO Community Services

The increase in revenues for GEO Community Services in 2012 as compared to 2011 is primarily attributable to a full year of revenues generated by BI in 2012 compared to approximately ten and a half months of revenues in 2011 which contributed to an increase of $16.9 million. We also experienced a net increase in revenues of $5.1 million at certain of our facilities primarily due to increases in population and/or rates. These increases were partially offset by a decrease in revenues of $10.2 million related to our terminated contracts.

International Services

Revenues for our International Services segment during 2012 increased by $10.4 million over 2011 primarily due to the following factors: (i) aggregate increases at our Australian subsidiary of $7.8 million related to population increases, contractual increases linked to the inflationary index and the provision of additional services under certain contracts; (ii) aggregate increases at our South African subsidiary of $1.4 million primarily due to increases in the inflationary index; and (iii) an increase of $7.3 million due to the provision of additional services at Harmondsworth Immigration Removal Centre ('Harmondsworth") and the assumption of operations at Dungavel Immigration Removal Centre ("Dungavel") on September 25, 2011. These increases were partially offset by decreases of $2.7 million as a result of foreign exchange rate fluctuations and a decrease of $4.0 million in revenues due to the termination of the management contracts for the operation of Campsfield House Immigration Removal Centre ("Campsfield House").

Operating Expenses

	2012	% of Segment Revenues	2011	% of Segment Revenues	$ Change	% Change
	(Dollars in thousands)					
U.S. Corrections & Detention	$ 689,226	70.7%	$ 654,609	70.8%	$ 34,617	5.3%
GEO Community Services	199,752	68.4%	194,539	69.5%	5,213	2.7%
International Services	200,254	94.3%	186,862	92.5%	13,392	7.2%
Total	$ 1,089,232	73.6%	$ 1,036,010	73.6%	$ 53,222	5.1%

Operating expenses consist of those expenses incurred in the operation and management of our correctional, detention and GEO Community Services facilities and expenses incurred on our Facility Construction and Design segment, except that there were no significant expenses incurred in such segment for 2012 and 2011.

U.S. Corrections & Detention

The increase in operating expenses for U.S. Corrections & Detention reflects the following: (i) the activation and intake of inmates at Adelanto East, Riverbend and Karnes which contributed an aggregate increase to operating expenses of $42.6 million, and (ii) increases of $28.7 million at certain of our facilities primarily related to net population increases, higher levels of required staffing and additional medical costs. We also donated one of our facilities during the fourth quarter 2012 which resulted in an increase of $2.8 million. These increases were partially offset by aggregate decreases in operating expenses of $30.0 million due to contract terminations. In addition, operating expenses decreased by $9.7 million in 2012 due to net operating tax refunds received, not related to income taxes, for certain previously disputed tax claims in various jurisdictions.

GEO Community Services

Operating expenses for GEO Community Services increased $5.2 million during 2012 from 2011 primarily due to BI, which was operating for a full year during 2012 compared to a partial year during 2011 as BI was acquired in February 2011. These increases were partially offset by a decrease in operating expenses for terminated contracts. During 2012, we experienced a decrease in operating expenses as a percentage of revenue due to improved margins resulting from our acquisition of BI.

International Services

Operating expenses for our International Services segment during 2012 increased $13.4 million over the prior year primarily due to: (i) an increase in operating expenses at our Australian and South African subsidiaries of $7.2 million related to increases in population and additional services provided at certain of those facilities; and (ii) a net increase of $8.4 million in operating expenses in the United Kingdom primarily due to the opening of Dungavel on September 25, 2011, partially offset by the termination of our contract for the management of Campsfield House effective in May 2011, and an increase in international bid costs incurred during 2012. These net increases were partially offset by a decrease of $2.7 million as a result of foreign exchange rate fluctuations.

Depreciation and Amortization

	2012	% of Segment Revenue	2011	% of Segment Revenue	$ Change	% Change
	(Dollars in thousands)					
U.S. Corrections & Detention	$ 62,578	6.4%	$ 55,207	6.0%	$ 7,371	13.4%
GEO Community Services	26,738	9.2%	24,271	8.7%	2,467	10.2%
International Services	2,369	1.1%	2,070	1.0%	299	14.4%
Total	$ 91,685	6.2%	$ 81,548	5.8%	$ 10,137	12.4%

U.S. Corrections & Detention

U.S. Corrections & Detention depreciation and amortization expense increased by $7.4 million in 2012 compared to 2011 primarily as a result of the completion of construction projects in 2011 and 2012.

GEO Community Services

The increase in depreciation and amortization expense for GEO Community Services in 2012 compared to 2011 is primarily due to an increase in monitoring and other equipment at BI in 2012 related to certain contract wins and amortization of BI intangible assets. As BI was acquired in February 2011, 2011 does not include a full year of depreciation and amortization expense for BI.

International Services

Depreciation and amortization expense increased slightly in 2012 over 2011 primarily due to increases in capital expenditures at our Australian subsidiary and also from fluctuations in foreign exchange rates. These increases were partially offset by a decrease in depreciation expense due to the termination of our Campsfield House management contract effective May 2011.

Other Unallocated Operating Expenses

	2012	% of Revenue	2011	% of Revenue	$ Change	% Change
	(Dollars in thousands)					
General and Administrative Expenses	$ 113,792	7.7%	$ 110,015	7.8%	$ 3,777	3.4%

General and administrative expenses comprise substantially all of our other unallocated operating expenses including primarily corporate management salaries and benefits, professional fees and other administrative expenses. The increase in general and administrative expenses in 2012 compared to 2011 was due to REIT conversion related expenses and transaction costs related to the acquisition of MCF, offset by start-up costs incurred in 2011 in connection with the acquisition costs of BI and start-up costs incurred in 2011 for our joint venture in the United Kingdom.

Non Operating Income and Expense

Interest Income and Interest Expense

	2012	% of Revenue	2011	% of Revenue	$ Change	% Change
	(Dollars in thousands)					
Interest Income	$ 6,716	0.5%	$ 7,032	0.5%	$ (316)	(4.5)%
Interest Expense	$ 82,189	5.6%	$ 75,378	5.4%	$ 6,811	9.0 %

The majority of our interest income generated in 2012 and 2011 is from the cash balances at our foreign subsidiaries.

The increase in interest expense of $6.8 million is attributable to more indebtedness outstanding in 2012 compared to 2011. We incurred $2.2 million in additional interest expense during 2012 due to the issuance of our 6.625% Senior Notes in February 2011. We also incurred aggregate increases in interest expense of $5.3 million due to greater outstanding borrowings under our Prior Senior Credit Facility and due to the issuance of non-recourse debt by our wholly owned subsidiary in December 2011. We also had a reduction in capitalized interest in 2012 of $1.8 million due to the completion of the Karnes and Adelanto projects in the first half of 2012. These increases were partially offset by decreases in interest expense aggregating $2.3 million primarily due to lower outstanding borrowings on certain of our other non-recourse debt.

Loss on Early Extinguishment of Debt

2012	% of Revenue	2011	% of Revenue	$ Change	% Change
(Dollars in thousands)					
$ 8,462	0.6%	$ —	—%	$ 8,462	100.0%

The loss on early extinguishment of debt in 2012 was the result of our early redemption of the MCF Bonds and consisted of a make-whole premium of $14.9 million which includes $0.1 million of bond redemption costs, offset by the effect of the unamortized bond premium of $6.4 million.

Provision (Benefit) for Income Taxes

	2012	Effective Rate	2011	Effective Rate
	(Dollars in thousands)			
Provision (Benefit) for Income Taxes	$ (40,562)	(40.4)%	$ 43,172	38.8%

The effective tax rate for 2012 was (40.4)% and includes certain items related to the REIT conversion that had an overall favorable impact on the effective tax rate. Without these items our effective tax rate would have been 38.3% The effective tax rate for the same period in the prior year was 38.8% which included certain favorable one-time items. Excluding these one-time items, the effective tax rate for the same period in the prior year would have been 38.2%.

Equity in Earnings of Affiliates

	2012	% of Revenue	2011	% of Revenue	$ Change	% Change
	(Dollars in thousands)					
Equity in Earnings of Affiliates	$ 3,578	0.2%	$ 1,563	0.1%	$ 2,015	128.9%

Equity in earnings of affiliates, presented net of income taxes, represents the earnings (loss) of SACS and GEOAmey, respectively. Overall, we experienced an increase in equity in earnings of affiliates due to an increase in net earnings from SACS of $1.4 million, and a decreased net loss of $0.7 million from the operations of GEOAmey, which began operating in August 2011.

Financial Condition

Capital Requirements

Our current cash requirements consist of amounts needed for working capital, distributions of our REIT taxable income in order to maintain our REIT qualification under the Code, debt service, supply purchases, investments in joint ventures, and capital expenditures related to either the development of new correctional, detention and re-entry facilities, or the maintenance of existing facilities. In addition, some of our management contracts require us to make substantial initial expenditures of cash in connection with opening or renovating a facility. Generally, these initial expenditures are subsequently fully or partially recoverable as pass-through costs or are billable as a component of the per diem rates or monthly fixed fees to the contracting agency over the original term of the contract. Additional capital needs may also arise in the future with respect to possible acquisitions, other corporate transactions or other corporate purposes.

In connection with GEOAmey, our joint venture in the United Kingdom, we and our joint venture partner have each provided a line of credit of £12 million, or $19.8 million, based on exchange rates as of December 31, 2013, for GEOAmey's operations.

We are currently developing a number of projects using Company financing. We estimate that these existing capital projects will cost approximately $68.9 million, of which $19.8 million was spent through the fiscal year ended December 31, 2013. We have future committed capital projects for which we estimate our remaining capital requirements to be approximately $49.1 million, which will be spent through fiscal years 2014 and 2015. Capital expenditures related to facility maintenance costs are expected to be approximately $23.0 million for fiscal year 2014. In addition to these current estimated capital requirements for 2014 and 2015, we are currently in the process of bidding on, or evaluating potential bids for the design, construction and management of a number of new projects. In the event that we win bids for these projects and decide to self-finance their construction, our capital requirements could materially increase.

Liquidity and Capital Resources

Credit Agreement

On April 3, 2013, we entered into the Amended and Restated Credit Agreement with GEO Corrections Holdings, Inc. (with GEO as the sole term loan borrower, and GEO and GEO Corrections Holdings, Inc. as joint and several revolver borrowers), BNP Paribas, as Administrative Agent, and the lenders who are, or may from time to time become, a party thereto. The Credit Agreement evidences a Senior Credit Facility consisting of a $300 million Term Loan initially bearing interest at LIBOR plus 2.50% (with a LIBOR floor of 0.75%), and a $700 million revolving credit facility initially bearing interest at LIBOR plus 2.50% (with no LIBOR floor), in each case subject to adjustment based on a total leverage ratio pricing grid. We also have the ability to increase the Senior Credit Facility by an additional $350 million, subject to lender demand, prevailing market conditions and satisfying the borrowing and other conditions thereunder. The Revolver component is scheduled to mature on April 3, 2018 and the Term Loan component is scheduled to mature on April 3, 2020. The Term Loan and Revolver may be prepaid in whole or in part by us at any time without premium or penalty, subject to certain conditions. The Senior Credit Facility is a refinancing of the Fourth Amended and Restated Credit Agreement which consisted of a Term Loan A, Term Loan A-2, Term Loan A-3, Term Loan B and a revolver.

As of December 31, 2013, we had $298.5 million in aggregate borrowings outstanding, net of discount, under the Term Loan and $340.0 million in borrowings under the Revolver, and approximately $61.0 million in letters of credit which left $299.0 million in additional borrowing capacity under the Revolver.

In addition to the debt outstanding under the Senior Credit Facility, the 6.625% Senior Notes, the 5.125% Senior Notes, and the 5⅞% Senior Notes (each of which is discussed below), we also have significant debt obligations which, although these obligations are non-recourse to us, require cash expenditures for debt service. Our significant debt obligations could have material consequences. See “Risk Factors - Risks Related to Our High Level of Indebtedness” in Item 1A of this Annual Report on Form 10-K. We are exposed to various commitments and contingencies which may have a material adverse effect on our liquidity. We also have guaranteed certain obligations for our South African joint venture and other of our international subsidiaries. These non-recourse obligations, commitments and contingencies and guarantees are further discussed in Notes 1,14, 18 of the notes to our consolidated financial statements included in Part II, Item 8 of this Annual Report on Form 10-K.

We are also considering opportunities for future business and/or asset acquisitions. If we are successful in our pursuit of these new projects, our cash on hand, cash flows from operations and borrowings under the existing Senior Credit Facility may not provide sufficient liquidity to meet our capital needs through 2014 and we could be forced to seek additional financing or refinance our existing indebtedness. There can be no assurance that any such financing or refinancing would be available to us on terms equal to or more favorable than our current financing terms, or at all. In the future, our access to capital and ability to compete for future capital-intensive projects will also be dependent upon, among other things, our ability to meet certain financial covenants in the the indentures governing the 6.625% Senior Notes, the 5.125% Senior Notes, the 5⅞% Senior Notes, and our Senior Credit Facility. A substantial decline in our financial performance could limit our access to capital pursuant to these covenants and have a material adverse affect on our liquidity and capital resources and, as a result, on our financial condition and results of operations. In addition to these foregoing potential constraints on our capital, a number of state government agencies have been suffering from budget deficits and liquidity issues. While we expect to be in compliance with our debt covenants, if these constraints were to intensify, our liquidity could be materially adversely impacted as could our ability to remain in compliance with these debt covenants.

As a REIT, we are subject to a number of organizational and operational requirements, including a requirement that we annually distribute to our shareholders an amount equal to at least 90% of our REIT taxable income (determined before the deduction for dividends paid and excluding any net capital gain). Generally, we expect to distribute all or substantially all of our REIT taxable income so as not to be subject to the income or excise tax on undistributed REIT taxable income. The amount, timing and frequency of distributions will be at the sole discretion of our Board of Directors and will be based upon various factors. We began paying regular distributions in 2013. On January 17, 2013, our Board of Directors declared GEO's first quarterly REIT cash dividend of $0.50 per share of common stock, which was paid on March 1, 2013 to shareholders of record as of the close of business on February 15, 2013. On May 7, 2013, the Board of Directors declared a quarterly cash dividend of $0.50 per share of common stock, which was paid on June 3, 2013 to shareholders of record as of the close of business on May 20, 2013. On July 30, 2013, the Board of Directors declared a quarterly cash dividend of $0.50 per share of

common stock, which was paid on August 29, 2013 to shareholders of record as of the close of business on August 19, 2013. On November 1, 2013, the Board of Directors declared a quarterly cash dividend of $0.55 per share of common stock which was paid on November 26, 2013 to shareholders of record as of the close of business on November 14, 2013.

We plan to fund all of our capital needs, including distributions of our REIT taxable income in order to maintain our REIT qualification under the Code, and capital expenditures, from cash on hand, cash from operations, borrowings under our Senior Credit Facility and any other financings which our management and Board, in their discretion, may consummate. Currently, our primary source of liquidity to meet these requirements is cash flow from operations and borrowings under the $700.0 million Revolver. Our management believes that cash on hand, cash flows from operations and availability under our Senior Credit Facility will be adequate to support our capital requirements for 2014 and 2015 as disclosed under "Capital Requirements" above.

Senior Credit Facility

Indebtedness under the Revolver bears interest based on the Total Leverage Ratio, as defined in the Credit Agreement, as of the most recent determination date, as defined, in each of the instances below at the stated rate:

	Interest Rate under the Revolver and Term Loan A
LIBOR borrowings	LIBOR plus 1.75% to 2.75%.
Base rate borrowings	Prime Rate plus 0.75% to 1.75%
Letters of credit	1.75% to 2.75%.
Unused Revolver	0.35% to 0.375%.

The Credit Agreement contains certain representations and warranties, certain affirmative covenants and certain negative covenants that (subject to certain exceptions and allowances) restrict our ability to, among other things, (i) create, incur or assume indebtedness, (ii) create, incur, assume or permit liens, (iii) make loans and other investments, (iv) engage in mergers, acquisitions, liquidations and asset sales, (v) make certain restricted payments, (vi) issue, sell or otherwise dispose of certain types of non-common equity, (vii) engage in transactions with affiliates, (viii) allow the total leverage ratio to exceed 5.75 to 1.00, allow the senior secured leverage ratio to exceed 3.50 to 1.00 or allow the interest coverage ratio to be less than 3.00 to 1.00, (ix) cancel, forgive, make any voluntary or optional payment or prepayment on, or redeem or acquire for value certain of our senior notes, except as permitted, (x) alter the business we conduct, and (xi) materially impair our lenders' security interests in the collateral for our loans.

The Senior Credit Facility generally requires the Interest Coverage Ratio to be calculated as (a) Adjusted EBITDA (as defined under the Senior Credit Facility) for any period of four consecutive fiscal quarters to (b) Interest Expense (as defined under the Senior Credit Facility), minus Interest Expense attributable to Indebtedness of Unrestricted Subsidiaries and Other Consolidated Persons that is Non-Recourse to us and the Restricted Subsidiaries for such four quarter period (capitalized terms are defined in the Senior Credit Facility).

Events of default under the Credit Agreement include, but are not limited to, (i) our failure to pay principal or letter of credit reimbursement obligations when due or to pay any interest or other amounts within three business days of the payment deadline, (ii) our material breach of any representations or warranty, (iii) covenant defaults, (iv) liquidation, reorganization or other relief relating to bankruptcy or insolvency, (v) cross default under certain other material indebtedness, (vi) unsatisfied final monetary judgments over a specified threshold, (vii) material environmental liability claims which have been asserted against us, and (viii) a change in control. All of the obligations under the Credit Agreement are unconditionally guaranteed by each of our domestic subsidiaries that are restricted subsidiaries under the Senior Credit Facility. The Senior Credit Facility and the related guarantees are secured on a first-priority basis by substantially all of our present and future tangible and intangible assets, subject to certain exceptions, and all present and future tangible and intangible assets, subject to certain exceptions, of each guarantor. Our failure to comply with any of the covenants under our Credit Agreement could cause an event of default under such documents and result in an acceleration of all outstanding senior secured indebtedness. We believe we were in compliance with all of the covenants of the Credit Agreement as of December 31, 2013.

6.625% Senior Notes

On February 10, 2011, we completed an offering of $300.0 million aggregate principal amount of 6.625% Senior Notes in a private offering under the indenture dated as of February 10, 2011 among us, certain of our domestic subsidiaries, as guarantors, and Wells Fargo Bank, National Association, as trustee. The 6.625% Senior Notes were offered and sold to "qualified institutional buyers" in accordance with Rule 144A under the Securities Act, and outside the United States to non-U.S. persons in accordance with Regulation S under the Securities Act. The 6.625% Senior Notes were issued at a coupon rate and yield to maturity of 6.625%. Interest on the 6.625% Senior Notes is payable semi-annually in cash in arrears on February 15 and August 15 each year.

The 6.625% Senior Notes mature on February 15, 2021. The 6.625% Senior Notes and the guarantees are our general unsecured senior obligations and rank equally in right of payment with all of our and the guarantors' existing and future unsecured senior debt, including our 5.125% Senior Notes and the 5 7/8% Senior Notes. The 6.625% Senior Notes and the guarantees are effectively subordinated to any of our and the guarantors' existing and future secured debt to the extent of the value of the assets securing such debt, including all anticipated borrowings under the Senior Credit Facility. The 6.625% Senior Notes are structurally subordinated to all existing and future liabilities (including trade payables) of our subsidiaries that do not guarantee the 6.625% Senior Notes.

At any time on or prior to February 15, 2014, we may on any one or more occasions redeem up to 35% of the aggregate principal amount of outstanding 6.625% Senior Notes issued under the indenture at a redemption price of 106.625% of their principal amount, plus accrued and unpaid interest and Liquidated Damages (as defined in the indenture), if any, to the redemption date, with the net cash proceeds of one or more equity offerings; provided, that: (1) at least 65% of the aggregate principal amount of 6.625% Senior Notes issued under the indenture (including any additional notes) remains outstanding immediately after the occurrence of such redemption (excluding notes held by us and our subsidiaries); and (2) the redemption occurs within 90 days of the date of the closing of such equity offering. In addition, we may, at our option, redeem all or part of the 6.625% Senior Notes prior to February 15, 2016, at a redemption price equal to 100% of the principal amount of each note to be redeemed plus a "make whole" premium, together with accrued and unpaid interest and Liquidated Damages, if any, to the date of redemption.

On or after February 15, 2016, we may, at our option, redeem all or part of the 6.625% Senior Notes upon not less than 30 nor more than 60 days' notice, at the redemption prices (expressed as percentages of principal amount) set forth below, plus accrued and unpaid interest and liquidated damages, if any, on the 6.625% Senior Notes redeemed, to the applicable redemption date, if redeemed during the 12-month period beginning on February 15 of the years indicated below:

Year	Percentage
2016	103.3125%
2017	102.2083%
2018	101.1042%
2019 and thereafter	100.0000%

If there is a "change of control" (as defined in the indenture), holders of the 6.625% Senior Notes will have the right to cause us to repurchase their 6.625% Senior Notes at a price equal to 101% of the principal amount of the 6.625% Senior Notes repurchased plus accrued and unpaid interest and Liquidated Damages, if any, to the purchase date.

The indenture governing the notes contains certain covenants, including limitations and restrictions on us and our restricted subsidiaries' ability to: incur additional indebtedness or issue preferred stock; make dividend payments or other restricted payments; create liens; sell assets; enter into transactions with affiliates; and enter into mergers, consolidations or sales of all or substantially all of our assets. As of the date of the indenture, all of our subsidiaries, other than certain dormant domestic and other subsidiaries and all foreign subsidiaries in existence on the date of the indenture, were restricted subsidiaries. Our failure to comply with certain of the covenants under the indenture governing the 6.625% Senior Notes could cause an event of default of any indebtedness and result in an acceleration of such indebtedness. In addition, there is a cross-default provision which becomes enforceable upon failure of payment of indebtedness at final maturity. Our unrestricted

subsidiaries will not be subject to any of the restrictive covenants in the indenture. We believe we were in compliance with all of the covenants of the indenture governing the 6.625% Senior Notes as of December 31, 2013.

The indenture also contains events of default with respect to, among other things, the following: failure by us to pay interest and Liquidated Damages, if any, on the 6.625% Senior Notes when due, which failure continues for 30 days; failure by us to pay the principal of, or premium, if any, on, the 6.625% Senior Notes when due; failure by us or any of our restricted subsidiaries to comply with their obligations to offer to repurchase the 6.625% Senior Notes at the option of the holders of the 6.625% Senior Notes upon a change of control, to offer to redeem notes under certain circumstances in connection with asset sales with "excess proceeds" (as defined in the indenture) in excess of $25.0 million or to observe certain restrictions on mergers, consolidations and sales of substantially all of their assets; the failure by us or any guarantor to comply with any of the other agreements in the indenture, which failure continues for 60 days after notice; and certain events of bankruptcy or insolvency of us or a restricted subsidiary that is a significant subsidiary or any group of restricted subsidiaries that together would constitute a significant subsidiary. We realized net proceeds of $293.3 million upon the closing of the transaction and used the net proceeds of the offering, together with borrowings of $150.0 million under the Prior Senior Credit Facility, to finance the BI Acquisition. The remaining net proceeds from the offering were used for general corporate purposes.

Under the terms of the registration rights agreement, dated as of February 10, 2011, among us, the guarantors and the initial purchasers of the notes, we agreed to register under the Securities Act notes having terms identical in all material respects to the 6.625% Senior Notes (the "6.625% Exchange Notes") and to make an offer to exchange the 6.625% Exchange Notes for the 6.625% Senior Notes. We filed the registration statement on April 12, 2011 which was declared effective on July 22, 2011. We launched the exchange offer on July 25, 2011 and the exchange offer expired on August 22, 2011.

5.125% Senior Notes

On March 19, 2013, we completed an offering of $300.0 million aggregate principal amount of 5.125% Senior Notes in a private offering under the indenture dated as of March 19, 2013 among us, certain of our domestic subsidiaries, as guarantors, and Wells Fargo Bank, National Association, as trustee. The 5.125% Senior Notes were offered and sold to "qualified institutional buyers" in accordance with Rule 144A under the Securities Act, and outside the United States to non-U.S. persons in accordance with Regulation S under the Securities Act. The 5.125% Senior Notes mature on April 1, 2023 and have a coupon rate and yield to maturity of 5.125%. Interest on the 5.125% Senior Notes is payable semi-annually in cash in arrears on April 1 and October 1 each year. The 5.125% Senior Notes are guaranteed on a senior unsecured basis by all of our restricted subsidiaries that guarantee obligations under the Senior Credit Facility, our 6.625% Senior Notes, and our 5 7⁄8% Senior Notes. The 5.125% Senior Notes and the guarantees are our general unsecured senior obligations and rank equally in right of payment with all of our and the guarantors' existing and future unsecured senior debt, including our 6.625% Senior Notes and the 5 7⁄8% Senior Notes. The 5.125% Senior Notes and the guarantees are effectively subordinated to any of our and the guarantors' existing and future secured debt to the extent of the value of the assets securing such debt, including all anticipated borrowings under the Senior Credit Facility. The 5.125% Senior Notes are structurally subordinated to all existing and future liabilities (including trade payables) of our subsidiaries that do not guarantee the 5.125% Senior Notes.

At any time on or prior to April 1, 2016, we may on any one or more occasions redeem up to 35% of the aggregate principal amount of outstanding 5.125% Senior Notes issued under the indenture at a redemption price of 105.125% of their principal amount plus accrued and unpaid interest and Liquidated Damages (as defined in the indenture), if any, to the redemption date, with the net cash proceeds of one or more equity offerings (as defined in the indenture); provided, that: (1) at least 65% of the aggregate principal amount of 5.125% Senior Notes issued under the indenture (including any additional notes) remains outstanding immediately after the occurrence of such redemption (excluding notes held by us and our subsidiaries); and (2) the redemption occurs within 90 days of the date of the closing of such equity offering. At any time prior to April 1, 2018, we may, at our option, redeem all or a part of the 5.125% Senior Notes upon not less than 30 days nor more than 60 days prior notice at a redemption price equal to the sum of (i) 100% of the principal amount thereof, plus (ii) the Applicable Premium (as defined in the indenture) as of the date of redemption, plus (iii) accrued and unpaid interest and Liquidated Damages, if any, to the date of redemption.

On or after April 1, 2018, we may, at our option, redeem all or a part of the 5.125% Senior Notes upon not less than 30 days nor more than 60 days notice at the redemption prices (expressed as percentages of principal amount) set forth below, plus accrued and unpaid interest and Liquidated Damages, if any, on the 5.125% Senior Notes redeemed, to the applicable redemption date, if redeemed during the 12 months period beginning on April 1 of the years indicated below:

Year	Percentage
2018	102.563%
2019	101.708%
2020	100.854%
2021 and thereafter	100%

As discussed above, on April 3, 2013, our Prior Senior Credit Facility was refinanced and a portion of the proceeds of the 5.125% Senior Notes were used to pay the outstanding Prior Term Loans under the Senior Credit Facility. Loan costs of $6.8 million were incurred and capitalized in connection with the issuance of the 5.125% Senior Notes.

If there is a "change of control" (as defined in the indenture), holders of the 5.125% Senior Notes will have the right to cause us to repurchase their 5.125% Senior Notes at a price equal to 101% of the principal amount of the 5.125% Senior Notes repurchased plus accrued and unpaid interest and Liquidated Damages, if any, to the purchase date.

The indenture governing the 5.125% Senior Notes contains certain covenants, including limitations and restrictions on our and our restricted subsidiaries' ability to: incur additional indebtedness or issue preferred stock; make dividend payments or other restricted payments; create liens; sell assets; enter into transactions with affiliates; and enter into mergers, consolidations or sales of all or substantially all of our assets. As of the date of the indenture, all of our subsidiaries, other than certain dormant domestic and other subsidiaries and all foreign subsidiaries in existence on the date of the indenture, were restricted subsidiaries. Our failure to comply with certain of the covenants under the indenture governing the 5.125% Senior Notes could cause an event of default of any indebtedness and result in an acceleration of such indebtedness. In addition, there is a cross-default provision which becomes enforceable upon failure of payment of indebtedness at final maturity. Our unrestricted subsidiaries will not be subject to any of the restrictive covenants in the indenture. We believe we were in compliance with all of the covenants of the indenture governing the 5.125% Senior Notes as of December 31, 2013.

The indenture also contains events of default with respect to, among other things, the following: failure by us to pay interest and Liquidated Damages, if any, on the 5.125% Senior Notes when due, which failure continues for 30 days; failure by us to pay the principal of, or premium, if any, on, the 5.125% Senior Notes when due; failure by us or any of our restricted subsidiaries to comply with their obligations to offer to repurchase the 5.125% Senior Notes at the option of the holders of the 5.125% Senior Notes upon a change of control, to offer to redeem notes under certain circumstances in connection with asset sales with "excess proceeds" (as defined in the indenture) in excess of $25.0 million or to observe certain restrictions on mergers, consolidations and sales of substantially all of their assets; the failure by us or any guarantor to comply with any of the other agreements in the indenture, which failure continues for 60 days after notice; and certain events of bankruptcy or insolvency of us or a restricted subsidiary that is a significant subsidiary or any group of restricted subsidiaries that together would constitute a significant subsidiary.

Under the terms of a registration rights agreement dated as of March 19, 2013, among us, the guarantors and Merrill Lynch, Pierce, Fenner & Smith Incorporated, as the representative of the initial purchasers of the 5.125% Senior Notes, we agreed to register under the Securities Act the 5.125% Exchange Notes and to make an offer to exchange the 5.125% Exchange Notes for the 5.125% Senior Notes. We filed the registration statement on May 30, 2013 which was declared effective on September 12, 2013. We launched the exchange offer on September 13, 2013 and the exchange offer expired on October 11, 2013.

5⅞% Senior Notes

On October 3, 2013, we completed an offering of $250.0 million aggregate principal amount of 5 7/8% Senior Notes in a private offering under the indenture dated as of October 3, 2013 among us, certain of our domestic subsidiaries, as guarantors, and Wells Fargo Bank, National Association, as trustee. The 5 7/8% Senior Notes were offered and sold to "qualified institutional buyers" in accordance with Rule 144A under the Securities Act, and outside the United States to non-U.S. persons in accordance with Regulations S under the Securities Act. The 5 7/8% Senior Notes were issued at a coupon rate and yield to maturity of 5 7/8% . Interest on the 5 7/8% Senior Notes is payable semi-annually in cash in arrears on January 15 and July 15 each year. The 5 7/8% Senior Notes mature on January 15, 2022. The 5 7/8% Senior Notes and the guarantees are our general unsecured senior obligations and rank equally in right of payment with all of our and the guarantors' existing and future unsecured senior debt, including our 6.625% Senior Notes and the 5.125% Senior Notes. The 5 7/8% Senior Notes and the guarantees are effectively subordinated to any of our and the guarantors' existing and future secured debt to the extent of the value of the assets securing such debt, including all anticipated borrowings under the Senior Credit Facility. The 5 7/8% Senior Notes are structurally subordinated to all existing and future liabilities (including trade payables) of our subsidiaries that do not guarantee the 5 ⅞% Senior Notes.

Up to 35% of the aggregate principal amount of the 5 7/8% Senior Notes may be redeemed on or prior to January 15, 2016, with the net cash proceeds from certain equity offerings at a redemption price equal to 105.875% of their principal amount, plus accrued and unpaid interest and Liquidated Damages (as defined in the indenture), if any, to the redemption date. In addition, we may, at our option, redeem the 5 ⅞% Senior Notes in whole or in part before January 15, 2017 at a redemption price equal to 100% of the principal amount of the 5 ⅞% Senior Notes being redeemed plus a "make-whole" premium, together with accrued and unpaid interest and Liquidated Damages, if any, to the redemption date. On or after January 15, 2017, we may, at our option, redeem all or part of the 5 ⅞% Senior Notes upon not less than 30 days nor more than 60 days' notice, at the redemption prices (expressed as percentages of principal amount) set forth below, plus accrued and unpaid interest and including Liquidated Damages, if any, on the 5 ⅞% Senior Notes redeemed, to the applicable redemption date, if redeemed during the 12-month period beginning on January 15 of the years indicated below:

Year	Percentage
2017	104.406%
2018	102.935%
2019	101.469%
2020 and thereafter	100.000%

If there is a "change of control" (as defined in the indenture), holders of the 5 ⅞% Senior Notes will have the right to cause us to repurchase their 5 ⅞% Senior Notes at a price equal to 101% of the principal amount of the 5 ⅞% Senior Notes repurchased plus accrued and unpaid interest and Liquidated Damages, if any, to the purchase date.

The indenture governing the 5 7/8% Senior Notes contains certain covenants, including limitations and restrictions on our and our restricted subsidiaries' ability to: incur additional indebtedness or issue preferred stock; make dividend payments or other restricted payments; create liens; sell assets; enter into transactions with affiliates; and enter into mergers, consolidations or sales of all or substantially all of the Company's assets. As of the date of the indenture, all of our subsidiaries, other than certain dormant domestic and other subsidiaries and all foreign subsidiaries in existence on the date of the indenture, were restricted subsidiaries. Our failure to comply with certain of the covenants under the indenture governing the 5 ⅞% Senior Notes could cause an event of default of any indebtedness and result in an acceleration of such indebtedness. In addition, there is a cross-default provision which becomes enforceable upon failure of payment of indebtedness at final maturity. Our unrestricted subsidiaries will not be subject to any of the restrictive covenants in the indenture. We believe we were in compliance with all of the covenants of the indenture governing the 5 ⅞% Senior Notes as of December 31, 2013.

The indenture also contains events of default with respect to, among other things, the following: failure by us to pay interest and Liquidated Damages, if any, on the 5 7⁄8% Senior Notes when due, which failure continues for 30 days; failure by us to pay the principal of, or premium, if any, on, the 5 7⁄8% Senior Notes when due; failure by us or any of our restricted subsidiaries to comply with their obligations to offer to repurchase the 5 7⁄8% Senior Notes at the option of the holders of the 5 7⁄8% Senior Notes upon a change of control, to offer to redeem notes under certain circumstances in connection with asset sales with "excess proceeds" (as defined in the indenture) in excess of $25.0 million or to observe certain restrictions on mergers, consolidations and sales of substantially all of their assets; the failure by us or any guarantor to comply with any of the other agreements in the indenture, which failure continues for 60 days after notice; and certain events of bankruptcy or insolvency of us or a restricted subsidiary that is a significant subsidiary or any group of restricted subsidiaries that together would constitute a significant subsidiary. We used the net proceeds from the offering, together with cash on hand, to fund the repurchase, redemption or other discharge of our 7 3/4% Senior Notes (see discussion below) and to pay related transaction fees and expenses. Loan costs of $5.9 million were incurred and capitalized in connection with the offering.

Under the terms of the registration rights agreement, dated as of October 3, 2013, among us, the guarantors and Wells Fargo Securities, LLC, as the representative of the initial purchasers of the notes, we agreed to register under the Securities Act the 5 7/8% Exchange Notes and to make an offer to exchange the 5 7/8% Exchange Notes for the 5 7/8% Senior Notes. We filed the registration statement on October 2, 2013 which was declared effective on January 6, 2014. We launched the exchange offer on January 6, 2014 and the exchange offer expired on February 4, 2014.

7 3/4% Senior Notes

On October 20, 2009, we completed a private offering of $250.0 million in aggregate principal amount of our 7 3/4% Senior Notes. These senior unsecured notes paid interest semi-annually in cash in arrears on April 15 and October 15 of each year, beginning on April 15, 2010.

On September 19, 2013, we announced the commencement of a cash tender offer and consent solicitation for any and all of our outstanding 7¾% Senior Notes. On October 3, 2013, we completed the purchase of $209.1 million in aggregate principal amount of our 7¾% Senior Notes validly tendered in connection with our tender offer and consent solicitation on or prior to the consent payment deadline. On November 4, 2013, we completed the redemption of the remaining 7¾% Senior Notes in connection with the terms of the notice of redemption delivered to the noteholders pursuant to the terms of the indenture governing the 7¾% Senior Notes. We financed the purchase of the 7¾% Senior Notes under the tender offer and the redemption of the remaining 7¾% Senior Notes with the net cash proceeds from the 5 ⅞% Senior Notes and cash on hand (see discussion above).

Non-Recourse Debt

South Texas Detention Complex

We had a debt service requirement related to the development of the South Texas Detention Complex, a 1,904-bed detention complex in Frio County, Texas acquired in November 2005 from Correctional Services Corporation ("CSC"). CSC was awarded the contract in February 2004 by the Department of Homeland Security, ICE for development and operation of the detention center. In order to finance the construction of the complex, STLDC was created and issued $49.5 million in taxable revenue bonds. These bonds matured in February 2016 and had fixed coupon rates between 4.63% and 5.07%. Additionally, we were owed $5.0 million in the form of subordinated notes by STLDC which represented the principal amount of financing provided to STLDC by CSC for initial development.

On September 30, 2013, we completed a legal defeasance of the $49.5 million taxable revenue bonds with an outstanding balance of $17.2 million which were to mature in February 2016. Upon closing of the transaction, we received $17.3 million of funds held in trust with respect to the STLDC which was held for future debt service and other reserves. These funds were previously included in our current and non-current restricted cash and investments. In connection with the defeasance, we incurred a $1.5 million loss on extinguishment of debt which represented the excess of the reacquisition price of the defeasance over the net carrying value of the bonds and other defeasance related fees and expenses.

Northwest Detention Center

On June 30, 2003, CSC arranged financing for the construction of a detention center in Tacoma, Washington, referred to as the Northwest Detention Center, which was completed and opened for operation in April 2004. We began to operate this facility following our acquisition of CSC in November 2005 (this facility was expanded by us in 2009 to 1,575 beds from the original 1,030 beds).

In connection with the original financing, CSC of Tacoma, LLC, a wholly owned subsidiary of CSC, issued a $57.0 million note payable to the Washington Economic Development Finance Authority ("WEDFA"), an instrumentality of the State of Washington, which issued revenue bonds ("2003 Revenue Bonds") and subsequently loaned the proceeds of the bond issuance back to CSC for the purposes of constructing the Northwest Detention Center. The proceeds of the loan were disbursed into escrow accounts held in trust to be used to pay the issuance costs for the revenue bonds, to construct the Northwest Detention Center and to establish debt service and other reserves. The bonds are non-recourse to us and the loan from WEDFA to CSC is non-recourse to us. These bonds mature in October 2014 and have fixed coupon rates of 4.10%.

Additionally, on December 9, 2011, WEDFA issued $54.4 million of its Washington Economic Development Finance Authority Taxable Economic Development Revenue Bonds, series 2011 ("2011 Revenue Bonds"). The bonds were rated AA- by Standard & Poor's Ratings Services and the scheduled payment of principal and interest is guaranteed by municipal bond insurance issued by Assured Guaranty Municipal Corp. The 2011 Revenue Bonds have an average all-in cost of approximately 6.4%, including debt issuance costs and the bond discount, and maturity dates ranging from October 1, 2014 through October 1, 2021. The 2011 Revenue Bonds were issued to provide funds to make a loan to CSC of Tacoma, LLC for purposes of reimbursing us for costs incurred by us for the 2009 expansion of the Northwest Detention Facility and paying the costs of issuing the 2011 Revenue Bonds. The payment of principal and interest on the bonds is non-recourse to us. None of the bonds nor CSC's obligations under the loan are our obligations nor are they guaranteed by us.

As of December 31, 2013, the remaining balance of the debt service requirement related to the 2003 Revenue Bonds and 2011 Revenue Bonds is $61.2 million, of which $11.8 million is classified as current in the accompanying balance sheet. As of December 31, 2013, included in restricted cash and investments is $11.5 million (all current) of funds held in trust with respect to the Northwest Detention Center for debt service and other reserves which had not been released to us as of December 31, 2013.

Australia

Our wholly-owned Australian subsidiary financed the development of a facility and subsequent expansion in 2003 with long-term debt obligations. These obligations are non-recourse to us and total $23.9 million (AUD 26.9 million) and $34.8 million (AUD 33.6 million) at December 31, 2013 and December 31, 2012, respectively, based on exchange rates in effect as of December 31, 2013. The term of the non-recourse debt is through 2017 and it bears interest at a variable rate quoted by certain Australian banks plus 140 basis points. Any obligations or liabilities of the subsidiary are matched by a similar or corresponding commitment from the government of the State of Victoria. As a condition of the loan, we are required to maintain a restricted cash balance of AUD 5.0 million along with interest earned on the account, which, at December 31, 2013, was $5.1 million (including interest) based on exchange rates in effect as of December 31, 2013. This amount is included in non-current restricted cash and the annual maturities of the future debt obligation are included in Non-Recourse Debt.

Guarantees

In connection with the creation of SACS, we entered into certain guarantees related to the financing, construction and operation of the prison. We guaranteed certain obligations of SACS under our debt agreements to SACS' senior lenders through the issuance of letters of credit for 60.0 million South African Rand. During the fiscal year ended January 1, 2012, we were notified by SACS' lenders that these guarantees were reduced from 60.0 million South African Rand to 34.8 million South African Rand, or $3.3 million based on exchange rates as of December 31, 2013. Additionally, SACS was required to fund a Rectification Account for the repayment of certain costs in the event of contract termination.

As such, we had guaranteed the payment of 60% of amounts which may have been payable by SACS into the Rectification Account by providing a standby letter of credit of 8.4 million South African Rand as security for this guarantee. During the fiscal year ended December 31, 2012, SACS met its obligation for the funding of the Rectification Account and the letter of credit for 8.4 million South African Rand relative to this guarantee was not renewed. In the event SACS is unable to maintain the required funding in the Rectification Account, the guarantee for the shortfall will need to be re-instated. No amounts were drawn against these letters of credit. The remaining guarantee of 34.8 million South African Rand is included as part of the value of our outstanding letters of credit under our Revolver as of December 31, 2013.

In addition to the above, we have also agreed to provide a loan, of up to 20.0 million South African Rand, or $1.9 million based on exchange rates as of December 31, 2013, referred to as the Shareholder's Loan, to SACS for the purpose of financing SACS' obligations under its contract with the South African government. No amounts have been funded under the Shareholder's Loan, and we do not currently anticipate that such funding will be required by SACS in the future. Our obligations under the Shareholder's Loan expire upon the earlier of full funding or SACS's release from its obligations under its debt agreements. The lenders' ability to draw on the Shareholder's Loan is limited to certain circumstances, including termination of the contract.

We have also guaranteed certain obligations of SACS to the security trustee for SACS' lenders. We secured our guarantee to the security trustee by ceding our rights to claims against SACS in respect of any loans or other finance agreements, and by pledging our shares in SACS. Our liability under the guarantee is limited to the cession and pledge of shares. The guarantee expires upon expiration of the cession and pledge agreements.

In connection with a design, build, finance and maintenance contract for a facility in Canada, we guaranteed certain potential tax obligations of a trust. The potential estimated exposure of these obligations is Canadian Dollar ("CAD") $2.5 million, or $2.3 million based on exchange rates as of December 31, 2013, commencing in 2017. We have a liability of $2.0 million and $2.2 million related to this exposure included in Other Non-Current Liabilities as of December 31, 2013 and December 31, 2012, respectively. To secure this guarantee, we purchased Canadian dollar denominated securities with maturities matched to the estimated tax obligations in 2017 to 2021. We have recorded an asset equal to the current fair market value of those securities included in Other Non-Current Assets as of December 31, 2013 and December 31, 2012, respectively, on our consolidated balance sheets. We do not currently operate or manage this facility.

At December 31, 2013, we also had eight letters of guarantee outstanding under separate international facilities relating to performance guarantees of our Australian subsidiary totaling $10.8 million.

In connection with the creation of GEOAmey, we and our joint venture partner guarantee the availability of working capital in equal proportion to ensure that GEOAmey can comply with current and future contractual commitments related to the performance of our operations. We and the 50% joint venture partner have each extended a £12 million line of credit of which £12.0 million, or $19.8 million based on exchange rates as of December 31, 2013, was outstanding as of December 31, 2013. Our maximum exposure relative to the joint venture is its note receivable of $19.8 million and future financial support necessary to guarantee performance under the contract.

Executive Retirement Agreements

We have a non-qualified deferred compensation agreement with our Chief Executive Officer, which we refer to as our CEO. The current agreement, as amended, provides for a lump sum payment upon retirement, no sooner than age 55. As of December 31, 2013, our CEO had reached age 55 and was eligible to receive the payment upon retirement. On August 22, 2012, the agreement was amended to eliminate the tax gross-up provision for taxes applicable to our CEO's lump sum retirement payment. In exchange for the elimination of the tax gross-up provision, the amount of the lump sum retirement payment our CEO is entitled to receive has been proportionately increased so that our CEO would receive substantially the same net benefit he would otherwise have received if the tax gross-up provision remained in place. If our CEO had retired as of December 31, 2013, we would have had to pay him $6.8 million. Based on our current capitalization, we do not believe that making this payment would materially adversely impact our liquidity.

Off-Balance Sheet Arrangements

Except as discussed above, we do not have any off balance sheet arrangements.

We are also exposed to various commitments and contingencies which may have a material adverse effect on our liquidity. See Note 18 - Commitments and Contingencies of the notes to our consolidated financial statements

Derivatives

Our Australian subsidiary is a party to an interest rate swap agreement to fix the interest rate on the variable rate non-recourse debt to 9.7%. We have determined the swap, which has a notional amount of $50.9 million, payment and expiration dates, and call provisions that coincide with the terms of the non-recourse debt, to be an effective cash flow hedge. Accordingly, we record the change in the value of the interest rate swap in accumulated other comprehensive income, net of applicable income taxes. Total net unrealized gain (loss) recognized in the periods and recorded in accumulated other comprehensive income (loss), net of tax, related to this cash flow hedge was $(0.5) million and $(1.2) million for the fiscal years ended December 31, 2012 and January 1, 2012, respectively. The net unrealized gain (loss) for the year ended December 31, 2013 was not significant. The total value of the swap liability as of December 31, 2013 and December 31, 2012 was $0.4 million and $0.7 million, respectively, and is recorded as a component of other liabilities in the accompanying consolidated balance sheets. There was no material ineffectiveness of this interest rate swap for the fiscal periods presented. We do not expect to enter into any transactions during the next twelve months which would result in the reclassification into earnings or losses associated with this swap currently reported in accumulated other comprehensive income (loss).

Contractual Obligations

The following is a table of certain of our contractual obligations, as of December 31, 2013, which requires us to make payments over the periods presented.

	Payments Due by Period				
Contractual Obligations	**Total**	**Less Than 1 Year**	**1-3 Years**	**3-5 Years**	**More Than 5 Years**
			(In thousands)		
Long-Term Debt	$ 850,221	$ 185	$ 25	$ 8	$ 850,003
Term Loan	298,500	3,000	6,000	6,000	283,500
Revolver	340,000	—	—	340,000	—
Capital Lease Obligations (includes imputed interest)	16,722	1,949	3,867	3,870	7,036
Operating Lease Obligations	153,659	38,028	58,872	32,871	23,888
Non-Recourse Debt	85,091	17,978	27,193	16,911	23,009
Estimated interest payments on debt(a)	718,814	79,303	169,064	173,683	296,764
Estimated funding of pension and other post retirement benefits	20,034	7,228	874	976	10,956
Estimated construction commitments	49,100	48,650	450	—	—
Estimated tax payments for uncertain tax positions(b)	2,542	—	2,542	—	—
Total	$ 2,534,683	$ 196,321	$ 268,887	$ 574,319	$ 1,495,156

(a) Due to the uncertainties of future LIBOR rates, the variable interest payments on our Senior Credit Facility and swap agreements were calculated using an average LIBOR rate of 1.72% based on projected interest rates through fiscal 2019.

(b) State income tax payments are reflected net of the federal income tax benefit.

Cash Flow

Cash and cash equivalents as of December 31, 2013 was $52.1 million, compared to $31.8 million as of December 31, 2012 and was impacted by the following:

Cash provided by operating activities of continuing operations in 2013, 2012 and 2011 was $192.2 million, $255.2 million, and $185.1 million, respectively. Cash provided by operating activities of continuing operations in 2013 was positively impacted by non-cash expenses such as depreciation and amortization, loss on extinguishment of debt, stock-based compensation expense and dividends received from our unconsolidated joint venture. These positive impacts were offset by changes in our working capital components which were primarily driven by increases in accounts receivable, prepaid expenses and other current assets along with decreases in accounts payable, accrued expenses and other current liabilities. Accounts receivable, prepaid expenses and other current assets increased by $27.2 million, representing a negative impact on cash. The increase was primarily driven by federal and state income tax overpayments of $22.4 million included in prepaid expenses and other current assets at December 31, 2013 and the timing of billings and collections. Increases in equity in earnings of affiliates, net of tax, the tax benefit related to equity compensation and a release of reserves for uncertain tax positions also negatively impacted cash. Accounts payable, accrued expenses and other current liabilities decreased by $10.0 million which negatively impacted cash. The decrease was primarily caused by general liability insurance settlements in 2013, a release of reserves for uncertain tax positions and the timing of payments on accounts payable and accrued payroll and related taxes.

Cash provided by operating activities of continuing operations in 2012 was positively impacted by increases in net income attributable to GEO, non-cash expenses such as depreciation and amortization and stock based compensation expense. These positive impacts were offset by the deferred income tax benefit and changes in our working capital components which were primarily driven by decreases in accounts receivable, prepaid expenses and other current assets along with increases in accounts payable, accrued expenses and other current liabilities. Accounts receivable, prepaid expenses and other current assets decreased by $44.7 million and represented a source of cash. The decrease was primarily caused by increased operations at several new facilities which opened during 2011 and 2012. Accounts payable, accrued expenses and other current liabilities increased by $27.4 million, net of acquisitions, and represented a use of cash. The increase was primarily caused by the timing of payments and a $15 million customer prepayment in 2012.

Cash provided by operating activities of continuing operations in 2011 was positively impacted by increases in net income attributable to GEO, non-cash expenses such as depreciation and amortization and stock based compensation expense as well as from cash dividends received from our joint venture in South Africa of $9.9 million. These positive impacts were offset by changes in our working capital components which were primarily driven by decreases in accounts receivable, prepaid expenses and other current assets along with decreases in accounts payable, accrued expenses and other current liabilities. Accounts receivable, prepaid expenses and other current assets decreased by $20.1 million, net of acquisitions, and represented a use of cash. The decrease was primarily due to the timing of billings and collections. Accounts payable, accrued expenses and other current liabilities decreased by $16.8 million, net of acquisitions, and represented a use of cash. The decrease was primarily caused by the timing of payments.

Cash used in investing activities by continuing operations of $99.0 million in 2013 was primarily the result of capital expenditures of $117.6 million, offset by an decrease in restricted cash of $17.4 million. Cash used in investing activities by continuing operations of $52.6 million in 2012 was primarily the result of capital expenditures of $107.6 million and the acquisition of the ownership interests in MCF of $35.2 million, offset by a decrease in restricted cash of $51.2 million and the proceeds from the RTS divestiture of $33.3 million. Cash used in investing activities in 2011 of $632.5 million primarily related to our cash consideration of the purchase of BI for $409.6 million and $222.0 million for capital expenditures.

Cash used in financing activities by continuing operations in 2013 reflects payments of $1,134.5 million on indebtedness offset by $1,238.0 million of proceeds from long term debt, including $300.0 million from the 5.125% Senior Notes, $250.0 million from the 5 7/8% Senior Notes as well as $688.0 million of borrowings under our Revolver. We also paid cash dividends of $147.2 million, deferred debt issuance costs of $23.8 million and debt issuance fees of $13.4 million.

Cash used in financing activities by continuing operations in 2012 reflects payments of $456.5 million on indebtedness offset by $358.0 million of borrowings under our Senior Credit Facility which includes proceeds of $100.0 million from our prior Term Loan A-3. We also made a cash distribution of $5.8 million to the partners of MCF, paid a $102.4 million dividend to our shareholders and paid $14.9 million in fees, including a make-whole provision, related to the early extinguishment of debt in connection with the redemption of the MCF bonds.

Cash provided by financing activities by continuing operations in 2011 of $454.0 million reflects proceeds from our Prior Senior Credit Facility and 6.625% Senior Notes of $782.2 million and proceeds of $53.2 million from our 2011 Revenue Bonds, net of discount, offset by payments on indebtedness of $289.8 million. We also made a cash distribution of $4.0 million to the partners of MCF and paid $15.5 million in connection with the issuance of 2011 Revenue Bonds and the financing of the BI Acquisition. Additionally, we paid $75.0 million in 2011 for purchases of our common stock.

Inflation

We believe that inflation, in general, did not have a material effect on our results of operations during 2013, 2012 and 2011. While some of our contracts include provisions for inflationary indexing, inflation could have a substantial adverse effect on our results of operations in the future to the extent that wages and salaries, which represent our largest expense, increase at a faster rate than the per diem or fixed rates received by us for our management services.

Outlook

The following discussion of our future performance contains statements that are not historical statements and, therefore, constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Our forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from those stated or implied in the forward-looking statement. Please refer to “Item 1A. Risk Factors” in this Annual Report on Form 10-K, the “Forward-Looking Statements — Safe Harbor,” as well as the other disclosures contained in this Annual Report on Form 10-K, for further discussion on forward-looking statements and the risks and other factors that could prevent us from achieving our goals and cause the assumptions underlying the forward-looking statements and the actual results to differ materially from those expressed in or implied by those forward-looking statements.

Revenue

Domestically, we continue to pursue a number of opportunities for corrections and detention facilities. Continued need for corrections facilities in various states and the need for bed space at federal prisons and detention facilities are two of the factors that have contributed to these opportunities. At the state level, we recently signed two contracts with the California Department of Corrections and Rehabilitation for the housing of 1,400 inmates at our company-owned, 700-bed Central Valley Modified Community Correctional Facility and our company-owned, 700-bed Desert View Modified Community Correctional Facility. Additionally, we executed a new contract for the continued housing of California inmates at our company-owned Golden State Modified Community Correctional Facility, which increased the facility’s contract capacity from 600 to 700 beds. In Florida, the Department of Management Services awarded us three contracts for the management of 3,854 contract prison beds which are currently managed by a different private operator. Effective February 1, 2014, we assumed operation of the 1,884-bed Graceville Correctional Facility, the 985-bed Moore Haven Correctional Facility, and the 985-bed Bay Correctional Facility. At the federal level, we recently signed a contract with ICE for the development and management of a new 400-bed immigration transfer center in Alexandria, Louisiana. We continue to be encouraged by opportunities as discussed above; however any positive trends may, to some extent, be adversely impacted by government budgetary constraints in the future. While more than two-thirds of legislative fiscal directors described their state fiscal situation as stable, still seventeen states reported that at least one major category of spending was significantly over budget for fiscal year 2014 and of those, ten states indicated that their corrections budgets were overspent in the first four months of fiscal year 2014, according to a survey conducted in the Fall of 2013 by the National Conference of State Legislatures. As a result of budgetary pressures, state correctional agencies may pursue a number of cost savings initiatives which may include reductions in per diem rates and/or the scope of services provided by private operators. These potential cost savings initiatives could have a material adverse impact on our current operations and/or our ability to pursue new business opportunities. Additionally, if state budgetary constraints, as discussed above, persist or intensify, our state customers' ability to pay us may be impaired and/or we may be forced to renegotiate our management contracts on less favorable terms and our financial condition, results of operations or cash flows could be materially adversely impacted. We plan to actively bid on any new projects that fit our target profile for profitability and

operational risk. Although we are pleased with the overall industry outlook, positive trends in the industry may be offset by several factors, including budgetary constraints, unanticipated contract terminations, contract non-renewals, and/or contract re-bids. Although we have historically had a relatively high contract renewal rate, there can be no assurance that we will be able to renew our expiring management contracts on favorable terms, or at all. Also, while we are pleased with our track record in re-bid situations, we cannot assure that we will prevail in any such future situations.

Internationally, we are exploring a number opportunities in our current markets and will continue to actively bid on any opportunities that fit our target profile for profitability and operational risk.

With respect to our youth services, electronic monitoring services, and re-entry services business conducted through our GEO Community business segment, we are currently pursuing a number of business development opportunities. In connection with our merger with Cornell in August 2010 and our acquisition of BI in February 2011, we have significantly expanded GEO Community's operations by adding 36 facilities, 7 nonresidential service centers, and 35 Day Reporting Centers. We also expanded the service offerings of GEO Community by adding electronic monitoring services, community re-entry and immigration related supervision services. Relative to opportunities for community-based re-entry centers, we expect to compete for several formal solicitations from the Bureau of Prisons (the "BOP") for re-entry centers across the country and are also working with our existing local and state correctional clients to leverage new opportunities for both residential facilities as well as non-residential day reporting centers. We continue to expend resources on informing state and local governments about the benefits of privatization and we anticipate that there will be new opportunities in the future as those efforts begin to yield results. We believe we are well positioned to capitalize on any suitable opportunities that become available in this area.

Operating Expenses

Operating expenses consist of those expenses incurred in the operation and management of our contracts to provide services to our governmental clients. Labor and related cost represented 58.3% of our operating expenses in 2013. Additional significant operating expenses include food, utilities and inmate medical costs. In 2013, operating expenses totaled 73.9% of our consolidated revenues. Our operating expenses as a percentage of revenue in 2014 will be impacted by the opening of any new or existing facilities as a result of the cost of transitioning and/or start-up operations related to a facility opening. During 2014, we will incur carrying costs for facilities that are currently vacant in 2013. The carrying costs associated with the approximately 6,000 beds we are currently marketing are expected to be $21.9 million in 2014, including depreciation of $5.9 million. As of December 31, 2013, our worldwide operations include the management and/or ownership of approximately 77,000 beds at 98 correctional, detention and residential treatment, youth services and community-based facilities including idle facilities, and also include the provision of monitoring of approximately 70,000 offenders in a community-based environment on behalf of approximately 900 federal, state and local correctional agencies located in all 50 states.

General and Administrative Expenses

General and administrative expenses consist primarily of corporate management salaries and benefits, professional fees and other administrative expenses. In 2013, general and administrative expenses totaled 7.7% of our consolidated revenues. We expect general and administrative expenses as a percentage of revenue in 2014 to decrease as a result of cost savings initiatives and decreases in nonrecurring costs related to our REIT conversion. We expect business development costs to remain consistent as we pursue additional business development opportunities in all of our business lines. We also plan to continue expending resources from time to time on the evaluation of potential acquisition targets.

Idle Facilities

We are currently marketing approximately 6,000 vacant beds at six of our idle facilities to potential customers. The annual carrying cost of idle facilities in 2013 is estimated to be $21.9 million, including depreciation expense of $5.9 million. As of December 31, 2013, these facilities had a net book value of $193.6 million. We currently do not have any firm commitment or agreement in place to activate these facilities. Historically, some facilities have been idle for multiple years before they received a new contract award. Currently, our North Lake Correctional Facility located in Baldwin, Michigan and our Great Plains Correctional Facility located in Hinton, Oklahoma have been idle the longest of our idle facility inventory. Both facilities have been idle since October of 2010. These idle facilities are included in the U.S. Corrections & Detention segment.

The per diem rates that we charge our clients often vary by contract across our portfolio. However, if all of these idle facilities were to be activated using our U.S. Corrections & Detention average per diem rate in 2013, (calculated as the U.S. Corrections & Detention revenue divided by the number of U.S. Corrections & Detention mandays) and based on the average occupancy rate in our U.S. Corrections & Detention facilities for 2013, we would expect to receive incremental revenue of approximately $125 million and an increase in earnings per share of approximately $.35 to $.40 per share based on our average U.S. Corrections and Detention operating margin.

Forward-Looking Statements — Safe Harbor

This Annual Report on Form 10-K and the documents incorporated by reference herein contain "forward-looking" statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. "Forward-looking" statements are any statements that are not based on historical information. Statements other than statements of historical facts included in this report, including, without limitation, statements regarding our future financial position, business strategy, budgets, projected costs and plans and objectives of management for future operations, are "forward-looking" statements. Forward-looking statements generally can be identified by the use of forward-looking terminology such as "may," "will," "expect," "anticipate," "intend," "plan," "believe," "seek," "estimate" or "continue" or the negative of such words or variations of such words and similar expressions. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions, which are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements and we can give no assurance that such forward-looking statements will prove to be correct. Important factors that could cause actual results to differ materially from those expressed or implied by the forward-looking statements, or "cautionary statements," include, but are not limited to:

- our ability to timely build and/or open facilities as planned, profitably manage such facilities and successfully integrate such facilities into our operations without substantial additional costs;
- our ability to remain qualified for taxation as a REIT;
- our ability to fulfill our debt service obligations and its impact on our liquidity;
- the instability of foreign exchange rates, exposing us to currency risks in Australia, the United Kingdom, Canada, and South Africa, or other countries in which we may choose to conduct our business;
- our ability to activate the inactive beds at our idle facilities;
- our ability to maintain occupancy rates at our facilities;
- an increase in unreimbursed labor rates;
- our ability to expand, diversify and grow our correctional, detention, mental health, residential treatment, re-entry, community-based services, youth services, monitoring services, evidence-based supervision and treatment programs and secure transportation services businesses;
- our ability to win management contracts for which we have submitted proposals, retain existing management contracts and meet any performance standards required by such management contracts;
- our ability to control operating costs associated with contract start-ups;
- our ability to raise new project development capital given the often short-term nature of the customers' commitment to use newly developed facilities;
- our ability to estimate the government's level of dependency on privatized correctional services;
- our ability to accurately project the size and growth of the U.S. and international privatized corrections industry;
- our ability to successfully respond to delays encountered by states privatizing correctional services and cost savings initiatives implemented by a number of states;
- our ability to develop long-term earnings visibility;
- our ability to identify suitable acquisitions and to successfully complete and integrate such acquisitions on satisfactory terms, and estimate the synergies to be achieved as a result of such acquisitions;
- our exposure to the impairment of goodwill and other intangible assets as a result of our acquisitions;
- our ability to successfully conduct our operations through joint ventures;
- our ability to obtain future financing on satisfactory terms or at all, including our ability to secure the funding we need to complete ongoing capital projects;

- our exposure to political and economic instability and other risks impacting our international operations;
- our exposure to risks impacting our information systems, including those that may cause an interruption, delay or failure in the provision of our services;
- our exposure to rising general insurance costs;
- our exposure to state and federal income tax law changes internationally and domestically and our exposure as a result of federal and international examinations of our tax returns or tax positions;
- our exposure to claims for which we are uninsured;
- our exposure to rising employee and inmate medical costs;
- our ability to manage costs and expenses relating to ongoing litigation arising from our operations;
- our ability to accurately estimate on an annual basis, loss reserves related to general liability, workers' compensation and automobile liability claims;
- the ability of our government customers to secure budgetary appropriations to fund their payment obligations to us and to continue to operate under our existing agreements and/or renew our existing agreements;
- our ability to pay quarterly dividends consistent with our expectations;
- our ability to comply with government regulations and applicable contractual requirements;
- our ability to acquire, protect or maintain our intellectual property; and
- other factors contained in our filings with the Securities and Exchange Commission, or the SEC, including, but not limited to, those detailed in this Annual Report on Form 10-K, our Quarterly Reports on Form 10-Q and our Current Reports on Form 8-K filed with the SEC.

We undertake no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise. All subsequent written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements included in this report.

Item 7A. *Quantitative and Qualitative Disclosures About Market Risk*

Interest Rate Risk

We are exposed to market risks related to changes in interest rates with respect to our Senior Credit Facility. Payments under the Senior Credit Facility are indexed to a variable interest rate. Based on borrowings outstanding as of December 31, 2013 under the Senior Credit Facility of $298.5 million, for every one percent increase in the interest rate applicable to the Senior Credit Facility, our total annual interest expense would increase by $3.0 million.

We have entered into certain interest rate swap arrangements for hedging purposes, fixing the interest rate on our Australian non-recourse debt to 9.7%. The difference between the floating rate and the swap rate on these instruments is recognized in interest expense within the respective entity. Because the interest rates with respect to these instruments are fixed, a hypothetical 100 basis point change in the current interest rate would not have a material impact on our financial condition or results of operations.

Additionally, we invest our cash in a variety of short-term financial instruments to provide a return. These instruments generally consist of highly liquid investments with original maturities at the date of purchase of three months or less. While these instruments are subject to interest rate risk, a hypothetical 100 basis point increase or decrease in market interest rates would not have a material impact on our financial condition or results of operations.

Foreign Currency Exchange Rate Risk

We are exposed to market risks related to fluctuations in foreign currency exchange rates between the U.S. Dollar, the Australian Dollar, the Canadian Dollar, the South African Rand and the British Pound currency exchange rates. Based upon our foreign currency exchange rate exposure as of December 31, 2013 with respect to our international operations, every 10 percent change in historical currency rates would have a $4.6 million effect on our financial position and a $1.5 million impact on our results of operations over the next fiscal year.

Item 8. ***Financial Statements and Supplementary Data***

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

To the Shareholders of
The GEO Group, Inc.:

The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States. They include amounts based on judgments and estimates.

Representation in the consolidated financial statements and the fairness and integrity of such statements are the responsibility of management. In order to meet management's responsibility, the Company maintains a system of internal controls and procedures and a program of internal audits designed to provide reasonable assurance that our assets are controlled and safeguarded, that transactions are executed in accordance with management's authorization and properly recorded, and that accounting records may be relied upon in the preparation of financial statements.

The consolidated financial statements have been audited by Grant Thornton LLP, independent registered public accountants, whose appointment by our Audit Committee was ratified by our shareholders. Their report, which is included in this Form 10-K expresses an opinion as to whether management's consolidated financial statements present fairly in all material respects, the Company's financial position, results of operations and cash flows for each of the three years in the period ended December 31, 2013 in conformity with accounting principles generally accepted in the United States of America. The effectiveness of our internal control over financial reporting as of December 31, 2013 has also been audited by Grant Thornton LLP, independent registered public accountants, as stated in their report which is included in this Form 10-K. Their audits were conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States).

The Audit Committee of the Board of Directors meets periodically with representatives of management, the independent registered public accountants and our internal auditors to review matters relating to financial reporting, internal accounting controls and auditing. Both the internal auditors and the independent registered certified public accountants have unrestricted access to the Audit Committee to discuss the results of their reviews.

George C. Zoley
Chairman and Chief Executive Officer

Brian R. Evans
Senior Vice President and Chief Financial Officer

MANAGEMENT'S ANNUAL REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934. The Company's internal control over financial reporting is a process designed under the supervision of the Company's Chief Executive Officer and Chief Financial Officer that: (i) pertains to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the Company's assets; (ii) provides reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements for external reporting in accordance with accounting principles generally accepted in the United States, and that receipts and expenditures are being made only in accordance with authorization of the Company's management and directors; and (iii) provides reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Management has assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2013. In making its assessment of internal control over financial reporting, management used the criteria set forth by the 1992 Committee of Sponsoring Organizations ("COSO") of the Treadway Commission in Internal Control — Integrated Framework.

The Company evaluated, with the participation of its Chief Executive Officer and Chief Financial Officer, its internal control over financial reporting as of December 31, 2013, based on the 1992 COSO Internal Control — Integrated Framework. Based on this evaluation, the Company's management concluded that as of December 31, 2013, its internal control over financial reporting is effective in providing reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Grant Thornton LLP, the independent registered public accounting firm that audited the financial statements included in this Annual Report on Form 10-K, has issued an attestation report on our internal control over financial reporting as of December 31, 2013.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Shareholders of
The GEO Group, Inc.

We have audited the internal control over financial reporting of The GEO Group, Inc. and subsidiaries (the "Company") as of December 31, 2013, based on criteria established in the 1992 *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2013, based on criteria established in the 1992 *Internal Control-Integrated Framework* issued by COSO.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements of the Company as of and for the year ended December 31, 2013, and our report dated March 3, 2014 expressed an unqualified opinion on those financial statements.

/s/ GRANT THORNTON LLP

Miami, Florida
March 3, 2014

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Shareholders of
The GEO Group, Inc.

We have audited the accompanying consolidated balance sheets of The GEO Group, Inc. and subsidiaries (the "Company") as of December 31, 2013 and 2012, and the related consolidated statements of operations, comprehensive income (loss), shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2013. Our audits of the basic consolidated financial statements included the financial statement schedules listed in the index appearing under Item 15. These financial statements and financial statement schedules are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and financial statement schedules based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of The GEO Group, Inc. and subsidiaries as of December 31, 2013 and 2012, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2013 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the related financial statement schedules, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly, in all material respects, the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2013, based on criteria established in the 1992 *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated March 3, 2014 expressed an unqualified opinion thereon.

THE GEO GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
For the Year Ended December 31, 2013 and Fiscal Years ended December 31, 2012 and January 1, 2012

1. Summary of Business Organization, Operations and Significant Accounting Policies

The GEO Group, Inc. a Florida corporation, and subsidiaries (the "Company" or "GEO") is a fully-integrated real estate investment trust ("REIT") specializing in the ownership, leasing and management of correctional, detention and re-entry facilities and the provision of community-based services and youth services in the United States, Australia, South Africa, the United Kingdom and Canada. The Company owns, leases and operates a broad range of correctional and detention facilities including maximum, medium and minimum security prisons, immigration detention centers, minimum security detention centers, as well as community based re-entry facilities. The Company develops new facilities based on contract awards, using its project development expertise and experience to design, construct and finance what it believes are state-of-the-art facilities that maximize security and efficiency. The Company provides innovative compliance technologies, industry-leading monitoring services, and evidence-based supervision and treatment programs for community-based parolees, probationers and pretrial defendants. The Company also provides secure transportation services for offender and detainee populations as contracted domestically and in the United Kingdom through its joint venture GEO Amey PECS Ltd. ("GEOAmey"). As of December 31, 2013, GEO's worldwide operations included the ownership and/or management of approximately 77,000 beds at 98 correctional, detention and community services facilities, including idle facilities and projects under development, and also included the provision of monitoring of approximately 70,000 offenders in a community-based environment on behalf of approximately 900 federal, state and local correctional agencies located in all 50 states.

GEO began operating as a REIT for federal income tax purposes effective January 1, 2013. As a result of the REIT conversion, GEO reorganized its operations and moved non-real estate components into taxable REIT subsidiaries ("TRS's").

Through the TRS structure, the portion of GEO's businesses which are non-real estate related, such as its managed-only contracts, international operations, electronic monitoring services, and other non-residential and community based facilities, are part of wholly-owned taxable subsidiaries of the REIT. Most of GEO's business segments, which are real estate related and involve company-owned and company-leased facilities, are part of the REIT. The TRS structure allows the Company to maintain the strategic alignment of almost all of its diversified business segments under one entity. The TRS assets and operations will continue to be subject to federal and state corporate income taxes and to foreign taxes as applicable in the jurisdictions in which those assets and operations are located.

The consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States. The significant accounting policies of the Company are described below.

Fiscal Year

In connection with the REIT conversion discussed above, effective December 31, 2012, the Company changed to a calendar year from a fiscal year that ended on the Sunday closest to the calendar year end and changed its fiscal quarters to coincide with each calendar quarter. For fiscal 2012, the period began on January 2, 2012 and ended on December 31, 2012. For fiscal 2011, the period began on January 3, 2011 and ended on January 1, 2012. The Company reports the results of its South African equity affiliate, South African Custodial Services Pty. Limited, ("SACS"), its consolidated South African entity, South African Custodial Management Pty. Limited ("SACM"), and its joint venture GEOAmey, on a calendar year end for all periods reported, due to the availability of information.

Consolidation

The accompanying consolidated financial statements include the accounts of the Company, its wholly-owned subsidiaries, and the Company's activities relative to the financing of operating facilities (the Company's variable interest entities are discussed further below under ***Variable Interest Entities***). The equity method of accounting is used for investments in non-controlled affiliates in which the Company's ownership ranges from 20 to 50 percent, or in instances in which the Company is able to exercise significant influence but not control. The Company reports SACS and its 50% owned joint venture in the United Kingdom, GEOAmey, under the equity method of accounting. Noncontrolling interests in consolidated entities represent equity that other investors have contributed to SACM and, prior to its acquisition by the Company during 2012, Municipal Corrections Finance, L.P ("MCF"). Non-controlling interests are adjusted for income and losses allocable to the other shareholders in these entities. As further discussed under the ***Variable Interest Entities*** policy below, the Company acquired a 100% interest in MCF effective August 31, 2012 and the non-controlling interest related to MCF was reclassified to shareholders' equity attributable to GEO. In addition, on September 30, 2013, the Company completed a defeasance of the bonds related to South Texas Local Development Corportation ("STLDC"). Subsequent to September 30, 2013, the Company no longer includes the financial position and results of operations of any VIE's in its consolidated financial statements. All significant intercompany balances and transactions have been eliminated.

Divestiture of Residential Treatment Services

The operating results of Residential Treatment Services ("RTS"), which was divested on December 31, 2012 in connection with the Company's conversion to a REIT, have been retroactively reclassified to discontinued operations for the fiscal years ended December 31, 2012 and January 1, 2012. Refer to Note 2- Discontinued Operations.

Discontinued Operations

The Company reports the results of operations of a component of an entity that either has been disposed of or is classified as held for sale or where the management contracts with that component have terminated either by expiration or otherwise in discontinued operations. The Company presents such events as discontinued operations so long as the financial results can be clearly identified, the future operations and cash flows are completely eliminated from ongoing operations, and so long as the Company does not have any significant continuing involvement in the operations of the component after the disposal or termination transaction.

When a component of an entity has been disposed of or classified as held for sale or a management contract is terminated, the Company looks at its overall relationship with the customer. If the operations or cash flows of the component have been (or will be) eliminated from the ongoing operations of the entity as a result of the transaction and the entity will not have significant continuing involvement in the operations of the component after the transaction, the results of operations of the component of an entity are reported in discontinued operations. If the Company will continue to maintain a relationship generating significant cash flows and having continuing involvement with the customer, the disposal, the asset held for sale classification or the loss of the management contract(s) is not treated as discontinued operations. If the disposal, the asset held for sale classification or the loss of the management contract(s) results in a loss in the overall customer relationship as no future significant cash flows will be generated and the Company will have no continuing involvement with the customer, the results are classified in discontinued operations.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company's significant estimates include reserves for self-insured retention related to general liability insurance, workers' compensation insurance, auto liability insurance, medical malpractice insurance, employer group health insurance, projected undiscounted cash flows used to evaluate asset impairment, pension assumptions, percentage of completion and estimated cost to complete for construction projects and recoverability of notes receivable, estimated useful lives of property and equipment and intangible assets, stock based compensation and allowance for doubtful accounts. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the

financial statements and the reported amounts of revenues and expenses during the reporting period. While the Company believes that such estimates are reasonable when considered in conjunction with the consolidated financial statements taken as a whole, the actual amounts of such estimates, when known, will vary from these estimates. If actual results significantly differ from the Company's estimates, the Company's financial condition and results of operations could be materially impacted.

Dividends

As a REIT, the Company is required to distribute annually at least 90% of its REIT taxable income (determined without regard to the dividends paid deduction and by excluding net capital gain). The amount, timing and frequency of future distributions, however, will be at the sole discretion of the Company's Board of Directors and will be declared based upon various factors, many of which are beyond the Company's control, including, the Company's financial condition and operating cash flows, the amount required to maintain REIT status and reduce any income and excise taxes that the Company otherwise would be required to pay, limitations on distributions in the Company's existing and future debt instruments, limitations on the Company's ability to fund distributions using cash generated through our TRS and other factors that the Company's Board of Directors may deem relevant. The Company began paying regular distributions in 2013. Refer to Note 3- Shareholders' Equity.

A REIT is not permitted to retain earnings and profits accumulated during the years it was taxed as a C corporation or earnings and profits accumulated by its subsidiaries that have been converted to qualified REIT subsidiaries, and must make one or more distributions to shareholders that equal or exceed these accumulated amounts by the end of the first REIT year. On December 31, 2012, the Company paid a one-time Pre-REIT Distribution to its shareholders. Earnings and profits, which determine the taxability of distributions to shareholders, will differ from net income reported for financial reporting purposes due to the differences in the treatment of gains and losses, revenue and expenses, and depreciation for financial reporting relative to federal income tax purposes.

Cash and Cash Equivalents

Cash and cash equivalents include all interest-bearing deposits or investments with original maturities of three months or less when purchased. The Company maintains cash and cash equivalents with various financial institutions. These financial institutions are located throughout the United States, Australia, South Africa, Canada and the United Kingdom. As of December 31, 2013 and December 31, 2012, the Company had $20.4 million and $24.8 million in cash and cash equivalents held by its international subsidiaries, respectively.

Concentration of Credit Risk

The Company maintains deposits of cash in excess of federally insured limits with certain financial institutions and accordingly the Company is subject to credit risk. Other than cash, financial instruments that potentially subject the Company to concentrations of credit risk consist principally of trade accounts receivable, a direct finance lease receivable, long-term debt and financial instruments used in hedging activities. The Company's cash management and investment policies restrict investments to low-risk, highly liquid securities, and the Company performs periodic evaluations of the credit standing of the financial institutions with which it deals.

Accounts Receivable

Accounts receivable consists primarily of trade accounts receivable due from federal, state, and local government agencies for operating and managing correctional facilities, providing youth and community based services, providing electronic monitoring and supervision services, providing construction and design services and providing inmate residential and prisoner transportation services. The Company generates receivables with its governmental clients and with other parties in the normal course of business as a result of billing and receiving payment. The Company regularly reviews outstanding receivables, and provides for estimated losses through an allowance for doubtful accounts. In evaluating the level of established loss reserves, the Company makes judgments regarding its customers' ability to make required payments, economic events and other factors. As the financial condition of these parties change, circumstances develop or additional information becomes available, adjustments to the allowance for doubtful accounts may be required. The Company also performs ongoing credit evaluations for some of its customers' financial conditions and generally does not require collateral. Generally, the Company receives payment for these services thirty to sixty days in arrears. However, certain of the Company's accounts receivable are

paid by customers after the completion of their program year and therefore can be aged in excess of one year. The Company maintains reserves for potential credit losses, and such losses traditionally have been within its expectations. Actual write-offs are charged against the allowance when collection efforts have been unsuccessful. As of December 31, 2013 and December 31, 2012, $0.8 million and $0.5 million, respectively, of the Company's trade receivables were considered to be long-term and are classified as Other Non-Current Assets in the accompanying Consolidated Balance Sheets.

Notes Receivable

The Company has notes receivable from its former joint venture partner in the United Kingdom related to a subordinated loan extended to the joint venture partner while an active member of the partnership. The notes bear interest at a rate of 13%, and have semi-annual payments due June 15 and December 15 through June 2018. The Company recognizes interest income on its Notes Receivable as it is earned. The balance outstanding as of December 31, 2013 and December 31, 2012 was $2.0 million and $2.3 million, respectively. These notes receivable are included in Other Non-Current Assets in the accompanying Consolidated Balance Sheets.

Note Receivable from Joint Venture

In May 2011, the GEO Group UK Limited, the Company's subsidiary in the United Kingdom ("GEO UK"), extended a non-revolving line of credit facility to GEOAmey for the purpose of funding mobilization costs and on-going start up and operations in the principal amount of £12 million or $19.8 million, based on the applicable exchange rate at December 31, 2013. Amounts under the line of credit were drawn down in multiple advances up to the principal amount and accrued interest at LIBOR plus 3%. The Company recognized interest income on its notes receivable as it was earned. Principal repayments by GEOAmey under the line of credit were due in March and September, beginning September 2013, with the final payment due no later than March 30, 2018.

On October 3, 2013, the Company and its joint venture partner entered into a modified line of credit agreement with GEOAmey. Under the modified agreement, the terms of the line of credit were amended such that (i) the balance of accrued interest at September 30, 2013, in the amount of £0.9 million or $1.5 million, based on the applicable exchange rate at December 31, 2013, was forgiven; (ii) the principal amount was revised to be due on demand rather than in accordance with the previous repayment schedule; interest payments will accrue beginning January 1, 2014 and be added to the principal sum; and (iii) the interest rate was reset to the base rate of the Bank of England plus 0.5%.

As of December 31, 2013, the Company was owed £12 million, or $19.8 million, based on exchange rates as of December 31, 2013, under the line of credit. As of December 31, 2012, the Company was owed £12.6 million, or $20.4 million, including accrued interest of $1 million, under the line of credit. At December 31, 2013, these balances are included within Other Non-Current Assets in the accompanying Consolidated Balance Sheets. Refer to Note 16 - Business Segments and Geographic Information regarding the Company's investment in GEOAmey.

Restricted Cash and Investments

The Company's restricted cash and investments at December 31, 2013 are attributable to: (i) the 1,575-bed Northwest Detention Center in Tacoma, Washington, (ii) certain cash restriction requirements at the Company's wholly owned Australian subsidiary related to the non-recourse debt and other guarantees, and (iii) restricted investments related to The GEO Group Inc. Non-qualified Deferred Compensation Plan. At December 31, 2012, restricted cash and investments also included amounts held in trust in connection with STLDC. The STLDC bonds were defeased during 2013 and the remaining restricted cash balances were released to the Company. The current portion of restricted cash and investments primarily represents the amount expected to be paid within the next twelve months for debt service related to the Company's non-recourse debt.

Prepaid expenses and Other Current Assets

Prepaid expenses and other current assets include assets that are expected to be realized within the next fiscal year. Included in the balance at December 31, 2013, is $22.4 million of federal and state overpayments that will be applied against tax payments due in 2013. There were no federal and state income tax overpayments at December 31, 2012.

Direct Finance Leases

The Company accounts for the portion of its contracts with certain governmental agencies that represent capitalized lease payments on buildings and equipment as investments in direct finance leases. Accordingly, the minimum lease payments to be received over the term of the leases less unearned income are capitalized as the Company's investments in the leases. Unearned income is recognized as income over the term of the leases using the effective interest method.

Property and Equipment

Property and equipment are stated at cost, less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets. Buildings and improvements are depreciated over 2 to 50 years. Equipment and furniture and fixtures are depreciated over 3 to 10 years. Accelerated methods of depreciation are generally used for income tax purposes. Leasehold improvements are amortized on a straight-line basis over the shorter of the useful life of the improvement or the term of the lease. The Company performs ongoing evaluations of the estimated useful lives of the property and equipment for depreciation purposes. The estimated useful lives are determined and continually evaluated based on the period over which services are expected to be rendered by the asset. If the assessment indicates that assets will be used for a longer or shorter period than previously anticipated, the useful lives of the assets are revised, resulting in a change in estimate. The Company has not made any such changes in estimates during the fiscal year ended December 31, 2013 or the fiscal years ended December 31, 2012 and January 1, 2012, respectively. Maintenance and repairs are expensed as incurred. Interest is capitalized in connection with the construction of correctional and detention facilities. Cost for self-constructed correctional and detention facilities includes direct materials and labor, capitalized interest and certain other indirect costs associated with construction of the facility, such as property taxes, other indirect labor and related benefits and payroll taxes. The Company begins the capitalization of costs during the pre-construction phase, which is the period during which costs are incurred to evaluate the site, and continues until the facility is substantially complete and ready for occupancy. Labor costs capitalized for the fiscal years ended December 31, 2013, December 31, 2012 and January 1, 2012 were not significant. Capitalized interest is recorded as part of the asset to which it relates and is amortized over the asset's estimated useful life. Refer to Note 6 - Property and Equipment.

Assets Held for Sale

As of December 31, 2013, the Company had no facilities classified as held for sale in the accompanying consolidated balance sheet. The Company classifies a long-lived asset (disposal group) as held for sale in the period in which all of the following criteria are met (i) Management, having the authority to approve the action, commits to a plan to sell the asset (disposal group), (ii) the asset (disposal group) is available for immediate sale in its present condition subject only to the terms that are usual and customary for sales of such assets (disposal groups), (iii) an active program to locate a buyer and other actions required to complete the plan to sell the asset (disposal group) have been initiated, (iv) the sale of the asset (disposal group) is probable, and transfer of the asset (disposal group) is expected to qualify for recognition as a completed sale, within one year, except as permitted, (v) the asset (disposal group) is being actively marketed for sale at a price that is reasonable in relation to its current fair value, and (vi) actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn. The Company records assets held for sale at the lower of cost or estimated fair value and estimates fair value by using third party appraisers or other valuation techniques. The Company does not record depreciation for assets held for sale. Any gain or loss on the sale of operating assets is included in the operating income of the reportable segment to which it relates.

Asset Impairments

The Company had property and equipment of $1.7 billion as of December 31, 2013 and 2012, including approximately 6,000 vacant beds at six idle facilities with a carrying value of $193.6 million which are being marketed to potential customers as of December 31, 2013, excluding equipment and other assets that can be easily transferred for use at other facilities.

The Company reviews long-lived assets to be held and used for impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be fully recoverable. Events that would trigger an impairment assessment include deterioration of profits for a business segment that has long-lived assets, or when other changes occur that might impair recovery of long-lived assets such as the termination of a management contract or a prolonged decrease in inmate population. If impairment indicators are present, the Company performs a recoverability test to determine whether or not an impairment loss should be measured.

The Company tests idle facilities for impairment upon notification that the facilities will no longer be utilized by the customer. If a long-lived asset is part of a group that includes other assets, the unit of accounting for the long-lived asset is its group. Generally, the Company groups assets by facility for the purpose of considering whether any impairment exists. The estimates of recoverability are based on projected undiscounted cash flows associated with actual marketing efforts where available or, in other instances, projected undiscounted cash flows that are comparable to historical cash flows from management contracts at similar facilities and sensitivity analyses that consider reductions to such cash flows. The Company's sensitivity analyses include adjustments to projected cash flows compared to the historical cash flows due to current business conditions which impact per diem rates as well as labor and other operating costs, changes related to facility mission due to changes in prospective clients, and changes in projected capacity and occupancy rates. The Company also factors in prolonged periods of vacancies as well as the time and costs required to ramp up facility population once a contract is obtained. The Company performs the impairment analyses on an annual basis for each of the idle facilities and takes into consideration updates each quarter for market developments affecting the potential utilization of each of the facilities in order to identify events that may cause the Company to reconsider the most recent assumptions. Such events could include negotiations with a prospective customer for the utilization of an idle facility at terms significantly less favorable than the terms used in the Company's most recent impairment analysis, or changes in legislation surrounding a particular facility that could impact the Company's ability to house certain types of inmates at such facility. Further, a substantial increase in the number of available beds at other facilities the Company owns, or in the marketplace, could lead to deterioration in market conditions and projected cash flows. Although they are not frequently received, an unsolicited offer to purchase any of the Company's idle facilities, at amounts that are less than their carrying value could also cause the Company to reconsider the assumptions used in the most recent impairment analysis. The Company has identified marketing prospects to utilize each of the remaining currently idled facilities and does not see any catalysts that would result in a current impairment. However, the Company can provide no assurance that it will be able to secure management contracts to utilize its idle facilities, or that it will not incur impairment charges in the future. In all cases, the projected undiscounted cash flows in our analysis as of December 31, 2013 substantially exceeded the carrying amounts of each facility.

The Company's evaluations also take into consideration historical experience in securing new management contracts to utilize facilities that had been previously idled for periods comparable to or in excess of the periods the Company's currently idle facilities have been idle. Such previously idle facilities are currently being operated under contracts that generate cash flows resulting in the recoverability of the net book value of the previously idled facilities by substantial amounts. Due to a variety of factors, the lead time to negotiate contracts with federal and state agencies to utilize idle bed capacity is generally lengthy which has historically resulted in periods of idleness similar to the ones the Company is currently experiencing. As a result of its analyses, the Company determined each of these assets to have recoverable values substantially in excess of the corresponding carrying values with the exception of one of its idle facilities in Brush, Colorado which was written down by $2.4 million in the fourth quarter of fiscal year 2012. This facility was written down to its land value as the Company had exhausted all avenues to market the facility.

By their nature, these estimates contain uncertainties with respect to the extent and timing of the respective cash flows due to potential delays or material changes to forecasted terms and conditions in contracts with prospective customers that could impact the estimate of projected cash flows. Notwithstanding the effects the current economy has had on the Company's customers' demand for prison beds in the short term which has led to its decision to idle certain facilities, the Company believes the long-term trends favor an increase in the utilization of its idle correctional facilities. This belief is also based on the Company's experience in operating in recessionary environments and based on its experience in working with governmental

agencies faced with significant budgetary challenges which is a primary contributing factor to the lack of appropriated funding to build new bed capacity by federal and state agencies.

Assets Held under Capital Leases

Assets held under capital leases are recorded at the lower of the net present value of the minimum lease payments or the fair value of the leased asset at the inception of the lease. Amortization expense is recognized using the straight-line method over the shorter of the estimated useful life of the asset or the term of the related lease and is included in depreciation expense.

Goodwill and Other Intangible Assets

Goodwill

The Company has recorded goodwill as a result of its business combinations. Goodwill is recorded as the difference, if any, between the aggregate consideration paid for an acquisition and the fair value of the net tangible assets and other intangible assets acquired. The Company's goodwill is not amortized and is tested for impairment annually on the first day of the fourth fiscal quarter, and whenever events or circumstances arise that indicate impairment may have occurred. Impairment testing is performed for all reporting units that contain goodwill. The reporting units are the same as the reporting segment for U.S. Corrections & Detention and are at the operating segment level for GEO Community Services. The Company has identified its reporting units based on the criteria management uses to make key decisions about the business. On the measurement date of October 1, 2013, the Company's management elected to qualitatively asses the Company's goodwill for impairment for certain of its reporting units, pursuant to the provisions of Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU") 2011-08. For one of its other reporting units, the Company elected to quantitatively assess the Company's goodwill for impairment as discussed further below. Under provisions of the qualitative analysis, when testing goodwill for impairment, the Company first assesses qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If, after assessing the totality of events or circumstances, the Company determines it is more likely than not that the fair value of a reporting unit is less than its carrying amount, the Company performs the first step of the two-step impairment test by calculating the fair value of the reporting unit, using a discounted cash flow method, and comparing the fair value with the carrying amount of the reporting unit. If the carrying amount of a reporting unit exceeds its fair value, the Company performs the second step of the goodwill impairment test to measure the amount of the impairment loss, if any. The qualitative factors used by the Company's management to determine the likelihood that the fair value of the reporting unit is less than the carrying amount include, among other things, a review of overall economic conditions and their current and future impact on the Company's existing business, the Company's financial performance, industry outlook and market competition.

For the reporting units that the Company elected to quantitatively assess the goodwill for impairment, the Company used a third party valuation firm to determine the estimated fair value of the reporting units using a discounted cash flow and other valuation models. Growth rates for sales and profits are determined using inputs from the Company's long term planning process. The Company also makes estimates for discount rates and other factors based on market conditions, historical experience and other economic factors. Changes in these factors could significantly impact the fair value of the reporting unit. During the year, the Company's management monitors the actual performance of the business relative to the fair value assumptions used during the prior year annual impairment test and updates its annual impairment test, if needed, to determine the likelihood that the goodwill has been impaired. With respect to the reporting units that were assessed qualitatively, management determined that it was more likely than not that the fair values of the reporting units exceeded their carrying values. With respect to the reporting unit that was assessed quantitatively, management did not identify the existence of events or circumstances that lead to a determination that it is more likely than not that the fair value of the reporting unit is less than its carrying amount.

Other Intangible Assets

The Company has also recorded other finite and indefinite lived intangible assets as a result of previously completed business combinations. Other acquired finite and indefinite lived intangible assets are recognized separately if the benefit of the intangible asset is obtained through contractual or other legal rights, or if the intangible asset can be sold, transferred, licensed, rented or exchanged, regardless of the Company's intent to do so. The Company's intangible assets include facility management contracts, non-compete agreements, the BI trade name and technology. The facility management contracts represent customer relationships in the form of management contracts acquired at the time of each business combination; the non-compete agreements represent the estimated value of contractually restricting certain employees from competing with the Company; the value of BI's trade name represents, among other intangible benefits, name recognition to its customers and intellectual property rights; and the acquired technology represents BI's innovation with respect to its GPS tracking monitoring, radio frequency monitoring, voice verification monitoring and alcohol compliance systems. When establishing useful lives, the Company considers the period and the pattern in which the economic benefits of the intangible asset are consumed or otherwise used up; or, if that pattern cannot be reliably determined, using a straight-line amortization method over a period that may be shorter than the ultimate life of such intangible asset. The Company currently amortizes its acquired facility management contracts over periods ranging from three to eighteen years and its acquired technology over seven years. There is no residual value associated with the Company's finite-lived intangible assets. The Company reviews its finite lived intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be fully recoverable. The Company does not amortize its indefinite lived intangible assets. The Company reviews its indefinite lived intangible assets annually or more frequently if events or changes in circumstances indicate that the asset might be impaired. These reviews resulted in no impairment to the carrying value of the indefinite lived intangible assets for all periods presented. The Company records the costs associated with renewal and extension of facility management contracts as expenses in the period they are incurred.

Debt Issuance Costs

Debt issuance costs, net of accumulated amortization of $19.5 million and $9.8 million, totaling $33.1 million and $23.4 million at December 31, 2013 and 2012, respectively, are included in Other Non-Current Assets in the accompanying Consolidated Balance Sheets and are amortized to interest expense using the effective interest method over the term of the related debt. When evaluating the accounting for debt transactions and the related costs, in instances when there is a significant decrease in a creditor's individual principal balance, the Company expenses the associated unamortized debt issuance costs.

Variable Interest Entities

The Company evaluates its joint ventures and other entities in which it has a variable interest (a "VIE"), generally in the form of investments, loans, guarantees, or equity in order to determine if it has a controlling financial interest and is required to consolidate the entity as a result. The reporting entity with a variable interest that provides the entity with a controlling financial interest in the VIE will have both of the following characteristics: (i) the power to direct the activities of a VIE that most significantly impact the VIE's economic performance and (ii) the obligation to absorb the losses of the VIE that could potentially be significant to the VIE or the right to receive benefits from the VIE that could potentially be significant to the VIE.

The Company consolidated STLDC, a VIE until September 30, 2013. STLDC was created to finance construction for the development of a 1,904-bed facility in Frio County, Texas. STLDC, the owner of the complex, issued $49.5 million in taxable revenue bonds and had an operating agreement with the Company, which provided the Company with the sole and exclusive right to operate and manage the detention center. The operating agreement and bond indenture required the revenue from the contract to be used to fund the periodic debt service requirements as they became due. The net revenues, if any, after various expenses such as trustee fees, property taxes and insurance premiums were distributed to the Company to cover operating expenses and management fees. The Company was responsible for the entire operations of the facility including the payment of all operating expenses whether or not there were sufficient revenues. The bonds had a 10-year term and were non-recourse to the Company. At the end of the 10-year term of the bonds, or if the bonds were redeemed, canceled or defeased, title and ownership of the facility transfers from STLDC to the Company.

On September 30, 2013, the Company completed a defeasance of the bonds and the title to the facility was transferred to the Company. In connection with the defeasance, the Company incurred a $1.5 million loss on extinguishment of debt which represented the excess of the reacquisition price of the defeasance over the net carrying value of the bonds and other defeasance related fees and expenses. Upon the closing of the transaction, the operating agreement was terminated and STLDC is no longer a VIE and is no longer consolidated by the Company. The carrying value of the facility as of December 31, 2013 and 2012 was $25.2 million and $25.8 million, respectively, and is included in Property and Equipment in the accompanying Consolidated Balance Sheets.

MCF was created in August 2001 as a special limited partnership for the purpose of acquiring, owning, leasing and operating low to medium security adult and juvenile correction and treatment facilities. At its inception, MCF purchased assets representing eleven facilities from certain wholly owned subsidiaries of Cornell Companies, Inc. ("Cornell"), a wholly owned GEO subsidiary, and leased those assets back to Cornell under a Master Lease Agreement (the "Lease"). These assets were purchased from Cornell using proceeds from the 8.47% Revenue Bonds due 2016 (the "MCF bonds"). Under the terms of the Lease, the Company would lease the assets for the remainder of the 20-year base term, which was scheduled to end in 2021, and had options at its sole discretion to renew the Lease for up to approximately 25 additional years. Prior to the transaction discussed below, MCF's sole source of revenue was from the Company and as such the Company had the power to direct the activities of the VIE that most significantly impacted its performance. The Company's risk was generally limited to the rental obligations under the operating leases. This entity was included in the accompanying consolidated financial statements as a VIE through August 31, 2012. The non-controlling interests were also included in the accompanying consolidated financial statements through August 31, 2012. Upon the purchase of the ownership interests in MCF as discussed below, MCF is no longer a VIE but is still included in the accompanying consolidated financial statements and all intercompany transactions are eliminated in consolidation.

On August 31, 2012, the Company purchased 100% of the partnership interests of MCF from the third party holders of these interests for a total net consideration of $35.2 million. After the purchase, the Company redeemed the MCF bonds. Refer to Note 14 - Debt. As the transaction increased GEO's ownership interest in MCF, from 0% to 100%, and GEO retained its controlling interest in MCF, the purchase of the partnership interests has been accounted for as an equity transaction with additional paid-in capital adjusted for the difference between the August 31, 2012 balance of the non-controlling interest in MCF of $8.1 million and the $35.2 million consideration paid, net of MCF deferred tax assets of $10.0 million, with no gain or loss recorded in consolidated net income or comprehensive income. Refer to Note 3 - Shareholders' Equity. The Company incurred costs related to the purchase of the ownership interests of MCF of $1.6 million for the fiscal year ended December 31, 2012. These costs were expensed as incurred and included in general and administrative expenses in the accompanying Consolidated Statements of Operations.

The Company does not consolidate its 50% owned South African joint venture interest in South African Custodial Services Pty. Limited ("SACS"), a VIE. SACS joint venture investors are GEO and Kensani Corrections, Pty. Ltd (an independent third party); each partner owns a 50% share. The Company has determined it is not the primary beneficiary of SACS since it does not have the power to direct the activities of SACS that most significantly impact its performance. As such, the Company's investment in this entity is accounted for under the equity method of accounting. SACS was established and subsequently, in 2001, was awarded a 25-year contract to design, finance and build the Kutama Sinthumule Correctional Centre in Louis Trichardt, South Africa. To fund the construction of the prison, SACS obtained long-term financing from its equity partners and lenders, the repayment of which is fully guaranteed by the South African government, except in the event of default, in which case the government guarantee is reduced to 80%. The Company's maximum exposure for loss under this contract is limited to its investment in the joint venture of $8.1 million at December 31, 2013 and its guarantees related to SACS are discussed in Note 14 - Debt.

The Company does not consolidate its 50% owned joint venture in the United Kingdom. In February 2011, The GEO Group Limited, the Company's wholly-owned subsidiary in the United Kingdom ("GEO UK"), executed a Shareholders Agreement (the "Shareholders Agreement") with Amey Community Limited ("Amey") and Amey UK PLC ("Amey Guarantor") to form GEO Amey PECS Limited ("GEOAmey"), a private company limited by shares incorporated in England and Wales. GEOAmey was formed by GEO UK and Amey (an independent third party) for the purpose of performing prisoner escort and related custody services in England and Wales. In order to form this private company, GEOAmey issued share capital of £100 divided into 100 shares of £1 each and allocated the shares 50/50 to GEO UK and Amey. GEO UK and Amey each have three directors appointed to the Board of Directors and neither party has the power to direct the activities that most

significantly impact the performance of GEOAmey. As such, the Company's investment in this entity is accounted for under the equity method of accounting. Both parties provide lines of credit of £12.0 million, or $19.8 million, based on exchange rates in effect as of December 31, 2013, to ensure that GEOAmey can comply with future contractual commitments related to the performance of its operations. As of December 31, 2013, $19.8 million was owed to the Company by GEOAmey under the line of credit. GEOAmey commenced operations on August 29, 2011.

Fair Value Measurements

The Company defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date ("exit price"). The Company carries certain of its assets and liabilities at fair value, measured on a recurring basis, in the accompanying Consolidated Balance Sheets. The Company also has certain assets and liabilities which are not carried at fair value in its accompanying Consolidated Balance Sheets and discloses the fair value measurements compared to the carrying values as of each balance sheet date. The Company's fair value measurements are disclosed in Note 11 - Financial Instruments and Note 12 - Fair Value of Assets and Liabilities. The Company establishes fair value of its assets and liabilities using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels which distinguish between assumptions based on market data (observable inputs) and the Company's assumptions (unobservable inputs). The level in the fair value hierarchy within which the respective fair value measurement falls is determined based on the lowest level input that is significant to the measurement in its entirety. Level 1 inputs are quoted market prices in active markets for identical assets or liabilities, Level 2 inputs are other than quotable market prices included in Level 1 that are observable for the asset or liability either directly or indirectly through corroboration with observable market data. Level 3 inputs are unobservable inputs for the assets or liabilities that reflect management's own assumptions about the assumptions market participants would use in pricing the asset or liability. The Company recognizes transfers between Levels 1, 2 and 3 as of the actual date of the event or change in circumstances that cause the transfer.

Revenue Recognition

Facility management revenues are recognized as services are provided under facility management contracts with approved government appropriations based on a net rate per day per inmate or on a fixed monthly rate, as applicable. A limited number of the Company's contracts have provisions upon which a small portion of the revenue for the contract is based on the performance of certain targets. Revenue based on the performance of certain targets is less than 1% of the Company's consolidated annual revenues. These performance targets are based on specific criteria to be met over specific periods of time. Such criteria includes the Company's ability to achieve certain contractual benchmarks relative to the quality of service it provides, non-occurrence of certain disruptive events, effectiveness of its quality control programs and its responsiveness to customer requirements and concerns. For the limited number of contracts where revenue is based on the performance of certain targets, revenue is either (i) recorded pro rata when revenue is fixed and determinable or (ii) recorded when the specified time period lapses. In many instances, the Company is a party to more than one contract with a single entity. In these instances, each contract is accounted for separately. The Company has not recorded any revenue that is at risk due to future performance contingencies.

Construction revenues are recognized from the Company's contracts with certain customers to perform construction and design services ("project development services") for various facilities. In these instances, the Company acts as the primary developer and subcontracts with bonded National and/or Regional Design Build Contractors. These construction revenues are recognized as earned on a percentage of completion basis measured by the percentage of costs incurred to date as compared to the estimated total cost for each contract. Provisions for estimated losses on uncompleted contracts and changes to cost estimates are made in the period in which the Company determines that such losses and changes are probable. Typically, the Company enters into fixed price contracts and does not perform additional work unless approved change orders are in place. Costs attributable to unapproved change orders are expensed in the period in which the costs are incurred if the Company believes that it is not probable that the costs will be recovered through a change in the contract price. If the Company believes that it is probable that the costs will be recovered through a change in the contract price, costs related to unapproved change orders are expensed in the period in which they are incurred, and contract revenue is recognized to the extent of the costs incurred. Revenue in excess of the costs attributable to unapproved change orders is not recognized until the change order is approved. Changes in job performance, job conditions, and estimated profitability, including those arising from contract penalty provisions, and final contract settlements, may result in revisions to estimated costs and income, and are recognized in the

period in which the revisions are determined. For the fiscal years ended December 31, 2013, December 31, 2012 and January 1, 2012, there have been no changes in job performance, job conditions and estimated profitability that would require a revision to the estimated costs and income related to project development services. As the primary contractor, the Company is exposed to the various risks associated with construction, including the risk of cost overruns. Accordingly, the Company records its construction revenue on a gross basis and includes the related cost of construction activities in Operating Expenses.

When evaluating multiple element arrangements for certain contracts where the Company provides project development services to its clients in addition to standard management services, the Company follows revenue recognition guidance for multiple element arrangements. This revenue recognition guidance related to multiple deliverables in an arrangement provides guidance on determining if separate contracts should be evaluated as a single arrangement and if an arrangement involves a single unit of accounting or separate units of accounting and if the arrangement is determined to have separate units, how to allocate amounts received in the arrangement for revenue recognition purposes. In instances where the Company provides these project development services and subsequent management services, generally, the arrangement results in no delivered elements at the onset of the agreement. The elements are delivered over the contract period as the project development and management services are performed. Project development services are not provided separately to a customer without a management contract. One of the Company's wholly-owned subsidiaries, BI, periodically sells its monitoring equipment and other services together in multiple-element arrangements. In such cases, the Company allocates revenue on the basis of the relative selling price of the delivered and undelivered elements. The selling price for each of the elements is estimated based on the price the Company charges when the elements are sold on a stand alone basis.

Lease Revenue

The Company leases two of its owned facilities to an unrelated party. One lease has a term of ten years and expires in January 2018 with an option to extend for up to three additional five-year terms. The carrying value of this leased facility as of December 31, 2013 and December 31, 2012 was $33.4 million and $34.3 million, respectively, net of accumulated depreciation of $5.8 million and $4.9 million, respectively. Rental income, included in Revenues, received on this lease for the fiscal years ended December 31, 2013, December 31, 2012 and January 1, 2012 was $4.5 million for each period. The other facility lease is effective January 2014 with a one-year term expiring December 2014 with an option to extend for up to three additional one-year terms. As of December 31, 2013, future minimum rentals to be received on these leases are as follows:

Fiscal Year	Annual Rental (In thousands)
2014	$ 4,866
2015	4,907
2016	5,054
2017	5,206
2018	351
	$ 20,384

Income Taxes

The consolidated financial statements reflect provisions for federal, state, local and foreign income taxes. The Company recognizes deferred tax assets and liabilities for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis, as well as operating loss and tax credit carryforwards. The Company measures deferred tax assets and liabilities using enacted tax rates expected to apply to taxable income in the years in which those temporary differences and carryforwards are expected to be recovered or settled. The effect on deferred tax assets and liabilities as a result of a change in tax rates is recognized as income in the period that includes the enactment date. At December 31, 2012, the Company had revalued certain deferred tax assets and liabilities related to its REIT activities (Refer to Note 17- Income Taxes). Effective January 1, 2013, as a REIT that plans to distribute 100% of its taxable income to shareholders, the Company does not expect to pay federal income taxes at the REIT level (including its qualified REIT subsidiaries), but instead a dividends paid deduction will generally offset its taxable income. Since the Company does not expect to pay taxes on its REIT taxable income, it does not expect to be able to recognize such net deferred tax assets and liabilities.

Deferred income taxes related to the TRS structure are determined based on the estimated future tax effects of differences between the financial statement and tax basis of assets and liabilities given the provisions of enacted tax laws. Significant judgments are required to determine the consolidated provision for income taxes. Deferred income tax provisions and benefits are based on changes to the assets or liabilities from year to year. Realization of the Company's deferred tax assets is dependent upon many factors such as tax regulations applicable to the jurisdictions in which the Company operates, estimates of future taxable income and the character of such taxable income.

Additionally, the Company must use significant judgment in addressing uncertainties in the application of complex tax laws and regulations. If actual circumstances differ from the Company's assumptions, adjustments to the carrying value of deferred tax assets or liabilities may be required, which may result in an adverse impact on the results of its operations and its effective tax rate. Valuation allowances are recorded related to deferred tax assets based on the "more likely than not" criteria. The Company has not made any significant changes to the way it accounts for its deferred tax assets and liabilities in any year presented in the consolidated financial statements, with the exception of the December 31, 2012 revaluation of certain deferred tax assets and liabilities related to its REIT activities. Based on its estimate of future earnings and its favorable earnings history, the Company currently expects full realization of the deferred tax assets net of any recorded valuation allowances. Furthermore, tax positions taken by the Company may not be fully sustained upon examination by the taxing authorities. In determining the adequacy of our provision (benefit) for income taxes, potential settlement outcomes resulting from income tax examinations are regularly assessed. As such, the final outcome of tax examinations, including the total amount payable or the timing of any such payments upon resolution of these issues, cannot be estimated with certainty.

In September 2013, the U.S. Internal Revenue Service (IRS) issued new regulations for capitalizing and deducting costs incurred to acquire, produce, or improve tangible property. These new regulations are effective for taxable years beginning on or after January 1, 2014; however, they are considered enacted as of the date of issuance, September 15, 2013. As a result of the new regulations, the Company is required to review its existing income tax accounting methods related to tangible property, and determine which, if any, income tax accounting method changes are required; whether the Company will early adopt any of the new provisions through income tax accounting method changes for the 2012 or 2013 tax years; whether the Company will file any income tax accounting method changes with its 2014 federal income tax return; and the potential financial statement impact. Because additional implementation guidance from the IRS is anticipated, the Company is in the process of reviewing its existing income tax accounting methods related to tangible property; however, the Company believes that certain of its historical income tax accounting policies may differ from what is prescribed in the new regulations. While some of the Company's assets are held by its taxable REIT subsidiaries, the vast majority are held by the REIT which is not subject to tax. Based on the Company's initial assessment, the new regulations will not have a material effect on the Company's consolidated financial statements.

Reserves for Insurance Losses

The nature of the Company's business exposes it to various types of third-party legal claims, including, but not limited to, civil rights claims relating to conditions of confinement and/or mistreatment, sexual misconduct claims brought by prisoners or detainees, medical malpractice claims, product liability claims, intellectual property infringement claims, claims relating to employment matters (including, but not limited to, employment discrimination claims, union grievances and wage and hour claims), property loss claims, environmental claims, automobile liability claims, contractual claims and claims for personal injury or other damages resulting from contact with our facilities, programs, electronic monitoring products, personnel or prisoners, including damages arising from a prisoner's escape or from a disturbance or riot at a facility. In addition, the Company's management contracts generally require it to indemnify the governmental agency against any damages to which the governmental agency may be subject in connection with such claims or litigation. The Company maintains a broad program of insurance coverage for these general types of claims, except for claims relating to employment matters, for which the Company carries no insurance. There can be no assurance that the Company's insurance coverage will be adequate to cover all claims to which it may be exposed. It is the Company's general practice to bring merged or acquired companies into its corporate master policies in order to take advantage of certain economies of scale.

The Company currently maintains a general liability policy and excess liability policies with total limits of $67.0 million per occurrence and in the aggregate covering the operations of U.S. Corrections & Detention, GEO Community Services' community based services, GEO Community Services' youth services and BI. The Company has a claims-made liability insurance program with a specific loss limit of $35.0 million per occurrence and in the aggregate related to medical professional liability claims arising out of correctional healthcare services. The Company is uninsured for any claims in excess of these limits. We also maintain insurance to cover property and other casualty risks including, workers' compensation, environmental liability and automobile liability.

For most casualty insurance policies, the Company carries substantial deductibles or self-insured retentions of $3.0 million per occurrence for general liability and medical professional liability, $2.0 million per occurrence for workers' compensation and $1.0 million per occurrence for automobile liability. In addition, certain of the Company's facilities located in Florida and other high-risk hurricane areas carry substantial windstorm deductibles. Since hurricanes are considered unpredictable future events, no reserves have been established to pre-fund for potential windstorm damage. Limited commercial availability of certain types of insurance relating to windstorm exposure in coastal areas and earthquake exposure mainly in California and the Pacific Northwest may prevent the Company from insuring some of its facilities to full replacement value.

With respect to operations in South Africa, the United Kingdom and Australia, the Company utilizes a combination of locally-procured insurance and global policies to meet contractual insurance requirements and protect the Company. In addition to these policies, the Company's Australian subsidiary carries tail insurance on a general liability policy related to a discontinued contract.

Of the reserves discussed above, the Company's most significant insurance reserves relate to workers' compensation, general liability and auto claims. These reserves are undiscounted and were $47.6 million and $45.1 million as of December 31, 2013 and 2012, respectively, and are included in Accrued Expenses in the accompanying Consolidated Balance Sheets. The Company uses statistical and actuarial methods to estimate amounts for claims that have been reported but not paid and claims incurred but not reported. In applying these methods and assessing their results, the Company considers such factors as historical frequency and severity of claims at each of its facilities, claim development, payment patterns and changes in the nature of its business, among other factors. Such factors are analyzed for each of the Company's business segments. The Company estimates may be impacted by such factors as increases in the market price for medical services and unpredictability of the size of jury awards. The Company also may experience variability between its estimates and the actual settlement due to limitations inherent in the estimation process, including its ability to estimate costs of processing and settling claims in a timely manner as well as its ability to accurately estimate the Company's exposure at the onset of a claim. Because the Company has high deductible insurance policies, the amount of its insurance expense is dependent on its ability to control its claims experience. If actual losses related to insurance claims significantly differ from the Company's estimates, its financial condition, results of operations and cash flows could be materially adversely impacted.

Comprehensive Income (Loss)

Comprehensive income (loss) represents the change in shareholders' equity from transactions and other events and circumstances arising from non-shareholder sources. The Company's total comprehensive income is comprised of net income attributable to GEO, net income attributable to noncontrolling interests, foreign currency translation adjustments that arise from consolidating foreign operations that do not impact cash flows, net unrealized gains and/ or losses on derivative instruments, and pension liability adjustments in the consolidated statements of shareholders' equity.

The components of accumulated other comprehensive income (loss) attributable to GEO included in the consolidated statement of shareholders' equity are as follows (in thousands):

	Foreign currency translation adjustments, net of tax attributable to The GEO Group, Inc. [1]	Unrealized (loss)/gain on derivatives, net of tax	Pension adjustments, net of tax	Total
Balance, December 31, 2012	$ 5,755	$ (457)	$ (2,628)	$ 2,670
Current-period other comprehensive (loss) income	(8,196)	183	914	(7,099)
Balance, December 31, 2013	$ (2,441)	$ (274)	$ (1,714)	$ (4,429)

[1] The foreign currency translation adjustment, net of tax, related to noncontrolling interests was not significant for the year ended December 31, 2013 or December 31, 2012.

There were no reclassifications out of other comprehensive income during the year.

Foreign Currency Translation

The Company's foreign operations use their local currencies as their functional currencies. Assets and liabilities of the operations are translated at the exchange rates in effect on the balance sheet date and shareholders' equity is translated at historical rates. Income statement items are translated at the average exchange rates for the year. Any adjustment resulting from translating the financial statements of the foreign subsidiary is reflected as other comprehensive income, net of related tax. Gains and losses on foreign currency transactions are included in the statement of operations.

Derivatives

The Company's primary objective in holding derivatives is to reduce the volatility of earnings and cash flows associated with changes in interest rates. The Company measures its derivative financial instruments at fair value and records derivatives as either assets or liabilities on the balance sheet. For derivatives that are designed as and qualify as effective cash flow hedges, the portion of gain or loss on the derivative instrument effective at offsetting changes in the hedged item is reported as a component of accumulated other comprehensive income and reclassified into earnings when the hedged transaction affects earnings. For derivative instruments that are designated as and qualify as effective fair value hedges, the gain or loss on the derivative instruments as well as the offsetting gain or loss on the hedged items attributable to the hedged risk is recognized in current earnings as interest income (expense) during the period of the change in fair values.

The Company formally documents all relationships between hedging instruments and hedge items, as well as its risk-management objective and strategy for undertaking various hedge transactions. This process includes attributing all derivatives that are designated as cash flow hedges to floating rate liabilities and attributing all derivatives that are designated as fair value hedges to fixed rate liabilities. The Company also assesses whether each derivative is highly effective in offsetting changes in the cash flows of the hedged item. Fluctuations in the value of the derivative instruments are generally offset by changes in the hedged item; however, if it is determined that a derivative is not highly effective as a hedge or if a derivative ceases to be a highly effective hedge, the Company will discontinue hedge accounting prospectively for the affected derivative.

Stock-Based Compensation Expense

The Company recognizes the cost of stock-based compensation awards based upon the grant date fair value of those awards. The Company uses a Black-Scholes option valuation model to estimate the fair value of options awarded which do not have market-based performance conditions. The impact of forfeitures that may occur prior to vesting is also estimated and

considered in the amount recognized. Stock-based compensation expense is recognized ratably over the requisite service period, which is typically the vesting period.

The fair value of stock-based option awards was estimated using the Black-Scholes option-pricing model with the following weighted average assumptions for options awarded during fiscal years 2012 and 2011 (there were no options awarded during 2013):

	2012	2011
Risk free interest rates	0.78%	2.06%
Expected term	4-5 years	4-5 years
Expected volatility	40%	43%
Expected dividend	3.00%	—%

The Company uses historical data to estimate award exercises and employee terminations within the valuation model. The expected term of the awards represents the period of time that awards granted are expected to be outstanding and is based on historical data and expected holding periods. During 2012, the Company began declaring quarterly dividends. The expected dividend rate for awards granted in 2012 was based on the Company's expected future dividend yield prior to the REIT conversion and the effect of the 2012 Special Dividend. In connection with the 2012 divestiture of RTS (refer to Note 2 - Discontinued Operations) and the stock component of the Special Dividend, the Company modified certain of its share-based payment awards as more fully discussed in Note 4 - Equity Incentive Plans.

For share-based awards that contain a performance condition, the achievement of the targets must be probable before any share-based compensation is recorded. If subsequent to initial measurement there is a change in the estimate of the probability of meeting the performance condition, the effect of the change in the estimated quantity of awards expected to vest is recognized by cumulatively adjusting compensation expense. If ultimately the performance targets are not met, for any awards where vesting was previously deemed probable, previously recognized compensation expense will be reversed in the period in which vesting is no longer deemed probable.

For share-based awards that contain a market condition, the probability of satisfying the market condition is considered in the estimate of grant-date fair value and previously recorded compensation expense is not reversed if the market condition is never met. The fair value of restricted stock awards granted in 2013 with market-based performance conditions was determined based on a Monte Carlo simulation, which calculates a range of possible outcomes and the probabilities that they will occur, using the following key assumptions: (i) volatility of 26.6%; (ii) beta of 0.681; and (iii) risk free rate of 0.42%. Refer to Note 4 - Equity Incentive Plans.

Treasury Stock

The Company accounts for repurchases of common stock using the cost method with common stock held in treasury classified as a reduction of shareholders' equity in its Consolidated Balance Sheets. Shares re-issued out of treasury are recorded based on a last-in first-out method.

Earnings Per Share

Basic earnings per share is computed by dividing the income from continuing operations attributable to GEO, and income (loss) from discontinued operations and net income attributable to GEO, by the weighted average number of outstanding shares of common stock. The calculation of diluted earnings per share is similar to that of basic earnings per share, except that the denominator includes dilutive common stock equivalents such as stock options and shares of restricted stock.

Recent Accounting Pronouncements

In March 2013, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2013-05, *Foreign Currency Matters (Topic 830): Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity (a consensus of the FASB Emerging Issues Task Force)* ("ASU 2013-05"). The objective of ASU 2013-05 is to resolve diversity in practice regarding the release of the cumulative translation adjustment into net income when a parent either sells a part or all of its investment in a foreign entity or no longer holds a controlling financial interest in a subsidiary or group of assets that is a nonprofit activity or a business within a foreign entity. ASU 2013-05 is effective prospectively for fiscal years, and interim reporting periods within those years, beginning after December 15, 2013. The ASU is not expected to have a material effect on the Company's results of operations or financial position.

In July 2013, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2013-10, *Inclusion of the Fed Funds Effective Swap Rate (or Overnight Index Swap Rate) as a Benchmark Interest Rate for Hedge Accounting Purposes* (*a consensus of the FASB Emerging Issues Task Force)* ("ASU 2013-10"). The objective of ASU 2013-10 is to provide for the inclusion of the Fed Funds Effective Swap Rate as a U.S. benchmark interest rate for hedge accounting purposes, in addition to U.S Government Treasury obligations and the London Interbank Offered Rate. ASU 2-13-10 is effective prospectively for qualifying new or redesignated hedging relationships entered into on or after July 17, 2013. The ASU is not expected to have a material effect on the Company's results of operations or financial position.

In July 2013, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2013-11, *Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists (a consensus of the FASB Emerging Issues Tax Force)* ("ASU 2013-11"). The objective of ASU 2013-11 is to resolve diversity in practice regarding the presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or tax credit carryforward exists. ASU 2013-11 is effective prospectively for fiscal years, and interim reporting periods within those years, beginning after December 15, 2013. The ASU is not expected to have a material effect on the Company's results of operations or financial position.

Other recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force), the American Institute of Certified Public Accountants and the SEC did not, or are not expected to, have a material effect on the Company's results of operations or financial position.

2. Discontinued Operations

Divestiture of RTS

On December 31, 2012, as part of the Company's restructuring steps allowing it to begin operating as a REIT beginning January 1, 2013, the Company completed the divestiture of its RTS operating component, which was purchased by GEO Care Holdings LLC, an entity owned by certain current and former members of GEO's management team (the "MBO Group"). Cash proceeds received on December 31, 2012 from the divestiture amounted to $33.3 million, net of an initial working capital adjustment, subject to a final working capital adjustment determined within 105 days of the transaction closing date. The final working capital adjustment resulted in a net cash sale price of $32.3 million Certain members of the MBO group sold 295,959 shares of common stock back to the Company for a total price of $8.6 million which was used to fund a portion of the purchase price. In accordance with the purchase agreement, the MBO Group would also be obligated to pay up to an additional $5.0 million in purchase price on a contingent earn-out basis if certain potential future contract awards are received by RTS. In addition, the purchase agreement provides for (i) a purchase price adjustment in favor of the MBO Group in the event certain client consents are not obtained within one year following the divestiture, and (ii) a purchase price adjustment in favor of the MBO Group if certain key contracts (as defined in the Purchase Agreement) are terminated up to one year following the divestiture. All provisional purchase price adjustments that had a one year period from the transaction date have expired as of December 31, 2013, and there were no adjustments to amounts previously recorded under these provisions during the year ended December 31, 2013.

In connection with the RTS divestiture, the Company and GEO Care Holdings LLC entered into a services agreement pursuant to which the Company provides accounting support, information systems services, legal support services, risk management services, property management and design services and office space for a five-year term in return for an annual fee of $1.8 million payable in equal monthly installments (the "Services Agreement"). The Services Agreement was amended in fourth quarter 2013 to reduce the annual fee to $1.6 million. The Company and GEO Care Holdings LLC also executed a license agreement pursuant to which the Company granted to GEO Care Holdings LLC an exclusive license for a five-year term to use the GEO Care service mark and domain name in connection with the RTS business in return for an annual fee of $0.4 million payable in equal monthly installments (the "License Agreement"). The Services Agreement and License Agreement may be terminated by GEO Care Holdings LLC at any time by paying a lump sum amount in cash equal to all remaining payments that would be required to be made to the Company under the agreements during the five-year term, discounted to present value using a discount rate of 10%. In addition, the Company and GEO Care Holdings LLC entered into employment agreements with certain executive officers in order to allocate the services to be provided by the executive officers and related compensation and benefits between the Company and GEO Care Holdings LLC. On February 28, 2014, the service and license agreements between the Company and GEO Care Holdings LLC were modified to accelerate the terms, and as a result, GEO Care Holdings LLC made a prepayment to the Company in the amount of $6.5 million. In connection with the modification, the terms under the agreements will remain in effect until June 30, 2015.

During the year ended December 31, 2013, the Company earned fees under the above noted Services Agreement and License Agreement amounting to an aggregate of $2.0 million, which has been recorded as an offset to operating expenses in the accompanying Consolidated Statements of Operations.

The disposal of RTS resulted in a loss in the overall customer relationship as no future significant cash flows will be generated for the Company by RTS and the Company will have no continuing involvement with RTS. The operating results of RTS and the loss on disposal have been classified in discontinued operations.

During the fourth quarter of 2012, the Company recorded $14.6 million, net of tax, related to the loss on divestiture of RTS. Included in the loss on divestiture is $2.1 million of direct expenses of the sale. Revenues related to the discontinued operations of RTS through its respective disposition date were $167.2 million and $160.8 million for the fiscal years ended December 31, 2012 and January 1, 2012, respectively.

U.S. Corrections & Detention

On April 19, 2012, the Company announced its discontinuation of its managed-only contract with the State of Mississippi, Department of Corrections for the 1,500-bed East Mississippi Correctional Facility ("East Mississippi") effective July 19, 2012. In connection with the discontinuation of East Mississippi, the Company has also discontinued all other management contracts with the State of Mississippi Department of Corrections ("MDOC"), including its managed-only contracts for the 1,000-bed Marshall County Correctional Facility effective August 13, 2012, and the 1,450-bed Walnut Grove Youth Correctional Facility effective July 1, 2012.

Revenues related to the discontinued operations of MDOC through their respective disposition dates were $24.5 million and $44.9 million for the fiscal years ended December 31, 2012 and January 1, 2012, respectively.

The loss of all management contracts with MDOC resulted in a loss in the overall customer relationship with MDOC as no future significant cash flows will be generated and the Company will have no continuing involvement with MDOC. As such, the results are classified in discontinued operations in accordance with our critical accounting policy Discontinued Operations.

Summarized financial information for discontinued operations included in the accompanying Consolidated Statements of Operations is as follows:

	Fiscal Year Ended (in thousands)		
	2013	2012	2011
Discontinued Operations:			
Income from discontinued operations - RTS	$ —	$ 10,117	$ 9,416
Income (loss) from discontinued operations - Mississippi	(2,265)	(3,881)	3,156
Loss on disposition of RTS	—	(24,701)	—
Income tax (benefit) provision	—	(7,805)	4,753
Net income (loss) from discontinued operations, net of taxes	$ (2,265)	$ (10,660)	$ 7,819

Loss from discontinued operations during the year ended December 31, 2013 represents a charge of $2.3 million of insurance liability claims which are directly related to MDOC.

All income (loss) from the above noted discontinued operations included in the Consolidated Statements of Operations is attributable to GEO.

3. Shareholders' Equity

Common Stock

Each holder of the Company's common stock is entitled to one vote per share on all matters to be voted upon by the Company's shareholders. Upon any liquidation, dissolution or winding up of the Company, the holders of common stock are entitled to share equally in all assets available for distribution after payment of all liabilities, subject to the liquidation preference of shares of preferred stock, if any, then outstanding.

Distributions

As a REIT, GEO is required to distribute annually at least 90% of its REIT taxable income (determined without regard to the dividends paid deduction and by excluding net capital gain) and began paying regular quarterly REIT dividends in 2013. The amount, timing and frequency of future dividends, however, will be at the sole discretion of GEO's Board of Directors (the "Board") and will be declared based upon various factors, many of which are beyond GEO's control, including, GEO's financial condition and operating cash flows, the amount required to maintain REIT status and reduce any income taxes that GEO otherwise would be required to pay, limitations on distributions in GEO's existing and future debt instruments, limitations on GEO's ability to fund distributions using cash generated through GEO's TRSs and other factors that GEO's Board may deem relevant.

On December 6, 2012, the Company announced the declaration by the Board of a special dividend of accumulated earnings and profits to shareholders of record as of December 12, 2012, with each shareholder having the right to elect cash or shares of common stock, except that the amount of cash payable was limited to the amount of cash paid pursuant to a lottery procedure plus 20% of the total dividend amount remaining after the lottery. The special dividend, amounting to $352.2 million, or $5.68 per share of common stock, was paid on December 31, 2012. Pursuant to the special dividend, GEO issued 9,688,568 shares of common stock and paid cash of $77.8 million.

During the year ended December 31, 2013 and the fiscal year ended December 31, 2012, respectively, GEO declared and paid the following regular cash distributions to its stockholders which were treated for federal income taxes as follows:

Declaration Date	Payment Date	Record Date	Distribution Per Share	Qualified	Non-Qualified	Aggregate Payment Amount (millions)
August 7, 2012	September 7, 2012	August 21, 2012	$ 0.20	N/A	N/A	$ 12.3
October 31, 2012	November 30, 2012	November 16, 2012	$ 0.20	N/A	N/A	$ 12.3
January 17, 2013	March 1, 2013	February 15, 2013	$ 0.50	$ 0.1551057	$ 0.3448943	$ 35.7
May 7, 2013	June 3, 2013	May 20, 2013	$ 0.50	$ 0.1551057	$ 0.3448943	$ 35.8
July 30, 2013	August 29, 2013	August 19, 2013	$ 0.50	$ 0.1551057	$ 0.3448943	$ 36.1
November 1, 2013	November 26, 2013	November 14, 2013	$ 0.55	$ 0.1706163	$ 0.3793837	$ 39.6

Prospectus Supplement

On May 8, 2013, the Company filed with the Securities and Exchange Commission a prospectus supplement related to the offer and sale from time to time of the Company's common stock at an aggregate offering price of up to $100 million through sales agents. Sales of shares of the Company's common stock under the prospectus supplement and the equity distribution agreements entered into with the sales agents, if any, may be made in negotiated transactions or transactions that are deemed to be "at the market" offerings as defined in Rule 415 under the Securities Act. There were no sales of shares of the Company's common stock under the prospectus supplement during the year ended December 31, 2013.

Preferred Stock

In April 1994, the Company's Board authorized 30 million shares of "blank check" preferred stock. The Board is authorized to determine the rights and privileges of any future issuance of preferred stock such as voting and dividend rights, liquidation privileges, redemption rights and conversion privileges. As of December 31, 2013, there were no shares of preferred stock outstanding.

Rights Agreement

On October 9, 2003, the Company entered into a rights agreement with EquiServe Trust Company, N.A., as rights agent. Under the terms of the rights agreement, each share of the Company's common stock carried with it one preferred share purchase right. If the rights had become exercisable pursuant to the rights agreement, each right entitled the registered holder to purchase from the Company one one-thousandth of a share of Series A Junior Participating Preferred Stock at a fixed price, subject to adjustment. Until a right was exercised, the holder of the right had no right to vote or receive dividends or any other rights as a shareholder as a result of holding the right. The rights traded automatically with shares of our common stock, and could only be exercised in connection with certain attempts to acquire the Company. The rights were designed to protect the interests of the Company and its shareholders against coercive acquisition tactics and encourage potential acquirers to negotiate with our Board of Directors before attempting an acquisition. The rights agreement expired on October 9, 2013.

Stock Repurchases

On July 14, 2011, the Company announced that its Board approved a stock repurchase program of up to $100.0 million of its common stock. The stock repurchase program was funded primarily with cash on hand, free cash flow, and borrowings under the Company's Revolving Credit Facility. The stock repurchase program was implemented through purchases made from time to time in the open market or in privately negotiated transactions, in accordance with applicable securities and stock exchange requirements. The stock repurchase program did not obligate the Company to purchase any specific amount of its common stock. During fiscal year 2012, 295,959 shares of common stock at a cost of $8.6 million were purchased from certain members of GEO's management team in connection with the divestiture of RTS. Refer to Note 2 - Discontinued Operations. In addition, during fiscal year 2012 the Company repurchased and retired 57,457 shares of fully vested employee equity awards. During the fiscal year ended January 1, 2012, the Company purchased approximately 3.9 million shares of its common stock at a cost of $75.0 million primarily purchased with proceeds from the Company's Revolving Credit Facility. The stock repurchase program expired on December 31, 2012.

Noncontrolling Interests

Upon acquisition of Cornell in August 2010, the Company assumed MCF as a variable interest entity and allocated a portion of the purchase price to the noncontrolling interest based on the estimated fair value of MCF. The noncontrolling interest in MCF represented 100% of the equity in MCF which was contributed by its partners at inception in 2001. The Company recorded the results of operations and financial position of MCF as noncontrolling interest in its consolidated financial statements through August 31, 2012. As further discussed in Note 1 - Summary of Business Organization, Operations and Significant Accounting Policies under ***Variable Interest Entities***, effective August 31, 2012, the Company purchased 100% of the partnership interests of MCF. In connection with the transaction, the noncontrolling interest was reclassified to additional paid-in-capital. During the fiscal years ended December 31, 2012 and January 1, 2012, $5.8 million and $4.0 million in cash distributions were made to the then existing partners of MCF, respectively.

The Company includes the results of operations and financial position of South African Custodial Management Pty. Limited ("SACM" or the "joint venture"), its majority-owned subsidiary, in its consolidated financial statements. SACM was established in 2001 to operate correctional centers in South Africa. The joint venture currently provides security and other management services for the Kutama Sinthumule Correctional Centre in the Republic of South Africa under a 25-year management contract which commenced in February 2002. The Company's and the second joint venture partner's shares in the profits of the joint venture are 88.75% and 11.25%, respectively. There were no changes in the Company's ownership percentage of the consolidated subsidiary during the year ended December 31, 2013 or fiscal years ended December 31, 2012 and January 1, 2012. There were no contributions from owners or distributions to owners in the year ended December 31, 2013 or fiscal years ended December 31, 2012 and January 1, 2012.

4. Equity Incentive Plans

The Company had awards outstanding under four equity compensation plans at December 31, 2013: The Wackenhut Corrections Corporation 1994 Stock Option Plan (the "1994 Plan"); the 1995 Non-Employee Director Stock Option Plan (the "1995 Plan"); the Wackenhut Corrections Corporation 1999 Stock Option Plan (the "1999 Plan"); and The GEO Group, Inc. 2006 Stock Incentive Plan (the "2006 Plan" and, together with the 1994 Plan, the 1995 Plan and the 1999 Plan, the "Company Plans").

On August 12, 2010, the Company's Board of Directors adopted and its shareholders approved an amendment to the 2006 Plan to increase the number of shares of common stock subject to awards under the 2006 Plan by 2,000,000 shares from 2,400,000 to 4,400,000 shares of common stock. On February 16, 2011, the Company's Board of Directors approved Amendment No. 1 to the 2006 Plan to provide that of the 2,000,000 additional shares of Common Stock that were authorized to

be issued pursuant to awards granted under the 2006 Plan, up to 1,083,000 of such shares may be issued in connection with awards, other than stock options and stock appreciation rights, that are settled in common stock. On February 4, 2013, the Compensation Committee resolved to increase the number of shares of common stock subject to awards under the 2006 Plan from 4,400,000 to 5,087,385 shares of common stock pursuant to Section 5(f) of the Plan as a result of the adjustment necessary because of the stock portion of the special dividend paid on December 31, 2012.

The 2006 Plan, as amended, specifies that up to 2,166,000 of such total shares pursuant to awards granted under the plan may constitute awards other than stock options and stock appreciation rights, including shares of restricted stock. As of December 31, 2013, under the 2006 Plan, the Company had 1,629,303 shares of common stock available for issuance pursuant to future awards that may be granted under the plan of which up to 317,694 shares were available for the issuance of awards other than stock options. See ***Restricted Stock*** below for further discussion.

Under the terms of the Company Plans, the vesting period and, in the case of stock options, the exercise price per share, are determined by the terms of each plan. All stock options that have been granted under the Company Plans are exercisable at the fair market value of the common stock at the date of the grant. Generally, the stock options vest and become exercisable ratably over a four-year period, beginning immediately on the date of the grant. However, the Board of Directors has exercised its discretion to grant stock options that vest 100% immediately for the Chief Executive Officer. In addition, stock options granted to non-employee directors under the 1995 Plan became exercisable immediately. All stock options awarded under the Company Plans expire no later than ten years after the date of the grant. When options are exercised, the Company issues shares related to exercised options out of common stock.

Award Modifications

In connection with the 2012 divestiture of RTS (Refer to Note 2 - Discontinued Operations), all employees of RTS terminated their employment with GEO effective December 31, 2012. Nineteen of these employees had 24,100 unvested options and 8,375 unvested shares of restricted stock from previously granted GEO share-based awards. The Compensation Committee of the Board of Directors resolved on December 11, 2012 to accelerate the vesting of these awards and the Company recorded a compensation charge of approximately $0.3 million during the fourth quarter and fiscal year ended December 31, 2012.

In connection with mandatory anti-dilution provisions of GEO's equity incentive plans, as it pertained to the Special Dividend, an adjustment was made to all options outstanding on December 31, 2012 to (i) increase the number of shares subject to an option by multiplying the number of shares by 1.156 (the "Adjustment Factor") and (ii) reduce the exercise price per share of common stock subject to the options by dividing the initial exercise price by the Adjustment Factor. The Adjustment Factor was determined by the percentage increase in the Company's common stock in connection with the stock portion of the Special Dividend. The adjustment affected all GEO employees who had outstanding option grants on December 31, 2012 (313 employees) and resulted in approximately 0.2 million of incremental options awarded. As the adjustment was designed to equalize the fair value of the option award for the stock portion of the Special Dividend and the Company Plans included an anti-dilution provision, there was no incremental compensation cost resulting from the incremental options awarded.

The Company recognized compensation expense related to the Company Plans for the year ended December 31, 2013 and fiscal years ended December 31, 2012 and January 1, 2012 as follows (in thousands):

	2013	2012	2011
Stock option plan expense	$ 1,307	$ 2,539	$ 2,681
Restricted stock expense	$ 6,582	$ 4,004	$ 3,432

Stock Options

A summary of the activity of the Company's stock options plans is presented below:

	Shares	Wtd. Avg. Exercise Price	Wtd. Avg. Remaining Contractual Term (years)	Aggregate Intrinsic Value
	(In thousands)			(In thousands)
Options outstanding at December 31, 2012	1,198	$ 18.92	6.85	$ 11,090
Granted	—	—		
Exercised	(318)	17.04		
Forfeited/Canceled	(31)	21.52		
Options outstanding at December 31, 2013	849	$ 19.67	6.39	$ 10,654
Options vested and expected to vest at December 31, 2013	831	$ 19.63	6.37	$ 10,473
Options exercisable at December 31, 2013	584	$ 18.81	5.90	$ 7,842

The aggregate intrinsic value in the table above represents the total pretax intrinsic value (i.e., the difference between the Company's closing stock price on the last trading day of fiscal year 2013 and the exercise price, times the number of shares that are "in the money") that would have been received by the option holders had all option holders exercised their options on December 31, 2013. This amount changes based on the fair value of the Company's stock.

The following table summarizes information relative to stock option activity during the Company's year ended December 31, 2013 and fiscal years ended December 31, 2012 and January 1, 2012 (in thousands):

	2013	2012	2011
Intrinsic value of options exercised	$ 5,564	$ 7,051	$ 4,718
Fair value of shares vested	$ 1,679	$ 2,062	$ 2,358

The following table summarizes information about the exercise prices and related information of stock options outstanding under the Company Plans at December 31, 2013:

	Options Outstanding			Options Exercisable		
Exercise Prices	Number Outstanding	Wtd. Avg. Remaining Contractual Life	Wtd. Avg. Exercise Price	Number Exercisable	Wtd. Avg. Remaining Contractual Life	Wtd. Avg. Exercise Price
	(In thousands)					
6.66 – 13.72	27	1.64	$ 9.06	27	1.64	$ 9.06
14.44 – 22.26	734	6.30	$ 19.75	526	6.30	$ 19.10
22.30 – 24.61	88	8.62	$ 22.31	31	8.62	$ 22.30
Total	849	6.4	$ 19.67	584	5.90	$ 18.81

The weighted average grant date fair value of options granted during the fiscal years ended December 31, 2012 and January 1, 2012 was $6.81 and $9.75 per share, respectively. There were no options granted during the year ended December 31, 2013.

The following table summarizes the status of non-vested stock options as of December 31, 2012 and 2013, and changes during the year ending December 31, 2013:

	Number of Shares	Wtd. Avg. Grant Date Fair Value
	(In thousands)	
Options non-vested at December 31, 2012	476	$ 8.89
Granted	—	—
Vested	(200)	6.95
Forfeited	(10)	8.61
Options non-vested at December 31, 2013	266	$ 10.36

As of December 31, 2013, the Company had $1.3 million of unrecognized compensation costs related to non-vested stock option awards that are expected to be recognized over a weighted average period of 1.5 years.

Restricted Stock

During the fiscal year ended December 31, 2013, the Company granted 345,060 shares of restricted stock to certain employees and executive officers. Of these awards, 92,810 are performance-based awards which will be forfeited if the Company does not achieve certain annual metrics during 2013, 2014 and 2015.

The fair value of restricted stock awards, which do not contain a market-based performance condition, is determined using the closing price of the Company's common stock on the date of the grant and compensation expense is recognized over the vesting period. Generally, the restricted stock awards vest in equal increments over either a three or four year period.

The vesting of the performance-based restricted stock grants awarded in 2013 are subject to the achievement by GEO of two annual performance metrics as follows: (i) up to 75% of the shares of restricted stock ("TSR Target Award") can vest at the end of a three-year performance period if GEO meets certain total shareholder return ("TSR") performance targets, as compared to the total shareholder return of a peer group of companies, during 2013, 2014 and 2015; and (ii) up to 25% of the shares of restricted stock ("ROCE Target Award") can vest at the end of a three-year period if GEO meets certain return on capital employed ("ROCE") performance targets in 2013, 2014 and 2015. These performance awards can vest at between 0% and 200% of the target awards for both metrics. The number of shares shown for the performance-based awards is based on the target awards for both metrics. Both of the TSR and ROCE performance metrics were met during 2013.

The metric related to ROCE is considered to be a performance condition. For share-based awards that contain a performance condition, the achievement of the targets must be probable before any share-based compensation expense is recorded. The Company reviews the likelihood of which target in the range will be achieved and if deemed probable, compensation expense is recorded at that time. If subsequent to initial measurement there is a change in the estimate of the probability of meeting the performance condition, the effect of the change in the estimated quantity of awards expected to vest is recognized by cumulatively adjusting compensation expense. If ultimately the performance targets are not met, for any awards where vesting was previously deemed probable, previously recognized compensation expense will be reversed in the period in which vesting is no longer deemed probable. During 2013, the Company deemed the achievement of the target award to be probable and there were no changes in the estimated quantity of awards expected to vest. The fair value of these awards was determined based on the closing price of the Company's common stock on the date of grant.

The metric related to TSR is considered to be a market condition. For share-based awards that contain a market condition, the probability of satisfying the market condition must be considered in the estimate of grant-date fair value. Compensation expense is recognized over the vesting period and previously recorded compensation expense is not reversed if the market condition is never met. Refer to Note 1 - Summary of Business Organization, Operations and Significant Accounting Policies, ***Stock-Based Compensation Expense,*** for the assumptions and method used to value these awards.

During the fiscal year ended December 31, 2012, the Company granted 315,000 shares of restricted stock to its executive officers and to certain senior employees. Of these awards, 205,000 are performance based awards which will be forfeited if the Company does not achieve certain annual metrics during 2012, 2013 and 2014. The vesting of these grants are subject to the achievement by GEO of two annual performance metrics as follows: (i) up to 75% of the shares of restricted stock in each award can vest annually or cumulatively if GEO meets certain earnings per share performance targets during 2012, 2013 and 2014; and (ii) up to 25% of the shares of restricted stock in each award can vest annually if GEO meets certain return on capital performance targets in 2012, 2013, and 2014. The Company achieved the earnings per share and return on capital annual performance metrics in 2012 and 2013.

The following table summarizes the status of restricted stock awards as of December 31, 2012 and 2013, and changes during the year ended December 31, 2013:

	Shares	Wtd. Avg. Grant date Fair value
	(In thousands)	
Restricted stock outstanding at December 31, 2012	670	$ 18.14
Granted	345	37.40
Vested	(273)	18.44
Forfeited/Canceled	(8)	34.88
Restricted stock outstanding at December 31, 2013	734	$ 26.87

As of December 31, 2013, the Company had $14.3 million of unrecognized compensation cost that is expected to be recognized over a weighted average period of 2.8 years.

Employee Stock Purchase Plan

The Company previously adopted The GEO Group Inc. 2011 Employee Stock Purchase Plan (the "Plan"), which was approved by the Company's shareholders. The purpose of the Plan, which is qualified under Section 423 of the Internal Revenue Service Code of 1986, as amended, is to encourage stock ownership through payroll deductions by the employees of GEO and designated subsidiaries of GEO in order to increase their identification with the Company's goals and secure a proprietary interest in the Company's success. These deductions are used to purchase shares of the Company's Common Stock at a 5% discount from the then current market price. The Company has made available up to 500,000 shares of its common stock, which were registered with the Securities and Exchange Commission on May 4, 2012, for sale to eligible employees.

The Plan is considered to be non-compensatory. As such, there is no compensation expense required to be recognized. Share purchases under the Plan are made on the last day of each month. During the years ended December 31, 2013 and December 31, 2012, 9,794 and 22,760 shares, respectively, were issued out of the Company's treasury stock in connection with the Plan.

5. Earnings Per Share

Basic and diluted earnings per share ("EPS") from continuing operations were calculated for the year ended December 31, 2013 and fiscal years ended December 31, 2012 and January 1, 2012, respectively, as follows:

Fiscal Year	2013	2012	2011
	(In thousands, except per share data)		
Income from continuing operations	$ 117,462	$ 144,558	$ 69,644
(Income) loss attributable to noncontrolling interests	(62)	852	1,162
Income from continuing operations attributable to The GEO Group, Inc.	$ 117,400	$ 145,410	$ 70,806
Basic earnings per share attributable to The GEO Group, Inc.:			
Weighted average shares outstanding	71,116	60,934	63,425
Per share amount from continuing operations	$ 1.65	$ 2.39	$ 1.12
Diluted earnings per share attributable to The GEO Group, Inc.:			
Weighted average shares outstanding	71,116	60,934	63,425
Dilutive effect of equity incentive plans	489	331	315
Weighted average shares assuming dilution	71,605	61,265	63,740
Per share amount from continuing operations	$ 1.64	$ 2.37	$ 1.11

As discussed in Note 3 - Shareholders' Equity, on December 31, 2012, GEO paid a Special Dividend in connection with its conversion to a REIT. The shareholders were allowed to elect to receive their entire payment of the special dividend in either cash or in shares of common stock, except that GEO placed a limit on the aggregate amount of cash payable to the shareholders.

Under ASC 505, *Equity* and ASU 2010-01, *Accounting for Distributions to Shareholders with Components of Stock and Cash, a consensus of the FASB Emerging Issues Task Force*, a distribution that allows shareholders to elect to receive cash or stock with a potential limitation on the total amount of cash that all shareholders can elect to receive in the aggregate is considered a share issuance that is reflected in earnings per share prospectively. As such, the stock portion of the Special Dividend is presented prospectively in basic and diluted earnings per share as presented above and was not presented retroactively for all periods presented.

For the fiscal year ended December 31, 2013, 60,011 weighted average shares of common stock underlying options were excluded from the computation of diluted EPS because the effect would be anti-dilutive. No common stock equivalents from restricted shares were anti-dilutive.

For the fiscal year ended December 31, 2012, 62,769 weighted average shares of common stock underlying options were excluded from the computation of diluted EPS because the effect would be anti-dilutive. No common stock equivalents from restricted shares were anti-dilutive.

For the fiscal year ended January 1, 2012, 105,307 weighted average shares of common stock underlying options were excluded from the computation of diluted EPS because the effect would be anti-dilutive. No common stock equivalents from restricted shares were anti-dilutive.

6. Property and Equipment

Property and equipment consist of the following at fiscal year end:

	Useful Life (Years)	2013	2012
		(In thousands)	
Land	—	$ 100,862	$ 97,933
Buildings and improvements	2 to 50	1,567,836	1,469,225
Leasehold improvements	1 to 29	256,055	257,876
Equipment	3 to 10	137,952	124,199
Furnitures, fixtures and computer software	1 to 7	33,388	29,046
Facility construction in progress		10,804	15,272
Total		$ 2,106,897	$ 1,993,551
Less accumulated depreciation and amortization		(379,099)	(306,392)
Property and equipment, net		$ 1,727,798	$ 1,687,159

The Company depreciates its leasehold improvements over the shorter of their estimated useful lives or the terms of the leases including renewal periods that are reasonably assured. The Company's construction in progress primarily consists of facilities under construction that are owned by the Company. Interest capitalized in property and equipment for the year ended December 31, 2013 was not significant. Interest capitalized in property and equipment was $1.2 million for the fiscal year ended December 31, 2012.

Depreciation expense was $78.8 million, $72.2 million and $61.6 million, respectively, for the year ended December 31, 2013 and fiscal years ended December 31, 2012 and January 1, 2012, respectively.

At December 31, 2013 and 2012, the Company had $17.7 million and $17.7 million of assets recorded under capital leases including $17.1 million related to land, buildings and improvements and $0.6 million related to equipment, furniture and fixtures. Capital leases are recorded net of accumulated amortization of $8.4 million and $7.4 million, at December 31, 2013 and 2012, respectively. Depreciation expense related to assets recorded under capital leases for the year ended December 31, 2013 and fiscal years ended December 31, 2012, and January 1, 2012 was $1.0 million, $1.0 million and $1.0 million, respectively, and is included in Depreciation and Amortization in the accompanying consolidated statements of operations.

7. Assets Held for Sale

As of December 31, 2013 and 2012, the Company's Assets Held for Sale by reportable segment were as follows (in thousands):

	2013	2012
U.S. Corrections & Detention	$ —	$ —
GEO Community Services	—	3,243
Total	$ —	$ 3,243

2013

As of December 31, 2013, the Company had no facilities classified as available for sale.

During the year ended December 31, 2013, the Company sold two of its facilities previously classified as Assets Held for Sale (Abraxas Center for Adolescent Females and Philadelphia Community-Based Programs). The sale of the facilities resulted in an insignificant gain.

During 2013, Contact Interventions (carrying value $1.2 million) and Abraxas III (carrying value $0.2 million) no longer met the Assets Held For Sale criteria and were reclassified to Property and Equipment. The Company previously had potential buyers for these properties, but based on new market information, has deemed the potential sales to be improbable. The reclassification to Property and Equipment had no significant impact on the Company's results of operations.

2012

During the fiscal year ended December 31, 2012, the Company sold two of its facilities previously classified as Assets Held for Sale (Baker Community Correctional and Texas Adolescent Treatment Center). The sale of these facilities resulted in an insignificant gain.

On August 12, 2010, the Company acquired the Reality House Facility in connection with the Cornell Acquisition. This facility, an asset of the GEO Community Services reportable segment, was classified as an Asset Held For Sale as of January 1, 2012, and was donated to a non-profit organization in September 2012. The carrying value of this facility was not significant.

On March 17, 2008, the Company purchased its former Coke County Juvenile Justice Center. In October 2008, the Company classified this facility as an Asset Held for Sale. In December 2012, the Company donated this facility to a local municipality, which was included in the U.S. Corrections and Detention segment. The facility had a carrying value of $2.8 million prior to its donation.

8. Investment in Direct Finance Leases

The Company's investment in direct finance leases relates to the financing and management of one Australian facility. The Company's wholly-owned Australian subsidiary financed the facility's development with long-term debt obligations, which are non-recourse to the Company.

The future minimum rentals to be received are as follows:

Fiscal Year	Annual Repayment (In thousands)
2014	$ 7,785
2015	8,299
2016	8,586
2017	2,336
Total minimum obligation	$ 27,006
Less unearned interest income	(4,240)
Less current portion of direct finance lease (included in Prepaid expenses and other current assets)	(5,822)
Long term portion of investment in direct finance lease	$ 16,944

9. Derivative Financial Instruments

As of December 31, 2012, the Company had four interest rate swap agreements (the "Swap Agreements") in the aggregate notional amount of $100.0 million. These Swap Agreements were canceled in October 2013 (see discussion below). The Company had designated these interest rate swaps as hedges against changes in the fair value of a designated portion of the 7 3/4% Senior Notes due 2017 ("7 3/4% Senior Notes") due to changes in underlying interest rates. The Swap Agreements, which had payment, expiration dates and call provisions that mirrored the terms of the 7 3/4% Senior Notes, effectively

converted $100.0 million of the 7 3/4% Senior Notes into variable rate obligations. Each of the swaps had a termination clause that gave the counterparty the right to terminate the interest rate swaps at fair market value, under certain circumstances. In addition to the termination clause, the Swap Agreements also had call provisions which specified that the lender could elect to settle the swaps for the call option price. Under the Swap Agreements, the Company received a fixed interest rate payment from the financial counterparties to the agreements equal to 7 3/4% per year calculated on the notional $100.0 million amount, while it made a variable interest rate payment to the same counterparties equal to the three-month LIBOR plus a fixed margin, also calculated on the notional $100.0 million amount. Changes in the fair value of the interest rate swaps were recorded in earnings along with related designated changes in the value of the 7 3/4% Senior Notes. Total net gains (losses), entirely offset by a corresponding increase (decrease) in the fair value of the variable rate portion of the 7 3/4% Senior Notes, recognized and recorded in earnings related to these fair value hedges was $(1.2) million and $4.1 million in the fiscal years ended December 31, 2012 and January 1, 2012, respectively. As of December 31, 2012 and January 1, 2012, the fair value of the swap assets was $6.2 million and $7.4 million, respectively. There was no material ineffectiveness of these interest rate swaps during the fiscal periods ended December 31, 2012 and January 1, 2012. The fair value of the swap agreements are recorded in other non-current assets in the accompanying December 31, 2012 Consolidated Balance Sheet.

In October 2013, the Company received proceeds of $5.1 million, including accrued interest of $1.1 million, for the settlement of the Swap Agreements with an aggregate notional amount of $100.0 million discussed above. The lenders to those Swap Agreements elected to prepay their obligations at the call option price which equaled the fair value at the respective call dates. Also on October 3, 2013, the Company completed the purchase of $209.1 million in aggregate principal amount of its 7¾% Senior Notes validly tendered in connection with the Company's tender offer and consent solicitation on or prior to the consent payment deadline. On November 4, 2013, the Company completed the redemption of the remaining 7¾% Senior Notes in connection with the terms of the notice of redemption delivered to the noteholders pursuant to the terms of the indenture governing the 7¾% Senior Notes. Refer to Note 14 - Debt.

The Company's Australian subsidiary is a party to an interest rate swap agreement to fix the interest rate on the variable rate non-recourse debt to 9.7%. The Company has determined the swap, which has a notional amount of $50.9 million, payment and expiration dates, and call provisions that coincide with the terms of the non-recourse debt, to be an effective cash flow hedge. Accordingly, the Company records the change in the value of the interest rate swap in accumulated other comprehensive income, net of applicable income taxes. Total net unrealized loss recognized in the periods and recorded in accumulated other comprehensive income (loss), net of tax, related to this cash flow hedge was $(0.5) million and $(1.2) million for the fiscal years ended December 31, 2012 and January 1, 2012, respectively. The net unrealized gain (loss) for the year ended December 31, 2013 was not significant. The total value of the swap liability as of December 31, 2013 and 2012 was $0.4 million and $0.7 million, respectively, and is recorded as a component of other liabilities in the accompanying consolidated balance sheets. There was no material ineffectiveness of this interest rate swap for the periods presented. The Company does not expect to enter into any transactions during the next twelve months which would result in the reclassification into earnings or losses associated with this swap currently reported in accumulated other comprehensive income (loss).

10. Goodwill and Other Intangible Assets, Net

Changes in the Company's goodwill balances recognized during the year ended December 31, 2013 and the fiscal year ended December 31, 2012 were as follows (in thousands):

	December 31, 2012	Foreign currency translation	December 31, 2013
U.S. Corrections & Detention	$ 170,376	$ —	$ 170,376
GEO Community Services	319,159	—	319,159
International Services	773	(112)	661
Total Goodwill	$ 490,308	$ (112)	$ 490,196

	January 1, 2012	Foreign currency translation	December 31, 2012
U.S. Corrections & Detention	$ 170,376	$ —	$ 170,376
GEO Community Services	319,159	—	319,159
International Services	761	12	773
Total Goodwill	$ 490,296	$ 12	$ 490,308

Intangible assets consisted of the following as of December 31, 2013 and December 31, 2012 (in thousands):

		December 31, 2013			December 31, 2012		
	Weighted Average Useful Life (years)	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Facility management contracts	13.4	$ 151,604	$ (44,646)	$ 106,958	$ 151,913	$ (33,141)	$ 118,772
Covenants not to compete	0	8,570	(8,570)	—	8,570	(8,495)	75
Technology	7	21,200	(8,758)	12,442	21,200	(5,729)	15,471
Trade names	Indefinite	44,000	—	44,000	44,000	—	44,000
Total acquired intangible assets		$ 225,374	$ (61,974)	$ 163,400	$ 225,683	$ (47,365)	$ 178,318

The accounting for recognized intangible assets is based on the useful lives to the reporting entity. Intangible assets with finite useful lives are amortized over their useful lives and intangible assets with indefinite useful lives are not amortized. The Company estimates the useful lives of its intangible assets taking into consideration (i) the expected use of the asset by the Company, (ii) the expected useful lives of other related assets or groups of assets, (iii) legal or contractual limitations, (iv) the Company's historical experience in renewing or extending similar arrangements, (v) the effects of obsolescence, demand, competition and other economic factors and (vi) the level of maintenance expenditures required to obtain the expected cash flows from the asset.

Amortization expense was $14.6 million, $18.1 million and $18.0 million for the year ended December 31, 2013 and fiscal years ended December 31, 2012 and January 1, 2012, respectively, and primarily related to the U.S. Corrections & Detention and GEO Community Services segments' amortization of intangible assets for acquired management contracts. The Company relies on its historical experience in determining the useful life of facility management contracts. The Company makes assumptions related to acquired facility management contracts based on the competitive environment for individual contracts, our historical success rates in retaining contracts, the supply of available beds in the market, changes in legislation, the projected profitability of the facilities and other market conditions. As of December 31, 2013, the weighted average period before the next contract renewal or extension for the facility management contracts was approximately 1.3 years. Although the facility management contracts acquired have renewal and extension terms in the near term, the Company has historically maintained these relationships beyond the contractual periods.

Estimated amortization expense related to the Company's finite-lived intangible assets for 2014 through 2018 and thereafter is as follows (in thousands):

Fiscal Year	Total Amortization Expense
2014	$ 14,525
2015	14,525
2016	14,525
2017	14,525
2018	11,825
Thereafter	49,475
	$ 119,400

11. Financial Instruments

The following table provides a summary of the Company's significant financial assets and liabilities carried at fair value and measured on a recurring basis (in thousands):

		Fair Value Measurements at December 31, 2013		
	Carrying Value at December 31, 2013	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Restricted investments:				
Guaranteed Investment Contract	$ 5,742	$ —	$ 5,742	$ —
Rabbi Trust	$ 9,534	$ —	$ 9,534	$ —
Fixed income securities	$ 1,993	$ —	$ 1,993	$ —
Liabilities:				
Interest rate swap derivative liability	$ 390	$ —	$ 390	$ —

		Fair Value Measurements at December 31, 2012		
	Carrying Value at December 31, 2012	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Interest rate swap derivative assets	$ 6,212	$ —	$ 6,212	$ —
Restricted investments:				
Guaranteed Investment Contact	$ 5,742	$ —	$ 5,742	$ —
Rabbi Trust	$ 7,718	$ —	$ 7,718	$ —
Fixed income securities	$ 2,152	$ —	$ 2,152	$ —
Liabilities:				
Interest rate swap derivative liability	$ 708	$ —	$ 708	$ —

The Company's level 2 financial instruments included in the tables above as of December 31, 2013 and 2012 consist of a guaranteed investment contract, the Company's rabbi trust established for GEO employee and employer contributions to The GEO Group, Inc. Non-qualified Deferred Compensation Plan, an interest rate swap held by our Australian subsidiary, other interest rate swap assets of the Company and an investment in Canadian dollar denominated fixed income securities. In October 2013, the non-Australian interest rate swap assets were terminated (Refer to Note 9 - Derivative Financial Instruments). The Company's restricted investment in the Rabbi Trust is invested in Company owned life insurance policies which are recorded at their cash surrender values. These investments are valued based on the underlying investments held in the policies' separate account. The underlying assets are equity and fixed income pooled funds that are comprised of level 1 and level 2 securities. The Australian subsidiary's interest rate swap is valued using a discounted cash flow model based on projected Australian borrowing rates. At December 31, 2012, the Company's other interest rate swap assets were based on pricing models which considered prevailing interest rates, credit risk and similar instruments. The Canadian dollar denominated securities, not actively traded, are valued using quoted rates for these and similar securities. The restricted investment in the guaranteed investment contract is valued using quoted rates for these and similar instruments.

12. Fair Value of Assets and Liabilities

The Company's Consolidated Balance Sheets reflect certain financial instruments at carrying value. The following table presents the carrying values of those instruments and the corresponding fair values (in thousands):

	Estimated Fair Value Measurements at December 31, 2013				
	Carrying Value as of December 31, 2013	Total Fair Value	Level 1	Level 2	Level 3
Assets:					
Cash and cash equivalents	$ 52,125	$ 52,125	$ 52,125	$ —	$ —
Restricted cash	14,592	14,592	1,838	12,754	—
Liabilities:					
Borrowings under Senior Credit Facility	$ 638,500	$ 639,246	$ —	$ 639,246	$ —
5⅞% Senior Notes	250,000	265,938	—	265,938	—
6.625% Senior Notes	300,000	317,064	—	317,064	—
5.125% Senior Notes	300,000	279,000	—	279,000	—
Non-recourse debt, Australian subsidiary	23,896	24,439	—	24,439	—
Other non-recourse debt, including current portion	60,235	62,319	—	62,319	—

	Estimated Fair Value Measurements at December 31, 2012				
	Carrying Value as of December 31, 2012	Total Fair Value	Level 1	Level 2	Level 3
Assets:					
Cash and cash equivalents	$ 31,755	$ 31,755	$ 31,755	$ —	$ —
Restricted cash	34,950	34,950	1,765	33,185	—
Liabilities:					
Borrowings under Senior Credit Facility	$ 797,430	$ 803,097	$ —	$ 803,097	$ —
7¾% Senior Notes	247,543	270,313	—	270,313	—
6.625% Senior Notes	300,000	335,814	—	335,814	—
Non-recourse debt, Australian subsidiary	34,832	34,973	—	34,973	—
Other non-recourse debt, including current portion	88,650	91,345	—	91,345	—

The fair values of the Company's cash and cash equivalents, and restricted cash approximates the carrying values of these assets at December 31, 2013 and 2012. Restricted cash consists of money market funds, commercial paper and time deposits used for payments on the Company's non-recourse debt and asset replacement funds contractually required to be maintained at the Company's Australian subsidiary. The fair value of the money market funds is based on quoted market prices (level 1) and the fair value of commercial paper and time deposits is based on market prices for similar instruments (level 2). The fair values of the Company's 6.625% senior unsecured notes due 2021 ("6.625% Senior Notes"), 5.125% Senior Notes due 2023 (the "5.125% Senior Notes"), and $5^{7}/_{8}$% Senior Notes due 2022 (the "$5^{7}/_{8}$% Senior Notes"), although not actively traded, are based on published financial data for these instruments. The fair value of the Company's non-recourse debt related to Washington Economic Development Finance Authority ("WEDFA") is based on market prices for similar instruments. The fair value of the non-recourse debt related to the Company's Australian subsidiary is estimated using a discounted cash flow model based on current Australian borrowing rates for similar instruments. The fair value of borrowings under the Senior Credit Facility is based on an estimate of trading value considering the Company's borrowing rate, the undrawn spread and similar instruments.

On September 30, 2013, the Company completed a defeasance of the non-recourse debt related to STLDC. In addition, during the fourth quarter of 2013, the Company completed the redemption of the 7¾% Senior Notes. Refer to Note 14 – Debt.

13. Accrued Expenses

Accrued expenses consisted of the following (in thousands):

	2013	2012

Credit Agreement

On April 3, 2013, the Company entered into the Amended and Restated Credit Agreement with GEO Corrections Holdings, Inc. (with the Company as the sole term loan borrower, and the Company and GEO Corrections Holdings, Inc. as joint and several revolver borrowers), BNP Paribas, as Administrative Agent, and the lenders who are, or may from time to time become, a party thereto (the "Credit Agreement"). The Credit Agreement evidences a Senior Credit Facility (the "Senior Credit Facility") consisting of a $300 million Term Loan (the "Term Loan") initially bearing interest at LIBOR plus 2.50% (with a LIBOR floor of 0.75%), and a $700 million revolving credit facility (the "Revolver") initially bearing interest at LIBOR plus 2.50% (with no LIBOR floor), in each case subject to adjustment based on a total leverage ratio pricing grid. The Company also has the ability to increase the Senior Credit Facility by an additional $350 million, subject to lender demand, prevailing market conditions and satisfying the borrowing and other conditions thereunder. The Revolver component is scheduled to mature on April 3, 2018 and the Term Loan component is scheduled to mature on April 3, 2020. The Term Loan and Revolver may be prepaid in whole or in part by the Company at any time without premium or penalty, subject to certain conditions. The Senior Credit Facility is a refinancing of the Fourth Amended and Restated Credit Agreement (the "Prior Senior Credit Facility") which consisted of a Term Loan A, Term Loan A-2, Term Loan A-3, Term Loan B ("Prior Term Loans") and a revolver ("Prior Revolver").

The Company has accounted for the refinancing of the Prior Term Loans component of its Prior Senior Credit Facility as an extinguishment of debt and has accounted for the termination of the Prior Revolver component of the Prior Senior Credit Facility based upon the borrowing capacity accounting guidance for modification of revolving credit arrangements. Loan costs of $12.3 million were incurred in connection with the Credit Agreement transaction, of which $1.1 million was expensed as incurred as this amount was associated with the extinguishment of the Prior Term Loan component, and $11.2 million was capitalized as deferred financing fees and is included in Other Non-Current Assets in the accompanying Consolidated Balance Sheet as of December 31, 2013, and is being amortized to interest expense throughout the term of the Revolver or Term Loan as applicable. In addition, the Company wrote off $1.1 million in unamortized debt discount and $3.3 million of unamortized deferred financing costs pertaining to the Prior Term Loans related to the termination of the Prior Senior Credit Facility. The remaining unamortized deferred financing fees pertaining to the Prior Revolver will be amortized to interest expense throughout the term of the Revolver.

As of December 31, 2013, the Company had $298.5 million in aggregate borrowings outstanding under the Term Loan, $340.0 million in borrowings under the Revolver, and approximately $61.0 million in letters of credit which left $299.0 million in additional borrowing capacity under the Revolver. The weighted average interest rate on outstanding borrowings under the Credit Agreement as of December 31, 2013 was 3.0%.

Indebtedness under the Revolver bears interest based on the Total Leverage Ratio, as defined in the Credit Agreement, as of the most recent determination date, as defined, in each of the instances below at the stated rate:

	Interest Rate under the Revolver and Term Loan
LIBOR borrowings	LIBOR plus 1.75% to 2.75%.
Base rate borrowings	Prime Rate plus 0.75% to 1.75%.
Letters of credit	1.75% to 2.75%.
Unused Revolver	0.35% to 0.375%.

The Credit Agreement contains certain representations and warranties, certain affirmative covenants and certain negative covenants that (subject to certain exceptions and allowances) restrict the Company's ability to, among other things, (i) create, incur or assume indebtedness, (ii) create, incur, assume or permit liens, (iii) make loans and other investments, (iv) engage in mergers, acquisitions, liquidations and asset sales, (v) make certain restricted payments, (vi) issue, sell or otherwise dispose of certain types of non-common equity, (vii) engage in transactions with affiliates, (viii) allow the total leverage ratio to exceed 5.75 to 1.00, allow the senior secured leverage ratio to exceed 3.50 to 1.00 or allow the interest coverage ratio to be less than 3.00 to 1.00, (ix) cancel, forgive, make any voluntary or optional payment or prepayment on, or redeem or acquire for value certain of its senior notes, except as permitted, (x) alter the business the Company conducts, and (xi) materially impair the Company's lenders' security interests in the collateral for its loans.

The Senior Credit Facility generally requires the Interest Coverage Ratio to be calculated as (a) Adjusted EBITDA (as defined under the Senior Credit Facility) for any period of four consecutive fiscal quarters to (b) Interest Expense (as defined under the Senior Credit Facility), minus Interest Expense attributable to Indebtedness of Unrestricted Subsidiaries and Other Consolidated Persons that is Non-Recourse to the Company and the Restricted Subsidiaries for such four quarter period (capitalized terms are defined in the Senior Credit Facility).

Events of default under the Credit Agreement include, but are not limited to, (i) the Company's failure to pay principal or letter of credit reimbursement obligations when due or to pay any interest or other amounts within three business days of the payment deadline, (ii) the Company's material breach of any representations or warranty, (iii) covenant defaults, (iv) liquidation, reorganization or other relief relating to bankruptcy or insolvency, (v) cross default under certain other material indebtedness, (vi) unsatisfied final monetary judgments over a specified threshold, (vii) material environmental liability claims which have been asserted against the Company, and (viii) a change in control. All of the obligations under the Credit Agreement are unconditionally guaranteed by each of the Company's domestic subsidiaries that are restricted subsidiaries under the Senior Credit Facility. The Senior Credit Facility and the related guarantees are secured on a first-priority basis by substantially all of the Company's present and future tangible and intangible assets, subject to certain exceptions, and all present and future tangible and intangible assets, subject to certain exceptions, of each guarantor. The Company's failure to comply with any of the covenants under its Credit Agreement could cause an event of default under such documents and result in an acceleration of all outstanding senior secured indebtedness. The Company believes it was in compliance with all of the covenants of the Credit Agreement as of December 31, 2013.

5.125% Senior Notes

On March 19, 2013, the Company completed an offering of $300.0 million aggregate principal amount of senior unsecured notes in a private offering under the Indenture dated as of March 19, 2013 among GEO, certain of its domestic subsidiaries, as guarantors, and Wells Fargo Bank, National Association, as trustee. The 5.125% Senior Notes were offered and sold to "qualified institutional buyers" in accordance with Rule 144A under the Securities Act of 1933, as amended (the "Securities Act"), and outside the United States to non-U.S. persons in accordance with Regulation S under the Securities Act. The notes will mature on April 1, 2023 and have a coupon rate and yield to maturity of 5.125%. Interest is payable semi-annually on April 1 and October 1 each year, beginning October 1, 2013. The 5.125% Senior Notes are guaranteed on a senior unsecured basis by all of the Company's restricted subsidiaries that guarantee obligations under the Senior Credit Facility, the Company's 6.625% Senior Notes, and the Company's 5 ⅞% senior notes due 2022. The 5.125% Senior Notes and the guarantees are the Company's general unsecured senior obligations and rank equally in right of payment with all of the Company's and the guarantors' existing and future unsecured senior debt, including the Company's 6.625% Senior Notes and the 5 ⅞% Senior Notes. The 5.125% Senior Notes and the guarantees are effectively subordinated to any of the Company's and the guarantors' existing and future secured debt to the extent of the value of the assets securing such debt, including all anticipated borrowings under the Senior Credit Facility. The 5.125% Senior Notes are structurally subordinated to all existing and future liabilities (including trade payables) of the Company's subsidiaries that do not guarantee the 5.125% Senior Notes.

At any time on or prior to April 1, 2016, the Company may on any one or more occasions redeem up to 35% of the aggregate principal amount of outstanding 5.125% Senior Notes issued under the indenture governing the 5.125% Senior Notes (including any additional notes) at a redemption price of 105.125% of their principal amount plus accrued and unpaid interest and Liquidated Damages (as defined in the indenture), if any, to the redemption date, with the net cash proceeds of one or more equity offerings (as defined in the indenture); provided, that: (1) at least 65% of the aggregate principal amount of notes issued under the indenture (including any additional notes) remains outstanding immediately after the occurrence of such redemption (excluding notes held by us and our Subsidiaries); and (2) the redemption occurs within 90 days of the date of the closing of such equity offering.

At any time prior to April 1, 2018, the Company may, at its option, redeem all or a part of the 5.125% Senior Notes upon not less than 30 days nor more than 60 days prior notice at a redemption price equal to the sum of (i) 100% of the principal amount thereof, plus (ii) the Applicable Premium (as defined in the indenture) as of the date of redemption, plus (iii) accrued and unpaid interest and Liquidated Damages, if any, to the date of redemption. On or after April 1, 2018, the Company may, at its option, redeem all or a part of the 5.125% Senior Notes upon not less than 30 days nor more than 60 days notice at the redemption prices (expressed as percentages of principal amount) set forth below, plus accrued and unpaid interest and Liquidated Damages, if any, on the 5.125% Senior Notes redeemed, to the applicable redemption date, if redeemed during the 12 months period beginning on April 1 of the years indicated below:

Year	Percentage
2018	102.563%
2019	101.708%
2020	100.854%
2021 and thereafter	100%

As discussed above, on April 3, 2013, the Company's Prior Senior Credit Facility was refinanced and a portion of the proceeds of the 5.125% Senior Notes were used to pay the outstanding Prior Term Loans under the Senior Credit Facility. Loan costs of $6.8 million were incurred and capitalized in connection with the issuance of the 5.125% Senior Notes.

If there is a "change of control" (as defined in the Indenture), holders of the 5.125% Senior Notes will have the right to cause GEO to repurchase their 5.125% Senior Notes at a price equal to 101% of the principal amount of the 5.125% Senior Notes repurchased plus accrued and unpaid interest and Liquidated Damages, if any, to the purchase date.

The indenture governing the 5.125% Senior Notes contains certain covenants, including limitations and restrictions on the Company and its restricted subsidiaries' ability to: incur additional indebtedness or issue preferred stock; make dividend payments or other restricted payments; create liens; sell assets; enter into transactions with affiliates; and enter into mergers, consolidations or sales of all or substantially all of the Company's assets. As of the date of the indenture, all of the Company's subsidiaries, other than certain dormant domestic and other subsidiaries and all foreign subsidiaries in existence on the date of the indenture, were restricted subsidiaries. The Company's failure to comply with certain of the covenants under the indenture governing the 5.125% Senior Notes could cause an event of default of any indebtedness and result in an acceleration of such indebtedness. In addition, there is a cross-default provision which becomes enforceable upon failure of payment of indebtedness at final maturity. The Company's unrestricted subsidiaries will not be subject to any of the restrictive covenants in the indenture. The Company believes it was in compliance with all of the covenants of the indenture governing the 5.125% Senior Notes as of December 31, 2013.

The indenture also contains events of default with respect to, among other things, the following: failure by the Company to pay interest and Liquidated Damages, if any, on the 5.125% Senior Notes when due, which failure continues for 30 days; failure by the Company to pay the principal of, or premium, if any, on, the 5.125% Senior Notes when due; failure by the Company or any of its restricted subsidiaries to comply with their obligations to offer to repurchase the 5.125% Senior Notes at the option of the holders of the 5.125% Senior Notes upon a change of control, to offer to redeem notes under certain circumstances in connection with asset sales with "excess proceeds" (as defined in the indenture) in excess of $25.0 million or to observe certain restrictions on mergers, consolidations and sales of substantially all of their assets; the failure by the Company or any guarantor to comply with any of the other agreements in the indenture, which failure continues for 60 days after notice; and certain events of bankruptcy or insolvency of the Company or a restricted subsidiary that is a significant subsidiary or any group of restricted subsidiaries that together would constitute a significant subsidiary.

Under the terms of a registration rights agreement dated as of March 19, 2013, among GEO, the guarantors and Merrill Lynch, Pierce, Fenner & Smith Incorporated, as the representative of the initial purchasers of the 5.125% Senior Notes, GEO agreed to register under the Securities Act notes having terms identical in all material respects to the 5.125% Senior Notes (the "5.125% Exchange Notes") and to make an offer to exchange the 5.125% Exchange Notes for the 5.125% Senior Notes. GEO filed the registration statement on May 30, 2013 which was declared effective on September 12, 2013. GEO launched the exchange offer on September 13, 2013 and the exchange offer expired on October 11, 2013.

5⅞% Senior Notes

On October 3, 2013, the Company completed an offering of 250.0 million aggregate principal amount of 5 ⅞% senior notes due 2022 (the "5 ⅞% Senior Notes") in a private offering under the Indenture dated as of October 3, 2013 among GEO, certain of its domestic subsidiaries, as guarantors, and Wells Fargo Bank, National Association, as trustee. The 5 ⅞% Senior Notes were offered and sold to "qualified institutional buyers" in accordance with Rule 144A under the Securities Act, and outside the United States to non-U.S. persons in accordance with Regulations S under the Securities Act. The 5 ⅞% Senior Notes were issued at a coupon rate and yield to maturity of 5 ⅞% . Interest on the 5 ⅞% Senior Notes will be payable semi-annually in cash in arrears on January 15 and July 15, commencing on January 15, 2014. The 5 ⅞% Senior Notes mature on January 15, 2022. The 5 ⅞% Senior Notes and the guarantees are the Company's general unsecured senior obligations and rank equally in right of payment with all of the Company's and the guarantors' existing and future unsecured senior debt, including the Company's 6.625% Senior Notes and the 5.125% Senior Notes. The 5 ⅞% Senior Notes and the guarantees are effectively subordinated to any of the Company's and the guarantors' existing and future secured debt to the extent of the value of the assets securing such debt, including all anticipated borrowings under the Senior Credit Facility. The 5 ⅞% Senior Notes are structurally subordinated to all existing and future liabilities (including trade payables) of the Company's subsidiaries that do not guarantee the 5 ⅞% Senior Notes.

Up to 35% of the aggregate principal amount of the 5 ⅞% Senior Notes may be redeemed on or prior to January 15, 2016, with the net cash proceeds from certain equity offerings at a redemption price equal to 105.875% of their principal amount, plus accrued and unpaid interest and Liquidated Damages (as defined in the indenture), if any, to the redemption date. In addition, GEO may, at its option, redeem the 5 ⅞% Senior Notes in whole or in part before January 15, 2017 at a redemption price equal to 100% of the principal amount of the 5 ⅞% Senior Notes being redeemed plus a "make-whole" premium, together with accrued and unpaid interest and Liquidated Damages, if any, to the redemption date. On or after January 15, 2017, GEO may, at its option, redeem all or part of the 5 ⅞% Senior Notes upon not less than 30 days nor more than 60 days' notice, at the redemption prices (expressed as percentages of principal amount) set forth below, plus accrued and unpaid interest and including Liquidated Damages, if any, on the 5 ⅞% Senior Notes redeemed, to the applicable redemption date, if redeemed during the 12-month period beginning on January 15 of the years indicated below:

Year	Percentage
2017	104.406%
2018	102.938%
2019	101.469%
2020 and thereafter	100.000%

If there is a "change of control" (as defined in the Indenture), holders of the 5 ⅞% Senior Notes will have the right to cause GEO to repurchase their 5 ⅞% Senior Notes at a price equal to 101% of the principal amount of the 5 ⅞% Senior Notes repurchased plus accrued and unpaid interest and Liquidated Damages, if any, to the purchase date.

The indenture governing the notes contains certain covenants, including limitations and restrictions on the Company and its restricted subsidiaries' ability to: incur additional indebtedness or issue preferred stock; make dividend payments or other restricted payments; create liens; sell assets; enter into transactions with affiliates; and enter into mergers, consolidations or sales of all or substantially all of the Company's assets. As of the date of the indenture, all of the Company's subsidiaries, other than certain dormant domestic and other subsidiaries and all foreign subsidiaries in existence on the date of the indenture, were restricted subsidiaries. The Company's failure to comply with certain of the covenants under the indenture governing the 5 ⅞% Senior Notes could cause an event of default of any indebtedness and result in an acceleration of such indebtedness. In addition, there is a cross-default provision which becomes enforceable upon failure of payment of indebtedness at final maturity. The Company's unrestricted subsidiaries will not be subject to any of the restrictive covenants in the indenture. The Company believes it was in compliance with all of the covenants of the indenture governing the 5 ⅞% Senior Notes as of December 31, 2013.

The Indenture also contains events of default with respect to, among other things, the following: failure by GEO to pay interest and Liquidated Damages, if any, on the 5 ⅞% Senior Notes when due, which failure continues for 30 days; failure by GEO to pay the principal of, or premium, if any, on, the 5 ⅞% Senior Notes when due; failure by GEO or any of its restricted subsidiaries to comply with their obligations to offer to repurchase the 5 ⅞% Senior Notes at the option of the holders of the 5 ⅞% Senior Notes upon a change of control, to offer to redeem notes under certain circumstances in connection with asset sales with "excess proceeds" (as defined in the Indenture) in excess of $25.0 million or to observe certain restrictions on mergers, consolidations and sales of substantially all of their assets; the failure by GEO or any Guarantor to comply with any of the other agreements in the Indenture, which failure continues for 60 days after notice; and certain events of bankruptcy or insolvency of GEO or a restricted subsidiary that is a significant subsidiary or any group of restricted subsidiaries that together would constitute a significant subsidiary.

GEO used the net proceeds from the offering, together with cash on hand, to fund the repurchase, redemption or other discharge of its 7 3/4% Senior Notes (see discussion below) and to pay related transaction fees and expenses. Loan costs of $5.9 million were incurred and capitalized in connection with the offering.

Under the terms of the Registration Rights Agreement, dated as of October 3, 2013, among GEO, the Guarantors and Wells Fargo Securities, LLC, as the representative of the initial purchasers of the 5 ⅞% Senior Notes (the "Registration Rights Agreement"), GEO has agreed to register under the Securities Act notes having terms identical in all material respects to the 5 ⅞% Senior Notes (the "5 7/8% Exchange Notes") and to make an offer to exchange the 5 7/8% Exchange Notes for the 5 ⅞% Senior Notes. GEO filed the registration statement on October 2, 2013 which was declared effective on January 6, 2014. GEO launched the exchange offer on January 6, 2014 and the exchange offer expired on February 4, 2014.

6.625% Senior Notes

On February 10, 2011, the Company completed an offering of $300.0 million aggregate principal amount of 6.625% Senior Notes in a private offering under the indenture dated as of February 10, 2011 among the Company, certain of its domestic subsidiaries, as guarantors, and Wells Fargo Bank, National Association, as trustee. The 6.625% Senior Notes were offered and sold to "qualified institutional buyers" in accordance with Rule 144A under the Securities Act, and outside the United States to non-U.S. persons in accordance with Regulation S under the Securities Act. The 6.625% Senior Notes were issued at a coupon rate and yield to maturity of 6.625%. Interest on the 6.625% Senior Notes is payable semi-annually in cash in arrears on February 15 and August 15 each year. The 6.625% Senior Notes mature on February 15, 2021. The 6.625% Senior Notes and the guarantees are the Company's general unsecured senior obligations and rank equally in right of payment with all of the Company's and the guarantors' existing and future unsecured senior debt, including the Company's 5.125% Senior Notes and the 5 ⅞% Senior Notes. The 6.625% Senior Notes and the guarantees are effectively subordinated to any of the Company's and the guarantors' existing and future secured debt to the extent of the value of the assets securing such debt, including all anticipated borrowings under the Senior Credit Facility. The 6.625% Senior Notes are structurally subordinated to all existing and future liabilities (including trade payables) of the Company's subsidiaries that do not guarantee the 6.625% Senior Notes.

At any time on or prior to February 15, 2014, the Company may on any one or more occasions redeem up to 35% of the aggregate principal amount of outstanding 6.625% Senior Notes issued under the indenture at a redemption price of 106.625% of their principal amount, plus accrued and unpaid interest and Liquidated Damages (as defined in the indenture), if any, to the redemption date, with the net cash proceeds of one or more equity offerings; provided, that: (1) at least 65% of the aggregate principal amount of 6.625% Senior Notes issued under the indenture (including any additional notes) remains outstanding immediately after the occurrence of such redemption (excluding notes held by the Company and its subsidiaries); and (2) the redemption occurs within 90 days of the date of the closing of such equity offering. In addition, the Company may, at its option, redeem all or part of the 6.625% Senior Notes prior to February 15, 2016, at a redemption price equal to 100% of the principal amount of each note to be redeemed plus a "make whole" premium, together with accrued and unpaid interest and Liquidated Damages, if any, to the date of redemption.

On or after February 15, 2016, the Company may, at its option, redeem all or part of the 6.625% Senior Notes upon not less than 30 nor more than 60 days' notice, at the redemption prices (expressed as percentages of principal amount) set forth below, plus accrued and unpaid interest and liquidated damages, if any, on the 6.625% Senior Notes redeemed, to the applicable redemption date, if redeemed during the 12-month period beginning on February 15 of the years indicated below:

Year	Percentage
2016	103.3125%
2017	102.2083%
2018	101.1042%
2019 and thereafter	100.0000%

If there is a "change of control" (as defined in the indenture), holders of the 6.625% Senior Notes will have the right to cause the Company to repurchase their 6.625% Senior Notes at a price equal to 101% of the principal amount of the 6.625% Senior Notes repurchased plus accrued and unpaid interest and Liquidated Damages, if any, to the purchase date.

The indenture governing the notes contains certain covenants, including limitations and restrictions on the Company and its restricted subsidiaries' ability to: incur additional indebtedness or issue preferred stock; make dividend payments or other restricted payments; create liens; sell assets; enter into transactions with affiliates; and enter into mergers, consolidations or sales of all or substantially all of the Company's assets. As of the date of the indenture, all of the Company's subsidiaries, other than certain dormant domestic and other subsidiaries and all foreign subsidiaries in existence on the date of the indenture, were restricted subsidiaries. The Company's failure to comply with certain of the covenants under the indenture governing the 6.625% Senior Notes could cause an event of default of any indebtedness and result in an acceleration of such indebtedness. In addition, there is a cross-default provision which becomes enforceable upon failure of payment of indebtedness at final maturity. The Company's unrestricted subsidiaries will not be subject to any of the restrictive covenants in the indenture. The Company believes it was in compliance with all of the covenants of the indenture governing the 6.625% Senior Notes as of December 31, 2013.

The indenture also contains events of default with respect to, among other things, the following: failure by the Company to pay interest and Liquidated Damages, if any, on the 6.625% Senior Notes when due, which failure continues for 30 days; failure by the Company to pay the principal of, or premium, if any, on, the 6.625% Senior Notes when due; failure by the Company or any of its restricted subsidiaries to comply with their obligations to offer to repurchase the 6.625% Senior Notes at the option of the holders of the 6.625% Senior Notes upon a change of control, to offer to redeem notes under certain circumstances in connection with asset sales with "excess proceeds" (as defined in the indenture) in excess of $25.0 million or to observe certain restrictions on mergers, consolidations and sales of substantially all of their assets; the failure by the Company or any guarantor to comply with any of the other agreements in the indenture, which failure continues for 60 days after notice; and certain events of bankruptcy or insolvency of the Company or a restricted subsidiary that is a significant subsidiary or any group of restricted subsidiaries that together would constitute a significant subsidiary. The Company realized net proceeds of $293.3 million upon the closing of the transaction and used the net proceeds of the offering, together with borrowings of $150.0 million under the Prior Senior Credit Facility, to finance the acquisition of BI. The remaining net proceeds from the offering were used for general corporate purposes.

Under the terms of the registration rights agreement, dated as of February 10, 2011, among the Company, the guarantors and the initial purchasers of the 6.625% Senior Notes, the Company agreed to register under the Securities Act notes having terms identical in all material respects to the 6.625% Senior Notes (the "6.625% Exchange Notes") and to make an offer to exchange the 6.625% Exchange Notes for the 6.625% Senior Notes. The Company filed the registration statement on April 12, 2011 which was declared effective on July 22, 2011. The Company launched the exchange offer on July 25, 2011 and the exchange offer expired on August 22, 2011.

7 3/4% Senior Notes

On October 20, 2009, the Company completed a private offering of $250.0 million in aggregate principal amount of its 7 3/4% Senior Notes. These senior unsecured notes pay interest semi-annually in cash in arrears on April 15 and October 15 of each year, beginning on April 15, 2010. On September 19, 2013, the Company announced the commencement of a cash tender offer and consent solicitation for any and all of its outstanding 7¾% Senior Notes. On October 3, 2013, the Company completed the purchase of $209.1 million in aggregate principal amount of its 7¾% senior notes validly tendered in connection with the Company's tender offer and consent solicitation on or prior to the consent payment deadline. On November 4, 2013, the Company completed the redemption of the remaining 7¾% Senior Notes in connection with the terms of the notice of redemption delivered to the noteholders pursuant to the terms of the indenture governing the 7¾% Senior Notes.

The Company financed the purchase of the 7¾% Senior Notes under the tender offer and the redemption with the net cash proceeds from the 5 ⅞% Senior Notes (see discussion above) and cash on hand. As a result of the tender offer and redemption, the Company incurred a $17.7 million loss on extinguishment related to the tender premium and deferred costs associated with the 7¾% Senior Notes. This loss was partially offset by proceeds of $4.0 million received for the settlement of the interest rate swaps related to the 7¾% Senior Notes. Refer to Note 9 - Derivative Financial Instruments.

Non-Recourse Debt

South Texas Detention Complex

The Company had a debt service requirement related to the development of the South Texas Detention Complex, a 1,904-bed detention complex in Frio County, Texas acquired in November 2005 from Correctional Services Corporation ("CSC"). CSC was awarded the contract in February 2004 by the Department of Homeland Security, U.S. Immigration and Customs Enforcement ("ICE") for development and operation of the detention center. In order to finance the construction of the complex, STLDC was created and issued $49.5 million in taxable revenue bonds. These bonds were to mature in February 2016 and had fixed coupon rates between 4.63% and 5.07%. Additionally, the Company was owed $5.0 million in the form of subordinated notes by STLDC which represented the principal amount of financing provided to STLDC by CSC for initial development.

On September 30, 2013, the Company completed a legal defeasance of the $49.5 million taxable revenue bonds with an outstanding balance of $17.2 million which were to mature in February 2016. Refer to Note 1- ***Variable Interest Entities***. Upon closing of the transaction, the Company received $17.3 million of funds held in trust with respect to STLDC which was held for future debt service and other reserves. These funds were previously included in the Company's current and non-current restricted cash and investments. In connection with the defeasance, the Company incurred a $1.5 million loss on extinguishment of debt which represented the excess of the reacquisition price of the defeasance over the net carrying value of the bonds and other defeasance related fees and expenses.

Northwest Detention Center

On June 30, 2003, CSC arranged financing for the construction of a detention center in Tacoma, Washington, referred to as the Northwest Detention Center, which was completed and opened for operation in April 2004. The Company began to operate this facility following its acquisition of CSC in November 2005 (this facility was expanded by GEO in 2009 to 1,575 beds from the original 1,030 beds).

In connection with the original financing, CSC of Tacoma, LLC, a wholly owned subsidiary of CSC, issued a $57.0 million note payable to the Washington Economic Development Finance Authority ("WEDFA"), an instrumentality of the State of Washington, which issued revenue bonds ("2003 Revenue Bonds") and subsequently loaned the proceeds of the bond issuance back to CSC for the purposes of constructing the Northwest Detention Center. The proceeds of the loan were disbursed into escrow accounts held in trust to be used to pay the issuance costs for the revenue bonds, to construct the Northwest Detention Center and to establish debt service and other reserves. The bonds are non-recourse to the Company and the loan from WEDFA to CSC is non-recourse to the Company. These bonds mature in October 2014 and have a fixed coupon rate of 4.10%.

Additionally, on December 9, 2011, WEDFA issued $54.4 million of its Washington Economic Development Finance Authority Taxable Economic Development Revenue Bonds, series 2011 ("2011 Revenue Bonds"). The bonds were rated AA- by Standard & Poor's Ratings Services and the scheduled payment of principal and interest is guaranteed by municipal bond insurance issued by Assured Guaranty Municipal Corp. The 2011 Revenue Bonds have an average all-in cost of approximately 6.4%, including debt issuance costs and the bond discount, and maturity dates ranging from October 1, 2014 through October 1, 2021. The 2011 Revenue Bonds were issued to provide funds to make a loan to CSC of Tacoma, LLC for purposes of reimbursing GEO for costs incurred by GEO for the 2009 expansion of the Northwest Detention Facility and paying the costs of issuing the 2011 Revenue Bonds. The payment of principal and interest on the bonds is non-recourse to GEO. None of the bonds nor CSC's obligations under the loan are obligations of GEO nor are they guaranteed by GEO.

As of December 31, 2013, the remaining balance of the debt service requirement related to the 2003 and 2011 Revenue Bonds is $61.2 million, of which $11.8 million is classified as current in the accompanying balance sheet. As of December 31, 2013, included in restricted cash and investments is $11.5 million (all current) of funds held in trust with respect to the Northwest Detention Center for debt service and other reserves which had not been released to the Company as of December 31, 2013.

MCF

MCF was obligated for the outstanding balance of the MCF Bonds. The bonds bore interest at a rate of 8.47% per annum and were payable in semi-annual installments of interest and annual installments of principal. All unpaid principal and accrued interest on the bonds was due on the earlier of August 1, 2016 (maturity) or as noted under the bond documents. The bonds were limited, non-recourse obligations of MCF and were collateralized by the property and equipment, bond reserves, assignment of subleases and substantially all assets related to the eleven facilities owned by MCF. The bonds were not guaranteed by the Company or its subsidiaries.

On August 31, 2012, the Company purchased 100% of the partnership interests of MCF from the third party holders of these interests for a total net consideration of $35.2 million. Subsequent to the acquisition, the indenture relating to the MCF bonds was discharged and the remaining principal balance as of August 31, 2012 of $77.9 million was redeemed, with an effective date of September 4, 2012. GEO financed the acquisition of the partnership interests in MCF and the redemption of the MCF bonds with the proceeds from a term loan under the prior senior credit facility discussed above.

The Company incurred a loss on extinguishment of debt in connection with the early redemption of the MCF bonds of $8.5 million which consisted of a make-whole premium of $14.9 million which includes $0.1 million of bond redemption costs, offset by the effect of the then unamortized bond premium of $6.4 million.

Australia

The Company's wholly-owned Australian subsidiary financed the development of a facility and subsequent expansion in 2003 with long-term debt obligations. These obligations are non-recourse to the Company and total $23.9 million (AUD 26.9 million) and $34.8 million (AUD 33.6 million) at December 31, 2013 and 2012, respectively, based on exchange rates in effect as of December 31, 2013. The term of the non-recourse debt is through 2017 and it bears interest at a variable rate quoted by certain Australian banks plus 140 basis points. Any obligations or liabilities of the subsidiary are matched by a similar or corresponding commitment from the government of the State of Victoria. As a condition of the loan, the Company is required to maintain a restricted cash balance of AUD 5.0 million (along with interest earned on the account) which, at December 31, 2013, was $5.1 million (including interest) based on exchange rates in effect as of December 31, 2013. This amount is included in non-current restricted cash and the annual maturities of the future debt obligation are included in Non-Recourse Debt.

Debt Repayment

Debt repayment schedules under Capital Lease Obligations, Long-Term Debt, Non-Recourse Debt and the Senior Credit Facility are as follows:

Fiscal Year	Capital Leases	Long-Term Debt	Non-Recourse Debt	Revolver	Term Loans	Total Annual Repayment
			(In thousands)			
2014	$ 1,949	$ 185	$ 17,978	$ —	$ 3,000	$ 23,112
2015	1,932	21	13,162	—	3,000	18,115
2016	1,935	4	14,031	—	3,000	18,970
2017	1,934	4	9,941	—	3,000	14,879
2018	1,936	4	6,970	340,000	3,000	351,910
2019	1,934	3	7,280	—	3,000	12,217
Thereafter	5,102	850,000	15,729	—	280,500	1,151,331
	16,722	850,221	85,091	340,000	298,500	1,590,534
Interest imputed on Capital Leases	(4,798)	—	—	—	—	(4,798)
Original issuer's discount	—	—	(960)	—	—	(960)
Current portion	(1,000)	(185)	(17,978)	—	(3,000)	(22,163)
Non-current portion	$ 10,924	$ 850,036	$ 66,153	$ 340,000	$ 295,500	$ 1,562,613

Guarantees

In connection with the creation of SACS, the Company entered into certain guarantees related to the financing, construction and operation of the prison. The Company guaranteed certain obligations of SACS under its debt agreements to SACS' senior lenders through the issuance of letters of credit for 60.0 million South African Rand. During the fiscal year ended January 1, 2012, the Company was notified by SACS' lenders that these guarantees were reduced from 60.0 million South African Rand to 34.8 million South African Rand, or $3.3 million based on exchange rates as of December 31, 2013. Additionally, SACS was required to fund a Rectification Account for the repayment of certain costs in the event of contract termination. As such, the Company had guaranteed the payment of 60% of amounts which may have been payable by SACS into the Rectification Account by providing a standby letter of credit of 8.4 million South African Rand as security for this guarantee. During the fiscal year ended December 31, 2012, SACS met its obligation for the funding of the Rectification Account and the letter of credit for 8.4 million South African Rand relative to this guarantee was not renewed. In the event SACS is unable to maintain the required funding in the Rectification Account, the guarantee for the shortfall will need to be re-instated. No amounts were drawn against these letters of credit. The remaining guarantee of 34.8 million South African Rand is included as part of the value of the Company's outstanding letters of credit under its Revolver as of December 31, 2013.

In addition to the above, the Company has also agreed to provide a loan, of up to 20.0 million South African Rand, or $1.9 million based on exchange rates as of December 31, 2013, referred to as the Shareholder's Loan, to SACS for the purpose of financing SACS' obligations under its contract with the South African government. No amounts have been funded under the Shareholder's Loan, and the Company does not currently anticipate that such funding will be required by SACS in the future. The Company's obligations under the Shareholder's Loan expire upon the earlier of full funding or SACS's release from its obligations under its debt agreements. The lenders' ability to draw on the Shareholder's Loan is limited to certain circumstances, including termination of the contract.

The Company has also guaranteed certain obligations of SACS to the security trustee for SACS' lenders. The Company secured its guarantee to the security trustee by ceding its rights to claims against SACS in respect of any loans or other finance agreements, and by pledging the Company's shares in SACS. The Company's liability under the guarantee is limited to the cession and pledge of shares. The guarantee expires upon expiration of the cession and pledge agreements.

In connection with a design, build, finance and maintenance contract for a facility in Canada, the Company guaranteed certain potential tax obligations of a trust. The potential estimated exposure of these obligations is Canadian Dollar ("CAD") $2.5 million, or $2.3 million based on exchange rates as of December 31, 2013, commencing in 2017. The Company has a liability of $2.0 million and $2.2 million related to this exposure included in Other Non-Current Liabilities as of December 31, 2013 and 2012, respectively. To secure this guarantee, the Company purchased Canadian dollar denominated securities with maturities matched to the estimated tax obligations in 2017 to 2021. The Company has recorded an asset equal to the current fair value of those securities included in Other Non-Current Assets as of December 31, 2013 and 2012, respectively, on its consolidated balance sheets. The Company does not currently operate or manage this facility.

At December 31, 2013, the Company also had eight letters of guarantee outstanding under separate international facilities relating to performance guarantees of its Australian subsidiary totaling $10.8 million.

In connection with the creation of GEOAmey, the Company and its joint venture partner guarantee the availability of working capital in equal proportion to ensure that GEOAmey can comply with current and future contractual commitments related to the performance of its operations. The Company and the 50% joint venture partner have each extended a £12 million line of credit of which £12.0 million, or $19.8 million based on exchange rates as of December 31, 2013, was outstanding as of December 31, 2013. The Company's maximum exposure relative to the joint venture is its note receivable of $19.8 million and future financial support necessary to guarantee performance under the contract.

Except as discussed above, the Company does not have any off balance sheet arrangements.

15. Benefit Plans

The Company's employees participate in an Employee Retirement Savings Plan (the "Retirement Plan") under Section 401(k) of the Internal Revenue Code that covers substantially all U.S. based salaried employees. Employees may contribute a percentage of eligible compensation to the plan, subject to certain limits under the Internal Revenue Code. For the year ended December 31, 2013 and fiscal years ended December 31, 2012 and January 1, 2012, the Company provided matching contributions of $3.4 million, $4.1 million and $3.0 million, respectively.

The Company has two non-contributory defined benefit pension plans covering certain of the Company's executives. Retirement benefits are based on years of service, employees' average compensation for the last five years prior to retirement and social security benefits. Currently, the plans are not funded. The Company purchased and is the beneficiary of life insurance policies for certain participants enrolled in the plans. There were no significant transactions between the employer or related parties and the plan during the period.

As of December 31, 2013, the Company had a non-qualified deferred compensation agreement with its Chief Executive Officer ("CEO"). In August 2012, the CEO's agreement was amended to eliminate the tax gross-up provision which was previously applicable to his lump sum retirement payment and in exchange for the elimination of the tax gross-up provision, the amount of the lump sum retirement payment which Mr. Zoley is entitled to receive has been proportionately increased so that he would receive substantially the same net benefit as he would have otherwise received had the tax gross-up remained in plane. The current agreement provides for a lump sum payment upon retirement, no sooner than age 55.

As of December 31, 2013, the CEO had reached age 55. and was eligible to receive the payment upon retirement. If the Company's CEO had retired as of December 31, 2013, the Company would have had to pay him $6.8 million. The long-term portion of the pension liability related to the defined benefit plans and the deferred compensation agreement with the CEO as of December 31, 2013 and 2012 was $19.8 million and $19.5 million, respectively, and is included in Other Non-Current liabilities in the accompanying consolidated balance sheets.

The following table summarizes key information related to the Company's pension plans and retirement agreements. The table illustrates the reconciliation of the beginning and ending balances of the benefit obligation showing the effects during the periods presented attributable to service cost, interest cost, plan amendments, termination benefits, actuarial gains and losses. The assumptions used in the Company's calculation of accrued pension costs are based on market information and the Company's historical rates for employment compensation and discount rates.

	2013	2012
Accumulated Benefit Obligation, End of Year	$ 15,439	$ 14,631
Change in Projected Benefit Obligation		
Projected Benefit Obligation, Beginning of Year	$ 19,761	$ 16,879

The amount included in other accumulated comprehensive income as of December 31, 2013 that has not yet been recognized as a component of net periodic benefit cost in fiscal year 2013 is $1.7 million. The amount included in other accumulated comprehensive income as of December 31, 2013 that is expected to be recognized as a component of net periodic benefit cost in fiscal year 2014 is $0.3 million.

The benefit payments reflected in the table below represent the Company's obligations to employees that are eligible for retirement or have already retired and are receiving deferred compensation benefits:

Fiscal Year	Pension Benefits (In thousands)
2014	$ 7,228
2015	413
2016	461
2017	490
2018	486
Thereafter	10,954
	$ 20,032

The Company also maintains the GEO Group Inc. Deferred Compensation Plan ("Deferred Compensation Plan"), a non-qualified deferred compensation plan for employees who are ineligible to participate in its qualified 401(k) plan. Eligible employees may defer a fixed percentage of their salary and the Company matches employee contributions up to a certain amount based on the employee's years of service. Payments will be made at retirement age of 65, at termination of employment or earlier depending on the employees' elections. The Company established a rabbi trust; the purpose of which is to segregate the assets of the Deferred Compensation Plan from the Company's cash balances. The funds in the rabbi trust are included in Restricted Cash and Investments in the accompanying Consolidated Balance Sheets. These funds are not available to the Company for any purpose other than to fund the Deferred Compensation Plan; however, these funds may be available to the Company's creditors in the event the Company becomes insolvent. All employee and employer contributions relative to the Deferred Compensation Plan are made directly to the rabbi trust. The Company recognized expense related to its contributions of $0.2 million, $0.4 million and $0.3 million in fiscal years 2013, 2012 and 2011 respectively. The total liability, for this plan at December 31, 2013 and 2012 was $9.8 million and $8.0 million, respectively and is included in Other Non-Current Liabilities in the accompanying Consolidated Balance Sheets. The current portion of the liability was $0.3 million and $1.1 million as of December 31, 2013 and 2012, respectively.

16. Business Segments and Geographic Information

Operating and Reporting Segments

The Company conducts its business through four reportable business segments: the U.S. Corrections & Detention segment; the International Services segment; the GEO Community Services segment; and Facility Construction & Design segment. The Company has identified these four reportable segments to reflect the current view that the Company operates four distinct business lines, each of which constitutes a material part of its overall business. The U.S. Corrections & Detention segment primarily encompasses U.S.-based privatized corrections and detention business. The International Services segment primarily consists of privatized corrections and detention operations in South Africa, Australia, United Kingdom and Canada. The Company's community-based services, youth services and BI are operating segments aggregated under the GEO Community Services reporting segment. The GEO Community Services segment, which conducts its services in the United States, represents services provided to adult offenders and juveniles for non-residential treatment, educational and community based programs, pre-release and half-way house programs, compliance technologies, monitoring services and evidence-based supervision and treatment programs for community-based parolees, probationers, and pretrial defendants. The Facility Construction & Design segment primarily contracts with various state, local and federal agencies for the design and construction of facilities for which the Company has management contracts. Generally, the assets and revenues from the Facility Construction & Design segment are offset by a similar amount of liabilities and expenses. There was no activity in the Facility Construction & Design segment during 2013, 2012 or 2011. Segment disclosures below (in thousands) reflect the results of continuing operations. All transactions between segments are eliminated.

Fiscal Year	2013	2012	2011
Revenues:			
U.S. Corrections & Detention	$ 1,011,818	$ 974,780	$ 925,098
GEO Community Services	302,094	291,891	280,080
International Services	208,162	212,391	201,994

Australia operations	4,828	5,634	
South African operations	158	234	
United Kingdom operations	1,051	1,253	
Total long-lived assets [1]	$ 1,727,798	$ 1,687,159	

[1] As of December 31, 2013 and 2012 Canada did not have any significant long-lived assets.

Sources of Revenue

The Company derives most of its revenue from the management of privatized correction and detention facilities. The Company also derives revenue from the provision of community based and youth services in the United States and monitoring and evidence-based supervision and treatment programs. All of the Company's revenue is generated from external customers.

Fiscal Year	2013	2012	2011
		(In thousands)	
Revenues:			
Corrections & Detention	$ 1,219,980	$ 1,187,171	$ 1,127,092
GEO Community Services	302,094	291,891	280,080
Total revenues	$ 1,522,074	$ 1,479,062	$ 1,407,172

Equity in Earnings of Affiliates

Equity in earnings of affiliates for 2013, 2012 and 2011 includes the operating results of the Company's joint ventures in SACS and GEOAmey. These joint ventures are accounted for under the equity method and the Company's investments in SACS and GEOAmey are presented as a component of other non-current assets in the accompanying Consolidated Balance Sheets.

The Company has recorded $5.1 million, $5.3 million and $3.9 million in earnings, net of tax impact, for SACS operations during the fiscal years ended December 31, 2013, December 31, 2012, and January 1, 2012, respectively, which are included in equity in earnings of affiliates, net of income tax provision in the accompanying Consolidated Statements of Operations. As of December 31, 2013 and 2012, the Company's investment in SACS was $8.1 million and $7.8 million, respectively. The investment is included in other non-current assets in the accompanying Consolidated Balance Sheets.

The Company has recorded $1.1 million, $(1.7) million and $(2.4) million in earnings (losses), net of tax impact, for GEOAmey's operations during the years ended December 31, 2013, December 31, 2012, and January 1, 2012, respectively, which are included in equity in earnings of affiliates, net of income tax provision, in the accompanying Consolidated Statements of Operations. As of December 31, 2013 and 2012, the Company's investment in GEOAmey was $(3.0) million and $(4.1) million, respectively, and represents its share of cumulative reported losses. Losses in excess of the Company's investment have been recognized as the Company has provided certain loans and guarantees to provide financial support to GEOAmey (Refer to Note 14-Debt and Note 1 - Summary of Business Organization, Operations and Significant Account Policies - ***Note Receivable from Joint Venture***.

Business Concentration

Except for the major customer noted in the following table, no other single customer made up greater than 10% of the Company's consolidated revenues for the following fiscal years.

Customer	2013	2012	2011
Various agencies of the U.S Federal Government:	45%	47%	40%

Credit risk related to accounts receivable is reflective of the related revenues.

17. Income Taxes

The United States and foreign components of income before income taxes, equity in earnings in affiliates, and discontinued operations are as follows:

	2013	2012	2011
		(In thousands)	
Income before income taxes, equity in earnings in affiliates, and discontinued operations			
United States	$ 71,667	$ 91,048	$ 96,670
Foreign	13,480	9,370	14,583
	85,147	100,418	111,253
Discontinued operations:			
Income (loss) from operation of discontinued business	(2,265)	(18,465)	12,572
Total	$ 82,882	$ 81,953	$ 123,825

The provision (benefit) for income taxes consists of the following components:

	2013	2012	2011
		(In thousands)	
Continuing Operations:			
Federal income taxes:			
Current	$ (26,841)	$ 36,631	$ (4,198)
Deferred	(4,449)	(78,275)	36,716
	(31,290)	(41,644)	32,518
State income taxes:			
Current	2,294	5,020	2,099
Deferred	(1,221)	(8,770)	4,732
	1,073	(3,750)	6,831
Foreign income taxes:			
Current	4,445	5,497	4,211
Deferred	(278)	(665)	(388)
	4,167	4,832	3,823
Total U.S. and foreign	(26,050)	(40,562)	43,172
Discontinued operations:			
Tax (benefit) provision allocated to discontinued operations	—	(7,805)	4,753
Total	$ (26,050)	$ (48,367)	$ 47,925

A reconciliation of the statutory U.S. federal tax rate of 35.00% and the effective income tax rate is as follows:

	2013	2012	2011
		(In thousands)	
Continuing operations:			
Provisions using statutory federal income tax rate	$ 29,801	$ 35,147	$ 38,939
State income taxes, net of federal tax benefit	1,104	4,291	4,480
REIT Benefit	(34,454)	—	—
Impact of REIT election	(14,946)	(79,033)	—
Change in contingent tax liabilities	(5,701)	—	(337)
Impact of nondeductible transaction costs	—	—	65
Reenactment of Federal Tax Credits	(1,084)	—	—
Other, net	(770)	(967)	25
Total continuing operations	(26,050)	(40,562)	43,172
Discontinued operations:			
Tax benefit from operations of discontinued business	—	(7,805)	4,753
Provision for income taxes	$ (26,050)	$ (48,367)	$ 47,925

The Company's effective tax rate, beginning in 2013, differs from the U.S. statutory rate of 35.00% primarily due to a zero tax rate on earnings generated by The Company's REIT operations. In 2013 and 2012, The company had a tax benefit related to the REIT conversion of $14.9 million and $79.0 million respectively, which was primarily related to the revaluation of certain deferred tax assets and liabilities upon conversion to the effective tax rate of the REIT at a zero tax rate. In addition, the Company had a tax benefit in 2013 of $5.7 million primarily related to settlements of uncertain tax positions with the IRS for the tax year 2010 and 2011.

The following table presents the breakdown between current and non-current net deferred tax assets as of December 31, 2013 and 2012:

	2013	2012
	(In thousands)	
Deferred tax assets - current	$ 20,936	$ 18,290
Deferred tax liabilities - current	—	—
Deferred tax assets - non current	4,821	2,532
Deferred tax liabilities - non current	(14,689)	(15,703)
Total net deferred tax assets	$ 11,068	$ 5,119

The significant components of the Company's deferred tax assets and liabilities consisted of the following as of December 31, 2013 and 2012:

	2013	2012
Deferred tax assets:	(In thousands)	
Net operating losses	$ 22,461	$ 23,062
Accrued liabilities	18,879	13,060
Deferred compensation	8,604	7,666
Accrued compensation	5,736	6,433
Deferred revenue	5,523	—
Deferred rent	5,264	4,864
Tax credits	4,326	8,380
Equity awards	3,822	1,816
Other, net	309	8,060
Valuation allowance	(12,704)	(13,506)
Total deferred tax assets	$ 62,220	$ 59,835
Deferred tax liabilities:		
Intangible assets	$ (43,699)	$ (45,955)
Depreciation	(7,453)	(8,761)
Total deferred tax liabilities	$ (51,152)	$ (54,716)
Total net deferred tax assets	$ 11,068	$ 5,119

Deferred income taxes should be reduced by a valuation allowance if it is not more likely than not that some portion or all of the deferred tax assets will be realized. On a periodic basis, management evaluates and determines the amount of the valuation allowance required and adjusts such valuation allowance accordingly. At year end 2013 and 2012, the Company has a valuation allowance of $12.7 million and $13.5 million, respectively related to deferred tax assets for foreign net operating losses, state net operating losses and state tax credits. The valuation allowance decreased by $0.8 million during the fiscal year ended December 31, 2013.

The Company provides income taxes on the undistributed earnings of non-U.S. subsidiaries except to the extent that such earnings are indefinitely invested outside the United States. At December 31, 2013, $12.7 million of accumulated undistributed earnings of non-U.S. subsidiaries were indefinitely invested. At the existing U.S. federal income and applicable foreign withholding tax rates, additional taxes (net of foreign tax credits) of $0.6 million would have to be provided if such earnings were remitted currently.

As of the fiscal year ended December 31, 2013, the Company had $26.9 million of Federal net operating loss carryforwards which begin to expire in 2023 and $118.4 million of combined net operating loss carryforwards in various states

which began to expire in 2013. The Company has recorded a partial valuation allowance against the deferred tax assets related to the state operating losses.

Also as of the fiscal year ended December 31, 2013, the Company had $17.0 million of foreign operating losses which carry forward indefinitely and $2.7 million of state tax credits which began to expire in 2013. The Company has recorded a full and partial valuation allowance against the deferred tax assets related to the foreign operating losses and state tax credits, respectively.

The Company recognizes the cost of employee services received in exchange for awards of equity instruments based upon the grant date fair value of those awards. The exercise of non-qualified stock options and vesting of restricted stock awards which have been granted under the Company's equity award plans give rise to compensation income which is includable in the taxable income of the applicable employees and deducted by the Company for federal and state income tax purposes. Such compensation income results from increases in the fair market value of the Company's common stock subsequent to the date of grant. At fiscal year end 2013, the deferred tax asset net of a valuation allowance related to unexercised stock options and restricted stock grants for which the Company has recorded a book expense was $3.8 million.

The Company recognizes the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority.

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows:

	2013	2012	2011
		(In thousands)	
Balance at Beginning of Period	$ 18,499	$ 6,528	$ 9,062
Additions based on tax positions related to the current year	—	2,437	13
Additions for tax positions of prior years	1,543	13,356	43
Additions from current year acquisitions	—	—	3,848
Reductions for tax positions of prior years	—	—	(3,237)
Reductions as a result of a lapse of applicable statutes of limitations	(1,298)	(592)	(845)
Settlements	(15,978)	(3,230)	(2,356)
Balance at End of Period	$ 2,766	$ 18,499	$ 6,528

All amounts in the reconciliation are reported on a gross basis and do not reflect a federal tax benefit on state income taxes. The Company has accrued $2.5 million of accrued uncertain tax benefits as of December 31, 2013 which is inclusive of the federal tax benefit on state income taxes. The Company anticipates a decrease in the unrecognized tax benefits within 12 months of the reporting date of approximately $0.7 million due to lapse of statute of limitation. Settlements reported in the reconciliation for 2011 include amounts related to federal audit adjustments for the years 2002 through 2005, for which a settlement was finalized in 2011. Settlements reported in the reconciliation for 2012 and 2013 include amounts related to federal audit adjustments for the years 2010 and 2011 under the IRS CAP Program. The accrued uncertain tax balance at December 31, 2013 includes $2.5 million of unrecognized tax benefits which, if ultimately recognized, will reduce the Company's annual effective tax rate.

The Company is subject to income taxes in the U.S. federal jurisdiction, and various states and foreign jurisdictions. Tax regulations within each jurisdiction are subject to the interpretation of the related tax laws and regulations and require significant judgment to apply. With few exceptions, the Company is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for the years before 2010. The Company participated in the voluntary IRS real-time tax audit Compliance Assurance Process ("CAP") for the 2011 and 2012 tax year. The 2009 and 2010 years were under audit as transition years as provided under the IRS CAP program. The federal income tax audits for 2009 through 2012 were concluded in 2013.

The calculation of the Company's provision (benefit) for income taxes requires the use of significant judgment and involves dealing with uncertainties in the application of complex tax laws and regulations. In determining the adequacy of the Company's provision (benefit) for income taxes, potential settlement outcomes resulting from income tax examinations are regularly assessed. As such, the final outcome of tax examinations, including the total amount payable or the timing of any such payments upon resolution of these issues, cannot be estimated with certainty.

During the fiscal years ended December 31, 2013, December 31, 2012 and January 1, 2012, the Company recognized $0.7 million, $0.0 million and $0.0 million in interest and penalties, respectively. The Company had accrued $0.4 million for the payment of interest and penalties at December 31, 2012. Accrued interest and penalties was not significant at December 31, 2013. The Company classifies interest and penalties as interest expense and other expense, respectively.

18. Commitments and Contingencies

Operating Leases

The Company leases correctional facilities, office space, computers and transportation equipment under non-cancelable operating leases expiring between 2014 and 2075. The future minimum commitments under these leases are as follows:

Fiscal Year	Annual Rental (In thousands)
2014	$ 38,028
2015	32,834
2016	26,038
2017	17,604
2018	15,267
Thereafter	23,888
	$ 153,659

The Company leases its corporate offices, which are located in Boca Raton, Florida, under a lease agreement which was amended in April 2013. The current lease expires in March 2020 and has two 5-year renewal options, which if exercised will result in a maximum term ending in March 2030. In addition, the Company leases office space for its regional offices in Charlotte, North Carolina; San Antonio, Texas; and Los Angeles, California. The Company is also currently leasing office space in Pittsburgh, Pennsylvania, Philadelphia, Pennsylvania and Boulder, Colorado. The Company also leases office space in Sydney, Australia, Sandton, South Africa, and Berkshire, England through its overseas affiliates to support its Australian, South African, and UK operations, respectively. The Company also leases 37 ISAP service centers and 68 nonresidential re-entry centers related to BI. These rental commitments are included in the table above. Certain of these leases contain leasehold improvement incentives, rent holidays, and scheduled rent increases which are included in the Company's rent expense recognized on a straight-line basis. Minimum rent expense associated with the Company's leases having initial or remaining non-cancelable lease terms in excess of one year was $35.9 million, $34.4 million and $35.9 million for fiscal years 2013, 2012 and 2011, respectively.

Facility Purchase

On May 7, 2013, the Company executed a definitive agreement for the purchase of the land, buildings and improvements, and tangible personal property and fixtures of the 1,287 bed Joe Corley Detention Center (the "Center") located in Montgomery County, Texas for a purchase price of approximately $65.0 million. The Center was previously managed by the Company under a managed-only contract with Montgomery County and will continue to house federal detainees for U.S. Immigration and Customs Enforcement and the U.S. Marshals Service under an Intergovernmental Services Agreement. The transaction closed on June 7, 2013.

Collective Bargaining Agreements

The Company had approximately 26% of its workforce covered by collective bargaining agreements at December 31, 2013. Collective bargaining agreements with 14% of employees are set to expire in less than one year.

Employment Agreement

On April 29, 2013, GEO and Mr. George C. Zoley, the Company's Chief Executive Officer, entered into the First Amendment to Third Amended and Restated Executive Employment Agreement (the "First Amendment"). The First Amendment modifies Mr. Zoley's employment agreement by eliminating the automatic cost of living increase applicable to his annual base salary and instead provides that his annual base salary may be increased in the sole discretion of the Board of Directors for cost of living increases to be determined by the Board of Directors. Additionally, the First Amendment modifies the termination payment Mr. Zoley would receive in the event of a termination of employment other than a termination by GEO for cause (as defined in the Third Amended and Restated Executive Employment Agreement) or a termination by Mr. Zoley without good reason (as defined in the Third Amended and Restated Executive Employment Agreement) from three times the amount of Mr. Zoley's base salary plus annual bonus to two times the amount of Mr. Zoley's base salary plus annual bonus.

On May 29, 2013, the Company and the Chief Executive Officer entered into the Second Amendment to Third Amended and Restated Executive Employment Agreement (the "Second Amendment"). The Second Amendment modifies the Chief Executive Officer's employment agreement by decreasing the maximum target annual performance award he may receive from 150% of his annual base salary to 100% of his annual base salary.

Contract Awards and Terminations

On September 9, 2013, GEO announced that it has entered into a five year contract inclusive of renewal options, with U.S. Immigration and Customs Enforcement ("ICE") for the housing of immigration detainees in a new 400-bed Transfer Center to be located at England Airpark in Alexandria, Louisiana (the "Center"). GEO will finance, develop and manage the company-owned Center, which is expected to be completed during the fourth quarter of 2014.

On September 23, 2013, GEO announced that it had signed five year contracts with the California Department of Corrections and Rehabilitation for the housing of 1,400 California inmates at the company-owned 700-bed Central Valley Modified Community Correctional Facility and the Company-owned 700-bed Desert View Modified Community Correctional Facility located in McFarland, California and Adelanto, California, respectively. GEO began the intake of inmates at both facilities in the fourth quarter of 2013. These facilities were previously included in the Company's idle facility inventory.

On October 21, 2013, GEO announced that it had signed a new contract, effective from November 1, 2013 through June 30, 2018, with the California Department of Corrections and Rehabilitation for the housing of up to 700 California inmates at the company-owned Golden State Modified Community Correctional Facility located in McFarland, California. The new agreement, which will replace GEO's existing contract at the facility that was previously effective through June 30, 2016, will expand the Facility's contract capacity by 100-beds.

The contract for the housing of Alaskan inmates at the Hudson Correctional Facility located in Hudson, Colorado was terminated during the third quarter of 2013. The termination of this contract did not have a material impact on the Company's financial position, results of operations and/or cash flows.

On November 1, 2013, GEO terminated the contract for the management of the county-owned 688-bed Maverick County Detention Center located in Maverick, Texas. The termination of this managed-only contract did not have a material impact on the Company's financial position, results of operations and/or cash flows.

Refer to Note 20 - Subsequent Events for additional contract awards occurring in February 2014.

Idle Facilities

The Company is currently marketing approximately 6,000 vacant beds at six of its idle facilities to potential customers. The carrying values of these idle facilities totaled $193.6 million as of December 31, 2013, excluding equipment and other assets that can be easily transferred for use at other facilities.

Commitments

The Company is currently developing a number of projects using existing Company financing facilities. The Company's management estimates that these existing capital projects will cost approximately $68.9 million, of which $19.8 million was spent through the end of 2013. The Company estimates the remaining capital requirements related to these capital projects to be approximately $49.1 million, which will be spent through fiscal years 2014 and 2015. In addition to these current estimated capital requirements for 2014 and 2015, the Company is currently in the process of bidding on, or evaluating potential bids for the design, construction and management of a number of new projects. In the event that the Company wins bids for these projects and decides to self-finance their construction, its capital requirements in 2014 and/or 2015 could materially increase.

Litigation, Claims and Assessments

The nature of the Company's business exposes it to various types of third-party legal claims or litigation against the Company, including, but not limited to, civil rights claims relating to conditions of confinement and/or mistreatment, sexual misconduct claims brought by prisoners or detainees, medical malpractice claims, product liability claims, intellectual property infringement claims, claims relating to employment matters (including, but not limited to, employment discrimination claims, union grievances and wage and hour claims), property loss claims, environmental claims, automobile liability claims, indemnification claims by its customers and other third parties, contractual claims and claims for personal injury or other damages resulting from contact with the Company's facilities, programs, electronic monitoring products, personnel or prisoners, including damages arising from a prisoner's escape or from a disturbance or riot at a facility. The Company does not expect the outcome of any pending claims or legal proceedings to have a material adverse effect on its financial condition, results of operations or cash flows.

19. Selected Quarterly Financial Data (Unaudited)

The Company's selected quarterly financial data is as follows (in thousands, except per share data attributable to GEO):

2013	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
Revenues	$ 377,031	$ 381,653	$ 379,842	$ 383,548
Operating income	41,259	51,387	44,829	48,009

Net income per share	$ 0.25	$ 0.37	$ 0.25	$ 1.32

Note that earnings per share tables contain slight summation differences due to rounding.

[1] In the Fourth Quarter of 2012, the Company completed a corporate restructuring in order to operate as a REIT effective January 1, 2013. In connection with the REIT conversion, the Company divested one of its operating segments, RTS, and recorded a loss of $14.6 million, net of tax. Refer to Note 2 - Discontinued Operations for additional information. Also, as a result of the REIT restructuring, the Company recorded an income tax benefit of approximately $79.0 million related to the reversal of certain net deferred tax liabilities. Refer to Note 17 - Income Taxes for additional information.

20. Subsequent Events

Asset Acquisition

On February 25, 2014, Protocol Criminal Justice, Inc., a subsidiary of the Company's BI subsidiary entered into an Asset Purchase Agreement (the "Agreement") with an unrelated entity, APAC Customer Services, Inc., to acquire certain tangible and intangible assets for a purchase price of $13.0 million and returns consistent with GEO's targeted returns on invested capital. These assets will be used to provide community corrections services to departments of correction and community services providers which include, supervision management, case management, document management, electronic monitoring, fee collection and reporting and analysis and warrant processing. The acquisition is not expected to have a material impact on the Company's financial condition or results of operations.

Options and Restricted Stock Awards

On February 20, 2014, the Compensation Committee of the Board of Directors resolved to grant approximately 240,000 options and 306,000 shares of restricted stock to certain employees of the Company to be effective March 1, 2014.

Dividend

On February 18, 2014, the Board of Directors declared a quarterly cash dividend of $0.57 per share of common stock, which is to be paid on March 14, 2014 to shareholders of record as of the close of business on March 3, 2014.

Contract Awards

On February 3, 2014, the Company announced that it had assumed management of the 985-bed Moore Haven Correctional Facility, the 985-bed Bay Correctional Facility and the 1,884- bed Graceville Correctional Facility under contracts with the Florida Department of Management Services effective February 1, 2014. The managed-only agreements have contract terms of three years, with successive two-year renewal option periods. Also on February 3, 2014, the Company announced that it had increased the contracted capacity at the Company-owned Rio Grande Detention Center in Laredo, Texas from 1,500 beds to 1,900 beds under a contract with the U.S. Marshals Service.

21. Condensed Consolidating Financial Information

As discussed in Note 14 - Debt, during 2013 the Company completed two private placement offerings as follows: (i) on March 19, 2013, the Company completed an offering of $300.0 million aggregate principal amount of 5.125% senior notes due 2023, and (ii) on October 3, 2013, the Company completed an offering of $250.0 million aggregate principal amount of 5 7/8% senior notes due 2022. The 5.125% Senior Notes due 2023, the 5 7/8% Senior Notes due 2022, and the Company's previously existing 6.625% Senior Notes due 2021 are collectively referred to as the "Notes". The Notes are fully and unconditionally guaranteed on a joint and several senior unsecured basis by the Company and certain of its wholly-owned domestic subsidiaries (the "Subsidiary Guarantors").

On February 10, 2011, the 6.625% Senior Notes were sold to qualified institutional buyers in accordance with Rule 144A under the Securities Act of 1933, as amended (the "Securities Act"), and outside the United States only to non-U.S. persons in accordance with Regulation S promulgated under the Securities Act. In connection with the sale of the 6.625% Senior Notes, the Company entered into a Registration Rights Agreement with the initial purchasers of the 6.625% Senior Notes party thereto, pursuant to which the Company and its Subsidiary Guarantors (as defined below) agreed to file a registration statement with respect to an offer to exchange the 6.625% Senior Notes for a new issue of substantially identical notes registered under the Securities Act. The Company filed a registration statement with respect to this offer to exchange the 6.625% Senior Notes which became effective on July 22, 2011. The Company launched the exchange offer on July 25, 2011 and the exchange offer expired August 22, 2011.

On March 13, 2013, the 5.125% Senior Notes were sold to qualified institutional buyers in accordance with Rule 144A under the Securities Act, and outside the United States only to non-U.S. persons in accordance with Regulation S promulgated under the Securities Act. In connection with the sale of the 5.125% Senior Notes, the Company entered into a Registration Rights Agreement with the initial purchasers of the 5.125% Senior Notes party thereto, pursuant to which the Company and its Subsidiary Guarantors (as defined below) agreed to file a registration statement with respect to an offer to exchange the 5.125% Senior Notes for a new issue of substantially identical notes registered under the Securities Act. The Company filed a registration statement with respect to this offer to exchange the 5.125% Senior Notes which became effective on September 12, 2013. GEO launched the exchange offer on September 13, 2013 and the exchange offer expired on October 11, 2013.

On October 3, 2013, the 5 7/8% Senior Notes were sold to qualified institutional buyers in accordance with Rule 144A under the Securities Act, and outside the United States only to non-U.S. persons in accordance with Regulation S promulgated under the Securities Act. In connection with the sale of the 5 7/8% Senior Notes, the Company entered into a Registration Rights Agreement with the initial purchasers of the 5 7/8% Senior Notes party thereto, pursuant to which the Company and its Subsidiary Guarantors (as defined below) agreed to file a registration statement with respect to an offer to exchange the 5 7/8% Senior Notes for a new issue of substantially identical notes registered under the Securities Act. The Company filed a registration statement with respect to this offer to exchange the 5 7/8% Senior Notes which became effective on January 6, 2014. GEO launched the exchange offer on January 6, 2014 and the exchange offer expired on February 4, 2014.

As a result of the REIT conversion, effective January 1, 2013, GEO reorganized its operations and moved non-real estate components into taxable REIT subsidiaries. Refer to Note 1 - Summary of Business Organization, Operations and Significant Accounting Policies. In addition, the 2013 presentation includes REIT/TRS activity between Parent and Guarantors which was not present during 2012 or 2011. As a result of the restructuring, certain balances reflected in the 2013 condensed consolidating financial information may not be comparable to the 2012 and 2011 condensed consolidating financial information.

The following condensed consolidating financial information, which has been prepared in accordance with the requirements for presentation of Rule 3-10(d) of Regulation S-X promulgated under the Securities Act, presents the condensed consolidating financial information separately for:

(i) The GEO Group, Inc., as the issuer of the Notes;

(ii) The Subsidiary Guarantors, on a combined basis, which are 100% owned by The Geo Group, Inc., and which are guarantors of the Notes;

(iii) The Company's other subsidiaries, on a combined basis, which are not guarantors of the Notes (the "Subsidiary Non-Guarantors");

(iv) Consolidating entries and eliminations representing adjustments to: (a) eliminate intercompany transactions between or among the Company, the Subsidiary Guarantors and the Subsidiary Non-Guarantors and (b) eliminate the investments in the Company's subsidiaries; and

(v) The Company and its subsidiaries on a consolidated basis.

Item 9. ***Changes in and Disagreements with Accountants on Accounting and Financial Disclosure***

None.

Item 9A. ***Controls and Procedures***

Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, referred to as the Exchange Act), as of the end of the period covered by this report. On the basis of this review, our management, including our Chief Executive Officer and our Chief Financial Officer, has concluded that as of the end of the period covered by this report, our disclosure controls and procedures were effective to give reasonable assurance that the information required to be disclosed in our reports filed with the Securities and Exchange Commission, or the SEC, under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and to ensure that the information required to be disclosed in the reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, in a manner that allows timely decisions regarding required disclosure.

It should be noted that the effectiveness of our system of disclosure controls and procedures is subject to certain limitations inherent in any system of disclosure controls and procedures, including the exercise of judgment in designing, implementing and evaluating the controls and procedures, the assumptions used in identifying the likelihood of future events, and the inability to eliminate misconduct completely. Accordingly, there can be no assurance that our disclosure controls and procedures will detect all errors or fraud. As a result, by its nature, our system of disclosure controls and procedures can provide only reasonable assurance regarding management's control objectives.

Internal Control Over Financial Reporting

(a) Management's Annual Report on Internal Control Over Financial Reporting

See "Item 8. — Financial Statements and Supplementary Data — Management's Annual Report on Internal Control over Financial Reporting" for management's report on the effectiveness of our internal control over financial reporting as of December 31, 2013.

(b) Attestation Report of the Registered Public Accounting Firm

See "Item 8. — Financial Statements and Supplementary Data — Report of Independent Registered Public Accounting Firm" for the report of our independent registered public accounting firm on the effectiveness of our internal control over financial reporting as of December 31, 2013.

(c) Changes in Internal Control over Financial Reporting

Our management is responsible for reporting any changes in our internal control over financial reporting (as such terms are defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the period to which this report relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Management believes that there have not been any changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the period to which this report relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. ***Other Information***

Not applicable.

PART III

ITEM 10. Directors, Executive Officers and Corporate Governance

We have adopted a code of business conduct and ethics applicable to all of our directors, officers, employees, agents and representatives, including our consultants. The code strives to deter wrongdoing and promote honest and ethical conduct, the avoidance of conflicts of interest, full, fair, accurate, timely and transparent disclosure, compliance with the applicable government and self-regulatory organization laws, rules and regulations, prompt internal reporting of violations of the code, and accountability for compliance with the code. In addition, we have adopted a code of ethics for the CEO, our senior financial officers and all other employees. The codes can be found on our website at http://www.geogroup.com by clicking on the link "About Us" on our homepage and then clicking on the link "Corporate Governance." In addition, the codes are available in print to any shareholder who request them by contacting our Vice President of Corporate Relations at 561-999-7306. In the event that we amend or waive any of the provisions of the code of business conduct and ethics and the code of ethics for the CEO, our senior financial officers and employees that relate to any element of the code of ethics definition enumerated in Item 406(b) of Regulation S-K, we intend to disclose the same on our Investor Relations website. The other information required by this item will be contained in, and is incorporated by reference from, the proxy statement for our 2014 annual meeting of shareholders, which will be filed with the SEC pursuant to Regulation 14A within 120 days after the end of the fiscal year covered by this report.

ITEM 11. Executive Compensation

The information required by this item will be contained in, and is incorporated by reference from, the proxy statement for our 2014 annual meeting of shareholders, which will be filed with the SEC pursuant to Regulation 14A within 120 days after the end of the fiscal year covered by this report.

ITEM 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The information required by this item will be contained in, and is incorporated by reference from, the proxy statement for our 2014 annual meeting of shareholders, which will be filed with the SEC pursuant to Regulation 14A within 120 days after the end of the fiscal year covered by this report.

ITEM 13. Certain Relationships and Related Transactions, and Director Independence

The information required by this item will be contained in, and is incorporated by reference from, the proxy statement for our 2014 annual meeting of shareholders, which will be filed with the SEC pursuant to Regulation 14A within 120 days after the end of the fiscal year covered by this report.

ITEM 14. Principal Accounting Fees and Services

The information required by this item will be contained in, and is incorporated by reference from, the proxy statement for our 2014 annual meeting of shareholders, which will be filed with the SEC pursuant to Regulation 14A within 120 days after the end of the fiscal year covered by this report.

PART IV

Item 15. *Exhibits and Financial Statement Schedules*

(a)(1) *Financial Statements.*

Depreciation related to the real estate investments reflected in the consolidated statements of comprehensive income is calculated over the estimated useful lives of the assets as follows:

Land improvements	The shorter of 7 years or the term of the lease/contract
Buildings	Generally 50 years or a shorter period if management determines that the building has a shorter useful life
Building improvements	7 or 15 years
Leasehold improvements	The shorter of 15 years or the term of the lease/contract

The aggregate remaining net basis of the real estate investments for federal income tax purposes was approximately $1.4 billion at December 31, 2013. Depreciation and amortization are provided on the declining balance and straight-line methods, respectively, over the estimated useful lives of the assets. This amount excludes international real estate investments.

(1) This schedule presents the real estate property of the Company and does not include facilities with no real estate assets.
(2) The negative balance for costs capitalized subsequent to acquisition include losses recorded subsequent to the initial costs.
(3) Land on which the facility is situated is subject to one or more ground leases.

THE GEO GROUP, INC.
REAL ESTATE AND ACCUMULATED DEPRECIATION
For the Fiscal Years Ended December 31, 2013, December 31, 2012, and January 1, 2012

Notice of Annual Meeting
The Annual Shareholder Meeting for The GEO Group, Inc. will be held at The Boca Raton Resort & Club, 501 East Camino Real, Boca Raton, Florida 33432 at 9:00 a.m. on May 2, 2014.

Officer Certification
The certifications of The GEO Group, Inc.'s Chief Executive Officer and Chief Financial Officer, required under section 302 of the Sarbanes-Oxley Act of 2002, have been filed as exhibits to The GEO Group, Inc.'s Annual Report on Form 10-K. In 2013, The GEO Group, Inc.'s Chief Executive Officer submitted the annual certification to the New York Stock Exchange regarding The GEO Group, Inc.'s compliance with the New York Stock Exchange corporate governance listing standards.

Forward-Looking Statements — Safe Harbor
This Annual Report on Form 10-K and the documents incorporated by reference herein contain "forward-looking" statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. "Forward-looking" statements are any statements that are not based on historical information. Statements other than statements of historical facts included in this report, including, without limitation, statements regarding our future financial position, business strategy, budgets, projected costs and plans and objectives of management for future operations, are "forward-looking" statements. Forward-looking statements generally can be identified by the use of forward-looking terminology such as "may," "will," "expect," "anticipate," "intend," "plan," "believe," "seek," "estimate" or "continue" or the negative of such words or variations of such words and similar expressions. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions, which are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements and we can give no assurance that such forward-looking statements will prove to be correct. Important factors that could cause actual results to differ materially from those expressed or implied by the forward-looking statements, or "cautionary statements," include, but are not limited to: our ability to timely build and/or open facilities as planned, profitably manage such facilities and successfully integrate such facilities into our operations without substantial additional costs; our ability to remain qualified for taxation as a REIT; our ability to fulfill our debt service obligations and its impact on our liquidity; the instability of foreign exchange rates, exposing us to currency risks in Australia, the United Kingdom, and South Africa, or other countries in which we may choose to conduct our business; our ability to activate the inactive beds at our idle facilities; our ability to maintain occupancy rates at our facilities; an increase in unreimbursed labor rates; our ability to expand, diversify and grow our correctional, detention, mental health, residential treatment, re-entry, community-based services, youth services, monitoring services, evidence-based supervision and treatment programs and secure transportation services businesses; our ability to win management contracts for which we have submitted proposals, retain existing management contracts and meet any performance standards required by such management contracts; our ability to control operating costs associated with contract start-ups; our ability to raise new project development capital given the often short-term nature of the customers' commitment to use newly developed facilities; our ability to estimate the government's level of dependency on privatized correctional services; our ability to accurately project the size and growth of the U.S. and international privatized corrections industry; our ability to successfully respond to delays encountered by states privatizing correctional services and cost savings initiatives implemented by a number of states; our ability to develop long-term earnings visibility; our ability to identify suitable acquisitions and to successfully complete and integrate such acquisitions on satisfactory terms, and estimate the synergies to be achieved as a result of such acquisitions; our exposure to the impairment of goodwill and other intangible assets as a result of our acquisitions; our ability to successfully conduct our operations through joint ventures; our ability to obtain future financing on satisfactory terms or at all, including our ability to secure the funding we need to complete ongoing capital projects; our exposure to political and economic instability and other risks impacting our international operations; our exposure to risks impacting our information systems, including those that may cause an interruption, delay or failure in the provision of our services; our exposure to rising general insurance costs; our exposure to state and federal income tax law changes internationally and domestically and our exposure as a result of federal and international examinations of our tax returns or tax positions; our exposure to claims for which we are uninsured; our exposure to rising employee and inmate medical costs; our ability to manage costs and expenses relating to ongoing litigation arising from our operations; our ability to accurately estimate on an annual basis, loss reserves related to general liability, workers' compensation and automobile liability claims; the ability of our government customers to secure budgetary appropriations to fund their payment obligations to us and to continue to operate under our existing agreements and/or renew our existing agreements; our ability to pay quarterly dividends consistent with our expectations; our ability to comply with government regulations and applicable contractual requirements; our ability to acquire, protect or maintain our intellectual property; and other factors contained in our filings with the Securities and Exchange Commission, or the SEC, including, but not limited to, those detailed in this Annual Report on Form 10-K, our Quarterly Reports on Form 10-Q and our Current Reports on Form 8-K filed with the SEC.

We undertake no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise. All subsequent written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements included in this report.
